Applications Open For Dorm Managers

With a "Mrs. Engineering Week" to reign during the celebration, students of the Engineering Division for the second straight year are observing National Engineers Week Feb. 22-28. Highlight of the week will be an assembly to which the student body and faculty are invited Thursday evening, Lt. Col. David F. McDowell will be the principal speaker. Colonel McDowell is Deputy Director of Engineering at Van Nuys Air Force Base. He will present the program for security purposes and in aid of a general question and answer period following the lecture. The lecture will be at 8 p.m. in the A.C. and start at 8:15 p.m.

The Engineering students select a theme each year. The theme for this year is "American Industry, An Investment in the Future." This theme is significant because of the important role that industry and engineers play in the economic and social development of the nation. The theme for this year is "A New Direction," which is significant because it reflects the importance of engineers in shaping the future of the nation.

The week-long celebration will include a variety of activities, including lectures, discussions, and events related to the work of engineers. The theme of the week is "A New Direction," which is significant because it reflects the importance of engineers in shaping the future of the nation.

Greatest Team In The History Of Poly Says Coach; Records Fall

Grapplers Wrestle
Bruins Today; Split
Indian, SJS Meets

Making their last home appearance, Mustang matmen were scheduled to meet UCLA in Crandall gym at 8 p.m. The Bruins would be lead by heavywieght Alex Fine and 160-pounder John Hoag. Cal Poly's win streak was halted when 195-pounder John San Jose State Spartans topped the trio to move into third place. Kaye's team had wrestled 61 dual meets before being subsided.

After Captian Harold Simonick defeated the 160-pounder and 185-pounder Tom Hall pinned the Indians' #4 seed Paul, the Mustangs gave Poly a 180-pound loss.

Hempel did a terrific move from behind Jim of tying San Jose State's bow but lost 13-11 when the referee was called in another close one, 8-7.

Poly then moved on to win by pinning 185-pounder D. W. Winger and the Indians' #2-seed, Poly's last score came when Kaye, McNeil, and Lovell defeated Westmont's #3 in a 6-3 win.(

The Mustangs returned to the win column the next day by dispatching the Cal Poly Golden Bears 8-1. Five of the eight bouts were won by pins.

Hall turned in his usual home-coming performance to nail the fastest pin of the dual. Other Poly victories were secured when Kaye, McNeil, and Lovell defeated Westmont's #3 in a 6-3 win.

The Cal Poly victory at San Bernardino was won against the Ralph Brear and a fall over Winger. One of the key moments of the dual for Poly was when sophomore Mark Lewin walked out with a 180-pound win in a 10-8 dual victory.

Rained Out

Mister weather handed Mustang diamonds another setback when the game between Cal Poly and the Owls was rained out last Saturday. Coach Bill Hicks was pleased with their win and home court advantage but was more concerned about missing the practice.

If the Poly field is dry today the horses will be faced with another game against Cal Poly. The Owls did not list their opponents but were expected to be Danville, Hopping, and Moorpark.

Westmont Tonight

Cagers Thump

Gauchos, 75-59

After chalking up two more wins last weekend, Mustang men return to Santa Barbara to fight on the Westmont campus for the 8-0 victory over the Warriors.

Although the Green and Gold hoopsters have shown great improvement in boosting their #3 on win-loss record to 15-7, they may find things rough in the Blue Onion city. Westmont almost dropped the Mustangs in their first meeting and trailed by only two points with less than a minute left in the game. Then since they added two late players, one 5'8" and the other 6'2", to their roster.

Last week Poly showed plenty of polish in dropping Cal Poly State, 75-68, and the Santa Barbara Gaucho, 75-69.

In Friday night's game forward Jon Renner average the Mustangs with nine points in the first 10 minutes of the game when the game time was 2-13 point lead.

Five minutes later Poly increased the hogs to 15-18 and Coach Ed Jerrysee sank in the reserves. At the interval the Mustangs had added only one point with the Gaucho, inside eight to make a 39-48 half time score.

With the starting five taking over again in the second half Poly scored 50 points in the second half and 60 points for the final win over the Gaucho, 110-90, and sank into a new school and pool record was written. Of course, night Wright, Jack Adams, and Jim Olson added greatly in the overall effort.

Larry Cole, Brooks, John Phillips, and Wright established new school and pool records in the 110-pound quality today with a time of 1:36 and 15 pounds, respectively, and second convincingly to cap their effort.

Tonight the frosh meet Santa Maria high school in Poly's poll at 8 p.m.

Check this new collar style—the ARROW Glen

Here's a broadcloth shirt with features that please the college man in every way. The collar (button-down, of course), is a shorter, latest-looking model. The fine broadcloth coolS you throughout the warm days ahead.

There are trim checks in many color combinations, solids and whites, of course.

The Department of Journalism and Advertising will hold its annual Open House this Thursday evening, starting at 7:30 p.m. in the Journalism Building. The event is open to all Cal Poly students and is beneficial to both the paper and the student-applicant to have a journalistic background.

The editor is responsible for naming his immediate editorial assistants—associate, sports and feature editors. Reporters and ad assistants—join the staff by signing up for journalism practice courses for one or two units.

Applications, blanks may be obtained from Harold Young in the Journalism office, Adm. 82, and must be returned to him before March 18. Applicants are interviewed by the Board of Publications which recommends the choice to Student Affairs. Council for final approval.

SONOuellenkouera fee. Hae Mertin for more details of the sale during the first half of the year, please contact the Assistant to the President, Mr. Frank J. MacIntosh. Mr. MacIntosh can be reached at a telephone number which is available upon request.

The Board of Publications is responsible for handling all applications for membership in the Upper Quartet. Any Cal Poly student may apply for membership,

Applications are open for editors of The Mustang for spring quarter, announced Harold Young, chairman of the Board of Publications. No other OB members will be selected.

The top editorial position is open to any Cal Poly student regardless of major. However, having points and that it will be very difficult for the student applicant to have a journalistic background.

The editor is responsible for naming his immediate editorial assistants—associate, sports and feature editors. Reporters and ad assistants—join the staff by signing up for journalism practice courses for one or two units.

Applications, blanks may be obtained from Harold Young in the Journalism office, Adm. 82, and must be returned to him before March 18.
The team that put the voice in Vanguard needs good technical and management talent

Come in and find out how far you can go with the BELL SYSTEM

ENGINERS • PHYSICAL SCIENTISTS
From atomic research to engine development to space exploration, there's a world of opportunity in the field you're most interested in.
If you prefer, you can choose to enter a management program, or you can develop and use your technical abilities to the fullest.

Pacific Telephone
Technical and non-technical graduates for engineering and administrative positions on the Pacific Coast

MARCH 3

BUSINESS MAJORS • LIBERAL ARTS
There's no "getting lost in a big company" if you enter our Management Development Program. It offers training you can't get anywhere else, and a chance to get into management in a surprisingly short time. We're growing fast, and we need executives that always comes from "within".

The data transmitters in the Vanguard satellite were made possible by two items invented and developed in the Bell System: the transistor and the Bell Solar Battery.
