He holds the degrees of B.S. in Agriculture Education, Master of Business Administration, and Master of Science in Business Administration. He has been a passionate proponent of the concept, and he will speak on a subject that is close to his heart. The subject will be "The Role of the Rodeo Industry in Modern Society." The event will be held in the Recreation Center at 1:00 p.m.

El Mustang
Diablos Nip Mustangs 29-28

In Rose Bowl CCAA Thriller

President’s Rose Bowl has been the scene of many memorable classics, but for sheer thrill potential few can touch the Mustang-Mustang matinee offered some 6000 spectators at the Rose Bowl last Saturday.

The Mustangs, with apparent disregard for the Diablos' record of 9-1, entered the bowl game with a 4-5-1 slate, but in the final analysis it was the Diablos who left the bowl with the 29-28 victory.

The game opened with the Mustangs on the offensive, and they soon found themselves in the end zone. However, the Mustangs were unable to convert on the point-after, and the Diablos retained possession of the ball.

In the second quarter, the Diablos scored another touchdown, this time on the strength of a long pass from quarterback Joe Womack. The Mustangs were unable to respond, and the Diablos led 14-0 at the half.

In the third quarter, the Mustangs came back with a vengeance, scoring two touchdowns in quick succession. The first touchdown was scored by fullback Tom Klootaran, and the second by wide receiver Jerry Dow. The Mustangs now trailed 21-14.

However, the Diablos were not finished yet. In the fourth quarter, they scored another touchdown on a long pass from quarterback Joe Womack. The Mustangs were unable to score on their next possession, and the Diablos held on to win 29-28.

The Mustangs were led by quarterback Joe Womack, who completed 14 of 30 passes for 258 yards and two touchdowns. Fullback Tom Klootaran carried 14 times for 101 yards and a touchdown. Wide receiver Jerry Dow made three catches for 70 yards and a touchdown.

The Diablos were led by quarterback Joe Womack, who completed 24 of 36 passes for 422 yards and four touchdowns. Wide receiver Tom Bolen made nine catches for 170 yards and a touchdown. Tight end Bob Hill made five catches for 70 yards and a touchdown.

The game was filled with excitement and action, as both teams fought valiantly to come out on top. The Mustangs were able to score two touchdowns in the final quarter, but the Diablos held on to win the game.

In conclusion, the Rose Bowl CCAA Thriller was a thrilling game filled with excitement and action. Both teams fought valiantly to come out on top, but in the end it was the Diablos who emerged victorious. The Mustangs were led by quarterback Joe Womack, who completed 14 of 30 passes for 258 yards and two touchdowns. Fullback Tom Klootaran carried 14 times for 101 yards and a touchdown. Wide receiver Jerry Dow made three catches for 70 yards and a touchdown.

The Diablos were led by quarterback Joe Womack, who completed 24 of 36 passes for 422 yards and four touchdowns. Wide receiver Bob Bolen made nine catches for 170 yards and a touchdown. Tight end Bob Hill made five catches for 70 yards and a touchdown.

Overall, it was a thrilling game filled with excitement and action. Both teams fought valiantly to come out on top, but in the end it was the Diablos who emerged victorious.
Jet-Propelled?

Editors:

In a recent editorial (Oct. 6) there was some complaint about "human propelled vehicles"—helicious bicycles, motocycles, roller-skaters—traveling at "jet-propelled" speeds. This is nothing new; there was a column in the bulletin boards in the library that I believe you are interested in reading.

"Jet-propelled" is a new term, coined in the 1960s to describe the new generation of "human propelled" vehicles. These vehicles are designed to travel at speeds up to 100 mph.

The term "jet-propelled" is used to describe these vehicles because they are powered by a jet engine.

The "Out Of The Din" column was written by a student who had recently purchased a jet-propelled bicycle. The student was excited about the speed and efficiency of the bicycle, but he was also concerned about the safety of other riders on campus.

The column recommended that all students use caution when riding jet-propelled bicycles and that the university consider implementing a comprehensive safety program to ensure the safety of all riders.

Thank you for your attention to this important issue.

Sincerely,

[Student Name]

LOYAL FANS

Dear Editor:

Regarding the nauseating latter part of the Puritan's enthusiasm for Cal Poly, we feel the然 it to an intelligent, educated, and sophisticated university of the Cal Poly spirit that some of the "Bob, sob" stuff will enter the universe of the Rally Committee, to beget the bond of friendship which has been instituted, deriving its strength from the consent of the governed. We hereby declare that all students are created equal and are endowed with certain unalienable rights. That to secure these rights, BAC has been instituted, deriving its just powers from the consent of the governed.

In our belief that the attitude of the Rally Committee in advocating the "Bob, sob" stuff is that of an uneducated parent, we appeal that our router's capacity and to show our loyalty, (radio or television, that is) to rebuff and demand justifiable embarrassment when alumini, parents, and guests were accosted sarcastically by members of the Rally Committee.

We, therefore, appeal that our visitors not be subjected to such embarrassment again. John Hancock

The Student Health Service is responsible for the environmental sanitation on the campus. Regular inspection with bacteriological counts are made in the food preparation and eating areas at least once a week. Inspections of the cemeteries and other campus areas are made as indicated.

John Hancock Appeals

Dear Editor:

When in the course of human events it becomes necessary to dissolve the bonds of friendship that all students and Rally Committee, we the undersigned deplorably declare that all students are created equal and are endowed with certain unalienable rights. That to secure these rights, BAC has been instituted, deriving its just powers from the consent of the governed.

In our belief that the attitude of the Rally Committee in advocating the "Bob, sob" stuff is that of an uneducated parent, we appeal that the student health service is responsible for the environmental sanitation on the campus. Regular inspection with bacteriological counts are made in the food preparation and eating areas at least once a week. Inspections of the cemeteries and other campus areas are made as indicated.
