Fall Parking Fee

Will Be Compulsory

Beginning Full Quarter 1962, resident students will pay a $0 parking fee whether they drive a car on campus or not, according to Harold Hayes, Dean of the College. The policy will be in effect for students living in the new residence halls being built on campus and those students anticipated with the opening of the additional on-campus housing facilities. Resident students living in the new residence halls will be required to pay the $0 fee even if they drive a car on campus.

Instructor Will Run For State Senator

Thomas P. Nolan, Social Science instructor, has expressed the intention of filing for the office of state senator in the 1962 election. Nolan said he would file for the office without endorsements.

Nolan said he had no illusions about the chances of including Senator A. A. Ehrlich, and added that he will run on his own ticket. Senator Ehrlich, who was re-elected to the Senate for the past 10 years, left San Diego for Monterey to endorse Ehrlich for a fourth term.

Nolan mentioned Ehrlich's vote for A.B. 1087, to raise minimum wages, saying, "Since my job is not making a profit, I can and should have a personal interest in raising wages as high as $5.00 to $6.00.

"By running, I will be able to express my views on the key issues of the coming election. When I run for the state Senate Seat, I will have a voice for the people, and I will have a chance to do something useful for the people."

"Sayonara" Theme For First Senior Prom

"Sayonara" will be the theme of the annual Senior Prom, in the Student Union Ballroom, April 21. The theme will be the best theme to date, according to the Prom Committee.

The theme will be held from 8:00 P.M. to midnight in the Student Union Ballroom, and the Students Activities Office will furnish the entertainment.

Army Show Pops Atomic Defense

"This Is The Army," an official U.S. Army exhibit showing how the army is helping to solve the complex problem of providing effective Atomic-Age National Defense—will be displayed at Cal Poly, in Library 111, April 6.

According to Maj. Henry Bradley, Inspector in Military Science and Tactics, the exhibit is a nationwide tour of colleges and universities, is presently at the University of Utah. The exhibit, originally requested for Poly by Student Council and faculty, is on loan from Alexandria, Virginia.

"This exhibit was prepared by the Science Department of the Department of Defense, Washington, D.C. and is sponsored locally by the Army. ROTC students on campus, said Maj. H. E. McVay, ROTC instructor. "It is purposefully to inform students and the public on the speed and immensity of modern war and to emphasize the caliber and character of personnel required to man the modern Army establishment.

ASB Petitions Due Saturday

"All students holding petitions for student body offices are urged to have them in by Saturday, April 6," said Ed McKeown, ASB President. "Candidates are registered immediately of the special candidate meeting Monday, April 4, at 7:00 P.M. in LB 115. The purpose of this meeting is to inform the candidates of the procedure for campaign procedure and the election."

"Campaign speeches will be held at a campaign assembly held Monday, April 11, at 7:00 P.M. in the ACM Auditorium. According to ASB Vice President, Bob McElroy, plans are well under way for the election Canvass to be held Saturday, April 9. The canvass, to be held in Central Gym, will give the candidates further chance for campaigning for election."

Hawaiian Luau, Dance Saturday

The theme of the Luau in the form of a Hawaiian Luau will be presented tomorrow evening by the Vets at the Veterans Memorial Building and ending with a California dance in the Campus Union.

The Luau dinner begins at 6:30 in the Central Gym and is sponsored by the ROTC. It is a Hawaiian luau where people dress in tropical Island attire and enjoy Hawaiian food.

Tickets for the dinner are on sale in the Central Union for $2 per person. The dance has no admission charge.

Dr. Witschi to Speak On Controlled Genetics

Dr. Emil Witschi, professor of biology, University of California at Los Angeles, will be the featured speaker at the annual Sigma Xi lecture sponsored by the Cal Poly chapter of Sigma Xi, tonight at 7:00 P.M. in the Engineering Room 188.

Activity Building Plans Outlined at SAC Meeting

"We are as close now as we ever will be to having a college union," announced Dan Lawson, Associate Dean of Activities, at the Student Affairs Council meeting Tuesday. "Approximately $800,000 has been accumulated by the book store for the building of a new book store. This building would have been underway if the idea for a three story building had not been suggested by President Julian A. McPhay," said Lawson.

According to Lawson, one of these stories would be under construction and would constitute bowling alleys, billiard tables, ping-pong tables and an outside area with a bar and a shop. The second story would be occupied by the book store. The second story would also contain offices, orienting the main offices, the rooms, the lounge and a conference room.

The third story would be constructed from the basement of the University Union, "It is available that the basement is not used in the union," said Lawson.

"It is not known how long it will take me to get the union so far," said Lawson, "but I am sure that the board would be of the opinion that we should have a union, one and one half million dollars of which is the Carleton fund."

"The union will be built by the student body and the union would have a majority vote from both campuses of Cal Poly.

"This building will be up to date, with the latest facilities," said Lawson. "To solve the problem of building costs, raise in student body fees has been suggested."

Lawson continued, "The raise in student body fees would be done by a student body election and the raise would need a majority vote from both campuses of Cal Poly.

Lawson indicated that the college buildings under construction or under way to be completed this year.

"I am able to say that we will break ground in May, and the buildings will be constructed in the next two years," said Lawson.

"If the plans don't go through and we are not able to build a one story building, we will have it," continued Lawson.

"The building was suggested was the fact that we are getting more students each year, and it would be made on a million dollar basis."

"If we follow the facilities are there," said Lawson.

"If the plans don't go through and we are not able to build a one story building, we will have it," continued Lawson.

"The building was suggested was the fact that we are getting more students each year, and it would be made on a million dollar basis."

"If the plans don't go through and we are not able to build a one story building, we will have it," continued Lawson.

"The building was suggested was the fact that we are getting more students each year, and it would be made on a million dollar basis."

"If the plans don't go through and we are not able to build a one story building, we will have it," continued Lawson.

"The building was suggested was the fact that we are getting more students each year, and it would be made on a million dollar basis."

"If the plans don't go through and we are not able to build a one story building, we will have it," continued Lawson.
The Brown and Brown Feedlot near Santa Maria was the scene of the Boots and Spurs field trip recently. Approximately 58 members headed for the large feeding operation on an old San Francisco cable car that had been converted to diesel power. The students went the entire morning touring the lot that feeds out almost 50,000 head of cattle for California Barbers each year.

DAISY MARICONE... Forty acres in Polk's dairy herd underwent a hoof trimming operation recently, performed by G. M. Manzel of Petulio. Manzel is a professional hoof trimmer and designed and built the rig mounted on his pickup. He averaged from 15 to 16 head per day. The object of trimming the hooves is to keep them even and prevent lameness and foot rot which invariably leads to decreased production. As Dairy Department Head Jimmy Tonge said, "Cows are like people. When their feet hurt, they just sit all over."

BARR'S

DINE-IN RESTAURANT

EDMUND & MACHERED 1974: STYLE... Bloody beach reels will eventually be a thing of the past, as displayed in this new U.S. Army exhibit now on a nationwide tour. This panel depicts warfare in the 1170's, when Commanders will have to think in terms of miles and "sections" rather than yards and rounds-per-minute. Torpedo will be prized into battles using three-dimensional transport devices to surprise the enemy with low, sudden attacks and combat data displays. The exhibit will be displayed here on April 1-7. See story on page one.

LONG LOST VOLUMES FOUND BY LIBRARY

After Four Years

The Library's recent campaign for the return of lost reference books resulted in the return of the book, "Twentieth Century Authors" and some copies.

Unloading the return box on March 18, Librarian Fred Gerhster found six heavy bound volumes of periodicals that do not circulate. Two such volumes, "Journal of Nutrition" and "Journal of Chemical Science and Forensics" are very rare and a typed note in one of the books read, "I took these here six books when I was a former student, I hope you'll accept them."

A check of the films revealed the books had been missing about four years. "This library does accept these rare six books," quoted Mrs. Dorothy S. Wright, Assistant Librarian. "I was a former student, I hope you'll accept them."

Three of the volumes had been reported received, at a cost of about 65 per volume, but since these we have never been able to return.

'Shadow In Cathedral' Topic For High Noon

The California State Polytechnic College Edward C. Little will direct the annual presentation of "Shadow In Cathedral," a morality play of the temptation and martyrdom of Thomas A. Becket, 1170 A.D. The play will be performed by the Repertory Rep, St. Walter M. Phipps' dramatic group on campus at High Noon Sunday, March 25. The play is an excerpted staging of the original presentation of Thomas A. Becket, 1170 A.D. performed by the San Francisco State College drama department. The film adaptation was produced. This panel depicts warfare in the 1170's, when Commanders will have to think in terms of miles and "sections" rather than yards and rounds-per-minute. Tankers Face Fresno Today in Poly Pool

Looking for a conference win, Coach Dick Anderson's Poly Tankers will face the Fresno State squad at 4:00 today in a 50 yard freestyle race off Poly. The Poly squad has had a great deal of success in recent meets and is expected to have the upper hand in this meet.

MustangSpikers Host Gauchos Tomorrow

After dropping a close 81-80 decision to Fresno State last Tuesday, Mustang Track Coach Walt Williams firmly states that "We won't lose another track meet this year, and I'm including the CCAA Conference Championship meet also scheduled for San Diego on May 7, in this prophecy.

Williams' 1960 trackmen will have the Braves, Barona Gauchos, and Long Beach State tomorrow afternoon at 3:00 P.M. in a repeat performance of the meet last Saturday. Both squads accompanied in this "CAA Brain team at the triangular affair." Williams, still smiling over his big prophecy, went on to state efforts (out of 18 events) in Fresno, plan to turn speedster Vic Hall loses in the 800, 8-50 and as anchor man in the one-mile relay event. Hall turned in a 8.5 second 110 in Santa Barbara for the Mustangs. "We're going to beat the world record in this event."

Coach Co-Captain, Leslie Red, will be out to better the record in the mile event. Last week, San Francisco State, and to Long Beach State, Bob Marsh and Adam, long jumper, and Darrell Wolfrum, long jumper, will be in the mix along with Butch Rhoda (.864) and Chuck Radojic (330). Both teams are working hard to keep up with the Mustangs in this meet.

The Mustangs meet the Braves here today and Wednesday in non-league competition.

Dear Editor:

For four years, with seething disgust and impatience at the care­
less lack of consideration on the part of all inhabitants of the
university—students and faculty a-
like—raking in my breast, I have
been forced to search in vain for
a safe spot to find
myself surrounded by a litter of
empty cups, dishes and assorted un-
welcome remnants of previous occu-
pants. Now that my days at the
venerable institution are nearing
completion, it behoves me to apeak
publicly and perhaps clear the tables
for future generations of stu-
dents with a desire for clean en-
quironment. Not long ago, as I limped a cup
of black coffee, I watched a group
of six students leave the table in
front of me, completely unmethod-
ically; a table, bottled as it was
under a tether of cups, lunch
nacks, and wadded-up paper napkins. One
conscientious student lingered to
pick up some of the trash, but,
when he saw my horror at the
sight of the coffee shop habitués
cluttering up our meagre table
with unidentifiable debris—
continued mastication of these
untidy, underfed bodies—a
morning to my horror, as they
rushed out, leaving the tables
still unpolished and the walls
still reeking of the dread smell
of stale coffee—your student help
in El Co, Ronald, and I are
