Attached is a draft of a proposal related to the revision of the University Athletic Advisory Council, showing proposed functions, membership and meetings, similar to the current format in CAM. This draft was prepared by Associate Executive Vice President Howard West who has responsibility for the intercollegiate athletic program, and discussed at the President's staff meeting. It differs somewhat from the document drafted by the Senate last year and currently being considered by the Senate. This draft is submitted for your information and use in the discussion as the Senate considers its recommendation on the revision of the Athletic Advisory Council.

For further explanation, I would like to point out that:

1. NCAA requires the President of the University to appoint the Faculty Athletic Representatives;

2. Intramural athletics have been assigned to the Office of Student Affairs and is funded jointly by Student Affairs and the ASI. With the exception of scheduling of facilities, there is no longer any administrative connection between these two programs. Intramurals is considered to be part of the recreation activities of Student Affairs but occasionally academic work may be related to Intramurals activities in some of the physical education courses. However, I feel it is appropriate to review this as part of the overall program of physical education.
