Applicants sought for pre-doctoral program

Thursday, April 17, is the deadline to apply for the CSU’s 1997-98 California Pre-Doctoral Program, designed to increase the number of faculty members from groups that are underrepresented in particular disciplines.

A special emphasis of the program is to increase the number of CSU students entering graduate programs at UC campuses.

To be eligible, upper-division or master’s-level students must be enrolled at a CSU institution as of spring 1997 and at least one term in 1997-98.

Each of the selected scholars will work closely with a CSU faculty sponsor to develop an overall plan that ultimately leads to enrollment in graduate school. The plans will be tailored to the student’s specific goals and career objectives.

The program provides:
- Travel funds for the student and faculty sponsor to visit Ph.D.-granting institutions in the United States and to attend professional meetings appropriate to the student’s development.
- Opportunity to apply for a fully funded summer internship for the student to participate in doctoral-level research.
- Funds for other related activities, such as membership in professional organizations and special research costs, and for graduate school application and test fees.

Selection will be based on three major criteria: potential for successfully completing a doctoral program, probable effectiveness of the student-faculty plan, and degree of under-representation in the proposed area of study.

For more information and an application, call Becky Powell, Graduate Programs, at ext. 2328.
