It all came about during Christmas vacation when the boys decided to plan Miller's 70th birthday party. A "birthday" during the truck strike is not just a little extra. Min. Here's College Union

Many people wonder what and where a college union is. Our present College Union is in the south of the mountain dorms and over the architectural labs on Motley. 8,000 square feet of floor space in the main lounge and recreation area. We have our own ping pong tables, depending on demand, and a snack bar. Also there is a block lettering set and a small article la published occasionally. It seems to be more and more alumni interested in our College Union, and we have one or two ping pong tables, depending on demand, a large stage, a snack bar, and work with, are still interested in some story has changed, radically. It seems to be more and more alumni interested

From my tie to my nose,
I seek poetry!
Most poets praise one lousy moon at a time.
But I sing the moonlight in a poem.
I am always working on a poem.

If one moon’s poetic, why can you just bet
A lousy moon is poetic.

The Bells Were Ringing for All the Girls in Dorm Mayhem

The time was late Friday afternoon, the day before registration. The scene of the crime was Jespersen Dorm. The boys were in the lounge visiting some of the girls (naturally.) Suddenly complete mayhem broke loose. The buzzer alarm was somehow set off. The only ones who seemed to take it all in stride was the six boys who happened to be there visiting boys. The girls, Mrs. Nichols, the head housemother, and Associate Dean Mary Ellis Murray who was visiting at the time, were running around in a complete dither.

All normal circumstances the buzzer system in Jespersen is not connected. It was believed that the wires had been tampered with, although later investigation proved that this was not the case. Mrs. Nichols, Mrs. Brody, and the residence director had tried to control the situation but it was impossible. The girls were in a complete dither.

Mrs. Nichols, a little excitedly, said, "Tell them not to come if they haven't started yet. In the heat of all the confusion, no one seemed to remember that the fire department could have been called on it, but Mrs. Nichols, a little excitedly, called the firehouse."

Chris ran into Mrs. Nichols' room, finagling her key to all the fire department boxes and saying, "here's how you shut it off." He pulled a red lever on the little red box marked "Fire." All of the boys were in the lounge visiting some of the girls. The boys were in the lounge visiting some of the girls.
