The newly proposed form of the student government will be placed before the students at a special election May 7 and, according to Student Affairs Council action taken Wednesday.

In what was the second meeting in a row of past midnight sessions, council members voted to offer the dish cooked up by the Student Government Committee and let the students determine whether or not to amend the present constitution and by-laws, and in many basic respects, replace the present form.

Both the student government constitution and the following were key points in the government’s official minutes:

1. The five boards, classes, Inter-College and Inter-Departmental clubs would no longer have voting representation on SAC.

2. ICC Elects Three
   To Student Council

Three members of Inter-College Council were elected to Student Affairs Council last Monday night. Twenty-two club representatives attended the meeting... the largest number of years for which a candidate has run, according to Bill Walker, Associated Student Council vice president and the controller of the campaign.

3. San Fernando Gets
   First Approval

The January and February bills that would have given Blue Jay students the opportunity to vote in elections and the ability to attend the Los Angeles campus were approved by the legislature. The bills had been sent to the Ways and Means Committee of the Lower House.

The car above was bought new by a man. He now drives the same car on a constant premium gasoline. Thus far he's saved .60 per gallon on his gas. He was chosen the "most likely to survive" because of engine deposits, which gained the spark plugs in "milk."

After TCP...

The same car now performs after it has been run on a few tankfuls of Shell Premium with TCP, which overcomes engine deposits. The result: power loss. Your almost new engine has lost its fine edge.
