Personnel Review Committee of the Academic Senate

Subject: Reappointment and Tenure Actions - 1970

During November 1970 the Personnel Review Committee of the Academic Senate reviewed and made recommendations on all tenure and reappointment cases where there was disagreement in the recommendations made by the department committees, department heads, and school deans or where a faculty member had received complete 'No' recommendations.

The committee reviewed and made recommendations on six tenure cases. The President's decision agreed with the committee's recommendation in five cases (one of which was modified because doctoral work is in progress). In one case the President's decision disagreed with the committee's recommendation but the President's letter specifically left that decision open to further consultation and reconsideration.

The committee reviewed and made recommendations on nine reappointment cases. The President's decision agreed with the committee's recommendation in all nine cases (two of which were modified, one for doctoral work in progress and the other awaiting a medical report).

The Personnel Review Committee members and alternates are:
