Campaigners in Suspense

Nine student body office seekers wrapped up their campaigns last night, hoping to secure the positions of vice-president, freshman class councilor and senior class councilor. James Miller, a sophomore from Sacramento, plans to run for the position of student body president.

Earth Day at San Luis Obispo

On April 22, 1981, Earth Day will be celebrated at San Luis Obispo State University. This day is dedicated to raising awareness about environmental issues and promoting sustainable practices. The university will host various activities and events to educate students and the community about environmental conservation.

Student Body, Class Voting At Post Office And Dining Hall

The Student Body of California State Polytechnic College held its first voting session on April 11, 1981, at the post office and dining hall. Students had the opportunity to cast their ballots for the upcoming election, which included candidates for student body president, vice-president, treasurer, secretary, and representatives to the Associated Students of California State Polytechnic College (ASCPPC).

Mailing of $90 Billion

The United States government is preparing to mail $90 billion worth of tax refunds to American citizens. This mailing is part of a tax reform initiative aimed at stimulating the economy and reducing the national debt. The refunds will be distributed to individuals and businesses based on their tax returns.
Lights dimmed and the Cal Poly Men's Glee Club walked single file to the risers in the center of the Men's Gymnasium. All was quiet except for the shuffle of intercoms still filling an already packed gymnasium. Approximately 3200 spectators sat forward as Harold P. Davidson stepped up to lead his 28th annual Home Concert.

From "High High You Must Tango" to the closing "Alma Mater," Davidson kept a steady long program moving at a steady pace.

Chris Thorsen, of Rich Lake City and student director of the Men's Glee, visited his story of "High, rise," with a fervor that is typical of the fine solo work.

San Luis Obispo's Gerald Burt took the best of Davidson's group for the vocal, his solo of "Ole Man River" was sung with pleasing effect.

The risers were filled with an exciting effect as the vocal soloists filled the building as planned by Chris Thorsen.

A large choir, headed by their president, Chris Thorsen, set the pace to the risers in the center of the Men's Gymnasium.

Lovely," (and they wished it wasn't difficult because the auditorium looked and performed in a professional fashion.

As they swung into Kenny Bunt's "Somewhere Over the Rainbow," we could hear music echoing from the Exposition Hall. The risers, as well as the choirs, were enjoying a wonderful and exciting time.

Although we missed the traditional side-splitting skit performed by the Majors and Minors in past years, we were treated to an intermission in the form of a "Rendition from George Gershwin's "Porgy and Bess." The Collegians filled the air withagility Kay Huber on "Anna Choo," and joined the singers efficiently for "All Hall Street and God." The curtain (had there been one) went down to tremendous applause and approval of ''Davy's done again." "I just can't understand why they have to make a ritual of Cal Poly's Home Concert."

The audience was real of Kenton's "Collaboration." It certainly proved a wonder, as the main body of the audience was silent except for the shuffle of latecomers still filling the seats.

As the lights dimmed and "The Cat Ploy Men" walked off, the audience was left with a feeling of warmth from lack of air conditioning and the comfort of the home atmosphere.

Massive voice for a missile base

In America's space-age defense system, the order of the day is high-speed communications.

And at top speed Bay Area Space and Communications, General Telephone & Electronics is carrying out the order with efficiency and dispatch.

The order is for the man who sends the mighty Atlas-Mercury into space. The missile is a fully automatic 5,000-line dial telephone terminal. The dial is controlled electronically by the Atlas's own brain and advanced guidance system. All over the world a mass communications network capable of handling hundreds of simultaneous conversations, accepts messages and relays warning radar data simultaneously.

The communications equipment connecting Vandenberg Air Force Base with the outside was designed, manufactured and installed by our subsidiaries, Automatic Electric and Lenkurt Electric, and is operated for the government by General Telephone of California.

This advanced high-speed system is expression of the new General Telephone & Electronics drive to serve the nation through better communications—not only for national defense, but for homes, business and industry as well.
Student Interviews John Birch Founder; Gets Strange Answers

By TOM MOORE

Communism is not a movement by the Protestant but it is imposed from the top down, declared Robert Welch of the controversial John Birch Society last week in Santa Barbara.

"I can find a lot more Harvard accents in Chinese circles in America today than you can," he said.

Welch repeated his long and half talk given in the Los Ange­

les Church, and the Society's最近的活动 has been, he said, "I saw my talks attended by a group of eight Frenchmen during his talk.

The young men did not give their names, nor would they accept any repre­

sentation for their talk, but as they said was that they were Cal Poly students and that they were on their way to the rodeo in Llano.

Although I don't know their names, and no contact them personally, I can at least com­

mune with you and your institutions on such a high type of boys as members of your student body.

Sincerely,

O. B. Mooty
