Local Ticket Sales For Mercy Classic
Set To Close With Only Fraction Sold

Ticket sales for the Merry Bowl football classic have soared to more than 4,000 in the San Luis Obispo area, but with only days remaining before the game, this number is only a fraction of what must be sold to make this a success.

Ticket sales have been bolstered by many student clubs, organizations, and businesses throughout the university. Most local employers shipped in this week and sold their tickets directly to employees.

The Cal Poly Pomona students, Dave Harper, Rich Buchanan, and John Santoro, have been busy selling tickets to their friends and neighbors.

Most students have sold their tickets for the Merry Bowl, a $90 donation, and many other tickets get on the bandwagon with their contributions. Large donations have poured into the Merry Bowl fund from anonymous donors. In a recent phone appeal, local individual donated $500 while another gave $50.

Ticket sales have increased on campus also. More than 1000 tickets have been sold to students. Today will be the last day to purchase tickets. They are on sale at the ABG office, near the Pajaro Mission, and the Student Union. The train will leave San Luis Obispo at 8 a.m. Thursday and return at approximately 8 p.m.

Campus Movies Stay
Film Agreement Reached
With Downtown Theaters

College officials and the managers of the two downtown theaters came to a meeting of the minds late Tuesday afternoon, and as a result the campus-theater movie problem was solved. Everett Chandler, dean of students; Mrs. Arlene Volck, advisor to the student activities; and David Harting, ASB vice president, met with Vaughn Taylor, manager of the Pajaro Mission theater, and Bill Taylor, manager of the Olsho's theater, to come to an understanding between the colleges and the theaters.

"The solution was completely satisfactory to all concerned," Chandler said. "I am happy that the problem is solved."

The meeting was set up by the theater managers late last week, when they learned that the campus' block booking of films may conflict with their own. The solution was arrived at yesterday, and it was agreed that the theaters would show the same films. The theaters will serve the same audience, and thus the problem is solved.

Vaughn Taylor sent a letter to the college last week, asking the theater to show the same films. They made this compromise, Chandler said. "Of course, this is only a preliminary agreement, but we are trying to get this problem solved."

(Continued on page 3)
A Week Makes A Difference

One of the top popular songs in the nation last year was entitled, "What a Difference A Day Makes." A change could be the same theme song of Vaughn Taylor, manager of the Fox-Fremont and Sid Taylor of the Olympia Theater with members of our administration and reviewed the issue.

At the meeting two main discrepancies were ironed out: (a) That we would not run movies on campus before the downtown theaters had the first opportunity, and (b) That the movies would only be publicized one week in advance instead of announcing the schedule for the whole year as it is now in the A.R.S. Activities Calendar.

We can voice no complaint against these changes as they have good reason to be put into effect. EL MUSTANG took a stand on the issue because we saw no reason why the movie programs on weekends should be suspended. It is now evident that with a little more investigation of the situation a friendly solution was possible.

We commend Mr. Vaughn Taylor on reconsidering his actions in the past and taking a more objective view of the situation.

B.B.

Why We Charge

Last year, the Student Affairs Council was faced with the problem of raising the necessary amount of cash to continue the Student Activities Program. The result of which required an increase in the student body fee. The best way to accomplish this program was to increase the Student Body fee by $2 per year. The Colleges President, Mr. McPherson, can request that such an increase be fixed stating that if two-thirds of the student body were in favor of such an increase, he would approve such a recommendation. By right such a vote was not necessary as president McPherson could make the recommendation without student approval but since his primary interest was in the students, he requested that a vote be taken. The A.R.C. carried out this election with results that four-fifths of the students in this matter were in favor. The reason showed that although a majority of the students on campus were in favor of the fee increase, the required two-thirds was not and the proposal was defeated.

At times suggestions were made that the program be cut in particular areas. If a student would take later in the year proved that the students and the program with the program that was being protested. No such program was presented. It was obvious to the students that if the Student Body could present a program that would carry out the duties of the Student Body, they would want it. The Student Affairs Committee and the A.R.C. decided that the students who indicated that they wanted the same program without increases. The students who indicated that they did not want it out, in favor of the proposal for events. Following this line of reasoning, the group of charges was made that the Student Affairs Committee and the Student Body wanted it. The student wanted it and it was decided that the group would carry out the desires of the students in this matter. It briefly then, the reason for increased student fees and that the increased students activities is that this is what the students indicated that they wanted.

Little Forethought

EDITOR

It is obvious that the comment made by "Mr. W. W." on his letter to the editor,蓬is wanting to get a few things clear. I have not seen this letter printed in EL MUSTANG. There was not even a rebuttal telling me I was wrong. I would like to know why this letter has not been printed. Mr. Editor, are you waiting for the reply or for the matter to be forgotten? I do not think that just because the election was held and the results made known that the matter is going to be forgotten. We are faced with the huge problem of how we are to go on an A.R.S. activity. It is possible that new people other than not wanting to pay more money, for the students of both campuses to vote down the A.R.S. fee proposal.

I would like to ask an open question to Cal Poly students: Why did you vote down the fee increases? Was it because you can’t afford the extra money, or because you want to give back the money? If you are, now is the time to say so, if you are not.

In conclusion, I must go along with my first observation that Cal Poly students have the ability to make changes. Editor are you waiting for the reply or for the matter to be forgotten?

**Movies Issue**

(Continued from page 1)

Retirement should not be a problem.

In commenting on the theaters asking that some of the films be switched to different dates, Taylor said: "We are not trying to dictate to the college what it can show and what it can't. We only want to make sure that the college does not show movies which are inconsistent with the standards which have been set for this university. If there is a reasonable request, and we will be happy to let the college show movies after we have shown them."

**El Mustang's drawing for two tickets to the Mercy Bowl last Tuesday was won by Eugene Mayer, junior, Architect major from Arroyo Grande. "This is the first time I have ever won anything," said the happy architect.

Mayor said that he was not sure whether he would attend the show, but if he did he would pass the tickets along to other members of his department.

What made him want to buy the Mercy Bowl ticket was whether to keep it or to use it to get into the show. You'd have a happier Thanksgiving if you spent it at the Mercy Bowl.

Mustangs, Gauchos Clash
In Final Game Tonight

The Cal Poly Mustangs have one more chance to even their record at the 800 mark tonight when they host the Santa Barbara Gauchos in Mustang Stadium. The Mustangs now hold a 6-4 mark for the season, but are 2-2 In CCAA play. The Gauchos hold a second place in the conference. The Gauchos come into town with a dismal 5-7 record, but their record is very deceiving. While their only wins were over non-conference opponents, Pepperdine and OC Davis, they have scored several of the CCAA opponents. Pepperdine State went into the fourth quarter trailing the Gauchos 14-0, and only managed to squeak out a win. San Diego State had to outscore the Gauchos in the final minute of play to defeat the Gauchos the following week 18-12.

The Gauchos are led by the coaching of Stuart Bell and receiving of Curt Curtis. Fullback Larry Carlson has been one of the leading ground-gainers of the Gauchos all season. The Gauchos backfield is also bolstered by Tom Chapman, Doug Pay and Roy Stepmann.

The Mustangs have shown superiority over the Gauchos in seven previous games with the last Gauchos win coming in 1969. In that contest, the Mustangs led 1-0, but still managed to lose 14-7. The two teams met at the end of last season. The Gauchos led 14-0 in the second quarter, but the Mustangs scored 10 points later in the quarter to tie the score. The Gauchos scored 20 points later in the quarter to take the lead 24-10. The Gauchos did not score again in the game after leading 24-10.

The Mustangs attack in tonight's game will again center around the quarterbacking of Ted Toliner, one of the CCAA's leading passers. Receiver Jack Wofford, one of Cal Poly's top receivers, has been out the last few weeks with a knee injury, but should be back for this game. Tight end Steve Steck has been the other leading receiver.

Poly Thinoctxs Run
At UCSB Tomorrow

The University of California at Santa Barbara Collegiate Athletic Association desires to present to the campus community an exciting, competitive, and potential team sport. The club football team has been playing every Saturday throughout the season. The team has had some setbacks and some exciting victories. There are still five games left. The team has improved throughout the season.

The team has lost only one game, against the University of Oregon, and has shown great improvement. The team has shown great potential and has the ability to compete with the best teams in the country. The team has enjoyed a great season and is looking forward to the remaining games.

Career Cues

"Hitch your wagon to a 'growth' industry—and grow with it!"

Douglas Leigh, President
Douglas Leigh, Inc.

"A growth industry is a new industry that is on the way up—moving quickly, expanding fast. When you join a company in one of the growth fields you have something extra working for you...you grow up with it. To find out which industry is right for you, try this: Ask someone in a good investment to give you a list of the industries he considers 'growth industries.' Data Processing, plastics, and electronics are a few examples. Then pick the one you have a leaning toward, and get the names of the most prospective companies in that field.

One thing I'd like to point out from my own career is...a growth industry may also be an on the verge of new development. Shortly after leaving college I found this situation in the Outdoor Advertising field. What my associates and I did was to employ color, action and motion to dramatically personify the product, brand or service being advertised. In doing so, we developed the modern type 'spectaculars' that talked, blew smoke rings, popped bubbles, etc., signs that changed the face of Broadway and the famous Times Square area. This is just one example. The really important thing to remember is that...When you set your sights on a career aim for an industry that is going to grow, so you can grow with it. And the difference between a rocket that blasts off, and one that just sits there, Good luck!"
