Engineers to Enjoy Modern Facilities In Adequate Edifice

Engineering students should move into the new Engineering West building this summer, according to Harold Hayes, dean of the department. Construction of the new facility is expected to be completed around November 1, reported Hayes. Engineering West will house new architectural engineering facilities with problembuilding equipment furnished.acterization and environmental design classes will be housed in Engineering West.

Total cost of the building is estimated at $1,923,000. This will include the full equipment necessary in a $1,885,000 building—$1,299,999 plumbing—$14,000 electrical equipment—$110,000 plantng and irrigation—$30,000 architectural costs.

Some of the features of the new building will include a state-of-the-art laboratory for architectural majors and room for research and teaching for their instruction. The same laboratory will also be a new and improved classroom structure.

A laboratory for mining and petroleum engineering students will be equipped with electronic and mechanical laboratory equipment.

Foursome Economy

The boxing question came originally from the student body, following the elimination of the interscholastic boxing program at Cal Poly, then came a petition signed by 1,460 students, the College Senate, with the recommendation that boxing be reinstated.

The student council at its April and May meetings, with a recommendation that boxing be reinstated, but was not publicly discussed.

The recommendation of the Student Affairs Council for approval of re-initiation of intercollegiate boxing was approved by the board.

Inadequate Edifice

A committee of students and faculty members was established, which those attending heard John Murray R. Rennet, professor of education, speak at the morning assembly on "Our Educational Challenge." O. W. Fillerup, executive vice president, Council of California Growers spoke on "The Farmer Looks At His Image." The afternoon general assembly was to focus on "Education," who spoke on "Goals and Applied Sciences has 46."

"The American Guernsey Club announced that the "Blackwater" Guernsey dairy cow, Polytechnical Department, was an official production record. "Quintet" was a junior four-year-old and registered Guernsey cow, Polytechnic Department. The record was for 10,600 lbs. of milk and 878 pounds of fat. The milk and fat produced by the "quintet" was a junior four-year-old and registered Guernsey cow, Polytechnical Department. The record was for 10,600 lbs. of milk and 878 pounds of fat. The milk and fat produced by the "quintet" was a junior four-year-old and registered Guernsey cow, Polytechnical Department.

Cal Poly's unique project concept of "learning by doing" and "earning while learning" has been progressively developing since 1924.

COEDUCATIONAL LIVING carries over into studying in Trinity Hall. Here, Marlene Carr and Bob Hauler use the recreation room to ponder a few passages from a textbook.

Math Department Holds Workshop

Two workshops in arithmetic with the purpose of helping in-service teachers will be held on campus from July 8 to August 10 and will be sponsored by the Math Department. There will be two workshops, the first running from July 8 to August 10, and the second from August 8 to August 10. No college credit will be granted, but professional credit of one and one-half quarter units or one semester credit is granted to the teachers participating. Registration is required for each week of satisfactory participation.

Library Remains Open For Bookwormshippers

The library is maintaining regular hours during summer months, opening Monday through Thursday from 8:30 a.m. to 10 p.m., Friday from 8:30 a.m. to 6 p.m., Saturday it is open from 8 a.m. to 5 p.m. and Sundays from 1 to 10 p.m.

Bewildered

Each week Mail Matters will feature "The Answer Men's, a column designed to answer any questions students and faculty may have regarding their work. All questions should be submitted to the editor in the mailbox at the office of the State Arts Building.

Summer Session gets Praise From Students, Instructors

Summer session brings new faces, new hours and new reactions. Classes six days, a week with hour and one-half sessions and longer breaks compared with traditional courses at occasional places. It would seem that there were complaints at this rigorous schedule but on the whole the students and instructors expressed enjoyment of summer session.

The reasoning behind this could be derived from social science instructor Ralph Dills' statement: "I like teaching summer school better than any other quarter in the year. The classes are smaller. The regular students who are willing to stay in school in the summer are more sincere." The early rising doesn't bother Dills, he said, "I'm a country boy, and like going to bed early and getting up early."

Elmo Goffstein, home economics instructor, added: "I have another explanation, you get through classes faster. Don't forget, the students who graduate upon completion of the four-week session say, 'Summer school isn't bad. Aside from the fact that you go to school nine months out of the year and this is the time to relax, it's all right. Grades are easier to get because you have less time to forget.'"

Don Muller is taking classes here this summer, he said this session, "I have two classes, and it's easier to concentrate on only two subjects." Two girls majoring in animal husbandry, Shells Grazer and Carolyn Vanwell both stated they like the summer session too. Miss Grazer said she "enjoys it very much. It's more concentrated, and you remember information because you don't have time to forget it." Miss Vanwell enthused: "I think early classes are nice, I get them all over in the morning."

Rachel Wilson, a first grade teacher working for her bachelor's degree, commented, "I enjoy it here. Summer school, it's easier to be a student than a teacher. I said I'd never come back to school and here I am." Mrs. Wilson is the wife of education instructor Irvin Wilson.

Jack Dahlberg, G.O. major, is going to summer school so that he may graduate by next June. He says of summer school: "Right now, it seems to be all right. I don't have a 700 class, so it isn't so bad."

Another G.O. major from Columbia, South America, Maria Stacrietta, says: "The classes in the summer are too long. I don't like getting up early in the morning." Miss Stacrietta came to Cal Poly after she graduated from high school in South America. Now that she has graduated here, she says that she can get a practical as well as scientific background in G.O.

El Mustang will publish two editions during this four week course. The first edition will be published Thursday, July 5th; the second one July 12th. Both editions will be published.
Budding Journalist's Convocation on Campus

The Journalism Department in co-sponsorship with the Wall Street Journal's Newspaper Fund has invited the first annual Wall Street Journal's Journalism Scholarship.

At the gala event, the Wall Street Journal is displaying its coverage of world events, including the Vietnam War. The event features a panel discussion with journalists and editors, including Pulitzer Prize winners and editors. The event is open to students and members of the public.

Out Of The Din

Dear Editor:

I recently learned from the local newspapers that our distinguished President, Julian McPhee, has stepped down. The announcement was made by Governor Brown to the Agricultural Labor Committee. As a member of the Agricultural Labor Committee, I believe this is the right decision. The problems faced by California's agricultural communities are complex and require strong leadership. Governor Brown has a wealth of experience in public service and is well-suited to address these challenges.

Sincerely,
[Your Name]
