Position vacancies

Vacant faculty positions at Cal Poly and the Cal Poly Foundation are announced in this column and are posted outside the Administration Building. Contact those offices (State: Adm. 118, ext. 2236 or job line, ext. 1353; Foundation Administration Building, ext. 1121). Cal Poly hires only individuals lawfully authorized to work in the United States. All interested persons are encouraged to apply. Vacant Faculty or Staff positions offer to obtain an application. Official application forms must be received by 4 pm of the closing date or be postmarked by the closing date. Fax applications will not be accepted in lieu of official application.

Meal, University Art Gallery, Dexter.

 glide, "The California Language Teach­

ear Joint Commodities and Management, possible positions available during 1994-95 AY. Master’s in construction management or related field required. Minimum required five years teaching and practical experience in con­

lent and construction operations manage­

thinning, pruning, and agroforestry, which involves planting a combination of trees for fiber and plants for food. The talk was supported by Central Rock Re­

Source Conservation Development and the California Division of Fire and Pre­

Brick Road, a short distance north of the University of California, San Luis Obispo. In the closing date. Faxed applications will not be accepted in lieu of official application.

Presentations helped identify com­

tress in support of science, math, and engineering education at predominately under­

graduate universities.

A number of National Science Foundation (NSF) grants have come to the university. For example, Cal Poly is currently sharing a $25 mil­

lion NSF grant with a coalition of re­

search universities to improve under­

graduate education. For five years President Baker served on the NSF Executive Com­

mittee and chaired the standing com­

mittee on Programs and Plans. He also was chair of the Polar Research Committee that oversees all U.S. ac­

tivity in the Antarctic. President Baker was charged with directing NSF reviews of the Na­

tional Supercomputing Center, the Earthquake Engineering Research Center, the Southern California Earthquakes and Freshwater programs, and a number of other national programs.

Board chairman James Duderstad, president of the Univer­

sion of Michigan, landed the retiring members for making sure the NSF "enhanced and shaped its support of key areas of science and engineering education ... and worked diligently towards the goals of increased participa­

tion of women, minorities, and the disabled in all areas of science and engi­

neering activities."
Spring Craft Fair to benefit Craft Center

The ASI Craft Center has scheduled its annual craft fair from 9 a.m. to 4 p.m. Wednesday through Friday, June 1-3, in the patio at the Transit Center.

The money raised by the event will be used by the Craft Center to make improvements and repairs to find special activities.

Tickets to be sold include beaded jewelry, stovepipe, candles, pots, and incense.

Exceptional leadership topic of presentation

Arthur Lange, a professor at UCLA and UC Riverside, will present "Exceptional Leadership in Time of Competition and Changes." From 12:10 to 2 p.m. Wednesday, June 1, in UU 220.

Lange will discuss how to create organizations without boundaries, how to operate an effective team, and how to do more with less.

A well-known speaker, Lange has given more than 5,000 presentations on management and professional groups.

He teaches in the Executive program at UCLA and UC Riverside.

He was formerly an administrator and professor at UC Irvine, where he received the Outstanding Teacher Award.

Those attending may bring a brown-bag lunch. Drinks and cookies will be provided.

Pedersen recognized

Food Science and Nutrition Professor Mary Pedersen has been selected an honorary member of the Tassels Chapter of Mortar Board Inc.

The chapter of Mortar Board chapter can bestow, recognizes distinguished contributions to the advancement of the goals and purposes of the organization.

For more information, call the Music Department at ext. 2607.

New program to offer English instruction

The new program to teach English to people whose native language is something other than English will begin June 20, coinciding with the start of Summer Quarter.

"Programs in English Preparation," offered through English Education, includes classes in reading, writing, grammar, speaking and vocabulary. Depending on enrollment, classes in American conversation, business English, computers, U.S. government, and TOEFL exam preparation might also be offered.

Five levels of instruction will be offered during summer, fall, winter and spring quarters. Students will be placed in classes according to their level of language ability, and class size will be limited to 15 students.

For more information on enrollment, call the International Programs office at ext. 1477.

Program designed to help employees, families cope

The new Employee Assistance Program (EAP) offers confidential counseling and referral services in a variety of areas to all Cal Poly employees and their families.

The services are free and are aimed to help employees deal with problems that interfere with work performance or that could create health problems.

Supervisors and managers are encouraged to refer employees to EAP when performance or morale seems to be declining. This could be a valuable early-intervention approach to maintaining employees' well-being.

Bob Negriante and Jean DeCosta are available to help with marriage-related problems, legal problems, substance abuse, stress management, personal-emotional issues, family problems, financial problems, interpersonal conflicts, career development, and job-related issues.

To make an appointment with Negriante or DeCosta, call ext. 0327 (O-EAP). The EAP offices are in Rooms 188 and 190 in the Health Center.
Jazz Night at Cal Poly planned for June 3-4

The upbeat sound of big-band music as well as more-intimate, improvisational sounds will be heard in two performances at 8 pm Friday and Saturday, June 3-4, in the Theatre.

Jazz Night at Cal Poly, under the direction of music professor William Johnson, will feature the 23-member University Jazz Band plus saxophonist Paul Carman and the Jazz Freshmen quartet.

Composer-performer Bill Liston will be the featured guest soloist. Liston plays the saxophone, flute and clarinet.

Musical highlights will include several pieces by Liston, including “Jerry’s Tune,” “Talking Bigger Trout,” “All Things Old and New,” “Pay Day Be Good,” “Sopranino Dixie” and “One Step Up.”

Other selections will be “Pullin’ Punches” by Les Hooper, “It’s Not Nice to Fool Mother Nature” by John Prince, and “Open Wide” by Don Ellis.

Concert-goers will be treated to a variety of musical styles that include swing, shuffle, samba, jazz rock and jazz ballads.

Carman, a former member of the Frank-Zing quartet, is a consultant to the University Jazz Band. Carman and the Jazz Freshmen perform frequently on the Central Coast.

Tickets for the concert are $5 for students and senior citizens and $8.50 for the public. They can be bought from 10 am to 4 pm weekdays at the ASI Ticket Office, in front of the Recreation Sports Building, and at the Theatre Ticket Office. Tickets can also be bought from University Jazz Band members.

To charge tickets on Visa or MasterCard, call the ASI Ticket Office at ext. 5805. Tickets ordered by phone can be mailed or picked up just before the performance at the Theatre Ticket Office.

For more information, call the Music Department at ext. 2607.

New members installed in Phi Beta Delta

Students, faculty members and administrators were recently installed into Phi Beta Delta, the International Education Honor Society.

At the annual ceremony, keynote speaker Candace Zingg spoke about her research in the Amazon. Other speakers included Paul Zingg, dean of the College of Liberal Arts, and Adele Juarez of the Phi Beta Delta National Board.

New student members are: Scott Bolt, a social sciences student; Anna Cunningham, business management; Nasuko Hojo, computer science; and Lisa Morrison, social sciences.

The new faculty members and administrators include: Isaac Elimim- English, Patrice Engle, Psychology and Human Development; George Helfter, Agribusiness; Paul Hilpold, History; Isola Kokumo, Political Science; Fred Law, Music; Frank Negranti, Industrial and Manu-factoring Engineering; Kris Mores, Food Science and Nutrition; John Or-tij, History, Ramesh Shah, Mechanical Engineering; David Yang, Inter-national Programs; Paul Zingg, Libr-al Arts; and Malinza Zufacar, So-cial Sciences.

Program designed to offer English instruction

The new Employee Assistance Program designed to offer English instruction will begin June 20, culminating with the start of Summer Quarter.

“Programs in English Preparation,” offered through Extended Education, includes classes in reading, writing, grammar, listening, speaking and vocabulary. Depending on enrollment, classes in American conversation, business English, computers, U.S. government, and TOEFL exam preparation might also be offered.

Five levels of instruction will be offered during summer, fall, winter and spring quarters. Students will be placed in classes according to their level of language ability, and class size will be limited to 15 students.

For more information on PEP, call the International Programs office at ext. 1477.

Baker recognized for 9 years of service on NSB

President Baker has been recognized for his nine years of service on the National Science Board (NSB), which oversees the National Science Foundation’s $4 billion budget and advises the President and Congress on federal science and engineering policies.

Earlier this month, President Baker and seven other members retiring from the board were cited for their work in "a period of unusual challenge and opportunity in the support of U.S. scientific and engineering research and education.”

During his term, President Baker said he worked to reshape board policy to enhance the support given for science, math, and engineering education at predominately undergraduate universities.

A number of National Science Foundation (NSF) grants have come to the university. For example, Cal Poly is currently sharing a $25 million NSF grant with a coalition of research universities to improve under-graduate engineering education.

For five years President Baker served on the NSF Executive Committee and chaired the standing committee on programs and plans. He also was chair of the Polar Research Committee that oversees all U.S. science and engineering research projects to support engineering education and valuable support.

Named as students of the Year were Kevin Browne, an ecology and System Biology and Geology, a speech communication senior.

The flags in front of the Administration Building will be flown at half staff Saturday through Tuesday, May 28-31, to commemorate Memorial Day and to honor America’s war dead as well as Cal Poly students, faculty, and staff who died during the 1993-94 school year.

Individuals recognized for aid for disabled

Two Cal Poly employees, two students, and two members of the community were honored by Disabled! Student Services and ASI’s Disabled Students Unlimited.

Laura Freberg, a professor in the Psychology and Human Development Department, was named Faculty Person of the Year. Dr. Randell Ball, a local psychologist was recognized as Community Liaison Person of the Year, and Jane Bailey of Morro Bay was named Volunteer Reader of the Year.

Those honored were cited for their outstanding support to students with disabilities and each received a plaque and citation at a recent annual awards luncheon.

Named as students of the Year were Kevin Browne, an ecology and System Biology and Geology, a speech communication senior.

In memoriam

The flags in front of the Administration Building will be flown at half staff Saturday through Tuesday, May 28-31, to commemorate Memorial Day and to honor America’s war dead as well as Cal Poly students, faculty, and staff who died during the 1993-94 school year.

President Baker was charged with directing NSF reviews of the National Supercomputing Center (NSB), the Earthquake Engineering Research Center, the Southern California Earthquakes and are a number of other national programs.

Board chairman James D. Duderstadt, president of the University of Michigan, led the retiring members for making sure the NSF "enhanced and shaped its support of key areas of science and engineering education and worked diligently toward the goals of increased participation of women, minorities, and the disabled in all areas of science and engineering activities.”
