Peace Corps Is 'Shaping Up'

By Desi Slay

Cal Poly Peace Corps is literally shaping up! With approximately 1,000 new Peace Corps trainees arriving at their projects each day, the Peace Corps Physical Education Department is gearing up to conduct a weeklong training course for the Peace Corps trainees. At the end of the course, the trainees will have learned the philosophy of the program, the purpose and the needs of the Peace Corps, and how to apply these to their own unique cultures.

The philosophy of the program is to promote physical education in all countries. The Peace Corps trainees are expected to learn about different cultures' education systems and how to adapt their teaching to fit those cultures. They will also be taught how to identify and correct common physical education problems in different countries.

At the end of the 13-week training course, the Peace Corps trainees will be ready to return to their projects and begin their work. They will be working with students, teachers, and school administrators to improve physical education programs in their host countries.

The Peace Corps Physical Education Department is working hard to ensure that the trainees are well-prepared for their work. They are being taught how to teach sports, dance, and other physical education activities. They will also be learning how to communicate effectively with people from different cultures.

This weeklong training course is just one part of the Peace Corps trainees' preparation. They will be learning about the Peace Corps' philosophy, the host countries they will be working in, and how to apply their knowledge to their work.

The Peace Corps is an important part of the global community. It is dedicated to promoting peace and understanding through education and cultural exchange. By providing a weeklong training course for its trainees, the Peace Corps is helping to ensure that they are well-prepared to make a positive impact in their host countries.
**EDITORIAL**

**Extend The Coed Curfew**

Cal Poly coeds are irresponsible. The administration and Housing officials have tried to warn them for months but one or two of them have been totally uncooperative. In some cases, the administration, in an attempt to save the administration, has failed to curb the students. The students have been given the option of being thrown out or relegating themselves to the quiet streets in the evening. The students have chosen the quiet streets.

Disabled Veterans Receive Increase
In Compensation

Disabled veterans of both World Wars and the Korean War will receive an increase in compensation for their disabilities. The increase will range from $225 to $260 a month for an unmarried veteran, depending on the severity of their disability.

VOICE OF THE STUDENT

By Michael Pennington

Michelle Tanaka, who is a senior at Cal Poly, has been working hard this semester. She is currently a member of the Alpha Phi Omega fraternity and has been involved in many campus activities. Tanaka has also been working on a project for her English class.

WE'RE NOT ALONE

Noo Yawk Survey Proves
Colleged Kids Kant Spell

New York City College students are not the only ones to struggle with spelling. A recent survey conducted in New York City shows that only 25% of the students are able to spell a word correctly. The survey was conducted by the New York Public Library.

**SPORTS**

Plumas Wins Intramural Wrestling Tournament

**Intramural Grid Teams**

The sixth week of intramural wrestling matches opened with the traditional Grid action. The matches were held at 5:30 P.M. on Tuesday at the College Gym.

**Track Stars Needed**

Williamson Looking Ahead.

**Mormen Grab Third in State Meet**

The Western water pole vault finished its season last Wednesday with a third-place finish in the state meet. The season ended with the team's third-place finish in the state meet. The team had a successful season, finishing third in the state meet, with five students qualifying for the state meet.

**Crops Takes Top in Intramural Turkey Trot Race**

Mader's Chester Jepson walked, or more accurately limped, with first place in the first annual Crops Turkey Trot Race.

**Hancock Wallops Calf Grids 60-6**

Hancock Jc. Caf. Calieswhis won the first annual Hancock Calf Grids race with a 60-6 victory over the Calf Grids. The race was held at the College Gym.

**Mustangs Dump Gauchos; Tie For Third in CCAA**

In a somewhat unusual move, the Mustangs defeated the Gauchos in their first meeting of the season. The Mustangs' victory over the Gauchos was expected, but the score of 74-64 was a bit surprising.

**Harriers Finish In Cellar**

Harriers finished in the cellar of the CCAA conference after losing to the Mustangs in their first meeting. The Harriers' loss was expected, but the score of 74-64 was a bit surprising.

**Turkey Trot Race**

The Turkey Trot race was held last Saturday in Morro Bay, California. The race was won by Deuel Hall in third place. The contest was taken over by Doug Y. and after the new quarter begins, the Mustangs look to do well in the upcoming season.
