The Culture Barrier

We need a bigger little theater. Why have administrators that organization less than 10% of the student body?

These were among the comments made when the plans for the Little Theater and Music Building were first

...and it probably gave them a feeling of security knowing that the audience acknowledged them by only slightly more

...and the try "Being more culture to Cal Poly." Yes, that's the idea. It is more dangerous to do that than the idea of doing something...and we have that advantage. The raw tissue of their tissue could be amputated, emptied, or improved by the multitude of stories watching them.

If you expect to have more cultural activities and a bigger building, we had better start attending and appreciating the activities we do get.

Show Doesn't Fit

Regarding Your editorial in Jan./Feb. Mustang:

The shows don't fit. I doubt that the State Board is having much of a problem with theater or music. Your statement is not true.

We're asking only that the Poly Royal Queen be represented on the Student Body. This has been done in the past and is still done at many other schools.

It should be stated that the Poly Royal Queen should represent the women of Poly. The Poly Royal Queen is the President of the Student Body. She can be a female. She is not supposed to be a male. She is supposed to be a woman.

...and the opportunity to participate in the Queen's activities and the opportunity to be a part of the royalty.

Our Poly Royal Queen

Let's Have Beauty

Last year the Poly Royal Executive Board promised a plan, took it to the Student Affairs Council and succeeded in getting it passed. This plan was in the selection of our candidates for Poly Royal, and allows only sophomore girls to run for the office.

And the best part of the plan is that it allows only the top 25% of the senior girls to run.

"Candidates for queen must be either the top 25% or the top 20% of their class in academic standings."

Why only seniors? Any coed at the school should be able to be eligible for the honor. If a girl can obtain a specified number of signatures on a petition and get a sponsor, she should be allowed as a candidate. This is the way it has worked in the past and it is still done at many other schools.

"In this way the Board would not have to ask girls to be coeds or be eliminated because the candidates that have been selected, as in the past year, last year.

Last year the voting took place at the polls for the queen, it was one of the most historic in the history of the event. And it was a beautiful thing, but it was too bad that they don't have a fair and representative chance to select their real candidates.

It's funny how the complaint is always heard about the administration making no decisions and not

"In an effort to help and educate people who have nothing but a love of the country in mind, we are establishing a leadership organization to help others who care about the situation to help and educate people who have nothing but a love of the country in mind.
