**Allocation Of Funds Looms As Main Election Issue**

By JUDY KENT

At Cal Poly the 21-year-old Asst. Manager of the Humane Society, was also accompanied by a group of Cal Poly students who help in the operation of the club. Members of the club, following the merger of the ASB, will hold its annual banquet on May 7 at the campus of the Southern California University. The banquet will be held in the Student Center at 2 p.m.

The evening will also include the presentation of the Spring activities of the Western Electric Manufacturing Club (WEMC). An award of $100 will be presented to the club for the best annual banquet of the year.

**The Fee Increase Controversy**

Pros

1. Provides a definite budget from which the Finance Committee can work with more efficiency.
2. Will reduce and in many cases eliminate admission fees to group events.
3. Will reduce the money spent at present by a person who is modestly active in campus events, by more than $20 worth of entertainment for $15 per year.
4. Increases value of ASB card.
5. Fee has been the same since 1950 while cost of living has increased 3.9 per cent.
6. Incense due to increasing enrollment is not sufficient to do any more than make up for increasing costs.
7. Decreased enrollment will encourage more students to participate in activities.

Cons

1. Additional yearly cash outlay of $5.
2. May mean that an admission fee will be imposed for non-students, and thus becomes an additional expense.
3. May mean that an admission fee will be imposed for non-students, and thus becomes an additional expense.
4. No single budgeted group of the miscellaneous categories would benefit more than $200, with the average around $125.
5. Some fees are charged for concerts, plays, group exhibitions and Poly Royal activities. Why so many and not for others?
6. No single budgeted group of the miscellaneous category would benefit more than $200.

In addition, but these expenditures are still subject to student approval.

For the voter who wants to know the reasons why the vote may be necessary, the following are some of the arguments presented:

**Activity Key**

Deadline Today

Applicants for fall semester in the junior class of the San Luis Obispo campus of the University of California at Los Angeles, must have applied for admission by May 1. The deadline for applications for admission to the campus is May 1. The deadline for applications for admission to the campus is May 1. The deadline for applications for admission to the campus is May 1.

Mr. A. B. Cameron has petitioned for election to the eight-man student government at the campus. Mr. Cameron is a junior majoring in economics and has been active in student activities at the campus. If elected, Mr. Cameron will be the first student to represent the junior class on the student government.

**IEEANNEU**

**Electronics Chief To Speak**

At Pomona Poly, K. G. Cameron, vice president of WEMA, will be the guest speaker at the May 24 meeting of the Electrical and Electronics Engineering Society (EEES). The meeting will be held in the Student Center at 2 p.m.

**Homescoming Still Needs '63 Theme**

The Fullerton College Social Committee of the Fullerton College Union is seeking a theme for the 1963 Homecoming. The theme will be chosen by the Executive Council meeting tomorrow at 2 p.m.

**AC Student Wins Grant To Harvard**

G. R. G. Cameron, a senior at Cal Poly, has been awarded a $1,000 scholarship by the Associated Students of Poly, and will be attending Harvard University in the fall. The scholarship will be used to finance the cost of tuition and books.

**Surprise Stomp To Port San Luis**

The College Union Social Committee of the Cal Poly College Union will be holding a surprise stomp at Port San Luis, in the Freeport Building, on May 7 at 8 p.m.

**Poly Pomona Wins Max Short Award**

The College Union Social Committee of the Cal Poly College Union will be holding a surprise stomp at Port San Luis, in the Freeport Building, on May 7 at 8 p.m.

**Administration Plays With Student Tinker Toy**

What will they do with the toy?" says the Administrative committee, "nothing. The administrative committee, machinery moves into action with this toy, so one will know for certain. But some imaginative schemes are being considered.

The first design of the toy is a simple one, with a few small parts. The parts are made of wood and are fastened together with screws. The toy is designed to be played with by children.

"It puts a little something on it and lets our students tinker," suggests the administrative committee. "Or make it into an outdoor safe — viva le France!"" (France was one of many stations the Administrative committee considered.)

"It would appear to be a relatively novel place to display the toy," says Robert Robert, president of the Administrative committee. "It would appear to be a relatively novel place to display the toy," says Robert Robert, president of the Administrative committee. "It would appear to be a relatively novel place to display the toy."
SAC Officials, Editor Debate Fee Increase Fund Allocation

President, Committee
Favor ASB Card Boost

Who was a remote recommended? The above reason included circulation of false information by a number of communications to correct the errors and confusing and misleading wording on the official form. To correct this, the ballot itself, if read at a glance, appears to ask, "should the students fix a $30 fee per year student body fee? What it does not say is that there is already a $45 per year fee which makes a total increase of only $15 per year for $30 per year fee is the maximum allowable by state laws.

Some suggest the use of an activity card to be purchased by the student body fee. This would provide further reduction or elimination of cost to events. This apparently list price, however, is certain faults. First, there is no way of knowing how many students would buy the card each quarter, making it difficult to break even an efficient budget. There would be no such problem with a fee increase budget.

Second, there would be unnecessary administration costs involved which could be provided by a fee increase.

Lastly the activity card could not provide enough funds to meet the needs of the student groups whereas the fee increase could come closer to meeting these.

The reasons for a fee increase are many, some are concrete and some are difficult to explain. The main ones are:

The location of Cal Poly requires that it provide its own program. Increasing costs have made this difficult to the cost of living has gone up so much that a new activity fee was approved in 1952.

Budget groups are being restricted because of a lack of funds. The fee increase would add to nearly all budgets whether music, rodeo, college union, or others.

Restoration of the balance in the ASB card and thus encouraging more students to participate.

Administrative savings (reduction of ticket-selling, booking, printing, etc.)

Of course, the fee increase would provide $30 per year fee as the most feasible.

What should you do? First it is important to be sure that you believe in what we believe. Unofficial sheets and sheets signed by obscure organizations should by frequently present what they want you to see and not necessarily their truth. If you are in doubt as to what is correct, ask a member of the Student Affairs Council or ask at the Administration building.

One point to remember. If you favor the fee increase, as many do, but are against the proposed allocations speak your mind. Write to the Student Affairs Council of your ideas, with regard to what you think the purposes and than the Council must be informed in all of our suggestions.

You may find the facts carefully and after you have, we hope that you, too, will vote YES on the fee increase.

Wanderers Record Folk Singing Discs:

On Way To Success

Folk singing for fun and profit is a growing national movement. Last week the Wanderers, record-making group of Cal Poly, returned from a ten-day trip to the West Coast, where they presented two programs of folk singing in major West Coast centers. The group was composed of 36 members and was sponsored by the college's Folklore-Music Program.

The program was a success and the group received a standing ovation at the end of the program.

Five Outstanding Students, Beck Are Honored

In Betsey Kinman

Well-earned school honors were notched on the third annual Animal Husbandry Departmental banquet to be presented by the students of the department. A total of 244 students attended the banquet, which was held at the Elks Club.

Awards presented by Dr. L. A. C. Sanger, department head, were as follows: The David F. Wofford Award—awarded to an outstanding student in the area of animal husbandry—was presented to Arthur Ross, a junior. The J. C. J. Wofford Award—awarded to the outstanding high school student in the area of animal husbandry—was presented to Frank Cooper, a senior.

The John W. Smith Award—awarded to the outstanding junior in the area of animal husbandry—was presented to Marvin Beck, a junior. The John W. Smith Award—awarded to the outstanding senior in the area of animal husbandry—was presented to Kay Meisgeier, a senior.

The most popular student of the year was John Beck, a junior. The most popular student of the year was Kay Meisgeier, a senior.

The banquet was attended by the departmental faculty and other guests.

Instructor Sells Educational Article

Mrs. Betty S. Sanger, Elementary School Director, has sold her book to the American School for England, a private English school in London. The book is entitled "The English Language Arts," and is one of the books in the series for the American School for England.

The book contains 12 modules, each containing one complete unit of study. Each module is divided into two parts:

- Part I: Language Study
- Part II: Language Practice

Modules are interwoven at the beginning of each chapter. Each module contains a minimum of 400 words of text, with questions and exercises. NoDoz tablets are also included.

The first half of the program will cover English grammar, spelling, punctuation, usage, and mechanics. The second half will cover writing, reading, and listening.

The book is written for American students who are preparing for American college entrance exams or who are preparing for American college entrance exams.

The book also contains a comprehensive review of English language arts, including reading, writing, grammar, punctuation, spelling, and mechanics. It is written for American students who are preparing for American college entrance exams or who are preparing for American college entrance exams.

The book is also written for American students who are preparing for American college entrance exams or who are preparing for American college entrance exams.

2 Printing Students Get Scholarships

Two printing students, Mark Johnson and John Smith, were awarded scholarships by the American Printing Hall of Fame. The scholarships are awarded to outstanding printing students who are attending college in the United States.

Mark Johnson, a senior, will use the scholarship to continue his education at the University of Illinois. John Smith, a junior, will use the scholarship to continue his education at the University of Wisconsin.

Both students are members of the American Printing Hall of Fame. They have been active in the organization and have contributed to the advancement of the printing industry.

Strange Facts About Diamonds

Did you know that diamonds are the hardest物质 in the natural world? Diamonds are made up of carbon atoms arranged in a hexagonal lattice. This structure gives them their hardness and durability.

Diamonds are also known for their beauty. They are often used in jewelry and are considered a symbol of love and commitment.

In fact, diamonds have been used for centuries as a symbol of love and commitment. The ancient Greeks believed that diamonds could protect the wearer from evil spirits and diseases.

Diamonds are also known for their rarity. Only about 100,000 diamonds are found in the earth's crust at any given time. This makes them very rare and valuable.

Diamonds are also known for their value. A single carat of diamond can cost thousands of dollars. This makes diamonds very valuable and desirable.

Diamonds are also known for their history. Diamonds have been used by kings and queens for centuries. They have been used as crowns, jewels, and other items of wealth.

Diamonds are also known for their use in industry. They are used in industry to cut and grind hard materials such as glass, metal, and plastic.
**Cinderella Take Victory From San Fernando State**

Cal Poly's shorted track squad ran in a 116-35 victory here Saturday over the San Fernando Valley State Matadors as Mike Ferguson grabbed three events to pace the Mustangs. Ferguson won the high jump at 6 feet 8 inches, the long jump at 20 feet 6 inches, and the 100-yard intercollegiate hurdles in 14.2.

**Mustangs Drop Pair At Fresno**

Mustangs dropped a pair at Fresno Relays as freshman Jim Ferguson grabbed three firsts to pace the Mustangs. Ferguson won the high jump at 6 feet 8 inches, the long jump at 20 feet 6 inches, and the 100-yard intercollegiate hurdles in 14.2.

**Laville Sets Javelin Mark At Fresno Relays**

New Mustang, Cal Poly's newest track star, set a new school mark in the javelin throw at 74 feet 2 inches at the Fresno Relays. Laville's throw also bested the old record set by Lance Ford, who threw 69 feet 11 in at the 1970 CIF meet.

**WIN FINAL GAME**

**Armchair Athletes**

I suppose that every spectators feels familiar to seeing day after day, its intriguing early morning weather, the challenges of new teams and their players. But I have to say, the scene is not always easy to watch.
