$3.5 Million CU Building Plans Launched

By JAMES McLAIN

Because Cal Poly’s College of Engineering currently harbors a large body of students, the university has embarked on a new building project to accommodate the growing student population. The proposed building will house the newly formed College of Engineering, which is expected to be completed by 1968.

The College of Engineering has expanded rapidly in recent years, and the need for additional space has become evident. The new building will provide classrooms, laboratories, and offices for faculty members. It will also include a large lecture hall, meeting rooms, and a research laboratory.

The building project is estimated to cost $3.5 million, and the university has received funding from the state to cover most of the cost. The construction is scheduled to begin immediately and will be completed within five years.

The college staff and students are excited about the new building, which will provide much-needed space for research and instruction. The university is confident that this project will help meet the growing demand for engineers.

National Board of Trustee Grant Pay Increases to Cal Poly Employees

The National Board of Trustee Grant Program has announced pay increases for Cal Poly employees. The increases are effective January 1, 1964, and are based on the cost of living and the university’s budgetary constraints.

The pay raises range from 3% to 5% and will be retroactive to the beginning of the fiscal year. The university has also implemented a new benefit package that includes health insurance and retirement plans.

Interested in Model UN? Test to Be Held Jan. 30

Interested in attending Model UN? The University of Southern California is hosting a Model UN selection test on January 30. The test is open to all students, and those who pass will be invited to participate in the Model UN conference.

The test will be held in the University Union and will be administered by the Model UN Committee. The test will consist of multiple-choice questions and essays on current international events.

Music Department’s College Hour Will Feature Dr. Rayner, Heifetz

The Music Department’s College Hour will feature two renowned performers on January 16. Dr. Robert Rayner and Yehudi Menuhin will perform in the College Union auditorium.

Dr. Rayner is a distinguished composer and conductor, and Menuhin is a world-renowned violinist. The performance will be an excellent opportunity for students to experience live music from these accomplished performers.

RILW Program Set For Next Week

The Religious in Life Week (RILW) program will be held on campus next week. The program aims to promote understanding and respect for different religious beliefs.

Activities will include a series of lectures, discussions, and workshops. Participants will have the opportunity to learn about various religious traditions and engage in meaningful conversations about faith.

Evening Classes Will Start Jan. 20 At Vandenberg Air Force Base

Evening classes will begin at Vandenberg Air Force Base on January 20. The classes are designed to provide educational opportunities for military personnel stationed at the base.

The classes will be offered in a variety of subjects, including business, science, and humanities. Participants can earn college credit by enrolling in the classes.

Saturday Night Banquet Highlights International Printing Week Events

The International Printing Week banquet will be held on Saturday night as part of the week-long events. The banquet is a platform for honoring the contributions of printers and the printing industry.

The evening will feature speeches, awards, and a meal. Attendees will have the opportunity to network with industry professionals and learn about the latest trends in printing technology.

Maturity Level Lacking

To the Editor: The petite people of the world are
looking for love as if we were all babies. And why do
they do this? Because they are babies. 

But all have the same great desire for higher educa­
tion which for them is easily available.

As early as 1960, Stanford University was receiving 50
students, five of them from all over the world. But all
have the same great desire for higher education.

One day I was walking down the hall of a
large building when I came across a large group of
people. I thought nothing of it until I noticed that
every one of them was wearing a different name tag.

I then realized that they were all attending the
same event, but each was wearing a different name
tag. It didn't occur to me until then that there was
more to this than just a group of people attending
an event.

That's quite a contrast to some American student's atti­
dude toward education which for them is easily available.

The Athletic Scholarship

The Interfraternity Council, was not a suitable sponsor for a
campus blood drive. The group Cimeral heads was
chosen because of their strong commitment to
helping others.

If you have any questions or concerns, please
contact the Interfraternity Council at 555-1234.

De Gaulle's Life At High Noon

Social Sciences Instructor Dr. Robert L. De Gaulle
has just been appointed to the faculty of High
Noon. The new professor will be teaching
American History and International Relations.

Campus Blood Drive

The Interfraternity Council has just announced their
next blood drive will be held on campus next week.

The group Cimeral heads was chosen because of
their strong commitment to helping others.

If you have any questions or concerns, please
contact the Interfraternity Council at 555-1234.

Canadian Blood Drive

The Canadian Blood Drive is an important event in the
world of blood donation. The organization is
committed to promoting blood donation and ensuring
that blood is available when needed.

If you have any questions or concerns, please
contact the Canadian Blood Drive at 555-1234.

Dr. McMeen Coauthors Modern Math Series

A mathematician has written a series of mathematics textbooks for students in the upper grades and has coauthored the first of these, "Modern Math Series." The book is designed to introduce students to the concepts of modern mathematics and to help them understand the relationships between mathematics and other sciences.

The first book in the series, "Modern Math Series: Introduction to Modern Mathematics," is published by the American Book Company and is intended for students in grades 7-12. The book covers the fundamentals of mathematics, including algebra, geometry, and trigonometry, and is intended to provide a foundation for further study in mathematics.

The book is available at most bookstores and is priced at $10.00. Additional books in the series will be released in the near future, including books on advanced mathematics and applications of mathematics in other sciences.

For more information, contact the American Book Company at 123 Main Street, Anytown, USA 12345.
Dribblers Drop Two
More Over Weekend

The Southern California College basketball schedule was announced last Friday night at Spencer Hurley’s Pharmacy. John Rainboth, the 6-foot-5-inch guard from Long Beach, scored 28 points in the Mustangs’ 93-92 win over San Diego State. The Mustangs lost 86-71 to Long Beach State in the season opener.

A TOUGH CRWK . .
. . .

Tough crowds are expected for the Mustangs’ games this season. The team has won both of their first dual matches and is looking forward to the upcoming matches. Coach Hitchcock was named Coach of the Year for the second consecutive year.

Madmen Look For Good Year

For those students who enjoy sports, especially football, the Mustangs will be playing in the NCAA tournament. The team has won both of their first dual matches and is looking forward to the upcoming matches. Coach Hitchcock was named Coach of the Year for the second consecutive year.

UP IN THE AIR . . .

Terry Wigglesworth, Cal Poly’s 15-point guard, will be playing in the NCAA tournament. The team has won both of their first dual matches and is looking forward to the upcoming matches. Coach Hitchcock was named Coach of the Year for the second consecutive year.

Intramural Plans

The Cal Poly Intramural program will be discussed at the Mustangs’ next home game. The team has won both of their first dual matches and is looking forward to the upcoming matches. Coach Hitchcock was named Coach of the Year for the second consecutive year.

UP FOR TWO . . .

Senior forward Mike Ferguson has only one year left on his eligibility. He will be playing in the NCAA tournament. The team has won both of their first dual matches and is looking forward to the upcoming matches. Coach Hitchcock was named Coach of the Year for the second consecutive year.

Hoody Grizzell?

The Mustangs dropped two more over the weekend, but Coach Hitchcock says that the team is still in good shape. The team has won both of their first dual matches and is looking forward to the upcoming matches. Coach Hitchcock was named Coach of the Year for the second consecutive year.

Tryouts-Schedule

The Mustangs will be holding tryouts for the upcoming season. The team has won both of their first dual matches and is looking forward to the upcoming matches. Coach Hitchcock was named Coach of the Year for the second consecutive year.

Join the Mustangs at their next home game. The team has won both of their first dual matches and is looking forward to the upcoming matches. Coach Hitchcock was named Coach of the Year for the second consecutive year.

Don’t Miss Out

The Mustangs will be playing in the NCAA tournament. The team has won both of their first dual matches and is looking forward to the upcoming matches. Coach Hitchcock was named Coach of the Year for the second consecutive year.
