SAC Approves Feb. 26, 27 Election Ballot

By LANI CAIN

Students Affairs Council approved eight propositions to appear on the ballot for the Feb. 26 and 27 election at a meeting on Tuesday night.

The SAC will hold an election on Tuesday Feb. 26 at 10:30 p.m. and Wednesday Feb. 27 at 10:30 p.m. in the College Library. All students who are registered and in good standing will be allowed to vote.

The election will allow students to propose and vote on new policies and changes to existing ones. The SAC will consider these proposals and vote on their approval.

The eight propositions approved by the SAC include:

1. A resolution to create a Student Life and Engagement Committee.
2. An amendment to the Student Conduct Code.
3. A proposal to increase the student body's involvement in community service projects.
5. A resolution to create a Student Resource Center.
6. An amendment to the Student Fee Allocation Policy.
7. A motion to increase the budget for student clubs and organizations.
8. A resolution to establish a Student Senate.

The election will be held in the College Library from 10:30 p.m. to 3 a.m. and again from 3 a.m. to 2 a.m. on Wednesday, Feb. 27.

The election is open to all registered students who are in good standing. Students are encouraged to participate and make their voices heard.

For more information, please contact the Student Affairs Council office.
Hawaiians Outline Luau Preparations

The date for the annual Hula Dance at Cal Poly has been set for April 13, in the Recreation and Lounge Area Building. Charley Oka, local manager of the California Association of Nurserymen, was recently honored when the California Association of Nurserymen made a donation of $100 to the school. The donation was in recognition of the school's efforts in the field of horticulture and was presented by Mr. Oka, who is also a member of the California Nurserymen's Association.

Crops Classes Study Ranching Practices

A study of crops, planting, pest control, and general field management is being conducted by students at Cal Poly. The study is being conducted under the supervision of L. J. Miller, who is responsible for the crops section of the school. The study will be conducted in cooperation with the California Crops Production Commission, and will include the examination of various crops, such as wheat, corn, and potatoes. The study will also include the examination of the effects of various farming practices on the crops.

Letter Writers Lacking

Letter writers are a strange breed of people. They seem to have a knack for infusing their words with a sense of elegance and poetry. However, it is a rare letter writer who is able to maintain this level of quality throughout the entirety of their correspondence. In fact, it is a downright rare feat to have a letter writer who is able to consistently produce letters that are both powerful and thought-provoking.

U.S. Students Aided by Foreign Study

Nearly 13,000 American students attended foreign universities during 1968, while 13,000 foreign students were enrolled in American schools. The total number of foreign students in American schools has rapidly grown in recent years, and is now close to the number of American students in foreign schools. The rapid growth of foreign students in American schools is due to a number of factors, including the increased number of foreign students in American schools, the increased number of American students in foreign schools, and the increased number of American students in foreign schools.

There are a number of factors that contribute to the rapid growth of foreign students in American schools. One factor is the increased number of foreign students in American schools, which is due to the increased number of foreign students in American schools, the increased number of American students in foreign schools, and the increased number of American students in foreign schools.

Another factor is the increased number of American students in foreign schools, which is due to the increased number of American students in foreign schools, the increased number of American students in foreign schools, and the increased number of American students in foreign schools.

In addition, there is a significant increase in the number of American students in foreign schools, which is due to the increased number of American students in foreign schools, the increased number of American students in foreign schools, and the increased number of American students in foreign schools.

Finally, there is the increased number of American students in foreign schools, which is due to the increased number of American students in foreign schools, the increased number of American students in foreign schools, and the increased number of American students in foreign schools.

These factors, combined with the increased number of foreign students in American schools, have contributed to the rapid growth of foreign students in American schools.

X-CHANGE

By Lynne Norum

CAL POLY POMONA... Jerry Coffin, co-chairman of the All-Poly Weekend on the Cal Poly Pomona campus, had this to say about it, "In this, the first of the All-Poly Weekends, we students have a unique opportunity to give birth to a tradition which will last as long as our college itself."

FRESNO STATE... The Fresno State College Digest takes this opportunity to congratulate the All-Poly Weekend organizers on a successful event. The Digest is pleased to see that the organizers have taken the time and effort to ensure that the weekend was a success. The Digest is confident that the event will be remembered for years to come.

AMERICAN RIVER... The only way this country will ever have a free press would be to outlaw advertising. If this is the federal government's solution to the problem, then I'm in favor of it. I believe that a newspaper should not be expected to support itself financially by selling advertising.

GEORGE WASHINGTON UNIVERSITY... President John F. Kennedy has donated to the university a series of slides, stories, and lectures about the French Revolution. Though 2,000 copies, President Thomas H. Clifton, president of the university, received her bachelor of arts degree here in 1951.

UCLA... There was no lack for fun and fun-filled events last week. There was a fashion show, a dance, and a number of other events. It was a great week, with a lot of fun and enjoyment.

**Gymnastics Team Home Debut Tonight**

Cal Poly gymnastics team will host Long Beach State, winners of the last 11 weeks in the CCAA, tonight at 8 p.m. in the McLean Fieldhouse.

The Mustangs, now 2-3 this season, have been working hard to prepare for this meet. So far they have scored well against CSU at Long Beach and Cal State at Monterey. Fans are encouraged to support the team with their presence.

**Impressive Outlook For '64 Cindersmen**

In order to complete schedule, that UT, while not Montroy-Penelope, Gary Walker, another star from the area, should be a good looker for the National Championships. Walker has engaged for the second time for the last week and is expected to be a contender for the title.

The year's schedule features four home meets and one away meet, with the Mustangs upcoming. By virtue of his 38 points, Horwath has a good shot at making the team. But the team is not without a league win, due to the team's strong performance. Horwath has scored 578 points in his league career, breaking the school record of 677 held by Horwath himself.

**Mustangs Win One; Face 49ers, Aztecs**

With the Mustangs feeling a little weak, they were able to avoid another upset loss to the 600 mark. However, Horwath has a good shot at making the team. But the team is not without a league win, due to the team's strong performance. Horwath has scored 578 points in his league career, breaking the school record of 677 held by Horwath himself.

**Brown Testimonial Scheduled Feb. 26**

A testimonial for Ed Brown, who played with the National Team, will be held in the McLean Fieldhouse on Feb. 26 with a small meet at 7 p.m. The event will be open to the public.

**Preseason Considerations**

Probably the biggest news in the area will be the story of the Webber from Pomona. With the senior portion of the team still in that area, the Mustangs should face some tough competition. But the team will be well trained and prepared for the season.

**CCAA Roadmap**

Because of the 16 point scored, that game brings a CCAA record. The Mustangs are 2-6 this season, but they are still in the hunt.

**Conferences**

After winning the first two, the Mustangs are still looking for their third conference win. They have scored 12 points in that event.

**WAA News**

Feb. 11 is the day for WAA. The previous game of the season. It was mounted on the team's season. The team is in championship form and looking to make a statement.

**Diamonds**

How Much Should You Spend For A Diamond?

Diamonds come in all shapes and sizes, and the right one for you depends on your personal preferences and budget. There are several factors to consider when choosing a diamond, including its cut, clarity, color, and carat weight.

1. **Cut**
   - The cut of a diamond affects how well it reflects light, which determines its overall appearance. A well-cut diamond will appear larger and more radiant than one that is poorly cut.

2. **Clarity**
   - Clarity refers to the presence or absence of internal and external blemishes in a diamond.越高越好.

3. **Color**
   - Color is another important factor to consider. Diamonds are available in a range of colors, from colorless to yellow. The color of a diamond can affect its value and appearance.

4. **Carat Weight**
   - Carat weight is a measure of a diamond's size. Larger diamonds are more expensive, and the price typically increases with carat weight.

5. **Setting**
   - The setting is the part of the ring that holds the diamond in place. Different settings can affect the appearance of the diamond and the overall look of the ring.

6. **Style**
   - Style is a personal choice, and there are many different styles to choose from. Some people prefer classic settings, while others prefer more modern or unique designs.

The total cost of a diamond can vary widely depending on these factors. It's important to set a budget and work with a jeweler to find a diamond that fits within your price range and meets your personal preferences.
