**Midwife Parrish Delivers Cal Poly Baby**

By LYNNE MORE

"Well, I'll be a cow's heart", exclaimed Midwife Parrish as she took hold of the heavy black and white heifer and began to deliver the Cal Poly baby. The cow wasn't the only one to enjoy the experience; the students were overjoyed with the birth of a calf. The heifer, named "Bessie", was born at 4:30 a.m. on a cold but clear morning. The midwife, known for her calm and professional demeanor, assisted the cow throughout the process.

"I was surprised at how much easier it was with the cow," Parrish said. "The cow was calm and cooperative." She went on to explain the importance of midwives in caring for farm animals and helping them through difficult deliveries.

The newly delivered calf, a vigorous and healthy newborn, was given a warm welcome by the students. Over the next few days, Bessie and her new calf will be tended to by the student veterinary medicine students, who are eager to learn more about the care and maintenance of farm animals.

**Residence Hall Rules Re-Evaluated; Coeds More Mature: Bostrom**

By DON LEM

New rules for residence halls have been re-evaluated with a more mature approach. Officials explained that the rules are designed to prevent student misconduct and encourage a positive community atmosphere. An excessive number of points may now be given for failing to keep rooms clean, according to the revised rules. The annual national meeting of the Women's National Democratic Committee was also recognized, as well as the campus radio station, WTPU, for their participation in the event.

**Ag Engineers To Recognize Student Chapter Saturday**

The Southern California Chapter of the American Society of Agricultural Engineers will present the Ag Engineering Unit of the College of Agriculture with the College Engineering Unit Award at a meeting sponsored by the Agricultural Engineering Club. The event will be held at 7:30 p.m. in the College of Engineering auditorium. The Ag Engineer Unit will receive the award for its contributions to the college and the community.

**College Hour Concert To Feature Pianists**

Robert Davidson and Ronald Dodson will perform in the College Hour Concert, presented by the Music Department. The concert will feature a variety of music, including pieces by Schumann, Beethoven, and Mozart. The pianists will perform solo and in duo的形式, showcasing their talents and presenting a varied program for the audience.

**Who's Who Includes 33 Cal Poly Seniors**

A new list has been compiled by the Cal Poly alumni association, naming the 33 seniors who will be included in the "Who's Who" list. The list includes students from a variety of majors, including engineering, business, education, and the arts. The seniors will be honored at the annual "Who's Who" banquet, which will be held in the Little Theater Building on May 1st.

**Radio Club Ranks High In Contest**

The Cal Poly Amateur Radio Club ranked high in a recent national contest, earning a place in the top 10. The club, which is a member of the American Radio Relay League, has a long history of success in such competitions. The members are proud of their achievements and are looking forward to continued success in future contests.

**Food Fight Brings Apology Note**

After the recent food fight in the cafeteria, the students have received an apology note from the administration. The note expresses regret for the inconvenience and承诺 to improve the food service. Students have mixed reactions to the note, with some feeling it was a necessary step, while others feel it doesn't go far enough.

**Journalists Attend CNPA Conference in San Diego**

Members of the Cal Poly journalism school attended the California Newspaper Publishers Association (CNPA) conference in San Diego. The event included presentations on various topics, including government and freedom of the press. The students had the opportunity to network with professionals in the field and learn about the latest developments in journalism.

**Ag Ed Club Seeks Design For Official Poly Royal Badge**

The Cal Poly Agriculture Club is seeking a design for an official Poly Royal Badge. The club is looking for a creative and unique design that will represent the club's spirit and values. The badge will be worn by members at events and is an important part of the club's identity.

**Pomona Conference To View Civil Rights**

A conference in Pomona will focus on civil rights, including issues of race, gender, and sexuality. The event is being held to raise awareness about these issues and promote understanding and acceptance. The conference will feature speakers and discussions on a variety of topics, including affirmative action and the impact of discrimination.

**Dairy Department Cow Brings $1,125 At Modesto Sale**

A cow that was part of the Cal Poly dairy department's herd was sold for $1,125 at a Modesto sale. The cow, which was a Holstein, was one of several dairy cattle that were sold at the event. The proceeds from the sale will be used to support the dairy department's programs and initiatives.

**Antisub Day Thursday Tops Engineering Week**

Engineering Week culminated on Thursday afternoon with an antisub day event. The event included presentations on the history and impact of antisub warfare. The guest speaker was a former engineer who worked on antisub projects during World War II. The event was well-attended and received positive feedback from attendees.

**Who's Who in the News**

- Nikki Hoffman and Bruce McCullough married.
- Shoes and Spurs.
- The Kiwanis Club installed officers.
- John Brown is the new manager of the campus radio station, WTPU.
- The College of Agriculture was recognized with the College Engineering Unit Award.
- The Ag Engineer Unit of the College of Agriculture will receive the award for its contributions to the college and the community.
- The Music Department presented the College Hour Concert.
- The "Who's Who" list for Cal Poly seniors has been compiled.
- The Radio Club ranked high in a recent national contest.
- The Dairy Department cow brought in $1,125 at a Modesto sale.
- The Antisub Day event was held during Engineering Week.

Few Active Students

We have often heard the complaint that the same few students are doing all the high-powered campaigning for the things that are needed on this campus. The complainers say that a fraternity of students energize all the high positions, rendering other students unimportant in beneficent efforts. And whereas there is some truth in this statement, the high-powered efforts of several of those privileged persons seem always to get the job. And this is true, for we are all aware of the student who works to the utmost of his ability only to be cast aside by another student, just because the latter is acquainted with some official, or because he is a member of some organization that no one else belongs to.

From the average Cal Poly student's point of view, the same few students bring in the count in his favor because of poor grades. An additional 301 second semester students because of poor grades.

The average Cal Poly student probably never will reach the leadership level in the college's realm, for in his case sacrifice the time, effort and money needed to do the job. Nor does he seem to have the ability, initiative, or responsibility, or even the interest in community activities, to achieve these goals. He is too busy cheating that adjustment degree, which to him guarantees a soft job, a comfortable existence, and free time in the garage.

The average Cal Poly student participates in two activities more than likely he is just conscientiously not one of leadership or active participation. There is a difference.

The first beneficial no one but the student himself, the second beneficial to the entire student body, the third he will meet in later life.

He belongs to that "hierarchy" because he wants to, and is willing and ready to devote the time and effort needed. Are you?

X-CHANGE

By Lynne Norum

SAINT MARY'S

The guidance service at the Bricks of this college is a thing of the past. In its place is a vending machine. It supplies 80 to 90 per cent of the entire student body due to the bookstores efficiency. The speed of the bookstore in investigations. An IBM business machine worth SANTA MONICA CITY COLLEGE . . .

If a weight problem is one of the best ways to make friends, discover interests and abilities, develop initiative during the college years is one of the best ways to make friends, discover interests and abilities, develop initiative and responsibility, and to learn how to get along with other people. He belongs to that "hierarchy" because he wants to, and is willing and ready to devote the time and effort needed. Are you?

Brothers Four Pass Through Men's Gym

By Minn Hilse

There was a different in the Men's Gym last Thursday afternoon in a group of four that has been a favorite of Cal Poly students. A follower is a general term of people of the same tastes or beliefs, but on this occasion there were a group of performers of the same opinions. There was no doubt that the four were performing their act. They had no need of a microphone, and even a performer who does have one need not use it when appearing in front of the university audience. There were high school students and college students, performing their act in front of college students. There were students who had bought tickets for the performance, and students who were just standing around the gym, including those who didn't have a seat.

The four boys had 1,000 customers and a hand of all those interested.

The performance proceeds that they should have had. The, that is, four hands, and even a performer who doesn't have one need not use it when appearing in front of the university audience. The four boys had 1,000 customers and a hand of all those interested.

The Brothers Four made their first Cal Poly appearance last Thursday night in the Student Union. They have been heard by students in many places, and have made their way around the country, playing to a mostly summer audience. They have played in many places, and will continue to do so in the summer.

When intermission came, a tall crew-cut fellow came to the front of the stage and said, "I'm from Los Angeles, California, and I'm a Cal Poly student. I've been hearing about the Brothers Four for a long time and I finally got a chance to see them tonight. I'm really glad I did. They're a great group of guys, and I think you should all go out and see them too."

Mr. Baker declared that he enjoyed the performance and that he would like to see them again soon. He added, "I hope they come back to Cal Poly soon. I'm going to tell all my friends about this show and make sure they come too."

Mr. Baker declared that he enjoyed the performance and that he would like to see them again soon. He added, "I hope they come back to Cal Poly soon. I'm going to tell all my friends about this show and make sure they come too."

Then he turned and walked off into the audience.

You were expecting maybe romance... glamour? Then forget about the Peace Corps. Glamour is not.

You're going to be right in there with monotony, library and an army of bloodthirsty mosquitoes. Helping people who have asked for help. You're going to work 16 hours a day and sometimes some of the people won't know what you're doing there in the first place. And you will see one fraction of the results you'd hoped for. But it's worth it when a kid in Nigeria understands what an alphabet is and some day will be able to use it. When a farmer in India gets chickweed with some meat on them for a change. Or when Colombian villagers learn to work together for the first time—and this new spirit of unity builds a health center. The Peace Corps works in 46 countries—not changing the world radically, but not leaving it the same, either. It's tough to get into the Peace Corps. But we'll be glad to check you out. Just write: The Peace Corps, Washington, D.C. 20525.

Jockeying Around

According to Robert E. Kennedy, Cal Poly vice-consulent, Cal Poly all-Americans have trained the last few days in preparation for meets coming up. Kennedy said that if you're going to train, you should train hard. The idea is to use any new strength you get from training to your advantage in competition.

The history of a new team football coach for a $25,000 salary, according to the annual report of the San Francisco Public Library, is that in 1890, the first football team was formed. The team was composed of students from the University of California. The coach was trained every day for only a month. When he entered the intermural trophy, he received a $50 award.

The two 20-year-old Oregon State coeds, winners of the silver and bronze medals, surprised everyone as they won the medals. Jacobsen donated his $50 winning back to the fund to give the ASB a $100 bonus. When the ASB asked if he would like to give more, he said yes.

The faculty members have complained that the college is still struggling with intramural sports. This is because the law of supply and demand; if there is demand for a sport, the college will pay for it.

ACTIVE STUDENTS

The Mustangs have expanded their intramural activities by adding new sports such as tennis, badminton, and squash. This has helped to increase the number of participants in these sports.

If you train hard and stay focused, you can achieve your goals. Don't give up!
