Reynolds statement on Proposition 111
(The June 5 ballot will include two propositions—111 and 121—which are of vital concern to Cal Poly. A series of articles between now and the election will explore the issues for Cal Poly Report readers.)

Dr. W. Ann Reynolds, chancellor for The California State University, has issued the following statement about Proposition 111:

"The California State University has had an enormous impact on the success of this state. More than one million people have graduated from the CSU since its formation in 1961, and they have gone on to be our state’s leaders in government, business, education and technological innovation. "The success of the CSU has rested in its ability to provide access for every eligible student who sought higher education. But our ability to continue providing a high quality education to future generations of Californians is threatened by an artificial limit on the state budget. Unless additional budget flexibility is provided through the passage of Prop. 111, the future of higher education in California looks very bleak.

"If Prop. 111 fails, there is no way the CSU will be able to provide classes and educational programs and hire the needed faculty and staff to serve the future needs of our state. The CSU currently educates more than 360,000 students. Over the next 15 years, that number will climb by 180,000 students — if we have the faculty, library books, lab equipment and staff to serve them."

"If we don’t, future generations will be deprived of an opportunity we now take for granted. The educational opportunities provided to California citizens have enabled this state to grow in many important ways, and have made it possible for current and past generations to fulfill their greatest potential. If future generations of students are denied the opportunity to succeed which has been available to past generations, our state — and all who live in it — will be deprived as well.

"The CSU is committed to providing access for all Californians who seek higher education. But we need the resources. Prop. 111 will make additional resources available without an increase in income taxes. Its passage could mean $400 million more each year for the CSU than would otherwise be available. That revenue will determine whether or not thousands of students have the chance for a college education."

Accrued leave policy calls for clarification
A recent article that appeared in the Cal Poly Report announced that the CSU board of trustees had amended current contracts with faculty and staff members to allow faculty to donate accrued sick leave and for staff to donate accrued vacation leave to fellow employees in the same bargaining unit who had depleted all leave because of catastrophic illnesses. While it is true that faculty members may now donate sick leave to their colleagues, as some staff employees have done, it is not true that staff members may now donate vacation leave. Employees in Units 2, 4, 5, 7 and 9 may still donate sick leave to members of their bargaining units.

Thus far, only the Unit 3 faculty agreement has been amended. Effective March 28, 1990, the CSU reached an agreement with the CFA (Unit 3 — Faculty) to amend (Cont. on Page 3)
Los Angeles artists set show in Galerie

Three Los Angeles artists will exhibit their works at the UU Galerie through Sunday, May 6. An artist’s reception will be held from 7 to 10 pm on Saturday, May 5, as part of the campus Cinco de Mayo celebration.

The three artists whose works will comprise the “Cross Fires” exhibit are Sandra Hahn, Armando Norte, and Willie Herron. Hahn is currently involved in computer digitized animation. Her “Replies of the Night” was featured in the “Dia de los Muer­tos” exhibition.

Norte works primarily in acrylics, but he uses other mediums as well. Herron has painted murals throughout Los Angeles. One was sponsored by the Los Angeles Olympic Organizing Committee and was featured on the Hollywood Freeway during the 1984 Summer Olympics in Los Angeles.

Viewing hours for the Galerie are Tuesday and Wednesday, 10 am to 5 pm; Thursday, 10 am to 8 pm; Friday, 10 am to 4 pm; and weekends, noon to 4 pm.

For additional information about the “Cross Fires” show call the Galerie, ext. 1182.

Moving Arts Dance Co. coming to Cal Poly

The Moving Arts Dance Company, one of Los Angeles’ newest modern dance troupes, will perform at the Theatre on Friday, April 20, at 8 pm. The program is being presented as part of the Cal Poly Arts CenterStage series.

The company’s co-founders, Janet Walker and Ann Keeling, are no strangers to Cal Poly. Two seasons ago they were guest choreographers for the Orchesis Dance Concert, and last May the two returned as guest artists for the Spring Invitational Dance Concert. The overwhelmingly favorable response to these appearances prompted Cal Poly Arts to bring them back with the full company of 12 dancers.

Breaking from usual concert format, Moving Arts incorporates vaudevillian opening acts and infuses wildly diverse musical ensembles into the program. They will also be teaching a master class. Those interested in attending should contact Dr. Moon Ja Minn Suhr, ext. 1169.

Tickets for the performance are $14 and $12 for adults and $12 and $10 for students and senior citizens. They are available at the Theatre Ticket Office between 10 am and 4 pm on weekdays. All seats are reserved.

Two speakers plan Pacific Rim talks

The Pacific Rim Speakers series will host two geographers during Spring Quarter. Gil Latz, executive director of the International Trade Institute at Oregon State University, will speak on Thursday, May 3, at 11 am in Dexter 227. His tentative topic is “Pacific Rim—Implications for Education.”

Terence McGee, director of the Institute of Asian Research at the University of British Columbia in Vancouver, will speak on Thursday, May 10, at 11 am in Dexter 227. His tentative topic is “Focus on the Pacific Rim.”

Polycat workshops

Workshops on Polycat, the Kennedy Library’s new online catalog, will be offered on Monday, April 23, 11:10 am; Tuesday, April 24, 11:10 am and 2:10 pm; Wednesday, April 25, 2:10 pm; Thursday, April 26, 1:10 pm. Workshops last about 40 minutes. Departments can request group training. Call Paul Adalian, ext. 2649, for more information.

Miles Davis sets April 20 concert

Legendary jazz trumpeter Miles Davis has been signed to play at Cal Poly at 8 pm on Friday, April 20, in the Mott Gym.

Opening act will be the electric jazz group Scott Henderson and Tribal Tech.

Davis began playing the trumpet at the age of 13. A year later he became a card-carrying member of the local musician’s union in East St. Louis, Ill.

After graduating from high school, Davis joined the Billy Eckstine band where he met Dizzy Gillespie and Charlie Parker.

In 1944, Davis moved to New York City, where he became roommates with Parker and began playing in Parker’s band. It was there he became friends with Gillespie, Thelonius Monk, and others, and began making his first recordings.

Recently, Davis was knighted in Spain by the prestigious Order of Malta, joining such greats as Frank Sinatra. He also received the award for lifetime achievement during the 1990 Grammy Awards show of the National Academy of Recording Arts and Sciences.

Tickets for the concert are on advance sale at the Boo Boo Records stores in Grover City and San Luis Obispo; Big Music in San Luis Obispo; Small Town Records and Tapes in Atascadero; and at the UU Ticket Office on campus.

Advance-sale prices for general admission tickets are $12 for Cal Poly, Hancock College, and Cuesta College students, as well as senior citizens, and $18 for non-students.

Five hundred reserved-seat tickets are on sale at the UU Ticket Office at $22.50 each.

All prices will be $2 more at the door.
Poly Royal parking
Faculty and staff needing access to campus between the hours of 8:15 am and 5:30 pm, Friday and Saturday (April 27-28) will need to show their Cal Poly IDs to get through the barricades. On-campus parking will be severely limited, so finding alternative rides to campus would be advised. Those who arrive before 8:15 am are asked to park in the outlying areas to help alleviate the parking problems.
Faculty and staff who normally park in the Davidson Music Center (G-4), Library (H-10), and Ag Circle (H-11) lots are asked to find other parking starting Thursday morning. Poly Royal will be using these lots for club activity areas and will blockade them at 6:30 am Thursday to start the set-up process.
Staff and faculty who normally park in the Health Center (C-7), lots (C-1 & C-2), staff part of G-1 and the lot behind Air Conditioning (C-5) are also being asked by Poly Royal to park elsewhere beginning Friday so those lots can be available for activities use, pedestrian circulation, and handicapped parking. The H-4, H-5, H-6, C-4, and C-10 parking lots are being reserved for faculty and staff members only until 9:30 am Friday and Saturday.
For those departments who have student employees or staff members who do not have Cal Poly IDs will need to send a request for a "student employee access pass" as soon as possible. The requests should be sent to the Poly Royal Office, UU 209, before Tuesday, April 24. Please be sure to specify the number of passes needed for each day. For additional information, call Bruce Sherman, ext. 2487.

Career workshop set for May 1, 8, and 15
The Career Planning Services Spring Workshop is set for May 1, 8, and 15. Scheduled from 3 to 5 pm in the Counseling Center (Bldg. 116), the six-hour workshop will help students clarify their interests, values, skills, and work environment preferences. There is no cost, and students are asked to preregister by calling ext. 2511. Students should plan to attend all three sessions.

Accrued leave

The current collective bargaining agreement. Article 24 of the agreement was amended and now includes provision .22 which states in part:
"A member of Unit 3 may voluntarily donate sick leave credits to another eligible member of Unit 3 who has exhausted all other accrued leave credits due to a catastrophic illness or injury. A catastrophic illness or injury is one that has incapacitated the employee and created a financial hardship because the employee has exhausted all accrued leave credits, e.g., sick leave for academic year faculty and sick leave, vacation, CTO, and holiday credit for 10 or 12 month faculty..."

Other guidelines apply and are outlined in the full text of the amended agreement.
At this time, agreements for employees covered in Units 2, 4, 5, 7 and 9 also have provisions for the donation of sick leave. Currently, no other employees are eligible to participate in such programs. If other changes occur regarding the donation of leave credits, that information will be published in a subsequent edition of the Cal Poly Report. If you have any questions regarding the donation of leave credits, please contact Robert Negranti, staff personnel officer, ext. 2236.

267 employees feted at awards luncheon
Cal Poly recognized 267 of its employees during the recent annual Service Awards Luncheon.
The top awards went to three faculty members who were honored for having completed 35 years on the faculty. They are Russell K. Anderson, Animal Sciences and Industry; Aryan I. Roest, Biological Sciences; and Glenn W. Salo, Agricultural Engineering. Also recognized for their years of employment at Cal Poly were 13 persons with 30 years of service, 15 with 25 years, 80 with 20 years, 63 with 15 years, and 93 with 10 years.
President Baker presented the awards in Chumash Auditorium during a luncheon sponsored by the University Club.
Others receiving awards include:

30-Year Service Awards -- Fred L. Clogston, Biological Sciences; James R. Flanagan, Animal Sciences and Industry; Janice M. Gould, Audiovisual Services; Bill G. Hart, Plant Operations; Donald W. Hensel, History; and Joyce C. Kalicicki, Teacher Education Service Center.
Also, Rodney G. Keif, Mechanical Engineering; Dale C. Lackore, Foundation Food Services; John W. McCombs, Electronic and Electrical Engineering; Richard F. Nelson, Biological Sciences; Herman E. Rickard, Dairy Science; and Fuad H. Tellew, Economics; and Melvin D. Thomas, Housing and Conference Services.

25-Year Service Awards -- Sabah A. Al-Hadad, Mathematics; Lawrence E. Baur Jr., Accounting; Edgar J. Carnegie, Ag Engineering; Arthur C. Duarte, Agribusiness; H. Paul Fountain, Crop Science; Teymoor Gedayloro, Physics; John A. Johnson, Plant Operations; and James S. Kalathil, Physics.
Also Don A. Morris, Education; Nancy A. Muir, Counseling and Testing; Duane O. Seaberg, Agribusiness; Mary L. Stallard, Physical Education and Recreation Administration; Russell L. Tice Jr., Chemistry; Neal R. Townsend, Mathematics; and William L. Van Wyngaarden, Physics.
Raymond F. Zeuschner of Speech Communication was master of ceremonies for the Service Awards Luncheon.
additional points for grades earned in these courses: non-honors A - 30, B - 24, C - 10; honors A - 45, B - 36, C - 15. Finally, for each college prep course taken above minimum CSU requirements the applicant receives 100 points.

Section II considers GPA and SAT scores. The high school GPA minus 2 is multiplied by 320. No points are awarded a student with a GPA of 2.0 or less. Points are also awarded equal to the combined verbal and math SAT scores.

Section III considers extracurricular activities and employment. The applicant can receive a maximum of 250 points for each depending on the time spent per week and the leadership or career-related aspect of the activity.

Bonus points are added as a percentage of the Sections I-III total. Underrepresentation in the major by sex is 10% and by ethnicity, 20%; a 22% cap is placed on those qualifying for both. Students in the local service area receive a 3% bonus. Five hundred points are subtracted for nonresidents, and California veterans who are CSU eligible receive mandatory acceptance.

Transfer student applicants

Section I evaluates courses taken and grades earned in 24 different subject areas, such as English, philosophy, physics, life science, chemistry, algebra, calculus, foreign language, political science, economics, psychology, etc. The GPA earned for courses in each subject area is multiplied by the number of semester units and by 20 (except in the cases of calculus-based physics and calculus in which 40 is the multiplier).

Transfer applicants have the opportunity to receive points for up to eight major related courses. Fifty points are added for each course that counts for general education (up to 17 courses).

In section II, the student’s GPA minus 2 is multiplied by 1,400.

Section III and the bonus points are identical to those described for first-time university students.

A preliminary analysis of the MCA for Fall 1990 applicants shows that the system effectively selected applicants based on academic qualifications. (Some apparent anamolies in scoring turned out to be caused by applicants incorrectly completing the supplemental questionnaire). They were corrected on a case-by-case basis. In a few highly impacted programs, however, it was discovered that the bonus points created an unintended imbalance in students selected.

As a result, I have sent personal letters to about 150 applicants that had not received bonus points and that we had previously rejected. I expressed regret for our previous admission decision and offered acceptance to the university. (In February, we had sent acceptances to over 4,000 applicants.)

Bonus points in Cal Poly’s multi-criteria admissions system represents one way of promoting educational equity. Let me express that we owe it to Cal Poly students to enrich our campus with human diversity. In consideration of the changing demographics in the state, for ethical, social, and economic reasons, higher education has the critical responsibility for vigorously pursuing educational equity.

What about academic qualifications of applicants accepted through MCA with and without bonus points? Let me present one example from our preliminary analysis. You can see in the Architecture Department that students with and without bonus points are excellent for ethnicity and/or gender. (See chart below)

A faculty committee selected by the schools’ Academic Senate caucuses has been established to recommend improvements to the current multi-criteria admissions system. School representatives are: LeRoy Davis (School of Agriculture), James Bagnall (School of Architecture), John Lindvall (School of Business), James Harris (School of Engineering), Norman Lerner (School of Liberal Arts), Dennis Nulman (School of Professional Studies and Education), and William Van Wyngaarden (School of Science and Mathematics). In addition, admissions issues and philosophies are being discussed in the Academic Deans’ Council.

Automated telephone system being used

The Cooperative Education and Placement Services Department has begun using a new automated attendant telephone system.

The equipment is being used to improve the effectiveness of the services it provides to students and to employers.

When callers using touch-tone telephones dial either ext. 2501 (Placement Services) or ext. 2645 (Cooperative Education), they will be asked by the automated attendant to enter the extension number or the last name of the person they wish to speak with.

They then receive instructions and a list of options from the automated attendant.

If a caller experiences difficulty, chooses the wrong options, or does not respond to the automated attendant’s request for action, the call is transferred to a staff member.

This feature also assists callers using rotary dial telephones.

The Cooperative Education and Placement Services Department is asking those who use the new automated attendant telephone system to share their experiences with Roxana Lopez, ext. 2501.

Facility workshops scheduled for June

The CSU Office of Faculty and Staff Relations has announced that several faculty workshops will be held the week of June 18-22 as part of the Teacher/Scholar: Summer Institute for CSU Faculty at UC Berkeley.

The workshops will offer subjects to assist full-time faculty in the pursuit of instructional and scholarly duties.

This year’s topics will include “An Introduction to the Mathematica Software;” “Teaching Non-native English Speakers;” “Discovering and Developing One’s Teaching Style;” “Teaching Values;” “Teaching to the Human Brain;” “Communicating Effectively With Culturally Different Students;” “Scholarly and Professional Writing;” and “Faculty Leadership and Organizational Skills.”

Enrollment will be limited. Interested faculty should contact Marilyn York in the Graduate Studies, Research, and Faculty Development Office, ext. 1508.

Applications sought for service projects

Cal Poly’s Community Service Awards Program is now taking applications from interested students for Fall 1990 service projects. Awards of up to $500 will be made. A major goal of the program is to encourage students to undertake community service projects that are related to their majors or career goals. Projects may be done on a volunteer basis or for academic credit upon faculty approval.

In previous years, students from all seven schools have received awards. Faculty cooperation has been instrumental in making students aware of this unique opportunity to serve, learn, and earn. Therefore, faculty are urged to announce this program in classes where appropriate.

The application deadline is May 8. Students interested in participating but lacking a specific project can receive assistance through the Community Connection data base of projects located in UU 217.

To obtain a brochure or for more details, contact Dr. Dianne Long, ext. 2984, or Sam Lutrin, ext. 2476. Application forms are available in UU 217.

Musical Vaudeville set for Poly Royal

Twelve Cal Poly students will take on the production and performance of The Poly Follies, the annual Poly Royal musical vaudeville show sponsored by the Music Department.

Four performances are being planned for Friday and Saturday, April 27 and 28. Curtain times will be at noon and 2:30 pm both days.

In years past, the show has had a cast of more than 100 performers, made up of students from the Cal Poly Choirs. But this year the choirs are participating in the London Study program.

The choir members remaining decided to put on a Poly Royal show anyway, and become “The Tremendous Twelve Tones.”

Once again, Robert Coltrin, a Cal Poly alumnus and former show director, has created, choreographed, and is helping direct The Poly Follies. Although he lives and works in the Los Angeles area, he has come up on weekends to help the Twelve Tones rehearse the show.

Tickets for The Poly Follies are on sale at the Theatre Ticket Office and the UU Ticket Office.
Symphonic, Dixieland Bands will perform

The Cal Poly Symphonic and Dixieland Bands will present Poly Royal performances on Friday, April 27, and Saturday, April 28. The performances will be at 8 pm in the Theatre.

In addition to the wild sounds of the Dixieland Band, the Symphonic Band will perform selections that include overtures, marches, classical masterpieces, popular tunes, and excerpts from musicals. William V. Johnson, a member of the Music faculty, will be on the podium.

General admission tickets for both band concerts are $6.50 for adults and $3.75 for students and golden agers. They are available at the UU Ticket Office, the Theatre Ticket Office, and from members of the Symphonic Band. They can also be ordered by calling ext. 2556 or ext. 2607 on weekdays from 8 am to 5 pm. Phone orders may be picked up immediately prior to the performance at the Theatre Ticket Office.

Advance-sale prices for general admission tickets are $14 each for students, senior citizens, and $16 for non-students.

Five hundred reserved-seat tickets are on sale at $18 each at the UCSB Associated Students Ticket Office, the UU Ticket Office at Cal Poly, and other selected outlets.

General admission prices will be $27 more at the door.

Those in attendance at the concert must be able to provide proof that they are at least 18 years of age.

Who, What, Where, When

M. Leroy Davis, Agribusiness, moderated a panel at a recent conference in Visalia for directors and managers of agricultural cooperatives. The panelists discussed problems and situations concerning board-manager relations.

C.A. (Tina) Bailey, Chemistry, attended a meeting in Washington, D.C. concerning Women and Minorities in Engineering. Bailey is one of three people representing the state of California on the Project Advisory Committee of the National Governors' Association. The goal of the group is to advise the NGA as to the best strategy to protect states' economic future by increasing the number of women, disabled and underrepresented groups in engineering.

John Stead, Industrial Technology, made a presentation, "Cal Poly's Interdisciplinary Minor in Packaging," to the Packaging Education Foundation board of directors at their meeting in Orlando, Fla.

Gerald L. Smith, Landscape Architecture, was appointed to the Advisor Board for Graduate Studies in Landscape Architecture, School of Architecture at USC.

Dianne Long, Political Science, participated on a roundtable panel on "Conducting Workshops for High School Teachers" at the recent meetings of the Western Political Science Association in Newport Beach. She also delivered a paper, "Local Government Experiments in Water Delivery."

John Culver, Political Science, chaired a panel on "Criminal Justice Issues in State Courts," at the recent Western Political Science Association meetings in Newport Beach.

Angie Estes, English, had a poem, "The Brain," accepted for publication in The Chariton Review.

Hernan Castellano Giron, Foreign Languages and Literatures, has published an essay, "Signos de Modernidad en las Novelas de Pedro Prado," in Hispamérica, No. 52.

Philip Fetzer, Political Science, delivered a paper, "Reversing Discrimination: The Politics of Language" at the recent Western Political Science Association meetings in Newport Beach.

W. Stephen Mott, Graphic Communication, served as a judge in the 1990 Texas Graphic Excellence Awards competition in Dallas, sponsored by the Printing Industries Association of Texas.

Katherine Barthels, Physical Education and Recreation Administration, has had the third edition of her textbook, "Biomechanics: A Qualitative Approach for the Study of Human Movement," published by Macmillan Publishing Co. Accompanying the text is a comprehensive instructor's supplement, which aids the teacher in developing courses with different perspectives.
Spring enrollment estimated at 16,396

Spring Quarter 1990 enrollment is estimated at 16,396 students, a decrease of nearly 1,300 students compared with the Fall Quarter enrollment of 17,657 students. Final Spring Quarter figures will be available in late April.

Historically, Fall Quarter enrollment is the university's highest with declines occurring in Winter and Spring Quarters.

For Spring Quarter 1990, the full-time equivalent (FTE) student estimate is 13,790, a decrease from last fall's FTE of 15,658.

Phyllis Davies to be 1990 honored guest

Phyllis Davies, a woman who has dedicated her life to helping people help themselves, will be the honored guest at the 58th annual Poly Royal festivities on Friday and Saturday, April 27 and 28.

A wife and mother, Davies is also a speaker, author, poet, and businesswoman. Her book, "Grief: Climb Toward Understanding," has brought her national acclaim and numerous TV and radio appearances.

It is a moving and uplifting story of how she turned grief into growth as she learned to live again after the death of her son, Derek, in a midair collision near San Luis Obispo in August 1984.

She is a co-founder of the San Luis Obispo County Compassionate Friends. She also is a Hospice volunteer, who often helps with support groups for friends and families who are dealing with death.

Davies earned a degree in agricultural business management in 1966 from Cal Poly, and has held a wide variety of jobs from teaching school in the Watts area of Los Angeles to teaching modeling for John Robert Powers.

A former ranch hand, she produced and directed a TV movie on the cattle industry.

Since 1969, she has been a specialist in property management and building rehabilitation in The Davies Co., co-owned with her husband, Bill. They live on a farm near San Luis Obispo.

As Poly Royal honored guest, Davies will make a short presentation at the opening ceremonies at 10 am on Friday, April 27. She will be hosted by members of the Poly Royal executive board on a tour of the campus and at festivities that will include lunch at President Baker's home.

Pizza restaurant to open on campus

The Burger Bar and Mustang Lounge in the UU will be converted to a restaurant that will serve pizzas prepared on the premises, an extensive salad bar, and specialty items.

The plans include indoor and outdoor seating for 132 people, a small stage for performing groups, a sound system and a jukebox.

Expected cost of the project, according to budgets prepared by the Cal Poly Foundation, is $150,000.

Anticipated completion of the restaurant is early next year. The Burger Bar will close in September.

Students win national flower judging title

Two students combined their talents to lead the Cal Poly team to the national championship at the 49th Intercollegiate Flower Judging Contest held recently in East Lansing, Mich.

Cheri Subler and Heidi Yoder placed one-two in the final individual placings to give the team a decisive victory over the contest's host, Michigan State University.

Virginia Walter of the Ornamental Horticulture faculty is the coach of the Cal Poly team.

Ralph Day

Ralph Day, a piano technician on the staff of Cal Poly's Music Department, died at his home in San Luis Obispo on April 3.

Day, 56, became a university employee in 1967. He worked in the Music Department throughout his Cal Poly career.

He was known among concert musicians as one of the state's finest piano tuners.

No services will be held. Donations may be made in his name to the Foundation for the Performing Arts Center, 1160 Marsh St., San Luis Obispo, CA 93401.

Eugene Romines

Eugene Romines, 75, a custodian from 1964-69, died April 6 in San Luis Obispo. He is survived by two daughters. Contributions may be made to the American Heart Association.

Hayward president

Norma S. Rees, vice chancellor for academic affairs, policy and planning for the Massachusetts board of regents, has been named president of Cal State Hayward. She will succeed Ellis McCune, who is retiring after serving as president for 23 years. Rees will take up her new duties this summer.

Daniel G. Aldrich Jr.

Daniel G. Aldrich Jr., 71, founding chancellor of UC Irvine, died April 9 in Orange. The only person in University of California history to head three UC campuses, he was Cal Poly's commencement speaker in 1963 and 1986.
Dateline... ($ - Admission Charged

THURSDAY, APRIL 19
University Club: William Little (Foreign Languages & Literatures) will show slides and discuss “From Disaster to Joy: My Year in Spain.” Staff Dining Room, noon.

Position Vacancies

Vacant staff positions at Cal Poly and the Cal Poly Foundation are announced in this column and are posted outside the respective offices. Contact those offices (State: Adm. 110, 805-756-2236 — Foundation Administration Building, 805-756-1121) for applications and additional position details. Both Cal Poly and the Foundation are subject to all laws governing affirmative action and equal employment opportunity. Cal Poly hires only individuals lawfully authorized to work in the United States. All eligible and interested persons are encouraged to apply. Applications must be received by 5 pm or postmarked by the closing date.

Closing Date: May 2, 1990

CLOSING DATE: May 2, 1990

Power Keyboard Operator, $1735-$2053/month; temporary leave replacement; FT through 9/27/90, HT through 5/31/91, General Office.

CLOSING DATE: May 9, 1990

Instructional Support Technician I, $2310-$2776/month, Chemistry.

ASI

CLOSING DATE: April 30, 1990

Assistant Recreational Sports Coordinator/Informal Recreation - SSPII, $29,928 annually plus ASI benefits package, 12-month. Starting date will be July 1, 1990. Recreational Sports.

Duties: Supervise informal recreation and fitness and leisure programs. Experience in planning and developing programs required. Experience in areas of management, staff supervision, fitness, safety and risk management required. Must have a degree in related field plus one year of directly related professional experience or bachelor's degree in related field and two years of directly related professional experience. Submit letter of application, resume, and list of references to: Selections Committee, Cal Poly Recreational Sports, San Luis Obispo, CA 93407.

Foundation

CLOSING DATE: April 6, 1990

Catering Service Assistant, $6.50/hour starting with increases to $8.14/hour based on merit. Food Service.

Luncheon scheduled

The Cal Poly Women's Club is planning a spring luncheon in the Garden Room of the Madonna Inn. The event will take place on Saturday, May 12, at noon. The cost of the luncheon is $10.50, and checks should be sent to Carol Huff, 7190 Lewis Lane, San Luis Obispo, CA 93401. For additional details, call Huff at 541-1589.

New bookstore hours

The El Corral Bookstore is now open extended hours. The new hours are Monday through Thursday, from 7:45 am to 7 pm, Friday from 7:45 am to 4:30 pm, and Saturday from 11 am to 4:30 pm.
