Traffic problems for Cuesta Grade project

Cal Poly faculty, staff and students will be affected when Caltrans begins work on Cuesta Grade on Sunday, Sept. 16.

Northbound lanes of Highway 101 will be affected during construction. Traffic will be detoured at Santa Rosa Street in San Luis Obispo along Highway 1 north to Highway 46 and east to connect with Highway 101.

The lanes will be closed on Sundays (9:30 pm to 6 am); Monday through Wednesday (7 pm to 6 am); and Thursdays (9:30 pm to 6 am). Highway 101 will not be closed Friday or Saturday nights.

The present alignment of Highway 101 over the Cuesta Grade was constructed in 1938. Since that time sections have been realigned, safety corrections have been added, and in 1975, small portions of the roadway were resurfaced.

The northbound and southbound lanes will be resurfaced, guard rails will be repaired and replaced, the concrete median barrier will be improved, and truck turnouts will be built. The project should be completed, barring weather delays, by the middle of November.

During the day motorists may experience delays, because one lane in each direction may be closed to work on the median barrier.

Faculty, staff and students are reminded that northbound Highway 101 traffic during closure will affect those who normally exit at California Blvd. or Grand Avenue.

Heavy traffic may be experienced at the Santa Rosa exit for access to the Highland Ave. entrance.
