Agricultural engineers host annual conference

Cal Poly will host the 46th annual meeting of the Pacific Coast Regional Section of the American Society of Agricultural Engineers. It was disclosed today by James Bennison, Ag. Mechanics Engineering Department head. Bennison is serving as chairman of the conference.

The Pacific Coast regional meeting will get under way under way April 14 and continue through April 15. This is the first time in 12 years that the ASA has met in California. Previous meetings were held in Oregon, Washington, Colorado, Colorado, Hawaii, and Arizona.

Applications are now being accep­ted by the Rotocadets for the 46th annual meeting of the ROTC program at a rate of $15 per student per year. The Rotocadets are a student organization that has been conducting the ROTC program during the past 20 years at Cal Poly. They have been conducting the program since 1927.

The Big question was answered March 29 when the students were asked if they would prefer to have a longer period between the Winter and Spring quarters. The majority of students preferred to have a longer period between the quarters.

“The students and faculties request a longer period between quarters, we believe this partially at the expense of Good Friday.”

The ROTC program for the 1966-67 academic year does not provide fifty instructional days in the Spring Quarter. Good Friday is an academic holiday, then we want to maintain the student body's opinion as to whether you would prefer the full academic holiday on Good Friday.

Two yearns, one of a teacher and one of a student. The teacher is James Merson, Head of the Agricultural Engineering Department since 1962. The teacher is the son of Mr. and Mrs. D.T. Oakland of Los Angeles.

Why college education?

Which is more important in college— education, the individual or the university? What is the purpose of a university education? To whom should a college education be available?

There were some of the points of discussion at the Cornell-Estonian Conference of students held at Cornell University in Ithaca, New York.

Norm Manus, a senior at Brown University, represented Cal Poly at the conference.

"Only ten American colleges were represented at this international conference of students. Of the ten, only two—Cal Poly and Stanford—were from west of the Mississippi," said Manus. According to Manus, there were 120 delegates from 46 countries at the conference, including one Russian student.

"I was placed in a small discussion group including delegates from Chile, Czechoslovakia, the Dominican Republic, England, France, Tanzania, South Viet Nam, the United Arab Republic, and Liberal College from America," said Manus.

The conference was composed of delegates from different kinds of colleges, some liberal arts, some technical, some theological, and some aesthetic. Manus was the only American college major at the conference.

The two topics of discussion for the students were: "What is the purpose of a university education?" and "How long will your university meet this responsibility?"

It was generally agreed that the university must meet the needs of society, satisfy the individual's goals, too, and increase the appreciation of culture, promote skills of learning, and satisfy the individual's goals, too. There was, however, certain controversy on the question of whether the university must primarily serve the goals and ends of the individual or of society.

Manus felt that the individual was most important and he was supported by a majority of the delegates in this viewpoint. A dissenting opinion was submitted by the Estonian student delegate who felt that the individual was of major importance in the university's work.

The afternoon and evening was also spent in discussion. The topics were: "To whom should a university education be available?" and "What is the role of the students inside and outside the university?". Most agreed that all who wanted an education should be allowed to have one, providing they were actually interested.

"At this point," said Manus, "I wanted to find out what the foreign university systems were like. As an example, the Czech student said that in his university they were held all over town, even in storerooms. Often students lived in the attics of homes. When I told them about the California college system, they were absolutely amazed."

As to the second topic, the discussion group felt that the student in the university must be a part of the individual, society, and industry. The student studies to learn; outside activities are secondary.

As the girl representing the Dominican Republic added a sidelight that in her country, Communist students spent more time working extra-curriculally than studying, the Liberian democrat students were just the opposite.

The fourth discussion session, concerning the future implications of colleges, proved "liberalization" according to Manus. "We found that delegates could do very little with what we learned at the conference individually, unless we could apprehend the position of power within our respective nations."

Although delegate Manus did not have to pay for either housing or food, the trip cost well over $90. "I was given $90 from Cal Poly and $100 from Western Fair Association to which I objected," said Manus. "For me it cost me, about $225-300, to pay personally for housing, food, airline ticket, and entertainment, so I am unable to justify my worthwhile experiences."

The recommendation of most of the five programs that Cornell held at the conference, was the reduction of Cornell students about three years ago and has been in the planning stage for two years after being approved by Cornell President Perkins, Cornell has over 1,500 foreign students.

DA NANG, VIET NAM—US Marine artillery and tanks landed yesterday at Da Nang in Viet Nam as part of a military buildup. The tanks and artillery are part of equipment of a third Marine battalion to arrive in Da Nang since March eighth and a fourth battalion is due shortly. Authorities in Washington say that about 15,000 troops, including some military police and army rangers, will be sent to Viet Nam to strengthen security at some 75 locations where Americans are based.

BERLIN—Authoritative sources in Berlin say East German People's Police mounted a US Army officer in week during the trouble on the autobahn. The officer was identified only as a lieutenant in command of a 24-hour US Army convoy. The incident reportedly comes following a clash on the autobahn.

NEW YORK—Former President Harry Truman yesterday described civil rights leader Martin Luther King as a troublemaker. Truman who's in New York to receive an award, made the comment to newsmen during his news walk. He also called the Ku Klux Klan a no good organization.

CHICAGO—the thunderstorms that scavenged the Midwest are getting weaker along the east coast. The Weather Bureau has cancelled the severe thunderstorm forecast for eastern Pennsylvania and parts of Maryland and West Virginia. However, there are a few well-defined thunderstorms in northern Alabama and the Weather Bureau warns of strong surface winds, heavy rain and the possibility of hail in the area.

ST. PAUL, MINNESOTA—Natural violence of another kind is plaguing Minnesota. An estimated 20,000 persons have been driven from their homes in the state's worst flood in history. Thirty-nine counties have declared a disaster area and three National Guard units have been formed into the little battle against the flooding.

BERLIN—The East German communists have closed the Berlin wall to allow West Berliners to visit their relatives for the Easter holidays. More than 400,000 persons have received passes for use between now and April 15.
Poly Royal button sale

Downtown San Luis Obispo merchants were first to "get the button." Fifteen hundred buttons were sold at the annual Poly Royal button sale, which opened the campus to visitors for the promotion of the 1965 Poly Royal open house celebration.

"The button is a means of publicity for Poly Royal," according to Everts. For those who wish to buy admission tickets, sales are scheduled to begin in the next few days.

According to cafeteria officials, the Stacks Bar will also be open on the Saturday morning of Poly Royal.

The annual Poly Royal barbeque is scheduled to be served between the hours of 11 a.m. and 1 p.m. at Poly Grove. For those who do not wish to eat outdoors, the staff dining hall will be open.

Student tickets will be honored at the staff dining hall that day if the student wishes to eat with his or her parents there, said Jack Bertram, dining hall manager.

The regular student meal ticket will be good for use at either the student dining hall or the barracks, but not for both, with no extra cost. Tickets for guests and those without meal tickets will cost $1.25 per person for the barbeque, according to John Lee of the dining hall staff. Barbeque tickets will be sold at various places around campus as well as at Poly Grove.

Another meal will be served in the student dining hall during the hours of 11 a.m. and 1 p.m. on that Poly Royal Saturday. Tickets, priced at $1.10, will be sold at the student dining hall to those who wish to eat there but do not have a meal ticket, said Lee. Lee added that the evening meal will be available at $1.50 for those who wish to eat there but do not have meal tickets.

Cafeteria officials also request that student organizations plan orders early for desired equipment and food supplies for that week so plans can be made.

Shouters sought for auction

Any male student who's a "real man" and wants to be an auctioneer for the Y-All Come Auction during Poly Royal should contact Corporal Hansman, chairman of the Auction Committee.

Professional assistance, if needed, will be available to the rapid student. Those who wish to auction at the "Y-All Come Auction" should contact Corporal Hansman, chairman of the Auction Committee.

The annual Poly Royal barbeque opened the campus to visitors numbering between 15,000 and 20,000 each year. Donations, scholarships, and prizes were distributed to the students who won them. The event was sponsored by the Home Economics Department in honor of the annual auction, "to create more public interest and to carry off the theme of Poly Royal," said Miss Hansman.

Place your bets, ladies and gentlemen, place your bets.

"I have ten, I have twenty. Twenty-one cents." And out of the disorganized confusion of the first few minutes correctly auctioned College Union Social Committee's Las Vegas Night, held last Friday night, in the College Union Dining Hall.

Cups, roulette, draw and wood poker, and blackjack were played by an estimated attendance of 400.

According to Harrison Clark and Carol Allington, "Waiting for a seat in the hardest seat."

Talents were jammed with eager players, and few were leaving them.

At 10:35 a show began, featuring Poly Moose and Pam, two who sang a medley of four songs: "Two Brothers," "Only One Thing," "Fare Thee Well," and "Hallelujah." They were followed by a candelight number consisting of seven costumed girls, who ended the 16 minute show by throwing play money.

Vicky Roden, Lyn I. Wiltz, and Donna Kolih, three of the dancing girls, told that of the original eleven, only seven of the girls lasted through the week-end.

The proceeds from the auction went to the Agricultural Education Department.
inside looking out . . .
Quota controversy fades away

by f. d. jeans

The Editor of El Mustang, Tom St. Onge, and this reporter went to a reception for the English and Social Science Departments Friday, but there were no newsworthy events to report.

The most important basic principle we learned as journalists is that “the people have a right to know” and that it is the newsmen’s responsibility to fulfill that right. Thus it was that we decided Friday afternoon to make a list of those questions about the enrollment quota plan which the members of the college community were asking and present them to the college administration for comment.

Miss St. Onge had asked for a press conference with college president Julian A. McPhee, who works previously but the president’s schedule had been too crowded to allow for one. All President Malcom Kemp had told her the Thursday before was that Mr. McPhee is always happy to see students when he is on campus.

We took the speedy new elevator to the president’s fourth floor office in the Administration Building. As we knocked at the door of room 407, a young light skinned, light hair man stepped from the next office and inquired if we were from the next office and inquired if we were to see the president.

His name was Howard West and he is assistant to the president. When we explained, he smiled and told us that President E. Kennedy. We entered the office of Vice President Robert E. Kennedy. We entered the office and asked the secretary if we could see the vice president. She said yes and asked if we had an appointment. She said yes and asked if we had an appointment.

We were down the hall to the office of the president, Robert E. Kennedy. We entered the office and asked the secretary if we could see the president. She said yes and asked if we had an appointment. She said yes and asked if we had an appointment.

Eight members of the Engineering Council for Professional Development (ECPD) visited Cal Poly last week. The purpose of their visit was to review various engineering departments in order to determine their eligibility for accreditation according to the criteria of the ECPD. The ECPD appraises engineering colleges in accordance with predetermined standards which are the most beneficial to the student.

It was called to the attention of the ECPD that Cal Poly’s program is different from the conventional accreditation program at other schools. On a state and national level, the program of the ECPD is intended to be diagnostic and to indicate to the engineering students.

In general, the eight men indicated that they were satisfied with the state of preparation. "It was as good or better than I anticipated," stated Dean Hayes. "It was as good as possibly better than they have experienced before."

Coach William Hick's varsity baseball team, shown here posing for team portrait, were rained out weekend in a rain Friday and Saturday. They were scheduled to meet Long Beach State.

**Football is here again; workouts start May 3**

A bumper crop of some 50 to 60 athletes are expected to report for the opening of spring football drills May 3 to begin a four-week session of tune-ups for the coming fall campaign.

Head Coach Sheldon Harden is all smiles at the mere thought of so large a turnout and with good reason. Last season when his Mustangs fell to the very abyss of gridiron existence with an 0-10 record, he had only a handful of recruits on hand in the spring. Traditionally the time when the signing off process is undertaken, it is important that the spring group be representative of the talent available there.

There is simply no time to try out newcomers in the fall when conditioning and the perfection of plays is the order of the day.

A group of seasoned veterans, some top prospects up from last year's frosh team and some interesting newcomers will form the nucleus of the squad ready to bust out on the 3rd. All of this has prompted Coach Harden to take on an optimistic view of the team's chance for next season. "We can do nothing but improve," he says, "if these guys come through for us."

Harden expects 28 returning lettermen to suit up, minus All-CCAA tackle Chuck Campbell who dropped out of school this quarter, but will be back in the fall.

Fred Richelieu, Bill Raabe, and hardnosed safety Bill Ward give the Mustangs three returning frontline quarterbacks. Other topnotch backs include Pat Beasley, Bruce McPherson, and Dave Edmondson. The latter returns to the campus in 1961 and may unseat Beasley this fall as the team's number one fullback.

In that event Beasley will probably be moved to one of the halfback spots.

The line will have a number of top returnees. Linebackers Dave Taylor, Jim Fragrasso, and another ex-Marine Connie Burger appear to have the inside track on the guard positions. Dick Fenster and Mike Forster will be tough to beat out at the tackles, and Harden has two good centers returning in Dave Paul and Ken Ramsey. The end post, however, will be hot hard at graduation and one weak at this point.

Fred Richardson and Bill Roberts, key man of the 1964 defensive corps, will be back, a fact which will make some snappy ball carriers a little wary of the coming season. Roberts, in particular, has been described as a "rugged Rock Of Gibraltar" by Coach Harden despite his 5'6", 150 pound frame.

A bevy of players up from the fresh ranks will put in serious bids for starting jobs. Ben Hagen has been talked of as one of the brightest prospects and should give real depth to 3rp fullback spot. Other aspiring freshmen include Inez Steve Archard, Jim Everitt, Jeff Carkovski, Rich Christy, George Caupin, and Denis Ervin; and former Terry Plaimegos, Charlie Gregory, and Rich Bondy. Harden is as high on some of these prospects that he claims that the performance of '66 grid team will largely be determined by their output.

A number of JC transfers and holdovers from last season are also expected to put a little more punch in the Mustangs this season.

Workouts will end on May 29 when the annual alumni game is held that night on Mustang Field.

Coach Harden urges anybody with high school experience that feels he has the background to play college football to come out.

**Rain halts tennis, baseball, track**

Poly's baseball, tennis, and track teams were rained out again by the weather over the weekend as rain halted their respective contests.

Coach Bill Hicks' varsity baseballers were forced to put away their spikes for the second week in a row. They were scheduled to meet Long Beach State at Long Beach for a single game on Friday and a doubleheader on Saturday. Last week it was the same story as they attempted to meet San Fernando State on the home field.

The track team remained at home Saturday due to the rainy conditions in Santa Barbara where they were to compete in a triangular meet with the University of California at Santa Barbara and San Diego State.

**Diablos down Poly duffers**

Amie Delue shot a remarkable one-under par 71 on the rain swept San Luis Country Club course to lead the Los Angeles State Diablos to a 50-4 victory over the Cal Poly Bobcats Thursday afternoon in the Mustangs' final home match of the year.

**And Today's EXACT**

Bill Payer is Thrift Check

An abacus or adding machine can help—but a Thrift Check® Personal Checking Account does more to keep budgets balanced, bills paid and personal finances in control. And it's all this simple: Write a Thrift Check to pay a bill, get a cancelled check to prove payment and have Thrift Check records to show what you spent and what's on hand. Pay less for each Thrift Check than for travelling to pay with cash. Save more time. Relax. What machine today could do more?

**Rained Out...** Coach William Hick's varsity baseball team, shown here posing for team portrait, were rained out weekend in a rain Friday and Saturday. They were scheduled to meet Long Beach State.
Sacramento Student Affairs Council (SAC) commends grappling coach for outstanding season effort

Cal Poly's Student Affairs Council adopted a resolution commending Coach Vaughan Hitchcock for his outstanding coaching of the nationally prominent wrestling team April 13. The resolution read:

WHEREAS, the 1964-65 wrestling team attained outstanding excellence this season, and
WHEREAS, a great part of this excellence is attributable to your coaching, therefore be it,
RESOLVED, that we members of the Student Affairs Council commend Coach Vaughan Hitchcock for a job well done.

These statistics back up this well deserved award:
- Tournament Champions
  - San Jose State Novice Freshmen
  - UCLA Invitational
  - California College Athletic
  - N.C.A.A. Freestyle Tournament
  - N.C.A.A. Western Regional Tournament
- NCAA College Division National Championship

For the third consecutive year Cal Poly dominated the California collegiate wrestling scene by maintaining its undefeated dual meet record over California colleges and universities, defeating each outstanding team as UCLA, San Jose State, University of California, Fresno State, Stanford, Long Beach State, and San Diego State.

Cal Poly has a three year dual meet record of 36-1-1 in California competition. In addition to this third year, Cal Poly has competed with the outstanding teams in the West Coast and has defeated Oregon University, Arizona State University, and Arizona State College. At the Cal Poly vs. Oregon State University dual meet, Cal Poly set an attendance record of 1,085 paid attendance, making nearly $600 at the gate.

Cal Poly has been fortunate in maintaining a high level of wrestling contestants. This has been supervised by the annual junior college and high school invitational tournaments. 45 junior college and prep teams were entered in our tournament. In conference competitions Cal Poly defeated its championship for the third straight year breaking its own team scoring record with 190 points.

Cal Poly's dual competition of the year was its NCAA College Division Wrestling Championships, Colorado School of Mines, Golden, Colo.

There were 40 colleges represented at this tournament with Cal Poly winning a total of nine. It was a supreme test for the Cal Poly wrestlers and they were equal to the task as they compiled a total of 84 points, second only to Marquette State College of Milwaukee which placed first with 87 points.

Phil Sullivan won the championship at 177 lbs., Sam Cereceres in the 185 lbs., and Larry Toombs took sixth in the 190 lbs. division. John Garcia (126) and Lomzie Cornell (136) roped third place honors, and Mike Remer at 147 placed fourth.

It is felt that this year's crop of freshmen have the potential to rapidly fill the open positions left by seniors Harvey Stacy, Jim Team, Ron Cameron, and John Arnold. Standout freshman such as Jesse Flores, Quintile Morgan, John Woods, Donna Evil, Rich- ard Boos and Jim Mocklis will add tremendous strength and depth to Cal Poly's 1965-66 team.

Special awards to this year's grapplingists: Harvey Stacy-Captain, Phil Sullivan-Outstanding Variety Wrestler, Jim Team- Most Valuable Variety Wrestler, John Miller and San Cereceres-Most Improved Variety Wrestler, and Jesse Flores-Outstanding Fresh Wrestler.

The resolution read:

WHEREAS, a great part of the \[...\]

WHEREAS, a great part of this excellence is attributable to your coaching, therefore be it,
RESOLVED, that we members of the Student Affairs Council commend Coach Vaughan Hitchcock for a job well done.

Nine new records were set at the California Collegiate Athletic Association Swimming Championships held last week at Fresno.

Gary Hillman, twice Olympic gold medal winner at Tokyo, set four new CCAA records for Cal Poly at Long Beach. Hillman placed first in the 200-yard butterfly, and won his record breaking Long Beach 400-yard freestyle relay team.

Cal Poly swimmers Dave Meurin and Gary Hillman set the 100-yard butterfly, setting a new Cal Poly record with a 58.4.

Larry Toombs, winner with rare weight divisions, John Garcia (126) and Lomzie Cornell (136) roped third place honors, and Mike Remer at 147 placed fourth.

It is felt that this year's crop of freshmen have the potential to rapidly fill the open positions left by seniors Harvey Stacy, Jim Team, Ron Cameron, and John Arnold. WHEREAS, a great part of this excellence is attributable to your coaching, therefore be it,
RESOLVED, that we members of the Student Affairs Council commend Coach Vaughan Hitchcock for a job well done.

Nine new records were set at the California Collegiate Athletic Association Swimming Championships held last week at Fresno.

Gary Hillman, twice Olympic gold medal winner at Tokyo, set four new CCAA records for Cal Poly at Long Beach. Hillman placed first in the 200-yard butterfly, and won his record breaking Long Beach 400-yard freestyle relay team.

Cal Poly swimmers Dave Meurin and Gary Hillman set the 100-yard butterfly, setting a new Cal Poly record with a 58.4.

Larry Toombs, another Mustang freshman, took a third in the 400-yard individual medley, setting a Cal Poly record with a time of 4:46.5. The old record of 4:49 set by Jim Wilson in 1954. Toombs also took fifth in the 1000-yard freestyle, third in the 500-yard individual medley, and he was on the fifth place Cal Poly relay relay team.

Ben Benfield took fourth in the 50-yard freestyle, and sixth in the 100-yard breaststroke. Bill McAneny was fifth in both the 50 meter and 1 meter diving events, while Lyle Rice took sixth in the 100 yard freestyle."
A shy soft-spoken young man was explaining how the rodeo team at Cal Poly was such a success.

"I think it is because of the Agriculture education afforded here at Poly," commented Eddie Newton, a member of the Cal Poly rodeo team.

The college does not encourage scholarships for rodeoing, and the team members pay for their own food and have their own horses. Cal Poly, however, pays for transportation and meals.

The Poly rodeo team has had another successful year, winning three of the four events they have played, commented Newton.

The team has three more rodeos this season, including the one during Poly Royal.

The Poly team, like the rest of the college teams in the National Intercollegiate Rodeo Association, are not competitive in the Western division.

Eddie continued, "We don't do something because it's any great amount of money we may win." The team knows the team members meet expenses, including paying their own travel expenses, or making room for someone else.

Members can only stay on the team for four years, according to the IRA rules; then they must make room for someone else. Also, they must have a GPA of 2.0 and be at least 12 units, along with having regularly taken at least 12 units.

Colonel says ROTC has high morale

"Flying colors" is one way of describing how the Cal Poly ROTC unit passed the recent federal inspection from the Inspector General of the Army Corps of Engineers. Colonel Edward G. Edwards and his staff were pleased.

Each individual cadet (and cadet) was inspected for haircuts, shined shoes, polished brass insignia, and knowledge of the Army chain of command, from president down to the man's squad leader.

After inspecting the corps, the colonel met with the ROTC department head, Col. William H. Boyer, for a detailed session during which the inspector commented on the degree of perfection the unit holds.

"Because of the excellent uniforms, and the pride in the unit, it is an honor to work with the Rodeo Club. Team members may choose to enter any of these events.

With a slight smile on his face, the colonel continued, "We don't do this because of any great amount of money we may win." By the time team members meet expenses, including paying their own travel expenses, or making room for someone else. Also, they must have a GPA of 2.0 and be at least 12 units, along with having regularly taken at least 12 units.

Colonel Edwards, a member of the Cal Poly faculty for 17 years, was head of the Electronic Engineering Department before his death, said that thePoly Royal would come from students given for that purpose and already on hand plus those declared, by some 200 members of the department's association and other groups.

Radius, another member of the Cal Poly faculty for 17 years, was head of the Electronic Engineering Department from its beginning to the time of his death, and was primarily responsible for its growth during that period.

The college ROTC unit will be highlighted by the college's Scholarship Committee with commendations from members of the department faculty. The department itself will administer the awards program.

Win a Honda just for being born

Your own birth date may have already won you a Honda in Parker Pen's Birthday Sweepstakes!

For example, if your birth date is December 1st, 1942, your entry is 12-1-42. Just fill in the appropriate box and mail to Parker Pen Birthday Sweepstakes, P.O. Box 104, Chicago, Ill. 60666.

Congratulations!
