WIN ONE-LOSE ONE!

The victory started Mustangs basic gained revenge after a fateful season a great effort, the Mustangs, led by Coach, beat San Francisco State, 21-0, on Oct. 16. in the Bye City.

There was no score in the first quarter, but only in the second the Mustangs scored on a 25-yard pass from Bill McCartney to end in end. Roy Wright, Larry McCurry, kicked the PAT and Polly had a cd kick.

The Gators fought back and after the kickoff took it down to 15 yards where halfback Tom Figurini plunged the final two yards for touchdown. The Gators scored again after a Will Raymond fumble was recovered and Gator quarterback Dan McPhail passed to two yards for the score. The PAT was good and, at halftime, they led by a score of 14-7.

After Polly received the second half kickoff, the Mustangs offense stalled and they were forced to punt. The Gators immediately faked kick back as Jim Cream fumbled for 17 yards but the PAT attempt failed. The Mustangs took a substantial lead of 21-7 in the second quarter.

The ball changed hands several times before the Mustangs caught fire. Bursting on their own 11 yard line, Polly ran 60 yards in nine plays with Bill Bolter taking a 21-yard screen from quarterback Raymond for the scoring play. McCurry kicked his extra point and the Mustangs lead grew to 28-7.

The Gators gained possession as sophomore safetyman Chuck Merino intercepted a pass and returned it to the Mustangs' 26. Because of a penalty, the Poly Ram turned the ball to the Poly Mustangs 26. But Raymond missed his field goal attempt.

For the score. Sure footed McCurry kicked a 21-yard field goal as the PAT was good.

The victory avenged Mustan's loss to the Gators last year.

McPhie reorganizes
Poly administration

This summer President Julian A. McPhie announced that various personnel, responsibilities and personal would be rearranged effective September 1. McPhie included in this announcement an extensive delegation of authority for operations of each of the Cal Poly campuses to the campus executive officer, presently the Dean of the College Registrar.

Included in the rearranging of duties and responsibilities was the creation of an equivalent to that of dean of academic parks, a campus executive officer, who is Dale W. Andrews, a former head librarian.

The dean of academic planning position is presently unified at this campus.

Several other positions were also assigned to the campus executive officer on a staff basis.

Language lab has expanded program

Robert Booth, director of the Poly's language laboratory, announced a new comprehensive program to include a variety of foreign languages, English for foreign students and facilities for conducting lectures or seminars by telephone.

The foreign language program includes a new four-quarter course in French. The course itself, under the English department, expanded to include Spanish is primarily for those with no previous knowledge of the language. However, those with one year of high school Spanish may enroll if space permits.

In addition, Spanish, pre-recorded, self-instruction courses in Japanese, French, German, Italian, Russian, Modern Greek and English for foreign students will be available.

These courses are of two types: one, designed mainly for travelers; another is a more comprehensive course of study.

The tele-course program is another aspect of the new language lab project. It is not yet fully developed, but facilities are now available, free instructions recorded tapes which are staff services.

The lab will be open three days each week for general consultation concerning the language center.

According to Booth, the Poly's language laboratory experimented with two tele-course lectures during the spring and found that the students were greatly stimulated in this manner.

The lab will be open three days each week for general consultation purposes. For further information concerning the language center contact Robert Booth in English 85, Ext. 2706 for the language lab.

SAN LUIS OBISPO, CALIFORNIA

TUESDAY, SEPTEMBER 28, 1965

Satchmo here to morrow

Louis "Satchmo" Armstrong, known as one of the foremost of all jazz musicians and shamen, will appear in concert for the Men's Gym tomorrow night at 8 p.m. Being sponsored by the College Union Assembly Committee, the show's cast will also include Armstrong's famed "All-Stars."

According to the sponsoring committee, student general assembly tickates are $2 and $2.50 for reserved seats. They are available in the ASI office.

Armstrong is the founding father of a sensational style and sound in trumpet playing from which numerous technique have evolved. However, it was the famed trumpeter's almost 50 years in the music that makes the greatest impact on the public. What people enjoy most about "Satchmo" seems to be his high-expressive singer - something which will undoubtedly be obvious during his concert here.

The College Union Committee, which expects a sell-out crowd, has said that the Men's Gym is being prepared to accommodate 5,000 persons.

Enrollment over 7200; male-female ratio cut

L. Harry Strauss, a number of the library staff for the past four years, was named head librarian by President Julian A. McPhie. Strauss will replace Dr. Kenneth Jacob, who resigned in August to head a college librarian at State University College, Fredonia, N.Y.

The new librarian earned a bachelor of science degree from George Williams College in Chicago, and received a master of arts in the graduate library school, University of Chicago. He is co-author of a book, "Look, Listen and Learn," and is author of numerous articles on subject educational and adult education.

The all important male-female ratio dipped below the three to one mark for the first time in Cal Poly's recorded history. The Registrar's Office reported that 514 men and 1510 women are now enrolled.

The heaviest concentration of men was in the freshman class, with 518, followed by the senior class with 395. The largest number of women students were concentrated in the freshman class as 1510 first year students signed up for courses.

Other interesting statistics include: 111 Horshoeshoe majors, 66 Biochemistry majors, 44 Journalism majors, 18 Ag Education majors, 26 students without a declared major.

Record price for Clyde

Five Cal Poly animal husbandry students are busy figuring out how to best utilize nearly $3,800 following sale of their Hereford steer, which won the Grand Championship at the Los Angeles County Fair earlier this week.

Richard Thomas Anderson of White Sands, Wash.; Alfred Do- home, Jr., Hellsford; Edward Betrol, Joy, Honolulu, Hawaii; Thomas C. Britt, III, of Chico, Calif., and John Vanety, Long Beach, are faced with the problem after the steer which they owned in partnership, was sold during the sale which climaxed the fair Sept. 22.

Vanety’s Market of Southern California paid the students $3.65 per pound for the 1,000 pound animal.

Breed and raised on the ranches of cattle owned by the students, the steer went into the livestock production being financing by the school’s unique “Agriculture Enterprise Program.”

The college looks to its students funds necessary for such ventures. Loans are repaid with profits from such projects, and the student-husbandmen keep and share their financial gains.

Clyde’s victory at the Los Angeles Fair gives Cal Poly student-owned two consecutive Grand Champions, at that show. Another Hereford “saw,” also owned by a group of three animal husbandry students weighed 1,080 pounds, and was sold at $2.85 per pound at the sale.

Wrestlers’ Meeting

Wrestlers could hardly have asked for a better way to start their season than with an informal meet-staffed by the entire student body—Thursday night in Room 207 in the Men’s Gym.

Mobile Population

One million American children were born in one state and then moved to another state. Two million more were born in one country and then moved to another each year.

CONSERVATIVELY speaking

“If an award was to be presented the organization of campus which has the most outstanding student at the Poly chapter at the California College Republic chapter (CCR) would win it.”

For according to the club’s president, their primary purpose is to “organize and strengthen young men in the Republican Party.”

The club’s goal is to reach the undergradu­ate in support of the Republican Party. This results from the club’s purpose to aid its support for either Senator Kuchel or Ronald Reagan ever incumbent Brown in the government election next year.

This club aims to reach senior citizens between Lindsey (themselves identified as one of their most liberal candidates) and Conservative-inspired Reagan. Mr. Lindsey, Senator Kuchel, or Barry Goldwater—who is to be a candidate of the Grand Old Party.

The tragic flaw of this club is that it represents political principles.

Agreed, the CCR believes that it disregards political principles as the consensus of the Grand Old Party.

The tragic flaw of this club is that it represents political principles. Agreed, the CCR believes that it disregards political principles. It is to the zenith in the political party with which Lindsey last year and, quite surprisingly, the CCR seems to even deny that any political principle is between the two Democrats.

I sympathize with those Conservative members of the CCR who must, at least, tolerate this political position. I sympathize with the CCR members who must tolerate a Goldwater-like, as their nominee.

Let’s be honest, for an “economics, party labels are meaningless.” This dual division of political opinion is between Conserva­tive and Liberal. The present split of voting a Democratic Club and a Republican Club on campus is nothing more than having Tuesday and Thursday exhibitions!

Your auto need repair?
Go to Hobby Garage

With the limited amount of space available for parking cars, the Hobby Garage continues to

be the place where students do their washing and automobile re¬

pairs on campus.

Located just east of Palmer Residence Hall on Mountain Drive, the garage is supported by the

Associated Students, Inc., and run by two student managers under the direction of the Acti¬

vities Director.

Six guns for auto work have been reserved in the garage, and other auto work on campus will be

taken at Palmer. Cars not in garage may be repaired in the area, with space for four vehicles.

Poly students, being on or off campus, are the only users of these facilities for their own

parking needs, and students of four vehicles, and they are the only users of these facilities for their own

section, which in turn are available. Since first time auto work is being done, space is limited to four

vehicles, and other students may be paid for their use of the space.

Student body regulations concerning the Hobby Garage require that students working in the

garage must sign in and out, and no personal space will be allowed to students without the written

approval of the administrators. This is a sort of registration, which in turn is available.

The two managers, Richard Strauss and Dennis Frazee, are fully capable of doing the auto work

on campus, and they are glad to do so. They have been working for the past two years.

The garage provides a variety of services, including: basic automotive repair tools, welding, and auto

repair equipment, and engine removal equipment, and will be glad to for suggestions on our services.

As a matter of fact, students can get on the list in any of the four areas, from maintenance to auto re¬

pairs, and from one to four hours for $1.25, up to $2.50 for each additional hour.

Further information can be obtained by students at the garage or from the Mechanical Engineer¬

ing Department office.

More aid for Cal Poly students

Recruit has been allocated to Cal Poly through the Kerr Section 600 of the National Defense Fin¬

ancial Aid Board. This will aid students financially in the following way:

1. Scholarship aid to students is awarded to students fall below a certain mark. The

aid is given to students who are in the top 10% of their class.

2. Loan aid is awarded to students who fall below a certain mark. The aid is given to

students who are in the top 5% of their class.

3. Loan aid is awarded to students who fall below a certain mark. The aid is given to

students who are in the top 2% of their class.

4. Loan aid is awarded to students who fall below a certain mark. The aid is given to

students who are in the top 1% of their class.

In order to qualify the student must be a citizen of the United States and be a student at Cal Poly.

The requirements for this program are as follows:

1. Scholarship aid is awarded to students who fall below a certain mark. The aid is given to students who are in the top 10% of their class.

2. Loan aid is awarded to students who fall below a certain mark. The aid is given to students who are in the top 5% of their class.

3. Loan aid is awarded to students who fall below a certain mark. The aid is given to students who are in the top 2% of their class.

4. Loan aid is awarded to students who fall below a certain mark. The aid is given to students who are in the top 1% of their class.

In order to qualify the student must be a citizen of the United States and be a student at Cal Poly.

In order to qualify the student must be a citizen of the United States and be a student at Cal Poly.
Pay boost for profs

California State Colleges personnel in academic and closely related positions were granted a salary boost of 10 per cent by the colleges' Board of Trustees during its recent meeting in San Francisco.

The $7.1 million increase had been authorized by the last session of the California Legislature and is retroactive to July 1, 1960. It affects some 7,000 members of the 679 colleges.

The board noted that it had announced its intent to grant the increase as early as July 22, but that cost estimates and certifica-

tion of the availability of funds from the Department of Finance had required extra time.

The board also asked Chancellors Glenn J. Daniels to continue to gather data to demonstrate further the salary needs of the state colleges. For academic adminis-

trators the trustees asked a five per cent raise, effective January 1, to compensate for their fail-

ure to resolve equitable adjust-

ment on July 1, 1960.

In other action the board al-

located $34,000 for working draw-

ings for a women's gymnasium at Cal Poly. The trustees also ap-

proved schematic plans for a $25.4

million college union building; a

22.4 million student housing com-

plex, and a $1.5 million engineer-

ning-mathematics classroom build-

ing.

Authority was delegated to the chancellor to fix student body membership fees and establish tuition rates for on-campus stu-

dent housing.

Tuition Comparisons

During the past four years av-

average tuition costs at U.S. pri-

vate colleges went up 90 per cent while tuition costs in public colleges in-

terest on $41.1

crease just 10,.

Student actions

put question on

CU films future

Student conduct during the screening of the College Union-sponsored films has led in ques-

tion the future of such films.

In a report presented to the Student Affairs Council last Tues-

day night by graduate manager Robert Spink, note was made that in addition to the noise prob-

lem and taking necessary ac-

tion, the council has put in ques-

tion if the damage can't be stop-

ped. An additional $28,400 will be to make the area, or cancel the films all together.

Board of Publications chairman Tom Consali urged the CU Films Committee to support Spink's call for action. John Thanland, one of three

Get as a means of control, in

Finance had required extra time.

The board also asked Chancel-

lor to fix student body needs. Heifetz re-

membered that the council is expected tonight on what may be the destruction.

The problem has been consid-

ered by the Films Committee in the past, but a report to NAC is expected tonight on what kind of action should be taken.

Poly falls 10-7

By GEORGE RAlMOS

The Linfield College (McMinnville, Oregon) Wildcat running back Steve Arnold rumbled 68 yards in 17 plays with shortshore fullback Steve Arnold punching in the last two yards over left guard for the touchdown.

Larry McCurry kicked the PAT point after touchdown and cut the Wildcat margin to 10-7. During that half, Poly's defense, when given 17 yards total offense to Linfield in the first half, simulated the Wildcat scoring machine and limited them to a measly 17 yards total offense. In scoring nine points, Poly's defense was nullified by the Mustangs.

Behind 10-7 with about two minutes left in the game, a two yard run by fullback Steve Arnold to Linfield was negated by the fifteen yard infraction, which practically killed a scoring drive.

In another situation, Linfield returned both pass reception after penetrating the end zone but because of a clipping violation, Poly would've had a first down on the Wildcat 45 with about six minutes left in the game, but instead, Linfield had a first down on their own 25.

Overall, Poly had 277 yards against them for various penalties. Other than the costly penalties, Poly made a valiant comeback in the second half after falling quickly behind in the first quarter to Linfield.

In the quarter, Jon Kuzli kicked a nine yard field goal with 8:40 remaining in the period to jump out to a 2-0 lead.

Latter in the stanza, the Mustangs' offense started and padded on a fourth down situation to the Mustang 23. On a second and six play from the 23, Mustang quarterback Wall Raymond furred pretty well; completing 7 of 11 passing attempts for 74 yards.

In scoring ten quick points and dominating play in the half, the Mustangs had tremendous success running-wise with backfield Gils arrivit and Lemon Pries going inside tackle and sweeping to the outside.

For Cal Poly, fullback Steve Arnold did another outstanding job for varsity-mentor Sheldon Hardee paving through the middle of the Wildcat line for consider-able yards.

Gill Wall, Raymond furred pretty well; completing 7 of 11 passing attempts for 74 yards. Statistically, the first half, the Mustangs, Linfield had 52 first downs to Poly's 4. They ran off 93 offensive plays compared to 10 for Cal Poly. In the 17-0 win over Pacific Lutheran College, they had 68 offensive plays for the entire game. It was certainly an exciting ball game, with Cal Poly making a game comeback after Linfield had threatened to run off and hide the game away.

But last Saturday night, they beat themselves.

Social Security aids many college students

Recent 1965 amendments to the Social Security Act have extended the age limit for young people's benefits—from age 18 to 22. These amendments apply to all unmarried full-time students with at least one parent who is retired, disabled, or deceased. All such students now receiving benefits may continue to do so after the age of 18. If a student was 16 at the time of a parent's death, retirement, or disablement, the student may now be eligible for social security benefits if he is now under 22. Any benefits stopped at the age of 18 may now be received if the student is under 22, unmarried, and a full-time student.

A full-time student is an individual enrolled in a day or evening school for a course of study which will take at least three months with a subject load sufficient to complete the course in the time normally required.

An individual is not a full-time student if he is not active in attendance at school, is being paid for regular employment while in school or course of study not forbidden under this provision of the law.

The types of schools included are: high schools supported or operated by state or local governments or by the Federal government; vocational schools operated by a local, state, or Federal governmental unit; state universities and colleges and community colleges. Others include any private schools or colleges accredited by a state or national accrediting agency, and accredited private schools or colleges provided that at least three accredited schools or colleges accept their credits on transfer.

Eligibility is only not acceptable to part-time students, non-full-time school courses and unaccredited schools whose credits are not accepted on transfer by at least three accredited schools.

If a student is returning to school full-time in the fall benefits may begin at the time of enrollment or any time between the end of one school year and the beginning of another.

Any student subject to the revised social security benefits will automatically continue to receive benefits until he leaves school, becomes 22, or gets married, whichever occurs first.

The Social Security Administration will want to know if a person is a full-time student when he becomes 22. For any student 18 or over, these benefits are not automatic. The student's parent must apply for them. If the benefits stopped when a student reached 18, he must reapply and show that he is a full-time student. If social security benefits were never received, but a student is now eligible for them, he should apply at the social security office.

These benefits are retroactive to January 1, 1965, to a full-time student who reached 22 after January, 1965, may also receive payments for the months before he became 22.

For further information on these changes, check with the nearest social security office.

Here are two interesting styles of desks. These represent only two of the hundreds of items we can supply in the ready-to-finish furniture that can help make your school year more enjoyable. Stop in and look over our lines as well as your needs in finishing materials and paints.

Health fee deadline

Each quarter the college sets a deadline for the purchase of optional Health Fee. This Fall quarter the date will be by 5 p.m. October 17.

Until the deadline this Fall, students will be able to purchase an annual covering all three quarters for $15. The regular fee paid by the quarter is $6.

Students are urged to protect themselves with health coverage. Fortunately there are a significant number of students who do not take coverage and who become ill or injured, and treatment may mean days away from school. Annual fees for this year will be paid in the cashier in the Administration Building.

SAC minutes

Students wishing to receive minutes of Student Activities Council meetings should leave their name and Poly post office box number with student body secretary Jim Price in the SAC Office, Box No. 3.

LARGEST CLUB

The Poly A1A chapter is the largest club on campus with 410 members.
