El Mustang ordered to print retraction

At a recent Board of Publications meeting, the members of El Mustang must print a retraction of an Oct. 1 editorial written by Robert Spink, graduate manager, and dispersing of a statement in the editorial referring to the publications. It was voted that the appointment of Kramer to the key administrative position of assistant graduate advisor at Michigan State University and move his family to Michigan no later than Nov. 1.

A committee made up of student, faculty members, and administrators has been selected by Dean Dan Andrews to redraft the policy, procedure, and organization of the newspaper. The purpose of the committee is to eliminate the misunderstandings between student government, administration, faculty and the publications. It is the feeling of Dean Everett Chandler, committee chairman, that misunderstanding is the basic of the "clipping" between the publications and student government.

Members of the committee include: Dean Dan C. Chandler, chairman; Dean Carl C. Combs, Robert L. Bisplinghoff, chairman of the Board of Publications, George Harrison, ASI president; Dr. Glenn Noble; Maureen Lund, El Mustang editor; John Day; El Mustang advisor, Healey, El Mustang advisor; Dean Chandler, chairman; Dean Everett Chandler is the head of the administration, student, and faculty committee which is forthwith proposing to correct the system which now exists.

SAC votes to spend $2,886

A contingency request for $92 was granted and permission given to SAC to use this sum to $2,894 commission wagon by the Student Affairs Council on Oct. 12.

Four of students will leave Sunday night for Portland, Ore., to compete in the Pacific International Model-Judging Contest. The team has not been a budgeted group, the request for this trip was made by Robert Spink, graduate manager, and dispersing of the publications. It is hoped that the committee will look at this in an example of why the new retraction to SAC to El Mustang is no longer tenable. This retraction is in the interest of printer than in the interest of the student body, for it is the only newspaper.

The role of the newspaper is to disseminate important information such as "SAC is publisher."

Above is a retraction of a statement in an Oct. 1, editorial. This retraction was ordered by Board of Publications, which serves as a publishing arm of Student Affairs Council. This retraction points up an important problem for student consideration. The problem is that SAC is both the community legislature and publisher of the community's only newspaper.

The role of the newspaper is to disseminate important information and to serve as a critic of all community institutions, including student government. But, under the present document, SAC has the authority to silence criticism of itself because of its role as publisher.

It can place such a restraint on El Mustang simply by declaring that any story is not factual as SAC sees it.

In an absurd but possible example, SAC could declare that El Mustang is the only newspaper that can take any action and hold such an action from the college community.

In an absurd but possible example, SAC could declare that El Mustang is the only newspaper that can take any action and hold such an action from the college community.

Individual group needs served by CU building

"With the projected enrollment limitation set at 8,200 students, we feel that our College Union facilities and activities must meet the needs of every student and will serve as an integral part of our educational facilities, no other State College in the United States," Douglas Gerard, Cal Poly Building Coordinator, said in an interview for student opinion considering Cal Poly's new Associated College Union Building.

It was reported that the building will serve as the building for the dormitory of Cal Poly College students. Students will have a place to stay while attending Cal Poly. Students will have a building to work in, study in, and have a place to mete and exchange ideas. It's the place for free expression of student ideas and opinions. It's a place for the exchange of ideas. The building will be a place for free expression of student ideas and opinions.

Changement will come directly from the student body. The committee planning the building will be set up to represent the student body, and the building will be a place for free expression of student ideas and opinions.

As each student enters the building, he may thank out a pair of handled shoes, and exchange ideas. It's the place for free expression of student ideas and opinions.

The entire session will be taped and can be viewed at a later date.

Phoa for the building have been either on paper or in the speaking stages since 1893. Concerning the building is scheduled to begin this fall with the completion date set at Fall quarter 1965.

A fee increase, to cover part of the cost of operating the building, was voted by Cal Poly students and agreed to by the Board of Trustees. The fee increase will be paid each quarter beginning Fall quarter 1965.

Barack is an integral part of the administration and will serve as a spottall forum for discussion. Participation is open to every student. Two faculty advisors are named for the building, and the student body will select one-third of which is to be selected by the student body. Only five minutes to sound off. Only "Bitch-in" air "Bitch-in" student complaints, as organized student groups.

"A Bitch-in of the Multiversity," a vocal referendum on the problems of student life, has been scheduled early this month at the University of Colorado. Hated after the teachers had been asked to attend a meeting of the students of the University of Colorado, why and what can be done with the teaching of the students.

Unlike the teaching, however, the administration would not be concerned. All comments and criticism would be passed on to the students themselves.

As each student enters the building, each will have a numbered credit card which will be used to sign in and out of the building, and will be used to the students.

As each student enters the building, each will have a numbered credit card which will be used to sign in and out of the building, and will be used to the students.

To much a question on the problems of student life, the student body said that the faculty is not a problem. The faculty is not a problem.

Residents seeking medical aid at the Health Center will discover a new patient treatment department. It is the X-Clinic. This new development is an innovation in the Family Health Center, said the clinic director. It is designed to accommodate five patients at a time and be staffed by student physicians.

Dr. Henry Mounta, head of the Health Center, said the number of patients who use the out-patient Department may be as high as 500 per week.

First, those with medical problems requiring emergency attention in depth, such as asthma, ulcers, diabetes, and other forms of care, which regularly scheduled appointments could not accommodate.

The second group is composed of people wanting routine care.
Here’s the shortest line between graduation and a “go-places” career.

It’s the one you sign on at your placement office for an interview with IBM November 4-5

Want growth—with a difference? Career accomplishment—with stability? New frontiers in all technologies—with the leader in the nation’s fastest-growing major industry?

IBM can offer you extraordinary growth opportunities in Research, Development, Manufacturing, Programming and Administration throughout its network of labs, plants and technical centers.

If you want the facts about these challenging careers, you’ll want to talk to the IBM interviewer.

Certainly, he wants to talk to you about these key jobs. They’re jobs with technical responsibility: Where you can put your ideas to work and earn superior rewards.

In a growth company like IBM, responsibility and advancement come rapidly. In fact, during the next five years IBM expects to appoint approximately 8,000 new managers. A wide range of training and education programs will help you meet the challenge of growth.

So visit your placement office this week, “just for a line on IBM. But this interview may open it for your interview. If for any reason you can’t arrange an interview, visit your nearest IBM branch office. Or write:

IBM Corporate Headquarters, Armonk, New York 10504.

IBM is going places. Why not come along?

Whatever your area of study, ask us how you might use your particular talents at IBM.

Job opportunities at IBM lie in eight major career fields:

At IBM you’ll find Oportunity in Growth.

RCA cowboys ride for rodeo team

Cal-Poly’s rodeo team is continuing to move forward by recruiting two well-known and outstanding intercollegiate rodeo riders, Bob Berger and Ned Londo.

Berger, a 25-year-old saddle bronc and bull rider, transferred from Poly to Lamar Junior College in Colorado. A sophomore in Animal Husbandry, his home is in Halstead, Kansas. He followed his two older brothers’ footsteps in starting his major career seven years ago. He has been in Rodeo Clubs of America (RCA) for about a year.

While at Lamar J.C., Berger was a member of a rodeo team and placed first in the rodeo events in the National Intercollegiate Rodeo Association (NIRA) finals at Lawrence, Kansas. He was also named outstanding intercollegiate rider for the RCA District 10 rodeo team.

Berger was a 25-year-old saddle bronc and bull rider. He transferred from Poly to Lamar Junior College in Colorado. A sophomore in Animal Husbandry, his home is in Halstead, Kansas. He followed his two older brothers’ footsteps in starting his major career seven years ago. He has been in Rodeo Clubs of America (RCA) for about a year.

Londo is a 22-year-old saddle bronc rider from Las Vegas, Nev. He is majoring in Animal Husbandry also.

Londo has been an RCA member for two years and has been active in the sport for seven years. His father is a former RCA cowboy.

While at Casper Junior College, he was a member of the rodeo team that won the National Intercollegiate Rodeo Association (NIRA) finals last year. Cal-Poly’s top place was third. He placed second in the saddle bronc event and the proficiency year he tied for first place.

He event was his favorite. He said he would like to continue hunting and riding at Wyoming State Fair in Douglas, Wyo. and planned to graduate from the California State Fair in June.

“I’ve been interested in rodeoing four years, and I’ve ridden in California State Fair, San Diego State Fair, and Rodeo Club of America (RCA) rodeos,” he said.

They both have high hopes for the coming weekend at Valentine, Neb. where they will again enter their home and bull riding events and set crossing their fingers for their future victories. The event will take place at the Pacific Coliseum, beginning October 26.
Police stand watch at Cranfield dances

The election of seven drunken students from the dance at Cranfield drew on Rep. Gerald Ford's firm as a directive from Dean of Students Everett Chandler requiring the presence of two police officers at all future dances at that gym. A student-director committee consisting of 20 members from the club sponsoring a dance are required at all dances on the campus. However, this has not been sufficient for dances at Cranfield Gym.

Dr. Dan Lavine, associate dean of students, who found it necessary to eject the seven students, said, "The students on the dean committee haven't been willing to do this. I don't know why. The seven I had asked to leave were not Cal Poly students. Two of them were women and one was a student from San Jorge who just dropped by."

"As a result we reviewed various rules for sponsoring dances and decided to be more formal about who we sold tickets to at the door. Formerly any student with a student body card could be admitted. Now, only Cal Poly students and one guest will be admitted. Each student will be responsible for the conduct of his guest."

Admission tickets will be on sale any time during the evening. Before large numbers of students and observers would want until the ticket booth closed and go in free.

Lavine said the position of chaperones is impossible at Cranfield. The dean committee will require supervisors from the family who will be on their feet observing the students and the dance committee. They will watch for smoking, drinking and disorderly conduct. The supervisors will back up the dance committee, and the two police officers in attendance will support both groups.

In the event a faculty supervisor needs help from the police officers, a complete written and signed report will be filed. If non-students involved their parents will be notified; students will be required to report to the Dean of students, and adults over 21 will be taken to jail.

"We are concerned with the safety of the majority of students who go to these dances to have fun and meet people, not to hurt or embarrass," said Lavine. "Drunkenness and the results of drunkenness lead to fights that can endanger the safety of people at the dance. Such behavior may damage the facility, cause fire or hurt people."

Victory lands 10 in hospital

The National Hockey League doesn't list such records, but the New York Rangers can probably claim this one with title to the 1965 Cup playoffs, then ten of their players Immediately went into hospitals for surgery.

GOP criticizes Birch group

Three top Republican leaders in Congress have spoken out on the John Birch Society—the militantly conservative group.

Republican Representative Everett Dirksen says there's no place in the Republican Party for a group that operates on a secret basis. There was similar comment from House Republican Leader Gerald Ford, and from Senate Republican Campaign Committee Chairman Thurston Morton.

Dirksen and Ford complained at a Joint broadcast and televised news conference. They were asked about a statement by Senator Morton that Birchites are intimidating the Republican Party.

Dirksen said the society is not part of the Republican Party. Ford said the Birch Society is a monolithic group that takes the orders from the top and said there's no place for it in the GOP.

Morton in his earlier blast at

GOP

Sentence: school! A convicted looter draws an unusual sentence in Los Angeles in connection with the Watts riots. The defendant, 41-year-old Lonnie Walker, was fined $1,000. But the court said this would be reduced if Walker spends at least 10 hours monthly in community service work. Walker also drew three years on probation and was ordered to attend night school.

Scientists have figured out how to get electric current from a coconut. The commerce department says bacteria are used to break down coconut juice into formic acid which then is transformed into electrical current. The research was done for the Army which is interested in developing the so-called biochemical fuel cell for use in remote areas.

Kaufman book to be reviewed

Mary Rhodes of the Department of English and Speech will review "Up the Down Staircase" by J.D. Salinger at Books at Noon Tuesday in the Staff Dining Room.

Paul Wurding says of the book in a recent "Saturday Review:" "Miss Kaufman, described by one of her students as "the only teacher that ever listened to me," is English real good." She teaches English and Speech will review "Up the Down Staircase" by J.D. Salinger at Books at Noon Tuesday in the Staff Dining Room.

If a federal judge during the final game of the World Series is being telecast during the noon hour on Oct. 12, the review will be given later.

Kick the dull driving habit.

Step out in a lively Dodge Coronet.

Forget all you've seen and heard about '66 cars. Because Coronet is here—sharp, smart and sassy, the greatest thing from Dodge since Year One. Loaded with luxury the higher-priced cars haven't taught onto yet. With a choice of five engines, each one designed to make the walls of Dullsville come tumbling down. And with a whole stew of standard equipment that used to cost extra. Like in outside rear view mirror. A padded dish for extra safety. Variable-speed electric windshield wipers and washers. Backup lights. Turn signals. Seat belts, two front and two rear. And, as some auto fusing on the Coronet cake, a 5-year or 50,000 mile warranty.

Isn't it time you joined the Dodge Rebellion?

Join the Dodge Rebellion at your Dodge Dealer's.

Former Poly man on White House roll

Former Poly student and Full Gospel major Tom Velben, 21, has been selected as one of fifteen White House Fellows to train for government service. Velben attended the University of California at Santa Barbara and then came to Cal Poly where he received his degree in 1968. From there he went to Occo- gen State University and completed a master's degree in economics and agricultural economics in 1970.

In a letter to President McPhee, Velben says of Cal Poly, "I recall the day I spent attending Cal Poly as the most rewarding in my life. There is no question that the things I learned under the Cal Poly System—and I don't consider this only the students—helped form the foundation for everything I have been able to do since."

He goes on to say that "for people like me who 'learn by doing,' the school seems to have been built. And on further reflection maybe I should have attended a healthful dose of 'doing' early in my academic life experience."

Velben is currently in Virginia Beach, Virginia, Velben was selected from 600 men between the ages of 23 and 35, for the year of training at the White House. The fellowships, sponsored by the Carnegie Foundation, provide from $7,500 to $12,000.

Four of the men selected are serving on the White House staff, one is the office of Vice President Richard B. Humphrey, and the other three are in the various cabinet offices.

Velben asked to be assigned to the Secretary of Agriculture and said, "I have every reason to believe my request will be honored."

Favored Mustangs face Matadors

The Cal Poly Mustangs will try to get back on the winning track after dropping two straight games to Linfield College and San Diego State, by tangling with the San Fernando Valley State Titans. Kickoff time is set for 8 p.m., as the favored Mustangs will try to prove the Matadors from winning their first game of the season. They have lost to UCSB 24-10, in Oriental 25-12, and to San Francisco State, 21-0. Meanwhile, the Mustangs are sporting a slightly better mark of one win against two setbacks.

The defensive unit was especially tough, as they held the South California's ground attack, as they held the Mustangs to 12 yards per carry. Bird and Burtch were also singled out for praise, Kloss and Colombo. The Matadors were held to under 100 yards. The attack was led by quarterback Howard, who had 108 yards on the ground. The Mustangs' secondary is one of the best in the league, and the Matadors will find it difficult to score against it. Meanwhile, the Mustangs have been on a roll, winning six of their last seven games.

Meanwhile, the Mustangs are sporting a slightly better mark of one win against two setbacks.

Coach Swartz had praise for his offense unit also. "Ed Rosborough, the versatile quarterback with his powerful right arm, and its deadly passing attack," said Swartz. "And Frank McDonald, who just sang up another great song, Jim's going to have that certain offensive drive that makes a big team click," Bird will be asked to lead the team against the Matadors.

Starting lineup for the Cal Poly Offense

RB—Steve Birdard
RB—Steve Wyrick
HB—Bobby Wilkins
RB—Peter Jankowski
LT—Jarl Miller
LT—Jim Mees
RL—Jim Stillman
RB—Ed Rosborough
RB—John Coates
RB—Floyd Digman
LB—Ken Postell

The Matadors will try to bounce back from their loss to the Mustangs. They have been on a roll recently, winning six of their last seven games. The Mustangs will be a tough opponent, but the Matadors have the ability to defeat them. The game will be televised locally in the Southern California by KTTV, channel 11. Mustangs fans in the East Los Angeles area can see the action as they take the cable-system in their television sets.

Coach Swartz had praise for his offensive unit also. "Ed Rosborough, the versatile quarterback with his powerful right arm, a real good arm, and natural leading ability," he read. "And Frank McDonald, who just sang up another great song, Jim's going to have that certain offensive drive that makes a big team click," Bird will be asked to lead the team against the Matadors.

Starting lineup for the Cal Poly Offense

RB—Steve Birdard
RB—Steve Wyrick
HB—Bobby Wilkins
RB—Peter Jankowski
LT—Jarl Miller
LT—Jim Mees
RL—Jim Stillman
RB—Ed Rosborough
RB—John Coates
RB—Floyd Digman
LB—Ken Postell

The Matadors will try to bounce back from their loss to the Mustangs. They have been on a roll recently, winning six of their last seven games. The Mustangs will be a tough opponent, but the Matadors have the ability to defeat them. The game will be televised locally in the Southern California by KTTV, channel 11. Mustangs fans in the East Los Angeles area can see the action as they take the cable-system in their television sets.

INSTRUCTIONAL STAFF

California's elementary and secondary schools are operated by 34,250 members of the instructional staff.
