Cal Poly included in college guide

Cal Poly has been selected for inclusion in the fifth edition of "Peterson's Competitive Colleges," just published by Peterson's Guides, a Princeton, N.J.,-based publisher of education and career reference materials.

This edition of the reference work presents data profiles of the 315 U.S. colleges and universities that consistently have more applicants with above-average credentials than they can accept. The schools represent approximately 17 percent of all U.S. institutions of higher education.

School recognizes accounting professor

Dr. John Robison, professor of accounting, has been awarded the Distinguished Teacher of the Year award from the School of Business.

The $500 award is given to the professor who shows a high level of excellence in the classroom. It is funded through an endowment from the school's advisory board. A member of the Accounting faculty since 1985, Robison teaches advanced tax accounting.

Baillie earns scholar award

A management professor has received the first Distinguished Scholar Award presented by the School of Business.

Dr. Allan Baillie earned the $500 for his research on the continued success of Japanese manufacturers and their managerial techniques. An expert on Japanese management, Baillie has been a member of the Cal Poly faculty since 1978.

Fulbright scholar named VP at home institution

Dr. Tchaboure Aymé Gogue, of Togo, Cal Poly's 1985-86 Fulbright Scholar-in-Residence, has been named vice president of his home institution, the University of Benin in Lome. Gogue was formerly the dean of the School of Economics and Management. The University of Benin, with 6,000 students, is comprised of eight schools: Economics and Management, Agriculture, Law, Engineering, Science, Education, Medicine, and Arts and Humanities.

Gogue, who recently returned to Lome by way of Washington, D.C., Montreal and Paris, had high praise for the programs at Cal Poly. He hopes to maintain close ties with the faculty and administrators with whom he worked during his year on campus. He is especially interested in continuing work with the School of Agriculture because of his desire to shift the University of Benin's agriculture school from a theoretical orientation to an emphasis on applied instruction.

Before leaving San Luis Obispo, Dr. Gogue and his wife, Evelyne, were guests of honor at a gathering hosted by Stan and Cecilia Dundon and attended by other members of the Fulbright host committee, the International Food and Agriculture Committee, International Agricultural Development students, and other friends from the campus and the community. Dr. Gogue expressed his appreciation to the faculty, staff and students who made his Fulbright residency "an outstanding experience."

Heinz retirement

There will be a retirement coffee in honor of John Heinz today (July 10) from 2-4 pm in Audiovisual Services. He has been a member of the staff since 1953. All of his friends are invited to come by AV and wish him well.
Asbestos removal projects begin

Between July 14 and Aug. 3, 1986, contractors will be working on campus as part of a CSU program of asbestos abatement. The development of the contract specifications was completed by Baker Consultants, City of Industry, state licensed specialists in asbestos removal work.

Baker Consultants will also supervise the construction activity to ensure that the contractors comply with all appropriate regulations, particularly those of the Environmental Protection Agency and the State Department of Industrial Safety (Cal-Osha).

Listed below are the buildings in which asbestos insulation will be removed and replaced with fiberglass. Also shown are the dates and times that the university has specified. In each case, building occupants and users have been advised of the activity and, where necessary, alternate work areas for staff have been identified.

It is important to note that the removal work will pose no health threat to building occupants. Baker Consultants will carefully control and monitor the work environment so that there will be no hazard to workers involved in the contract or others.

Because of the work the central steam plant will not be producing steam on July 19 and 20. Most campus facilities will be without heat and hot water that weekend.

Any specific questions and concerns can be answered by Ed Naretto, director of Plant Operations and/or Bob Pahlow, manager of Engineering Services at 2321.

Business Administration & Education (02) — From July 14, 1986, to July 20, 1986, the basement floor will be closed with the exception of Room 21 through Room 28A. Rooms 21 through 28A will be closed on July 19 and 20. Rooms 103 and 105 will be closed only on July 16. The custodial closet, Room 201, and above the third floor ceiling (attic) will be cleaned between July 14 and Aug. 3. The building will remain open except as noted.

Old Power Plant (76) — This facility is scheduled for asbestos removal any two days from July 14 to Aug. 3. Two days prior notice is required to be given by the contractor to the university before the work begins. The building will be closed for that two-day period.

Natatorium (46) and Crandall Gym (60) — The natatorium will be closed for asbestos removal from July 28 to Aug. 3. The Crandall gymnasium public areas will be closed on Aug. 2 and 3.

Health Center (27) — Asbestos removal will occur from July 19 to July 26, with the following restrictions. The old section will be closed from July 22 to July 26. Air conditioning will not be in operation from July 19 through July 26.

Power Plant (40) — This facility will be shut down for asbestos removal on July 19 and 20.

Administration (01) — This facility will be involved with asbestos removal from July 19 to July 25. All spaces will remain open for operation. Ventilation systems will operate, but air conditioning will not be available.

Agricultural Engineering (08) — (Shop Building Only) — This facility will be involved with asbestos removal from July 19 to July 25. All spaces will remain open for movement to the next shop.

Air Conditioning (12) — Room 102 Only — This facility is available for asbestos removal from July 14 to Aug. 3. Two days prior notice is required by the contractor to the university before work begins.

Agriculture (10) — Rooms 100 through 105 incl., 121, 122, 124, 125, 126, 128 and 129 — This facility is scheduled for asbestos removal from July 14 to Aug. 3. A schedule will be submitted for all rooms two days before work begins. Work started in any one room will be completed on the same day. Only one room at a time will be affected. The building will remain open.

University Union (65) — Room 205B Only — This facility is available for asbestos removal from July 14 to Aug. 3. Three days prior notice is required by the contractor to the university before work begins. All work will be done in one day. The building will remain open.

AV reduction of services

During the week of July 14 to July 18, Audiovisual Services will be able to perform only limited service due to the asbestos removal project in the basement of BA&E. The main basement hallway will be closed during this time.

AV will attempt to continue classroom set up of equipment, and will be able to supply a limited amount of equipment for over-the-counter check out.

The following services will not be possible:

- Audio and Video studios;
- Electronic distribution of media into classrooms;
- Set up of any media not ordered before July 11; and
- Off-air recordings not ordered by July 11.

For further information on how this will affect your audiovisual needs, please contact Audiovisual Services, ext. 2211.

CPR schedule

The next issue of Cal Poly Report is July 24. Additional summer issues will be published on Aug. 7, and Aug. 21. (The deadline is a week prior to publication date.) The first issue of Fall Quarter will be Monday, Sept. 15.
Emeritus titles awarded to eleven

Honorary emeritus titles have been awarded to 11 former faculty and staff employees. All of those receiving the title retired from university service in recent months.

Recognition as an emeritus member of its faculty and staff is conferred on Cal Poly employees who had at least 15 years of service at the time they retired.

The title carries with it privileges to use certain university services and to participate as a member of the campus community in various university activities.

The former employees receiving the honor, the departments in which they last worked, and the years of their employment, are:

He has served as alumni trustee since January 1985 filling the unexpired term of John F. O'Connell, the first alumni trustee, who died in July 1984. He will begin serving a two-year term in January 1987.

Pickens picked

Dr. William H. Pickens has been appointed director of the California Postsecondary Education Commission. He has served as the commission's director of fiscal analysis since 1978. He succeeds Patrick M. Callan, who resigned to become vice president of the Denver-based Education Commission of the States.

Survey forms

Employees are reminded that disability survey forms should be returned to the Affirmative Action Office, Admin. 110C, by July 11.

Conservation award presented

The university was recently honored at the annual Pacific Gas and Electric Company Customer Recognition Award banquet. PG&E representatives commended the campus for an energy reduction of 18%, equating to a cost avoidance of approximately $400,000.

The savings were made possible by university programs to "relamp" the campus with sodium fixtures, upgrading other electrical appliances, and the increasing awareness of students, faculty and staff to energy conservation.

Employee wins safety citation

A supervising custodian was among 63 state employees who were honored for their outstanding efforts in employee safety in a ceremony held at the State Capitol in Sacramento.

Juanita F. Esmon was recognized during the sixth annual Governor's Employee Safety Awards ceremony. Her initiative and interest in Cal Poly's safety program and continuing outstanding contributions to overall safety on campus were both noted in the citation.

"Her diligence in reporting safety problems, such as inadequate lighting, physical barriers, PCB leaks, fire hazards, electrical problems, and other situations needing attention, has led to her being affectionately called the safety eyes and ears of the campus," the citation said.

Esmon came to the university as a custodian in 1972, and was promoted to her present position earlier this year.

Survey forms

Employees are reminded that disability survey forms should be returned to the Affirmative Action Office, Admin. 110C, by July 11.

Photo ID services

Summer Quarter Photo ID services will be available Monday through Friday, noon - 4 pm in Admin. 208. Students should first pay the $5 fee at the cashier's window (Admin. 131E) and present the receipt to the Photo ID staff. Upon completion of the photo, a temporary ID will be issued.

New faculty and staff should first obtain a temporary ID from the Personnel Office. Faculty and staff ID charges will be paid by the respective departments. Three to four weeks after the photo is taken, permanent ID cards will be available. Faculty and staff cards will be sent to the Personnel Office for forwarding. If you have any questions, please contact ext. 2614.
Position Vacancies

Vacant staff positions at Cal Poly and the Cal Poly Foundation are announced in this column and are posted outside the respective offices. Contact those offices (State: Adm. 110, 805-546-2236 — Foundation: mobile unit near the Fire Department (805-546-1121) for applications and additional position details. Both Cal Poly and the Foundation are subject to all laws governing affirmative action and equal employment opportunity. All interested persons are encouraged to apply.

State

CLOSING DATE: 7-23-86

Operating Engineer, $1829-$2002/month, Plant Operations.

Candidates for positions on the faculty of the university are presently being sought, according to Jan Pieper, director of personnel and employee relations. Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This university is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

CLOSING DATE: 8-7-86

Assistant Women's Basketball Coach, salary commensurate with qualifications and experience, Athletics. One academic year leave replacement appointment starting September 1986.

Who, What, Where, When

Jack Robison, Accounting, co-authored an article, “A Survey of Oil Company Response to the Windfall Profits Tax,” for the June issue of the Oil & Gas Tax Quarterly.

John W. Algeo, Animal Sciences and Industry, has been named to the National Cattlemen’s Association Beef Safety Assurance Task Force. The 10-member group met in Denver recently to study ways to assure consumers that the beef they are buying is both safe to eat and of high quality.

Steven P. French, City and Regional Planning, had his paper, “The Evolution of Decision Support Systems for Earthquake Hazard Mitigation,” published by the University of Colorado, Institute of Behavioral Science. The paper appears in Terminal Disasters: Computer Applications in Emergency Management, edited by Sallie A. Marston. It was originally presented at the Natural Hazards Research and Applications Information Center’s Annual Hazards Workshop.

Laurence Houlgate, Philosophy, has presented invited papers to the following professional and lay groups: “Ethics and Children’s Rights Legislation,” to the Pacific Institute for Biomedical Education and Research; “Who Gets the Child? Ethical Problems Arising from the New Birth Technologies,” to the Philosophy Forum, University of California, Santa Cruz; and “Ethical Issues Arising in the Interface Between the Law and Patient Care,” to the Psychiatric Care Group, Atascadero State Hospital.

John W. Algeo, Animal Sciences and Industry, has been named a Fellow of the American Association for the Advancement of Science (AAAS). He was recognized for his “leadership in research, interpretation, and utilization of nutrition, physiology, and animal science in advancing animal and food production methods for the benefit of humans.”

Gary Field, Graphic Communication, has been named chairman of the Fellowship Committee for the Technical Association of the Graphic Arts. The committee selects recipients of fellowships for graduate study in technical fields related to the printing and allied industries.

William Little, Foreign Languages, was a reader of the Spanish Advanced Placement Examinations for the Educational Testing Service in Princeton, N.J.

Doug Genereux and Stan Ullerich, Ag Management, co-authored a paper, “Dealing with the Financial Crisis in Midwestern U.S. Farming,” for the New Zealand branch of the Australian Agricultural Economics Association annual meetings in Picton, New Zealand. Genereux delivered the paper in person.

Stan Ullerich, Ag Management, helped coordinate and staff a Cooperative Directors Workshop in Fresno. Information retrieval and dissemination, director liability and effective communications were topics discussed at the two-day event.
