Queen finalists chosen; students select winner

"It's up to the student body..." was the program slogan. Ten Paul said after the formal announcement, "The Queen finalis will be chosen later.

Catherine Jackson is a sophomore Psychology major from Santa Clara. Lynne Johnson, a sophomore English major from Saratoga, is six feet six" tall, and has blonde hair, blue eyes, and is sponsored by the Biological Sciences Club. She is a member of the DeMolay club and member of the Home Economics club. She is sponsored by Clyde's Crawlers.

Karen Berlin is a 19 year-old sophomore Physical Education major from Redondo Beach. She is five feet ten" tall, has blonde hair and blue eyes, and is sponsored by the Men's Basketball Club and the Women's Basketball Club.

Joy Pruitt is a 19 year-old sophomore Business Administration major from Whittier. She is five feet ten" tall, has blonde hair and blue eyes, and is sponsored by the Student Association.

Shannon Barney is a sophomore Social Science major from Whittier. She is five feet ten" tall with brown hair and blue eyes, sponsored by the Basketball Club. She is a member of the Kappa Delta Club and the Women's Club.

Following in alphabetical order, are the ten queen finalists:

Sharon Barrow, a sophomore Social Science major from Whittier. She is five feet ten" tall with brown hair and blue eyes, sponsored by the Alpha Xi Delta sorority. She is a member of the College Senate, Industrial Engineering Club, and the Beta Beta Beta, the biological sciences club. She is sponsored by Clyde's Crawlers.

Catherine Jackson is a 19 year-old sophomore Social Science major from Saratoga. She is five feet ten" tall, has blonde hair and green eyes, and is sponsored by the Biological Science Club. She is a member of the Home Economics club.

Karen Berlin is a 19 year-old sophomore Business Administration major from Redondo Beach. She is five feet ten" tall, has blonde hair and blue eyes, and is sponsored by the Men's Basketball Club and the Women's Club.

Joy Pruitt is a 19 year-old sophomore Psychology major from Santa Clara. Lynne Johnson, a sophomore English major from Saratoga, is six feet six" tall, and has blonde hair, blue eyes, and is sponsored by the Biological Sciences Club. She is a member of the DeMolay club and member of the Home Economics club. She is sponsored by Clyde's Crawlers.

Robin Carson is a 19 year-old sophomore Home Economics major from Pomona. She is six feet six" tall, is a member of the Junior Home Economics Club, sponsored by the Technical Arts Society. Her activities include two years as a sorority girl, a member of the Delta Chi club, and member of the "KappaDelta" drill team.

Leron Collum is a 20 year-old senior English major from Tustin, she is five feet six" tall, has blonde hair and green eyes, and is sponsored by the Farm Management club, the Beta Club, and the Student Artistic Association.

Starr Hartigan is a 19 year-old sophomore Physical Education major from Santa Barbara. She is five feet ten" tall, has blonde hair, blue eyes, and is sponsored by the Kappa Xi Delta and the Saloon. She is an officer of the Karate Club, CAPHEA, and a member of the Men's Athletic Association.

Pamela Peters is a 19 year-old sophomore Physical Education major from North Hollywood. She is five feet eight" tall, is a member of the Brown Baggus, and a member of the Women's Athletic Association.

This trip is open to all biological science students whether they are members of the tri-beta club or not.

There will be several professors on hand to assist those students interested in studying, but the main purpose of the trip, according to Dr. Finch, the club's advisor, is "to just have a good time."

Transportation will be provided for students who need it. The group will leave from the student parking lot across from the Agriculture building at 7:00 Saturday morning.

Interested students can sign up on the sheet posted on the board in the front of the biological science offices or contact Dr. Finch, Dr. Smith, or Marge Hartigan.

"As students become dissatisfied, I hope and suspect that they will propose changes in a constructive fashion," said Dale W. Anderson, dean of the college, at a recent college press conference.

The statement was in answer to a question concerning recog- nized channels of communication with the local campus adminis- tration that could be used by student unrest groups. Also, in his answer, which was in the form of a written statement, said Anderson, "We have asked the students to gather with the local campus administration committees and study a problem that should be considered.

When asked where students could for answers to their dis- satisfactions concerning college government, Anderson an- swered that, "You go to the (student) president's office."

"Who will run the college Union?" was another question during the press conference. "We have asked the student government to develop ideas that should be considered."

"Dissatisfied? Offer changes, says Dean"

Have you got what it takes to tackle jobs

like these... right after graduation?

(Then see our man on campus. He's got a career for you.)

Fernando State.

After just three weeks on the job, John
took charge of a crew of 19 non-management
men. As manager he's responsible
for quality and cost control, production
and personal matters in our Plant De-
partment. Under his direction, all per-
formance levels have improved greatly.

Max Gregorio . A.B. in Economics, San

Diego State.

Max's first assignment was to undertake
the position of Section Supervisor in the
San Diego Accounting office. In this job
he supervised six management and 65
non-management women. Job well done?
Max was promoted to the next level man-
agement and now is in charge of Reports
and Results for the same office.

Raymond Owens . B.S. in Mechanical

Engineering, University of California.

Responsibility was Ray's first step.
He was asked to prepare a study of the
power requirements for the first of a new
type miniature telephone center. To do
this he had to determine how the equip-
ment would fit in the allotted space and
then engineer the job. It was a major
project— with a working budget of over
$95,000.

Jim Burk . A.B. Stanford University,

M.B.A. University of California.

Supervising a sales group of five people
and servicing over 1,300 complex custo-
mer accounts is a mighty big first job. As
Sales Manager of the Rancho Palos Verdes
district, Jim and his group handle sales
which result in over $300,000 worth of revenue a
year.

BELL SYSTEM REPRESENTATIVES WILL BE ON CAMPUS NOV. 16 & 17

Pacific Telephone

AN EQUAL OPPORTUNITY EMPLOYER
Talent, soccer, bazaar, highlight International Week

A full week of activities is planned for International Week which will be held Oct. 24-30. The events will be sponsored by People to People, the coordinating body for all ethnic groups on campus.

The activities will begin with a soccer game on Sunday at 2 p.m. in the intramural area near the Men's Gym. On Monday there will be a banquet in the Snack Bar from noon to 3 p.m. The foreign students will wear their native dresses. Hall residents will take turns on Tuesday. The topic of these discussions will be "International Problems."

On Wednesday Alphas Zeta will host the foreign students in the staff dining room at 7 p.m. The speaker will be Bob Bulloch and his topic will be "Understanding Internationals." On Thursday in the Little Theatre during College Hour there will be a panel discussion. Students and faculty will participate in a discussion Thursday at 7 p.m. in Unit E-27. The topic of the discussion will be "You and the Model U.N."

Highlight of the week's activities will be the international talent show on Friday and Saturday nights. They will be held each night at 8 p.m. in the Little Theatre. General admission is one dollar and student admission is 50 cents and tickets will be sold at the door.

Participating in the shows will be the African Students, the Arab Student Association, the Cultural Society of India, Poly Club, the Iranian Student Association, the Pakistan Students, the Latin American Students, and the Philippine Students.

On Saturday the Iranian Student Association will sponsor a barbeque at Cuesta Park. On Sunday the week's activities will be closed with the soccer finals at 3 p.m. in the intramural area.

Coordinating the activities for the week is Richard Ranley. The activities are being planned by Keepa Zahn. The bazaar is being planned by Flaud Knox. Jacob Womack is organizing the Model U.N. discussions. The talent show is being planned by Kendall Haspich.
SAC appoints a reorganization committee

Appointment of the Student Government Reorganization Com­mittee was a major topic of busi­ness at Tuesday’s Student Af­fairs Council.

Four department divisions, the boards, student judiciary, and dorm and foreign student representa­tions will comprise the com­mittee, whose purpose it is to start a new term.

"Do we need to reorganize student govern­ment?"

Committee members are Dale Kelley, student judiciary; Tom Phelan, Build of Publica­tion; Mike Neno, Board of Ath­letic Control; Raffi Waterl, Board of Student Council; Bob Michalik, Col­lege Union; Dave H privately, agricultur­al division (chairman); Tom Grunmann, applied arts; Ben Shurman, student judiciary; Mike Elliott, student judiciary.

Representatives from each of the dorms and the foreign stu­dent population have not yet been selected.

Other business covered at the SAC meeting included Welcome Week and the Finance Commit­tee. It was reported that the freshmen were self-organized on the scene.

..."On Campus"

TREV TYPE-MANY-PLENDURED THING

Today I begin my twelfth year of writing this column in your campus newspaper.

These dozen years have passed like a dozen minutes. In fact, I would not believe how much time has gone by except that I have my wife nearby as a handy reference. When she asks me what I am doing, I tell her I am writing my column, she says, "Oh, a gift for a girl?" I say, "A willow bough and fair as the moon. Today she is garred, lumpy, and given to today the postman, still, I count myself as my unfaithful. Most of my friends who were married at the same time have wives who chase cats all day. I myself have never had a lumpy, and I attribute my good fortune to the fact that I have never stuck my wife with my hand. I have always used a folded newspaper, even during the prolonged newspaper strike of 1961 in New York. During this journal­ism period I had the aerial edition of the Manchester Guardian flown in daily from England. I must admit, however, that the air was not entirely satisfactory. The aerial edition of the Guardian is printed on paper so light and flimsy that it makes very little impression when one smacks one's wife. Mine, in fact, thought it was kind of game and tore several pages of my trousers.

But I digress. For twelve years, I say, I have been writ­ing this column. In fact, and here is another: I shave with l'ersonna Stainless Steel Blades. I bring up l'ersonna Stainless Steel Blades because this column is to be brood if I omit to mention their products.

"But I digress. For twelve years, I say, this column has made very little impression when one smacks one's wife. Mine, in fact, thought it was some kind of game and tore up l'ersonna Stainless Steel Blades because this column is to be brood if I omit to mention their products.

"But I digress. For twelve years, I say, this column has been discussing, forthrightly and fearlessly, such burning academic problem of all: the high cost of tuition.

"But I digress. For twelve years, I say, this column has been discussing, forthrightly and fearlessly, such burning academic problem of all: the high cost of tuition.

Andrew's press conference (cont. from page one)

Dean Andrews used one word to describe the status of the faculty-staff council on this campus. The word he used was "active." Andrews said that in June of 1964, the president conducted a referendum election to determine the type of staff council which would exist on the campus. The three choices on the ballot were for a single body, a two-body group or neither.

The single body was chosen. The council is made up of both college staff and faculty. Dean Chandler said that there was a fear of conflict between the two groups, but this did not turn out to be the case.

When asked about groups which have tried to organize on this campus, Andrews said he was aware of an effort by the American Federation of Teachers. He said that the Poly chapter of the American Federation of Teachers (AFT) is active, meets regularly, and has officers, but it is not recognized as an official consultative body on this campus. He said that the Faculty-staff Council is the only recognized consultative body.

Another point of the press conference was concerned with the administration of the University. The president said that the council met last summer to plan the summer of 1968 to make way for the parking lot. The new building coordinator, said that it would be very expensive to provide on-campus housing for married students according to Gerard.

Andrews posed such questions as: What are the needs of married students? What can they afford to pay? What are they willing to pay? What is the housing available? And to meet state standards, which would include no "frills"—it would cost about $55 a square foot to build the units and it would require an average of 500 square feet per unit for married students according to Gerard.

Andrews suggested that this problem would be a good one for a social science major to undertake as a senior project.

Clubs officers in Herd Book

The reference section at the El Corral Book Store contains over 1600 books. If the book you want is not on hand, we will gladly Special Order it for you.

(Senior number of Publishers Catalogs available. Get your free copy while they last.)
The "Back Porch Majority," a folk singing group, will bring their mirth and finely hued music to the Back Porch on Nov. 9 at 8 p.m., for their first concert on the central coast. Student tickets for the concert may be purchased at the AMI office through Nov. 9. Reserved chairs are $2.00 per ticket, reserved section seats are $1.75, and general admission tickets are $1.50.

The Majority was conceived, out of necessity, as a form term for their professional voices. The New Christy Minstrels, Randy Sparks, master flautist of the folk-harmony idea, launched the Minstrels on an unparalleled career.

Best fiction reviewed

"A Merman from the Porn," by John Wyndham, is the only major construction that will interfere with the flow of traffic on campus this semester. According to Douglas Ger­ard, college building coordinator, Wyndham said that the Outer Perimeter Road, in the area of the North Mountain Dorms, is being dug up to install electrical and steam lines. This area will be in "caution zone" for about a month, he said.

People driving on campus are requested to drive with caution as well. After dark, the area will be in disrepair for a month, said Gerard.

Road being dug up; caution requested

Engineers and Scientists:
Let's talk about a career at Boeing... 50-year leader in aerospace technology

Campus Interviews Thursday and Friday, October 28 and 29

The most effective way to evaluate a company in terms of potential for dynamic career growth is to examine its past record, its current status, and its prospects and planning for the future, together with the professional climate it offers for the development of your individual capabilities.

Boeing, which in 1966 completes 50 years of aerospace-aeronauti­cal invention and produc­tion, offers you career opportunities as diverse as the massive and varied back­log. Whether your interests lie in the field of commercial jet airliners or in space-flight technology, you can find at Boeing an engineering climate which combines profes­sional challenge and long-range stability.

The men of Boeing are today pioneering evolutionary advances in both civilian and military aircraft, as well as in space programs of such historic importance as America's first moon landing. Missiles, space vehicles, gas turbine engines, transport helicopters, marine vehicles and basic research are other areas of Boeing activity.

There's a spot where your talents can mature and grow at Boeing. In research, design, test, manufacturing or administra­tion, the company's position as world leader in jet transportation provides a measure of the calibre of people with whom you would work. In addition, Boeing people work in small groups, where initiative and ability get maximum exposure. Boeing encourages participation in the company's Graduate Study Program at leading colleges and universities near company installations.

We are looking forward to meeting engi­neers, mathematicians and science seniors and graduate students during our visit to your campus. Make an appointment now at your placement office. Boeing is an equal opportunity employer.

(1) Boeing's new short-range 737 jetliner. (2) Boeing Vertol 107 transport helicopter. (3) Models of Boeing's new short-range jetliner (1), medium-range jetliner (2), and deep-space flights. (4) Model of Lunar Orbiter. (5) Model of commercial jetliner. (6) Model of long-range jetliner.
Deadline

Last day to apply for "Cotton Maid"

Today is the last day to submit applications for the title of "Maid of Cotton." The contest, sponsored by the Cal Poly Drama Club, is open to all Cal Poly women students here in San Luis Obispo who desire to vie among themselves for the grand prize, which is among them: the title of Miss Poly and $20, who are not married, have never been married, and are at least 5 feet 6 inches in height.

For those interested in competing in the California Maid of Cotton contest which is a part of the Cal Poly Homecoming week, applications shall be given to Barry Anderson, chairman, at Crop House, L1068, or Dr. Corwin Johnson, Ag, 858.

Last year's "Maid of Cotton" at Cal Poly, Joannm Poston, went on to Fresno and won the title of "Maid of California."

Youth will be served

Now that this student establishment, known as the Senate, there is evidence that the "faded gray" of Southern Democratic and conservative Republicans is gradually being replaced by a "new gray" composed of liberal-minded Democrats. Majority leader Mike Mansfield, a Democrat, told his colleagues that the Senate would be "the body of the future." He stated recently, "This Fresh Blood is good for us."

El Rodeo policy

Editor:

We, the members of El Rodeo, the student newspaper of a national honor fraternity, hereby present our support of the new policy of El Rodeo, which requires campus organizations to finance their own coverage in the school annual.

We believe that El Rodeo coverage should include all campus activities. By charging coverage fees, El Rodeo is eliminating many clubs who cannot finance their coverage but which is in that previous annuals. To do so, would require a special assessment of club members, who most, in addition, also pay for the annual. All campus recognized organizations should be entitled to El Rodeo coverage free of charge.

Improvement of journalistic style and standard quality, a more extensive El Rodeo ads program, and more aggressive ads sales should make the need for such assessment unnecessary.

We believe that the new policy of the El Rodeo staff is satisfactory in that smaller coverage of club events charged by the fee requirement will lead to decreased numbers of the annual. We are requiring to have coverage in this year's El Rodeo, by reviewing a number of protest, to our student council, the Cal Poly chapter of the national organization, to the national council.

John Deaton, president

Army specialist discusses openings

Captain Sue Oehlsen, Army Medical Specialist Corps Personnel Counselor for the Ruth U. S. Army, will be at the Snack Bar on Monday to interview college students and graduates and to acquaint them with the educational and financial opportunities offered by the Army Medical Specialist Corps for a period of two years and are designed to hospitals within the United States and overseas.

Mustangs clash with Cal Western

Another action-packed Cal Poly varsity football game against California Western University of San Diego is on the agenda tomorrow—against the Mustangs at 8 p.m. in Mustang Stadium.

The Mustangs made headlines of 4,500 partisans last Saturday, that they're out to play the Bulldogs when the game ended.

Enduro race open to all - 7 classes

Enduro runs an all-class course with rider piloting to mark the course. Each car gets two girls with the fastest time winning. An entry fee of $1.50 is charged for each car entered.

John Lauritzen wanted further knowledge

When the University of Nevada awarded John Lauritzen his B.S.E.E. in 1951, it was only the first big step in the learning program he envisions for himself. This left him a planning engineer developing test equipment for the Bell System's revolutionary electronic telephone switching system. If you set the highest standards for yourself, both educationally and professionally, we should talk. Western Electric's vast communications job as a manufacturing unit of the Bell System provides many opportunities for those interested in electrical, mechanical and industrial engineering, as well as for physical sciences. There are many business men's careers waiting for you. Get your copy of the Western Electric Career Opportunities booklet from your Placement Officer. And be sure to arrange for an interview when the Bell System recruiting team comes to your campus.
