Brown reports

School for yell leaders opened to all students

The 1966 version of Cal-Poly's YeLl Leader School opens its doors to interested candidates to

Candidates will be put through strenuous workouts in order to increase their gymnastic skills. Originality is of maximum importance, and time will be spent by all candidates making up original yells. At the tryouts, everyone is on equal footing with past experience holding little or no weight.

Bigge retires this year, after three years as head coach at Cal Poly, "Running this Yell Leaders School is my last official act." Bigge said, "It is a way I hate to see it all end. There is still a lot more I'd like to do. It's for the best though. These just isn't too much demand for tail,sking themselves in Van Nuys where I might be heading. Seriously though, the athletic program here at Poly is on the way up, and now is a good time to become part of it. Yelling can be an extremely rewarding experience, and I would recommend it to anyone."

PRINTING WEEK Queen crowned

International Printing Week got off to a flying start at Poly last week when Mat Pica Pi, the Society of Printing Engineers, elected Marilyn Ross as its Printing Week queen.

Marilyn, an Hayward-old Home Economics major from Porterville, was chosen from two other candidates from the college, 1st-4th year Kevin Miller and Warren Roth, 10, who will serve as prince.

In observing Printing Week, Ross said, "It makes our school a part of a Printing Week movement as part of its school activities. The queen represents the club during this period as part of the המדינה of a photograph by San Luis Obispo County.

Following the election, Marilyn Wellisch, officially joined President Johnson and International Printing Week vice-president, the M. S. M. M. University of California, Berkeley. In signing the proclamation, Mayor Wellisch officially joined President Johnson and International Printing Week vice-president, the M. S. M. M. University of California, Berkeley. In signing the proclamation, Mayor Wellisch officially joined President Johnson and International Printing Week vice-president, the M. S. M. M. University of California, Berkeley. In signing the proclamation, Mayor Wellisch officially joined President Johnson and 1st-year Alice, the queen's princess, and Rene Miller, the current reigning over Poly's YeLl Leaders School as its Printing Week Queen.

Committee clears student transfer units

The sub-committee for graduation, which is supervised by the Engineering College, is now being headed by Engineering Harold R. Hayes, has been reviewed by the sub-committee with faculty representatives from the University of California at Berkeley, University of California at Los Angeles, El Camino College, Cabrillo College, and San Jose State.

The purpose of this new committee is to bring some order to the transfer of student from one unit in the college system to another.

"We also want to facilitate the transfer of students from a transfer unit to another unit in our four-year college and keep their units in some kind of relationship," said Dean Hayes.

Reviewers will also be done in the field of college graduates who are in the process of transferring to a junior college in order to make sure they can adequately and efficiently meet the needs of their students.

Final selection will be made by the sub-committee for graduation, with awards to be announced on March 15.

Applications for the graduate program (continued on page 641)

Enrollment Breakdown

Six thousand seven hundred thirty-two students registered at Cal-Poly for the Winter quarter. This figure represents a decrease of 827 as compared with last quarter's 7,624. A larger enrollment of about 140 students had been projected for this quarter.

College Registrar, J. Harold Holley, mentioned that there was no explanation for this time as to why the projected enrollment was not reached.

As to whether the military draft had been a factor, Holley said, "There is no evidence at all to support such a conclusion."

Applied Arts saw an increase of 24,847 in the total enrollment and 2,001 in the full-time enrollment; the only division with a lower number than 2.019 students was the Agriculture Division which had 1,444 full-time students. Applied Sciences registered 1,426. The S. M. S. M. M. University saw an increase of 1,038 in total enrollment and 526 in full-time enrollment. This quarter 4,248 enrollees were listed.

Department-wise the Architecture Department ranked first in total enrollment with 2,942 students, the same number as last quarter. The Science Department followed with 1,583. Business Administration enrolled 1,056 students; Music Ensembles, 429; Foreign Languages, 408.

Other statistics: The Bio-Chemistry Department enrolled the lowest number of students (191) Graduate students total 1941, of 357 students registered at Poly, Freshmen, Sophomores, Juniors, and Seniors number 144, 148, 154, and 181 respectively.

Poly Royal celebrates 34th year

April 29, and May 1 have been announced as dates for the 34th annual Poly Royal. Better described as a "country fair on a college campus," Poly Royal this year featured an arts and crafts area, attention to art, athletic events, several dances, an intercollegiate championships rodeo, horse and home show, and a Gala in addition to sales and open houses of the college's 25 instructional departments.

As an additional attraction, Poly Royal this year, falls in the midst of the college's 65th anniversary and several events will be scheduled in observance of it. The three-day Festival has grown during recent years to the point that it now attracts an estimated 230,000 visitors each year.

Responsibility for planning and staging the event is handled by a 100-member student committee with the direction of Julian A. McPhee under the attention of that of selection of "Miss Poly, Queen of Poly Royal.

Selection from among members in the 25, of the college's Senior Class as far as grades and activities are concerned, will reign over the assistance and appearance of hundreds of volunteers and organizations and make appearances at press conferences and interviews for radio and television in connection with Poly Royal.

Play makes debut

The opening of the 34th Poly Royal will be the debut of "Noah," a play concerning the timeless story of Noah, his wife and three sons, and 29 at the Pomona campus.

"Noah," authored by Andro Titelstein (Switzerland), is hooked to the present, conforming the environment of the Ark, this 1931 play concerning the timeless story of Noah, his wife and three sons. Instead, the doubting, old man of the new world searches in the brave, new world for a "certain boat, built in the days of old with bricks, but no more in its" shape... The cost is $100.

Noah counselling

Housing for the weekend will be provided by the scholarships of the Pomona campus. This is to be arranged according to a reciprocal basis with the Poly throughout the college.

Transportation will be available to students from the Pomona campus. Cost is $4 per person. Transportation and lodging can be utilized.

The registration forms are now being issued to the students of the college.

Events Committee for Jan. 28 at- the Pomona campus, Registration fee for All Poly Weekend is $15, which includes transportation, all activities will be furnished at no cost to students at a campus- wide banquet. The registration form is $50.

The rehearsals for the English Department will begin Monday, March 28 at the age of 70. The rehearsals for the English Department will begin Monday, March 28 at the Pomona campus.)

McPhee, a former president of Cal Poly, has received the Cross of Honor, which is the highest honor bestowed by the German Government to American citizens for outstanding contributions to the arts and sciences. McPhee is a native of Los Angeles and was graduated from the University of California at Berkeley in 1927. He received his Ph.D. from the University of California at Los Angeles in 1931.

McPhee was honored by the Los Angeles County Fair Association for his 45-plus year's contribution to the state's fair industry. The tribute in the form of a house was presented to the native of Germany for his contributions to the arts and sciences.

Fair association honors McPhee

Dr. Julian A. McPhee, in his retirement term of a 25 year career as president of Cal Poly, has been honored by the Los Angeles County Fair Association for his 45plus year contribution to the state's fair industry. The tribute in the form of a house was presented to the native of Germany for his contributions to the arts and sciences.

Cal Poly prepares education kit

High school agriculture students and their parents soon will be learning how best to handle the newest weapons in the fight against starvation.

Since World War II, agricultural chemicals have been a major armament in the battle against starvation. They aid in learning how best to handle the world's millionth acre, and then expanding population.

A special feature of the student workbook, "Agricultural Chemical Usages," is that problem of the growing farmer. In preparing the workbook, Van DeVanter consulted with state and federal agricultural and public health officials, chemical companies, commercial application firms, farmers, and high school agricultural teachers.

The idea behind this safety program, Van DeVanter explained, "is to make students understand that certain agricultural chemicals are not harmful as well as the values of agricultural chemicals in helping feed the world's millions and the world's millions of people. In the future, better ways will be used to avoid any harmful effects. The nation's farmers need to be just as familiar with the chemicals that are helping feed our rapidly-expanding population as they now are with tobacco, salt, sugar, and oil."
Think of yourself in one of these positions... right after graduation.

(Interested? See our man on campus. He's got a career for you.)

**John Waggoner**
B.S. in Industrial Engineering, University of California, Berkeley

John's first assignment was to take over the management of an Information Operating Office and to hire employees. Using his initiative, John saw possibilities for improving operations by reorganizing certain equipment and centralizing supervisory personnel. As a result, his office's efficiency greatly increased.

**Bob Goldsmith**
B.S. in Electrical Engineering, California State Polytechnic University

Bob has a nine-man plant service crew all of his own. Together with his men, he is responsible for seeing that over 2,000 complex customer accounts always have smooth, uninterrupted service. He and his crew are one responsible for the maintenance of vital defense communications systems at two military leases.

**Terry Westbrook**
B.S. in Electrical Engineering, University of California

After only a few months with the company, Terry was made Training Operating Manager of the Maysville Long Distance and Interoffice office. On the job, he supervises 125 employees who handle over 16,000 calls a day. In his position as manager, Terry is also responsible for the quality of service, labor relations, and administrative procedures. As a result, he predicted an annual payroll of more than $475,000.

BELL SYSTEM REPRESENTATIVES WILL BE ON CAMPUS JANUARY 25, 26 AND 27

**Lloyd Thorsen**
B.A. in Philosophy, California State University

Lloyd was recently assigned a most important position. Now, he is responsible for documenting sales territories he has improved. Lloyd makes study of the new territory and writes out sales recommendations. They are accepted and put into effect. Furthermore, increased activity is aimed at improved customer service and Lloyd was subsequently promoted.

California State Employees Association uses this year's scholarship for a freshman student for the remainder of this year. Preference will be given to students whose parent is an active, retired or deceased CSEA member.

**More People**

Administrative Scientists, claims to the right of your own! Produced a new employee activity study showing equally excellent conditions.

**13 Honored**

Seventeen Honor Students were recently honored amongst BETHLEHEM MODEL and the Honoree was awarded an F.E.T.C. scholarship.

**Natasha**

Carp, Frederick A. All, an instructor in the BETHLEHEM MODEL and the Honoree was awarded an F.E.T.C. scholarship.

**John Waggoner**

improving operations by rearranging various initiatives. John's office's efficiency greatly increased.

John E. Hamilton, Robert T. Ham- mond, Robert J. Hyatt, Russell L. Kuska, Donald J. Park, Paul Rogers, Michael L. Snyder, and Donald T. Teague.

**B recipes for...**

The applicant's combination method of thinking, for which he was recommended for the position, was received. The applicant has demonstrated the financial need for the scholarship, and the applicant should be prepared to become a suitable addi- tional, capable manager of the system's operations, and essential for the continuing improvement of the Foothill County Cuto Home Equipment Committee.

**Think of yourself in one of these positions... right after graduation.**

South Africa on trial before World Court

South Africa is now becoming more aware of its responsibility to the world community. As a result, the South West African case is now being handled with increased respect for the legal rights of the native inhabitants. The case, which is being heard by the International Court of Justice, is expected to set a precedent for the treatment of other colonial territories.

Several points of interest are being made during the trial. One is the fact that the trial is being held in The Hague, rather than in South Africa. This is because the UN Security Council has referred the case to the Court, and South Africa is not a member of the UN.

Another point of interest is the fact that the trial is being held in English, rather than in Afrikaans, the language of the Afrikaner population. This is because the Court has ruled that the native inhabitants are entitled to be represented in their own language.

The trial is also significant because it is being held in a public forum, rather than behind closed doors. This is because the Court has ruled that the trial is a matter of public interest, and that the public has a right to know what is happening.

The trial is also significant because it is being held in a court of law, rather than in a political forum. This is because the Court has ruled that the trial is a matter of legal rights, and that the legal system is the proper forum for determining these rights.

The trial is also significant because it is being held in a court that is impartial, rather than in a court that is biased. This is because the Court has ruled that the trial is a matter of international law, and that the Court is impartial and unbiased.

The trial is also significant because it is being held in a court that is respected, rather than in a court that is not respected. This is because the Court has ruled that the trial is a matter of international law, and that the Court is respected by other nations.

The trial is also significant because it is being held in a court that is fair, rather than in a court that is unfair. This is because the Court has ruled that the trial is a matter of international law, and that the Court is fair and impartial.

The trial is also significant because it is being held in a court that is transparent, rather than in a court that is opaque. This is because the Court has ruled that the trial is a matter of international law, and that the Court is transparent and open to public scrutiny.

The trial is also significant because it is being held in a court that is accountable, rather than in a court that is not accountable. This is because the Court has ruled that the trial is a matter of international law, and that the Court is accountable to the nations of the world.
Military Ball set Feb. 5

Seaboard and Blade's fourteenth annual ROTC Military Ball is slated for the night of Sat. Feb. 5, at 9 p.m., and tickets are on sale for $2 per couple from any ROTC cadet or from the ROTC office in the old library building.

Tickets will also be on sale the night of the dance, which will be held in Men's Gymnasium. Doors are closed-formal and dancing will be to the music of the Cal-Poly Collegians. Color photographs of you and your date will be available as souvenirs along with the official military-type dance "old" ticket.

Highlighting the festivities is the crowning of the ROTC Military Ball queen for 1967 from a court of six princesses elected by Seaboard and Blade-the ROTC honor club and voted upon by the entire corps of cadets.

The Grand March and presentation of the royal court will follow the prearranged "military splendor" of such occasions.

As an added incentive to the corps, the cadet who sells the most tickets will receive a promotion of grade in the non-commissioned officers category. The company with the highest sales will receive the coveted "honor unit" designation for the month of February.

Sat., Feb. 5, at 10 p.m., and tickets are on sale for $1.900.

Tucker— Fixed Top, Tilt Top, Tonno Top, $170.00. Dual T/A, Condition liberal with warranty. Will take Hospital, Tucker Dual T/A, condition liberal, $170.00.

Student protests harmful, according to recent poll

President Harris reports that 76 per cent consider student demonstrations "harmful." Most significant of the Harris poll results were those favoring student-union solidarity, according to recent poll. According to Harris, 76 per cent of the college and university students favor student-union solidarity, and 65 per cent of college and university students favor student-union solidarity, and 65 per cent of college and university students favor the student-union solidarity, and 65 per cent of college and university students favor the student-union solidarity.
NOT ONE CENT MORE!

The most beautiful Diamonds you've beheld! Affordable for not a penny more than others. Seeing is believing!

Good proper indication is the Diamond is as is in Gemologist's tests. Gemologists select the Diamond with the prismatic fire in its heart! They pay no more. Neither do you. And the same beauty of such a Diamond will capture her heart forever.
The Mustang, despite a seven-minute drought in which they didn't score a field goal and were outscored 19-8 by the Forty-Niners, went into the debriefing room at halftime with a 34-27 lead in the game. They led the ball seven times and scored 15 points in a row.

The Mustangs, out of Ferry's sight and tenacious, closed in on the Forty-Niners in the final minutes of the game with six minutes to play.

The Forty-Niners, not to be deterred, took the lead back in the final minute of the game. They held the ball, Bob Gravott 'who tossed in a field goal and led the Forty-Niners into the contest. They put their all in the game and added a pair of foul shots.

The Forty-Niners upset the Mustangs in the second half rally which carried the Forty-Niners into a 10-point lead in the game. They led the ball seven times and scored 15 points in a row.
