Bruley to leave engineering post

Dr. Duane F. Bruley, dean of the School of Engineering since the fall of 1984, will relinquish his post before the end of Winter Quarter to accept a position with the National Science Foundation in Washington, D.C.

Bruley is to begin serving as director of the NSF's Separation and Purification Processes Program, part of its Division of Chemical, Biochemical and Thermal Engineering, on March 2.

The dean announced his decision to accept the new post at a school faculty meeting last Friday.

An interim dean will be named while the university undertakes a search for a permanent successor.

"My tenure as dean of the School of Engineering at Cal Poly has been a very interesting and rewarding experience," Bruley said. "I want to thank all of the faculty and staff for their help and cooperation in working hard to make the School of Engineering a better school each year."

Since taking over the dean's chair Aug. 24, 1984, Bruley has guided the school in several major programs. Chief among them is a five-year, $30 million fund-raising effort that is more than two-thirds of the way toward its goal. Bruley initiated planning for the Benchmark for Excellence in Undergraduate Engineering Education Campaign soon after his arrival on campus. The campaign was officially launched last fall.

"A strong network of outside support is in place," Bruley said. "I think there is little doubt that the school will achieve the goal by 1989."

Other efforts led by Bruley include the establishment of a Dean's Advisory Council made up of representatives from business and industry, development of an Industrial Associates program involving major corporations, beginning of a Faculty-Coordinated Graduate Internship Program in which about 15 students are now participating, and the acquisition of two major computing systems for the school.

Also during his tenure, the school moved its offices and three of its departments into a new building, launched a Computer-Integrated Manufacturing Center, maintained a high level of accreditation with the Accreditation Board for Engineering and Technology, and became one of the first schools to receive national accreditation for its undergraduate computer science program.

Bruley, an internationally recognized specialist in process dynamics and control, came to Cal Poly after holding top posts at Louisiana State Technical University, Rose-Hulman Institute of Technology in Indiana, and Tulane University in New Orleans, and serving on the faculties of Clemson University in South Carolina and the University of Tennessee.

Krieger to make presentation today

Dan Krieger of the History Department will present an illustrated slide program to the University Club at a meeting in the Staff Dining Room at noon (today) Jan. 22. Krieger's presentation is titled "Canadian on the Rocks: The Central Coast During the Prohibition Era."

Krieger will describe how the numerous landings off the Central Coast from Point Sal and Pismo to Spooner's Cove, Cayucos, and even William Randolph Hearst's San Simeon, became favorite landing spots for bootleggers dealing primarily in whiskey and gin from Canada.

Krieger is preparing an illustrated history of San Luis Obispo County for Windsor Press and will draw upon newly researched materials for his presentation.

VP for Academic Affairs search

Over 225 applications have been received for the position of Vice President for Academic Affairs, according to George Gowgani, chairman of the Consultative Committee.

"The committee is diligently assessing the candidates' qualifications and we intend to invite finalists for campus interviews by the end of Winter Quarter," said Gowgani.

Other members of the committee are:

- Charlie Andrews . . . . . Accounting
- Leonard Davidman . . . Education
- Day Ding . . . School of Architecture
- William Forgeng . . . . Metallurgical Engineering
- Tyler Hammond . . . . . . . ASI
- Dane Jones . . . . . Chemistry
- Lloyd Lamouri . . Academic Senate
- Mary Pedersen . . . . . Food Science and Nutrition
- Lars Perner . . . . . . . . . . . ASI
- Armando Pezo-Silva . . Student Academic Services
- James Rodger . . . . Construction Management
- Patricia Stewart . . . . Learning Assistance Center
- Mike Suess (ex-officio) . Personnel and Employee Relations
- David Walch . . . . Instructional Resources
- Mike Wenzl . . . . . English
- Smiley Wilkins (ex-officio) . . Affirmative Action
Peace forum set for Friday, Jan. 23

The use of nuclear weapons by the military and Soviet national security policy will be the topics discussed at a peace forum Friday, Jan. 23, at 7:30 pm in the Cal Poly Theatre.

Adm. Noel Gayler, former U.S. Navy commander-in-chief, and Dr. David Holloway of Stanford University, an authority on Soviet policy and arms control, will share the podium.

Gayler’s remarks will be titled “A Commander-in-Chief’s Perspective on Nuclear Weapons.”

After 30 years of military service, Gayler has become a spokesperson for the banning of nuclear weapons.

Holloway, a member of the Center for International Security and Arms Control at Stanford, will speak on “New Thinking in Soviet National Security under Gorbachev.”

The forum is sponsored by Students for Social Responsibility and the San Luis Obispo chapter of Physicians for Social Responsibility.

General admission tickets are $4.50 for students and $5 for the public. They are being sold in advance at the UU Ticket Office.

Expert on heat transfer to speak

An internationally recognized teacher and researcher in the field of heat transfer will speak at Cal Poly on Thursday, Jan. 29, about innovations in his specialty.

C. L. Tien of UC Berkeley’s mechanical engineering faculty is to speak at 11 am in Room B-5 of the Science Building. His lecture, titled “Heat Transfer—Innovations in Technology,” is open to the public.

His research and his theoretical explanations of his unique results have been landmarks in the science of heat transfer. His work has led to numerous technical innovations, including solid materials that insulate more effectively than air.

In recognition of his career achievements, he was awarded the Max Jacob Medal, given annually at the international conference of mechanical engineering societies to the person considered to have made the most outstanding contributions in the field of heat transfer.

Holder of a doctorate in mechanical engineering from Princeton University, Tien has served at Berkeley as a distinguished teacher, department chairman, and vice chancellor for research, while serving the profession in several editorial roles. He also is a member of scientific advisory boards of Yugoslavia, China and Brazil.

Tien’s lecture is part of the School of Engineering’s Distinguished Lecture Series.

Abbie Hoffman will speak on Jan. 27

Abbie Hoffman, student radical of the 60s and founder of the Yippie movement, will bring his 80s-style activism to the stage at 8 pm on Tuesday, Jan. 27, in Chumash Auditorium.

Hoffman will also appear at a free seminar-workshop on political activism at 2 pm the same day in the Cal Poly Theatre. Members of all local public service agencies are encouraged to attend.

His name gained national recognition as a leader of the protest marchers outside the Democratic National Convention in 1968, and as a defendant in the Chicago Seven conspiracy trial (described by the American Civil Liberties Union as the most important political trial of this century).

Currently Hoffman works with several environmental groups in the Great Lakes region and throughout the Northeast. He is also working to mobilize opposition to U.S. policy in Central America. The latest of his seven books, “Square Dancing in the Ice Age,” was released last spring.

Tickets for the evening program are available at Boo Boo Records in San Luis Obispo. Prices are $3.50 for students, senior citizens, and children, and $4 for the public. They will be 50 cents more at the door.

Both the afternoon and evening programs are sponsored by the ASI Speakers Forum.

Abortion panel discussion today

The ethics of abortion from a philosopher’s perspective will be explored in a panel discussion today (Jan. 22) at 11 am in UU 220.

Panelists will include Dr. Tal Scriven, head of the university’s Philosophy Department; Drs. Stan Dundon and Laurence Houlgate, also of the department; and Brother Donald Mansir of the Newman Catholic Center. Dr. Stephen Ball of the Philosophy Department will act as moderator.

There will be a seven-minute introductory speech by each panel member, followed by an opportunity for the audience to direct questions to the panelists.

The event is free and is sponsored by the Philosophy Club, a program of the ASI.

Meat available

The Cal Poly meats enterprise project is currently taking orders for lamb, beef and pork. Whole lambs, sides of beef and sides of pork are available as well as individual boxes of lamb chops, pork chops, beef roasts and beef steaks. Call Matt, ext. 2114, or write Meat Sales, Food Science and Nutrition Department, for more information.
The 1987-88 Governor's budget request to the legislature includes six of the seven capital outlay projects submitted by the trustees of The California State University on Cal Poly's behalf. The projects are:

Remodel Student Services Building - $136,000 - This project identifies the remodel of both Heron and Jespersen halls on College Avenue for structural and code upgrade and the addition of a joining structure between them to provide for a main entrance, offices and an elevator for physically handicapped access. (Preliminary plans and working drawings.)

Remodel/Addition Business Administration and Education - $772,000 - This project identifies the structural and code rehabilitation of the existing building and a significant addition to accommodate instructional needs for the School of Business as well as some 75 individual faculty office spaces. The addition will be constructed adjacent to the south end of the existing building. (Preliminary plans and working drawings.)

Agricultural Sciences Building - $890,000 - This allocation provides for the necessary moveable equipment to allow the Agricultural Sciences building to serve its instructional function when construction is completed. (Equipment.)

Remodel Engineering East - $3,364,000 - This appropriation provides for construction funding to remodel the Engineering East building primarily for upgrading electronic and electrical engineering labs. The project also provides for a second story addition to the building for faculty offices and a departmental administrative unit. Preliminary plans and working drawing funds in the amount of $240,000 were previously appropriated as part of the 1986-87 budget but were held until passage of Prop. 56 in the November election. The firm of Kruger/Bensen/Zierer of Santa Barbara has been appointed to design this project. (Construction.)

Dairy Science I—Instructional Center - $98,000 - The trustees' request to the Department of Finance for this project included working drawings and construction of $1,560,000. Subsequent to that request the program was modified to identify a significantly larger scope of facility that can enter preliminary design for the amount scheduled for appropriation in 1987-88.

The project essentially calls for the rebuilding of the main university dairy to provide state-of-the-art management of the university dairy herds, particularly with respect to animal sheltering, feed and waste management, and milk handling. (Preliminary plans.)

Faculty Office I - $74,000 - This project was also reduced from the trustees' request for $162,000 to $74,000 referenced above. The project identifies the construction of several in-fill units adjacent to the Science (52) building to provide individual faculty offices. (Preliminary plans.)

The only project not supported in the Governor's request was the site development access road project to connect California Blvd. with North Outer Perimeter Road in the vicinity of Poly Grove.

Payday — Jan. 29

CPR

Cal Poly Report is published weekly during the academic year by the Public Affairs Office.

Stan Bernstein (Editor) …… ext. 1511
Betty Holland (Graphic Tech) ext. 1511
Jo Ann Lloyd (Dateline) …… ext. 1511

Typewritten, double-spaced copy may be submitted Cal Poly Report by 4 pm the Thursday prior to the next publication.

Make Believe Brass featured at Pops Concerts

The Make Believe Brass will be the guest artists at Cal Poly's annual Pop's Concert on Saturday, Feb. 7, and Sunday, Feb. 8. The first concert will be Saturday at 8 pm, and the second program will be Sunday at 3 pm.

Lovers of the Boston Pops will find Chumash Auditorium transformed into a New England landmark (Boston's Symphony Hall). The audience will sit at decorated tables and have a chance to sip sparkling cider, coffee, or tea with dessert.

The Pops Concert will feature Cal Poly's Symphonic Band, the Dixieland Band, the Percussion Ensemble, the Saxophone Quartet, and the Brass Quintet. The concert's popular and semi-classical music will be under the baton of William V. Johnson, professor and band conductor.

The Make Believe quintet is an all-brass group consisting of two cornets, tenor horn, trombone, and tuba. They perform at Disneyland.

The concert will include the suite from "Chariots of Fire," a tribute to Irving Berlin, the Overture to Mozart's "Marriage of Figaro," and selections from "West Side Story."

The finale will be a performance of George Gershwin's "Rhapsody in Blue." Susan Azaret Davies will be the piano soloist.

Tickets are $8.25 for the general public and $6.25 for students and senior citizens. They may be purchased at the UU Ticket Office, Boo Boo Records in San Luis Obispo, and from members of the band. In addition, tickets may be reserved by calling ext. 2556 or 2607. Sponsors for the Pops Concerts are the Music Department, School of Liberal Arts, and ASI.
Career planning workshops set

The Career Planning Services workshop series for Winter Quarter will begin on Feb. 3. This quarter students are being encouraged to participate in all three scheduled sessions.

The first session will emphasize values and interests; the second on Feb. 10 will look at skills and work environments, and the last, on Feb. 17, will focus on group brainstorming and researching careers.

The brainstorming has been fun and helpful, and requires attendance at the first two sessions to be effective. Faculty are asked to announce the availability of the workshops. Students must call ext. 2511 to preregister or visit the Counseling Center for more information. All sessions run from 3 to 5 pm in the Counseling Center, Bldg. 116.

Dateline... (S) - Admission Charged (!) - Admission Free

THURSDAY, JANUARY 22

University Club: Dan Krieger (History) will discuss "Canadian on the Rocks: The Central Coast During the Prohibition Era." Staff Dining Room, noon. (!)

Leadership Workshop: Learn basic communication and leadership skills. Sponsored by ASI Outings. Meet at the Craft Center Gallery, UU 111, 11 am. (!)

Craft Classes: There are still craft classes available in woodworking, ceramics, bike repair and more. UU 111, or call ext. 1266. (S)

Panel Discussion: The ethics of abortion will be explored. UU 220, 11 am. (!)

Women's Basketball: UC Riverside, Main Gym, 7:30 pm. ($)

FRIDAY, JANUARY 23

Avalanche Seminar: Learn back country and avalanche safety techniques from a certified instructor at Donner Summit. Continues through Sunday, Jan. 25. Sponsored by ASI Outings. Details at the Escape Route, UU 112, or call ext. 1287. ($)

Peace Forum: Use of nuclear weapons. Theatre, 7:30 pm. ($)

Men's Basketball: UC Riverside, Main Gym, 8 pm. ($)

SATURDAY, JANUARY 24

Women's Tennis: Alumni Match, Tennis Courts, 11 am. (!)

Women's Basketball: Cal Poly Pomona, Main Gym, 5:45 pm. ($)

Men's Basketball: Cal Poly Pomona, Main Gym, 8 pm. ($)

MONDAY, JANUARY 26

Exhibit: Third Annual Landscape Architecture Trade Show. Chumash, 9 am - 4 pm. (!)

TUESDAY, JANUARY 27

Speaker and Seminar-Workshop: Abbie Hoffman will discuss 80s-style activism. Chumash, 8 pm. ($) He will also hold a seminar-workshop on political activism. Theatre, 2 pm. (!)

WEDNESDAY, JANUARY 28

Quarter Break Trips: It's time to start planning your trip to New York; Cozumel, Mexico; or wherever. Sponsored by Gulliver's Travel Centre, UU 102, or call 546-8612.

Who, What When, Where

Dale A. Sutliff, Landscape Architecture, was recently appointed an Oral Commissioner to the California State Board of Landscape Architects. Sutliff was also recently elected chairman of the Central Coast Section, American Society of Landscape Architects for 1988.

Diane Ryan, Financial Aid, was presented with the Segmental Leadership Award for The California State University at the annual conference of the California Student Financial Aid Administrators held in Los Angeles.

Joanne Beaulle Ruggles, Art and Design, has two of her drawings accepted for publication in the Jounal of the National Catholic Educational Association.

Larry Inchausti, English, will have his essay, "My Discipline Problem and Ours," published in the May 1987 issue of Momentum - The Journal of the National Catholic Educational Association.

Louis Harper, Crop Science, was chairman of the National Student Speech Contest Committee for the American Society of Agronomy.

Rolf E. Rogers, Management, presented a paper, "The Application of Anthropological Systems Analysis to International Management and Organizations," at the annual meeting of the Academy of International Business. The conference was held at the London School of Business, England.

Mike Sues, Personnel, spoke at the California Law Enforcement Association Record Supervisors' regional meeting. The title of his talk was "Effective Performance Evaluation," Representatives from Ventura, Oxnard, Santa Barbara, Santa Maria, and San Luis Obispo attended the presentation.

Joanne Beaulle Ruggles, Art and Design, is exhibiting work in the Los Angeles Printmaking Society's 1987 Membership Exhibition being held at the Brand Library Art Galleries.

John Phillips, Crop Science, was chairman of the National Student Speech Contest Committee for the American Society of Agronomy.

Louis Harper, Crop Science, was chairman of the National Student Speech Contest Committee for the American Society of Agronomy.

Rolf E. Rogers, Management, presented a paper, "The Application of Anthropological Systems Analysis to International Management and Organizations," at the annual meeting of the Academy of International Business. The conference was held at the London School of Business, England.

Mike Sues, Personnel, spoke at the California Law Enforcement Association Record Supervisors' regional meeting. The title of his talk was "Effective Performance Evaluation," Representatives from Ventura, Oxnard, Santa Barbara, Santa Maria, and San Luis Obispo attended the presentation.
