TUESDAY, MARCH 8, 1966

Sanck Bar and other coffee bars, Tragedy of the Depurations. Ah their March 3 meeting.

Ward, the President of the Student Body, revealed that all posters in the Snuck Bar must have the approval of the vice president for each campus. After much delay, Dr. Andrews, formerly dean of the college, was apprised of this campus vice president only two weeks ago.

President McPeek, reviewing a new policy of his Administration which resulted in a meeting of the Student Affairs Council from both campuses last November that he had recommended to Chancellor D'Amico that the college be sold.

"Without the future calls for two colleges or two campuses of the same college, there is a common heritage.

Vice president Andrews continued, "Because of this common heritage and similar goals, I anticipate a continuing high degree of cooperation between Cal Poly SLO and Cal Poly Pomona.

While the exact nature of the Trustees recommendation to the governor are not known there is a feeling among many that the governor and the legislature will act favorably on the request. A reason for this optimistic feeling is that with President Andrews' retirement in January, it would be advantageous to select two presidents now instead of attempting the gradual process and then have to go through the involved relocation process when the campuses are separated.

Third film in series

features Picasso

On March 11 in the Little Theater, the Fine Arts Committee will present the third program in their film series this quarter. This program will differ from the usual showings in that it will consist of four short films and a 60-minute feature film on the work of Pablo Picasso. The Picasso film is an autobiographical color documentary on the artist — the man, and pioneer — picturing his work, his technique and his manner of living. Beginning with his work done in his teens in Spain, the film uses letters of Picasso's work to trace his career from 1905 to the present.

The four other films include: "Picasso' in the Possession of Pierre," a French film about a boy and his ballooning hero being chased by other children of Paris; "Very Nice, Very Nervous," A National Film Board of Canada production; a playlet commentary on the chaotic events of our day, as seen by a young and innocent Canadian girl; and "The Tragedy of the Depaviours," a film "to spur action in the classroom and the streets of Paris.

Heilbron speaks today

'Cal Poly-Right Side Up'

Cal Poly is officially 65 years old. Its staff, administration and students will celebrate this a special convocation to be held at 10:30 a.m. in the Men's Gymnasium. Only once before, in 1906, has any special activity taken place on this date.

Today's program will feature Louis Heilbron, past president of the State Board of Education and first chairman of the Board of Trustees of the California State Colleges. His address, entitled "Cal Poly-Right Side Up," will be heard not only by the immediate campus family, but also by many visiting dignitaries from the State College system and local and state governmental officials.

Exciting, powerful..."Cal Poly Right Side Up"

The four other films include: "Picasso and Last Year at Marienbad," an international film festival of Canada production; "Cal Poly-Right Side Up," which will be shown at 10:30 a.m. in the Men's Gymnasium. Only once before, in 1906, has any special activity taken place on this date.

The third annual conference of the California Mathematics Council was held at Cal Poly March 4 and 5. Theme of the event was "Creativity in Mathematics."

This is the first time that such a conference has been held on Cal campus. The conference was attended by math instructors from elementary schools, high schools and colleges. It was open not only to public schools but to parochial schools as well.

Highlighting the conference were talks by each noted person as Dr. George Flyn, Headed University, noted author of over 200 books upon the theme of the conference "Creativity in Mathematics."

Lt.-Col. Robert L. Beers, Chief of Plans, Armament Test Wing, Van Nuys and Air Force, started the conference by presenting the latest films on the walk in space and telling the delightful something of the work being done at Van Nuys.

Again, the University of California at Berkeley, Dr. Kenneth May was a much awaited "Art and Mathematics." He told of the relationship between art and mathematics. Besides the three general sessions, there were also displays of math books and materials available to all the teaching of mathematics.

Any group interested in this position is invited to submit a letter of application stating previous experience in this field to Tino Consoli, rainier of the Board of Publications, AMI Box 21, no later than West, March 10 at noon.

Selection of the new editor-in-chief will be made at the regular meeting of the Board of Publications on Thursday, March 16.

The El Mustang editor has the choice of 6 units of credit or $100 salary for the quarter. The position is open to any math student, and need not be a journalism major.

Moving your body around is highly inefficient. If communications were perfect, you would never have to. Of course, you still have to eat to exercise. But that’s a problem.

We want to make it easier for you to contact people, learn, get information, attend lectures, and hold meetings.

We developed Photorephone, a service so you can see as well as talk when you call. And be seen, too. We pioneered Tele-Lecture service (two-way amplified phone calls) to let you hear lecturers in distant locations. And so you could ask them questions no matter how far away they were.

Right now, many students can dial from their dormitories in a language lab. Soon a student will be able to dial into a computer thousands of miles away to get information for his course.

If communications were good enough you could stay in the sack all day

Depending on the nature of the information, he might get his answer back audibly, printed on a teletypewriter, or as a facsimile print.

Some of these services are available now. Some are being tested. For the next week or so, better get a move on.

Two honor clubs sponsor collection

Sponsoring a two month drive beginning Monday, the Alpha Omicron Phi and Alpha Kappa Alpha will be collecting money for a scholarship fund.

The smiles behind college and high school tickets given to needy families from the South County in Mrs. N. Van Nort, public relations.

The project was headed by best. Colleen Lee Starr, president of Clifton, and the president of AMI.

Installation of the occurred on March 8.

Alpha Zeta boys formally initiated

Alpha Zeta held its formal initiation last Wednesday. At the 3rd junior and senior were invited as pledges, it was said.

The purpose of the link was to acquaint the pledges with the purpose of the organization.

The program, presented the Alpha Zeta offers different aspects of art and required of the new members what it represents to them. The project was headed by the president among the aspects required.

Final winter issue

Due to finals and the change to quarters, this is the last issue of El Mustang until Friday.
Dear Editor:

I thought another view of "Sing Out" was in order. The following editorial appeared in "Wesley Work" the newsletter of Wesley College students at Cal Poly.

"The question is how do we relate religion to our daily life? The answer is simple. We do it by making religion a part of our daily life." The words said millions of times have made the difference. This was the message of the program that was presented to the public at the University of California, Los Angeles, on Sunday, April 2.

"Sing Out" is a program that is designed to bring religion into the lives of people. It is designed to bring the message of religion to the people of the world. It is designed to bring the message of religion to the people of the world.

I am afraid that if we do not make religion a part of our daily life, we will lose the message of religion.

Thank you for your understanding and support.

Jo L. Warren

Director of Student Activities

CU to present art exhibit by Don LaViere Turner

The College Union Fine Arts Committee will present a Don LaViere Turner art exhibit to be held in the Architectural Gallery March 13 through March 29.

The artist was born in 1932 in Wisconsin. In 1957 he received his B.S. and M.S. degrees at the University of Wisconsin, and in 1960, received his M.F.A. from the University of Arizona Institute. His exhibitions have covered virtually every major graphic medium through the artists Grant in 1962, and the "Youngbloods Various Man of the Year," award in 1968. The University of Wisconsin, in 1985. He was honorably dis-tinguished in the 1965 issue of Mr. Turner, and the Museum of Modern Art in New York.

The artist mostly works in black, white and shades of gray, and his works portray everyday scenes of life. Thomas W. Leavitt, the Director of the Manx, Barbare Museum of Art says of Turner's work: "Through powerful abstraction and transformation of natural forms, Turner explores the entire range of man's existen-trial life, fantasy, terror, love, sem-placement, latency, love, and grief all come alive through the lenses Turner brings before us."

The times for the exhibit are Monday-Friday, 10 a.m.-5 p.m., and Saturday and Sunday, 1-5 p.m. There will be an opening reception March 13 from 4-6 p.m. Refreshments will be served.

Social Science

Three Social Science Club members attended the Social Science Department-Meeting on March 7 to present a plan of student representation in instructors. The Department decided to acknowledge the interest of the majors by allowing one delegate from the club to attend the staff meetings for the rest of the current academic year. However, Department Head M. E. Smith "reserves the perspective of demis- tes of the clergy, a" at any time during any meeting at his discretion. It was first hoped by the students that they could help in the determination of final examinations and textbooks. However, Department Head M. E. Smith "reserves the perspective of demis- tes of the clergy, a" at any time during any meeting at his discretion.

Seminar预定 on the Cal Poly campus, this is probably the first student representation at any departmental staff meet-ings.

It was first hoped by the stu-dents that they could help in the determi-nation of final exams and textbooks. However, Department Head M. E. Smith "reserves the perspective of demand" at any time during any meeting at his discretion. It was first hoped by the students that they could help in the determination of final exams and textbooks. Debate team attends first meet at Fresno

Cal Poly newly restructured debate team competed with nearly 50 other colleges and universities at the 7th Annual National Speech and Debate Tournament in Fresno feb. 22 and 23 at the Reel in Theatre. The Fresno Poly failed to place in the debate awards. The University of California, Berkeley, captured first place honors, Cal Poly State is placing second. Cal Poly's team captain, Mike Murphy, achieved honors for Cal Poly by placing third in parliamentary procedure.

According to Advisor Keith Smith, "the debate team learned more at the tournament than I could ever teach in a class." Nicholtes believes that the debate team "can get more money to participate in similar events." If the debate team can raise both finance and eligibility, they would like to represent Cal Poly at the National Parliamentary Debate Tournament to be held in December this year.

Subject: Role of the Mathematician in Research & Opportunities for Math in Marketing

Choice Clothing's continuing...
Remer looks to NCAA

Among the greatest, prettiest, and smartest that prevailed in the second floor of the visitors' gym those days, Mustang wrestler, Mike Remer, a discard for Coach Vaughan Hitchcock at 115 pounds, rushed to scratch in his bid for the NCAA crown.

Remer's credentials include two-time California Junior College champion at 115 pounds in 1963 and 1964 and CIF 115-pound champion (California) and ninth in the NCAA Finals last year at Boulder, Colo. A Chico State all-American in 1963 and 1964 he was also named Most Valuable Wrestler in 1964. His wrestling team peaked last season as eight of 12 wrestlers placed. Now, more than ever, Remer has more. He has early training and success in his coach, Coach Vaughan Hitchcock at Castro Valley High School coach.

Mike would like nothing better than to conclude his highly successful wrestling career with a championship in the national wrestling championships in Manhattan, Minn., March 11 and 12. He has left Farmer's Steve Johnson, last year's champion as his major proble by his quick 6-0-0 this fall.

Mike says of the Mustangs' chances in the tournament: "There are others strong this year and with a few breaks, you may see 1. Portland State could give us the most trouble." Mike continued.

Looking back on the 1963-64 season Mike realized that for his team and the nation as a whole, they were learning what it was to have a champion. "We're strong as we were last season, Mike said. "We're not nearly as good as we were in our early training and we were up to the challenge. But we'll be up to the challenge in the East Coast.

Remer thinks that a good national wrestling program and Coach Hitchcock are the big reasons why Cal Poly fields a potential winner. "The coach is very well organized," says Mike, "and this along with our tough competition and road trips down to the best wrestlers from high schools and junior colleges. He continued on to say that with the outstanding freshmen talent that the team now has, Cal Poly should have the crown for quite a few years.

Mike's favorite move is the stand-up escape and his favorite hold is the singleback. In the off-season he enjoys pool and golf, and likes all sports but baseball — being 5'9" presents somewhat of a problem.

Tired "weird" by his team mates, Mike is very much a four year old boy. His future plans include being a JC or high school College PE instructor and wrestling coach. But with his 6'4" height and 180 pounds at Cal Poly, the slippery back from Castro Valley should have no trouble achieving his goal.

**Gymnasts converge, NCAA, College meets**

Gymnasts from 12 colleges will converge on Cal Poly Saturday, March 10, to compete in the third California State College; and NCAA Pacific Coast College Division Regional championships.

The Mustangs will host the event other teams expected to participate include California Polytechnic State College of Fullerton, Cal State-Long Beach, Cal State-Los Angeles, Chico State, San Francisco State College, San Jose State, and the University of California at Santa Barbara. Preliminary events are scheduled at 9 a.m. and 1 p.m. with the finals set for 5 p.m. All the competition will be staged in the Men's Gym.

The two meets will go run simultaneously, meet director Vic Borella, Cal Poly gymnastics coach, said. "The men will perform only once in each of the pre-liminary events, but their scores will be recorded in each of the two meets. It's just a matter of paper work," Borella added.

Trophies will be awarded to the top three teams in each of the two meets with individual awards going to the top six in the NCAA Regionals and the top five in the State College meet.

The top three individual performers in each of the seven events in the state college meet will qualify for the NCAA University Division Regionals at CSC-LA March 25-26. The NCAA University Division Final Finals are scheduled April 1st at Penn State. This is the first time in history there has been a NCAA College Division Regional meet. It is hoped that next year the College Division will have a separate championship.

Coach Hitchcock says that his gymnasts hope to be in the top ten and "if we're fortunate, possibly the top five." He continued, "Our focus is preparing hard, working on conditioning and the polishing of old moves.

The local grapplers have competed in numerous season dual-meet records of .504, which includes five consecutive victories in conference championships.

Under the guidance of assistant coach Vaughan Hitchcock, the Mustangs will seek to equal or better their second place finish of 1962.

Coach Hitchcock says that his success is preparing hard, working on conditioning and the polishing of old moves.

The Mustangs win 2, lose 1; face Fullerton, Chapman

"Fresh off of a double header sweep, the Cal Poly Mustang baseball coach Bill Hirs is trying to keep their batting average at or above the .300 mark this week.

Staging a 20-hit attack, the Mustangs defeated the Westmont Warriors, 9-8, last Friday afternoon.

The Mustangs will attempt to get back on the winning side of the ledger this weekend when they visit Fullerton State Friday afternoon and invade Chapman for a twin bill Saturday.

The Mustangs have one set back during the past weekend, schedule, being belted around by Westmont Warriors, 8-0, last Friday afternoon.
