CU sponsored ‘fun’ weekend starts

Good Friday is a holiday

by Bob Kargur

An actuarial study of a retirement program for employees of the student body was presented to the students of the Student Affairs Council by Bob Kargur last Tuesday afternoon.

Next week, SAC will vote on the proposal. If the proposal is defeated at the next week’s meeting, another proposal will be presented to the students and faculty body in the external study, SAC approved earlier this week.

The study body, which includes the student’s campus and the student affairs council, has been meeting regularly to discuss the possibilities of having a student magazine on campus, which eventually will be a planning document. SAC also heard the Poly Royal program report last week.

As a result of the study, the Poly Royal program will be extended to include a number of activities, including a lecture series, a concert, a film presentation, and a student newspaper.

A MOBILE Radioisotope Laboratory from the Oak Ridge Institute of Nuclear Studies will be on campus until April 8.

Members of the faculty and advanced students will take turns in activities including seeing of laboratory experiments and lecture during the laboratory’s two-week stay.

Men's Glee, Collegians complete successful tour

The Men's Glee Club and the Collegians met with enthusiastic response everywhere they went on the 20th Cal Poly Music Tour, according to H. C. "Dee" Davidson, director.

The tour got off to a good start by receiving standing ovations at the first two performances at Downey High School in Downey, March 21 to the 25 th .

At high schools where the boys had free time, students kept them busy signing autographs.

The highlight of the tour was the performance by the tour performers at the State Capitol in Sacramento. They appeared in front of the dome of the building, where Sen. Vernon Stargerson of Red Bluff, was introduced as the tour's organizer was read last Tuesday night at the Hillside Church.

Mr. Stargerson, who was last March 21 to the 25 th , was introduced by the Collegians as the tour leader.

The tour, which lasted from March 21 to the 25 th , took place in schools, churches and theatres in Modesto, Oakdale, Ceres, Manteca, Turlock, Santa Maria, and Woodland. It was held in the morning and afternoon daily.

Dean's list

More than 1,200 students were recently named to the Dean's List. These students were recognized for having compiled an overall grade-point average of 80 or better in all work taken during the Fall Quarter in mid-December.

Those named to the Dean's List include nearly 77 percent of the 2,200 students who are registered for 12 or more units of credit. These students represent a cross section of our four in-service, Engineering, Physical, and Applied Sciences.

ENROLLMENT TO RESUME

Enrollment at the California State College system is expected to remain high for the fall and winter terms at 25,000 by 1976.
ASSEMBLIES...In a short time the Student Affairs Council will begin action on next year's student body budget, but before it does there is a matter of importance which should be considered. The student body budget is the poor record of this year's College Unions Assembly Committee.

Without a doubt, the students of this college have been cheated by the committee's failure to bring the type and quality of assemblies that was wanted and so badly needed. Thus far this year only one big name entertainer, Peter, Paul and Mary, and Marty Robbins came here; why should be considered and acted upon. The matter is the student body budget for next year's student body budget.

The rough financial results of the four Assemblies-sponsored events are most interesting. Louis Armstrong was the biggest earner for the student body—a loss of $2,000. The gross income was $2,900.25, the net result was a $900.59 loss. The Threepence and Sing Out '66 both lost money—$177.72 and $255.26. In short, the three unknown groups cost the student body $800.59.

It is time that the public officials of the City of San Luis Obispo take a good look at the building code and start strengthening it. Failure to act on their part will all but stop community assemblies.

Matt Chandler

Math students to vie in Poly Royal contest

Two numbers from Ford Division National Sales Council turned in impressive showings at the math quiz the other day.

Both students were members of the Poly Royal Mathematics Club.

Sponsored by the Math Dept., the contest was held April 26, as one of the opening day highlights of Poly Royal.

Students from various colleges and universities throughout California have received invitations to participate in the 14th annual Poly Royal Mathematics Contest.

Two other colleges have already confirmed their participation in the contest: San Francisco State University and UCLA.

COACHING CHANGES

Two major athletic coaching changes were announced this week when Dr. Robert Mort, head of the Poly Physical Education Department, announced that Pat Baker will take over the reins of the college's swimming program and Richard Purcell will become head track and field coach.

With his assignments both becoming effective with the start of the Fall quarter in September, Chestnut will assume the position formerly held by Ed Jorgensen while Purcell takes over the duties vacated by Walter Williamson.

NCAA MEET MERT

Mike Bemer, Cal Poly's 115-pound national college division champion, defeated Michigan's Constantine Lambrou 1-0 in overtime to take fourth place in the National Collegiate Athlete Association's national college division championships. He is the first Poly wrestler to place at Penn State in University. 10:01 P.M. Friday.
