Continuous-form letterhead available

Continuous-form letterhead stationery with the Cal Poly logo is now available from the state Warehouse.

The Warehouse has only the "generic" continuous letterhead — without office names and phone numbers printed on it. When using it for letters, please remember to include the appropriate designation and number in the signature block.

If your office will use very large quantities (10,000 or more), it might be economical for you to special-order it with your name and phone number printed on it. The Purchasing Office is the place to inquire.

The generic continuous letterhead comes in cases of 2,000 sheets at $60 per case. The stock number is 1111-000-0014-3.

Computer courses for Fall Quarter

Information Systems announces Fall Quarter microcomputer and mini/mainframe short courses. To meet the enthusiastic campus response, the training schedule now offers a total of 52 hands-on sessions, including three new microcomputer courses.

The new courses are Spreadsheet III, A Grading Package (uses Lotus 1, 2, 3 as a grading package to keep class records, compute scores, and assign grades); Mac Publishing I, Desktop Publishing on the Macintosh (introduces the fundamental features of the desktop publisher, Ready, Set, Go); and Mac Publishing II, More Desktop Publishing (additional desktop publishing techniques).

In addition, for IBM PC and compatibles DOS I, II, III, IV, and V (the DOS operating system for the IBM PC); Wordperfect I, II, and III (a wordprocessor); dBASE III+, I, II, and III (a database management system); Spreadsheet I and II (using Lotus 1, 2, and 3—note that the principles and functions are applicable to SuperCalc-4 also); and Comm I (PC/mainframe communications) will again be offered.

For the Macintosh, MAC I and II (use of the Macintosh, MacWrite, and MacPaint) and Microsoft Word I and II (a wordprocessor) will be offered. Recognition for completion of an entire series (e.g., Wordperfect I, II, and III) will be awarded to attendees.

Mini/mainframe short courses will focus on introductions to the Prime and Cyber computer systems as well as some application packages, including electronic mail/Bitnet on the Cyber. Courses on three statistical packages, Minitab (a general statistical package), SAS (Statistical Software System for Data Analysis), and SPSS (Statistical Package for the Social Sciences) will be offered again in a hands-on environment.

To register for fall microcomputer or mini/mainframe short courses, drop by Computer Science 101 or call ext. 2593 to obtain a copy of the "Fall, 1987 Computer Training Package." The package includes the course catalog, the micro course schedule, the mini/mainframe course schedule, general information about the training program, and a "by mail" registration form. Course registration is by mail only. Information Systems has begun accepting registration forms for Fall Quarter classes.

Austrian elections to be discussed today

The 1986 Austrian elections will be examined in today's (May 14) University Club program at noon in the Staff Dining Hall.

History Department Head Max Riedlsperger, an authority on Central European history and modern Austrian political life, will focus on last November's election when both major Austrian political parties suffered their greatest defeats since 1945. On May 21, James Nash, director of Student Health Services, will address the University Club on "AIDS: A Problem for the Campus and the Community."

Oscar nominee to visit Cal Poly

Film actress Tess Harper, a 1986 Academy Award nominee for best supporting actress for her role in "Crimes of the Heart," will be a guest of the Theatre and Dance Department on Monday, May 18.

Harper made her film debut in "Tender Mercies" opposite actor Robert Duvall. Since then she has been seen in the film "Alamo Bay," and she guest starred on numerous television shows.

Visiting with Harper will be Buffy Snyder, a Cal Poly alumna who is currently the women's costumer for the popular television series "Moonlighting."

Snyder was the costumer on the film "Poltergeist," the television mini-series "Winds of War," and the TV film "The Day After."

Both Snyder and Harper will visit classes May 18. For more information and a schedule of their appearances, call the Theatre and Dance Dept. at ext. 1465.
Annual Night Moves Fun Run scheduled

The fourth annual Night Moves Fun Run will begin at 6:15 pm tonight (May 14) in front of the Physical Education Building. The 5-K course will take runners through Poly Canyon.

Awards will be given to the top ten finishers in both women's and men's divisions. Finishing times for all runners will be posted following the race.

A special prize will be given to the runner wearing the wildest nighttime attire. A prize drawing will be held at the end of the run for all entrants.

The advance registration fee of $7 includes a custom-designed T-shirt. The fee is $4 without a T-shirt. Registration will be $1 more the day of the race.

Entry forms are available at the Recreational Sports Office on campus and at Manufacturers Sports Outlet and the YMCA in San Luis Obispo. Runners can register at the Rec Sports Office, UU 118, from 7:30 am-5 pm on weekdays, or forms and fees can be mailed to Night Moves 5K, Recreational Sports, Cal Poly. Checks should be made payable to ASI Recreational Sports.

The Night Moves Fun Run is sponsored by the Recreational Sports Office.

Stanford engineer to talk May 21

The potential for automatic large-scale construction engineering operations will be discussed by a Stanford University civil engineering professor on Thursday, May 21.

Dr. Boyd C. Paulson Jr. is to deliver his lecture, "Automation and Robotics for Construction," at 11 am in Science B-5.

Paulson specializes in computer applications in construction, including automated data acquisition, operations simulation, and automated process control. His talk will deal with possibilities for computerizing construction engineering in the field, especially in remote areas.

The author of more than 60 papers and co-author of a book, Paulson has conducted numerous research projects sponsored by the National Science Foundation, the U.S. Department of Transportation, the Business Roundtable, Exxon and others.

Paulson's lecture is part of the 1987 Distinguished Lecture Series of the Civil and Environmental Engineering Department.

Sculpture exhibit to begin May 18

Mary Ann Bonjorni, a faculty member at the University of Wyoming, will present her newest assemblage sculpture.

The artist will discuss her work at 7 pm, Monday, May 18, in the Gallery of the AE&D Bldg. A $2 donation is requested.

An opening reception will follow at 8:30 pm in the Dexter Building. The show, in the Dexter Art Gallery, is sponsored by the Art and Design Department and will continue through June 9.

The exhibition concludes the first year of programs presented by the Art and Design Department in the new Art Gallery in the Dexter Building.

Gallery hours are 10 am-4 pm Monday through Friday; 7-9 pm Tuesday and Thursday; and noon to 3 pm Saturday and Sunday.

May 18 Trike-a-thon to help handicapped

Members of the Alpha Epsilon Pi fraternity will take turns riding tricycles around a course during a 64-hour "Trike-a-thon" in the UU Plaza.

Riders will begin at 8 am on Monday, May 18, and ride through midnight on Wednesday, May 20. The fraternity is requesting business sponsorships with a minimum pledge of $25. Contributors will receive recognition at the track site.

Proceeds will benefit the fraternity and Rancho de las Animales, a recreation area for the handicapped.

To support the Trike-a-thon, interested people can stop by the plaza during the event or call Alpha Epsilon Pi, 541-9748.

Poet/scholar is next humanities speaker

Michael Heller, a poet, critic, and professor at New York University, will be the next speaker in the 1986-87 Arts and Humanities Series.

He will give a poetry reading on Thursday, May 21, at 7:30 pm in Fisher Science 286. On Friday, May 22, at 11 am in UU 220, Heller will examine "Poetry and Science — New Directions, New Connections."

"New Directions," the theme of this year's series, is sponsored by the School of Liberal Arts.

A member of the faculty of NYU's American Language Institute since 1967, Heller has been poet/scholar in residence at Keystone College in Pennsylvania under a grant from the National Endowment for the Humanities.

Heller has published four books of poetry and a book of criticism.

A former editor of Montemora magazine, Heller is currently the U.S. editor of Origin, and he is on the advisory board of Pequod magazine.

Writer to talk today

Warehouse sale

A sale of unclaimed lost and found articles, plus surplus property, will be held at the Warehouse on the following new schedule: Tuesday, May 19, 8:30 am-3 pm, preview sale and bids accepted (one day only); Thursday, May 21, 8 am-2 pm, highest bidders pick up items; Friday, May 22, 8 am-11 am only, next highest bidders pick up items.

At noon on Friday, May 22, there will be an open auction for all unclaimed items.

The sale is open to the public, and all sales are final — there are no refunds. Items are subject to 6 percent sales tax. The university reserves the right to reject any and all bids. All items are sold "as is."

Free gladiola bulbs

The Rose Float Committee is giving away winter gladiola bulbs in assorted colors. Come to the Rose Float Lab (Bldg. 78) Saturday, May 16, noon to 5 pm, or call ext. 1268 for details.

Engineer to talk on air-traffic control

The possibility of a national communication network for air-traffic control will be the topic of a Thursday, May 21, lecture.

The talk, given by Dr. Nancy Leon, senior engineer in the Technology Transfer Office at the Jet Propulsion Laboratory in Pasadena, will begin at 11:15 am in Room E-26 of the Science Building. Refreshments will be served from 11 to 11:15.

The lecture is titled "Critical Thinking: A Decision Methodology — Communication Needs for the Nation’s Air-Traffic Controllers.” It is the third and last in a series of lectures by young women in engineering.

The series is sponsored by the Metallurgical Engineering Department and the student chapter of the American Society for Metals.

Galerie receives gift

The UU Galerie has received a $600 donation from artist Eugene Garson.

The Russian-born artist, whose works were recently on display at the university, donated two checks — one directly to the Galerie and one earmarked for the Galerie through the Cal Poly Center for the Arts.

FRIDAY, MAY 22
Speaker: Michael Heller (NYU) will discuss “Poetry and Science — New Directions, New Connections” as part of the Arts and Humanities Lecture Series. UU 220, 11 am. (!)

Dance Concert: Orchesis Spring Invitational Dance Concert. Continues on Saturday, May 23. Theatre, 8 pm. ($)

Position Vacancies

Vacant staff positions at Cal Poly and the Cal Poly Foundation are announced in this column and are posted outside the respective offices. Contact those offices State: Adm. 110, 805-546-2236 — Foundation: mobile unit near the Fire Department (805-546-1121) for applications and additional position details. Both Cal Poly and the Foundation are subject to all laws governing affirmative action and equal employment opportunity. All interested persons are encouraged to apply.

State
CLOSING DATE: 5-27-87

Clerical Assistant II-A, $666-$785, 50/month, half time, University Library.

Custodians, $7.78-$9.18/hour; on-call; June 10-Sept. 18, 1987, Residence Hall Services.

Foundation
CLOSING DATE: 5-29-87

Printing Technician, $2208-$2657/month, plus shift differential, Graphic Communication.

Candidates for positions on the faculty of the university are presently being sought, according to Jan Pieper, director of personnel and employee relations. Those interested in learning more about the positions are invited to contact the appropriate dean or department head. This university is subject to all laws governing Affirmative Action and equal employment opportunity including but not limited to Executive Order 11246 and Title IX of the Education Amendments Act and the Rehabilitation Act of 1973. All interested persons are encouraged to apply.

CLOSING DATE: 5-28-87

Lecturer (part-time), Graphic Communication. Possible vacancies during 1987-88 academic year. Duties include teaching broad range of technology and management courses which include management, image assembly, print marketing and sales, web, finishing processes and advanced line and half-tone technology. Master’s degree preferred; B.S. or B.A. may be considered in related technical field with substantial and appropriate industry experience.

CLOSING DATE: 6-15-87

Visiting Lecturer (full-time), Natural Resources Management, 1987-88 academic year. Teaching emphasis will be in areas such as environmental impact analysis, resource ecology, resource law enforcement and introductory courses in environmental and natural resources management. Related studies, such as student advising and activities, and committees are also included. M.S. degree required; Ph.D. preferred.

CLOSING DATE: 6-30-87

Assistant/Associate Professor, Agricultural Engineering, available September 1987. Primary responsibility for teaching courses in power and machinery, machine design, tractors, and service courses in agricultural mechanics. Opportunity for contract research exists. Ph.D. in agricultural engineering preferred; M.S. required. Experience in design of mechanical systems and equipment highly desirable.

Lecturer (full-time), Agricultural Engineering, available September 1987. Primary responsibility for teaching courses in agricultural and engineering surveying and agricultural mechanics. Ph.D. in agricultural engineering or mechanized agriculture preferred; M.S. required. Professional experience in surveying highly desirable.

New CSU trustee

William Denny Campbell of Laguna Beach has been appointed by Gov. Deukmejian to the CSU board of trustees.

Campbell, 48, replaces Celia Ballesteros of San Diego, whose term expired. He is vice president and director of McMahan Furniture Company. His term will expire March 1, 1995. The position requires state Senate confirmation.
