Andrews, Kramer named
to head Poly campuses

The President Dale W. Andrews and Robert C. Kramer of Cal Poly's San Luis Obispo and Kellogg Campuses, respectively, have been asked by Chancellor Jim E. McDonough to be in charge of operations at their campuses because of McPhee's retirement this June.

In a statement released to the college this week, Dr. McDonough announced his request that Drs. Andrews and Kramer "be in charge of their respective campuses."

The chancellor's statement indicated that their appointments would continue until a new president is selected for the campuses.

Chancellor McDonough, in deciding not to name acting presidents, pointed out the necessity for coming permanent leaders for each campus at an early date and added that this is an interim arrangement, pending such permanent appointments.

"If there should be delay in naming a president for either campus, continuation will be given to the naming of an acting president," the chancellor concluded.

Dale W. Andrews

San Luis Obispo school program held for visiting children

A check-up dinner and a community "sing around a campfire" await 46 children from Fellow, California, tonight when they arrive at Noyes Park. This will be the last stop on a series of visits while visiting San Luis Obispo.

A special program between the Midway School District and Cal Poly has resulted in an enjoyable experience for both children and adults. The dinners will be served at the snack bar.

The program is sponsored by the college and Mrs. Charlotte Roberts, President of the Midway School District and Cal Poly has taken while visiting San Luis Obispo. The program will be held for visiting children on June 8, 10, and 12.

INSTRUCTIONAL TELEVISION

James Babb, instructor in the Printing Engineering Department, demonstrates closed-circuit television that he plans to incorporate into the instruction of the printing graphics course.

Instructor uses T.V. as visual teaching aid

Closed circuit television is both revolutionising and saving teaching time. Time that was previously lost to long explanations and demonstrations, five years has nearly doubled, making it imperative that time-saving devices be employed to eliminate the tedium and basically repetitive aspects of student instruction.

Summer government formed, begins work

By Cliff Gillette

The Summer Interim Committee met for the first time last Thursday in the activities office of the Kellogg Union, beginning its summer session.

The president-elect, Mike Ellis, was selected for his affiliation with the campus. He will hold his position to Jim Jeffery, chairman, for the remainder of the school year.

The other members of the S.I.C. are: Tony Born, Club of Science Curricular Representative; Pete Goodhart, Applied Arts Council Representative; Robert Spink, Business Administration Representative; Woody Underhill, Inter-personal Council Representative; Cliff Gillette, Board of Police- lates Representative; Dick Phillips, Board of Athletic Control Representative; Mike Sullivan, College Government Board Representative; Mike Taylor, Music Board of Control Representative and Janet Brandt, Secretary.

S.I.C. was created as part of the Student Government. It is in charge of all of the powers and duties of the regular S.A.C.

The Kellogg Union was the site of a meeting of the Student Government on Tuesday. All students are invited to participate.

The Kellogg Union was the site of a meeting of the Student Government earlier this week.

Campus government formed, begins work

The S.I.C. is under the ex-ecutive of James I. Babb, the ex-ecutive of the campus. Babb intends to integrate into his normal curriculum this advanced teaching technique in the hopes of providing his students with a more thorough knowledge of the technical aspects of the printing graphics and other advanced courses.

The council is under the leadership of Babb and his associates, and integrates into the basic curriculum these advanced teaching techniques to the hope of providing his students with a more thorough knowledge of the technical aspects of the printing graphics and other advanced courses.

McPhee's condition 'satisfactory' following major abdominal surgery

President Julian A. McPhee was reported to be in "satisfactory condition" Tuesday following major abdominal surgery performed Monday night at Sierra Vista Hospital. The operation was reported to be performed to correct an intestinal disorder. It is my understanding that the operation was involved and extensive, but beyond that I do not have any additional information available.

Because of the impending operation, it was suddenly announced that the President would not be able to participate in the graduation exercises, two events which would have occurred later. The earlier that the president would not be with them this week.
Johnson, Cruikshanks Mach earn 'outstanding teacher' recognition

El Mustang

July 1, 1965

by Shelli Lawrence

Richard Johnson of the Animal Husbandry Department, Norman Mach of the Social Sciences Department, and George Cruikshank of the Social Science Department were honored as Cal Poly's "outstanding teachers" of 1964-65 at the June meeting of the Faculty-Staff Council in the Heating, Conditioning and Refrigeration Auditorium.

Each will receive an award of $100. Made possible through the Distinguished Teaching Awards Program established this year by the California State Colleges.

On the committee electing these three "outstanding teachers" were Gerald Hopp, Registrar; Dr. Carl Commins, Dean of the Applied Arts Division; Charles Elston of the Mathematics Department; Lester Gustafson of the Agricultural Engineering Department; John Merriman of the Agricultural Engineering Department; Dr. Arthur Burtis of the Biology Department; and Dr. Milde Whittemore of the History Department.

The committee's decisions were based on the following criteria: (1) Development of competency, (2) High personal standards of professional integrity, (3) High degree of professional interaction between students and teacher, (4) Impact of own knowledge and experience in teaching, (5) Teaching procedures contributing to student enthusiasm and high performance level, (6) Student ability to apply learning to future problems, (7) High student gain in critical analytical ability, (8) High student gain in back background, and (9) Consistency in presenting subject matter accurately and understandably.

Richard Johnson, one of the "outstanding teachers" was graduated from Iowa State College and the State College of Washington. He served in the United States Army as a member of the faculty and animal husbandman, at the State College of Washington's Experiment Station. Since 1950 he has been a member of Cal Poly's Animal Husbandry Department faculty.

Dr. Cruikshank, who was graduated from Iowa State Teachers College, received his PhD from Stanford University, taught in high schools at Both Sacramento and Fort Bragg. Dr. Cruikshank came to Cal Poly in 1947 and served as head of the Social Science Department, from 1951 to 1965.

Dr. Mach, who graduated from Iowa State Teachers College, received his PhD from Purdue University, taught in high schools at both Sacramento and Fort Bragg. Dr. Cruikshank came to Cal Poly in 1947 and served as head of the Social Science Department, from 1951 to 1965.

Dr. Mach served as a teaching assistant at Purdue and as an officer in the United States Army in 1958.

John L. Merriman of the Agricultural Engineering Department, received his B.S. from Iowa State College in 1944, B.S. in mechanical engineering at Cal Poly in 1945, Dr. Merriman served as a teaching assistant at Purdue and as an officer in the United States Army in 1958.

One of the primary reasons I wanted to become editor of the summer paper was to incorporate some new ideas into the paper. This was what I had in mind when I decided to run for the position. I believe that we should be able to provide a better paper. This is YOUR newspaper, and I urge you to give me your support and help me make it better.

Soares makes year-end report; salary increase recommended

In his final official act as AIL president, George Soares will present his year-end president's report to the SAC next week.

The president's year-end report is a list of recommendations made by the outgoing president to be used as a guide for the president-elect.

One of many proposals made by Soares was a salary increase for the Graduate Manager, Robert Spiel.

The raises would increase Spiel's salary bracket from that of a junior instructor to that of a fourth class intermediate instructor.

In commenting on this proposal, Soares said, "The subject of a raise for the graduate manager has been of concern to SAC for the past few years. Because of the growing responsibilities that an (SAC) has included in this position, I believe it is necessary to raise the salary to a more appropriate level."

Another recommendation that Soares proposed concerned the assistant graduate manager. The job has been on a one-year basis, and the recommendation is that it be extended to a full time job.

SAC has been planning to hire a graduate manager on a permanent basis.

In discussing the possibility of having student advisors and assistants in the AIL, President Soares commented, "The job of a student assistant body president has become so demanding that it is nearly impossible for one person to handle all his duties. I believe it would be of great aid to the president if he would select a staff of assistants and advisors to work with him in attempting to solve the various matters before the student body."

Other recommendations to be submitted to the student body at this time are concerned with community service and entertainment.

In his report Soares also expressed concern for the student body's intramural program.

The intramural program at Cal Poly has been expanding during the past two years, and SAC has been discussing the possibility of launching an intramural program for the summer. The program would be open to all university men, and the monies raised would be used to support the program for next year.

Intramural sports can do so by contacting Mr. Dan Stubbs, program advisor.

Traditional, Traditional... as long as it's Traditional Row

UNIVERSITY ROW

All university men require traditional oxford button-down shirts. But those who recognize true authenticity insist upon the famous Manhattan label. They know all the details will be correct: the amount of roll in the collar, rear guard box pleat and locker loop. Tapered body, 100% cotton fabric. $5.00.

Soares has resigned his position as AIL president and has been appointed to the faculty of the Kellogg and Vnorhia University at Topeka.

Prior to that time, the flannel shirt has been a favorite of this year after having been a favorite of the Kellogg and Vnorhia faculty since 1966. NCAA, the national honor society of agriculture, has been a member of the faculty since 1966.

Andrews appointed to law by Governor Edward D. Brown.

Final action was taken by the Trustees on the separation of this year after having been a member of the faculty of the Kellogg and Vnorhia University at Topeka.

Summer registration looked upon as hectic, hopeful and frustrating

by Carolyn Wojcik
A total of 1842 students registered last Monday for the first Summer Quarter and again the men outnumbered the women by about three to one. The official breakdown was 1185 men to 657 women.

Renard led the student body with a total of 482 registered. Next were the juniors with 307, sophomores with 221, freshmen with 190 and graduate students with 22.

But how did registration go? To some there who held a last name at the top of the alphabet it went smoothly. However, for the remaining, classes were closing fast.

Registration was very bleak," according to Milton Mulligan, graduate student in Agriculture sciences. "I think it would have been better if they had held back a certain number of rooms for those who registered at the later times.

According to Marilyn Wadd, sophomore Journalism major, it was a helpless feeling to walk out of registration with no units. She said, "I would have felt better if I could have pulled ranks even if I didn't need them, but there was nothing left to pull at 11:30 when I registered."

"My units were messed up, but I got the units I wanted because I registered fairly early," said Tim Leonard, Agriculture Business major. "In my department a lot of classes were offered around 10 or 11:00 so we had to take classes we really didn't want."

Tim Barns, Printing Major, said, "For me everything went given, but for others, they didn't have a chance after 10:30. More or few sections were offered, it wasn't fair to about half of those who registered. Also, the schedule for registration should have been programmed as a regular quarter and not simply alphabetically."

Modoc II defeated in volleyball games

The 1971 intramural volleyball championship was captured by Modoc II recently. Modoc II played a rough game, but were finally defeated after two sets of three games.

Modoc I, down one game before the championship, won the first set which kept them in the running. The winning of the first and third game defined the second set earned them the volleyball victory.

Meet Eddie Newton

Eddie Newton is one of the Cal Poly Rodeo Team members competing at the National Intercolligate Rodeo finals being held in South Dakota. Newton was a standout performer for the Mustangs this year.
