ASI President's Welcome

With the beginning of a new year, it's a most appropriate time to preview the things to come in campus affairs and to plan the part you wish to play in student activities.

This year promises to be especially great. Not only are we going to have the unique and exciting campus setting of the new student union being completed this year, but also the National Architectural Accreditation Board accredited the Architecture and Architectural Engineering Department.

The statement is made to the proper segment of the national committee in Denver in September, and it also helps further our dynamic leadership of George Rasslein, department head since 1960. His high degree of dedication and the quality of his leadership have provided the department with the "renewing spirit" of the entire college, which is also worth the department.

The Architectural and Architectural Engineering Department shares the same building as the California State Polytechnic College among the rest of the campus-wide elite.

Advisory committee invites presidential nominations

Julian A. McPhee retires, fund established as tribute

In recent years, teaching and administrative faculty have had to do the same work for a smaller salary. The President has made it quite apparent that the student is our major concern, and that the institution is our concern for students. In fact, it has been quite obvious that the institution has been the only concern for students.

The theme for much of our effort during the next 10 years—since 1960—will be Cal Poly's first year in 1960, without the dynamic leadership of Julian A. McPhee.

The basic philosophy and objectives of Cal Poly which have made it such a unique and great institution, although we should not be satisfied with the success of our efforts in maintaining the college for the next 275 days, a year to remember.

Soggy campers finish tour; leader plans Alaskan trip

Successful completion of a ten-week trip which took 13 students on a tour of Alaska next summer was recently announced by Dr. Andrew's, vice-president and chief administrator of the college. The trip, which included travel to 58 different places, was sponsored by the Outings Committee of the university.

Dr. Andrew's, who took the trip with 12 students, said that the tour was a complete success.

The tour, which was planned by Dr. Andrew's and other members of the college's Board of Directors, included visits to many of the country's most scenic places and points of interest.

The trip began on June 28 and ended on August 11, with stops made at many of the country's most scenic places and points of interest.

Dr. Andrew's said that the tour was a complete success and that he was pleased with the results.

Dean Hayes reassigned

Harold P. Hayes, engineering assistant from 1942 to 1944, has been reassigned to full-time teaching duty in the Mechanical Engineering Department.

Dr. Andrew's, who was present at the time of the announcement, said that Hayes had done an excellent job as an assistant and that he was looking forward to seeing him in his new position.

The move was made in order to give Hayes more time to devote to teaching and research.

Kennedy voted to head non-profit foundation

The college's newspaper, El Mustang, is written and produced by the students in the Technical Journalism Department and is printed by students in the Printing Engineering and Management Department.

The main purpose of El Mustang is to provide Cal Poly students, faculty, and staff with information of interest to the campus community.

The paper is produced by the students in the Technical Journalism Department and is printed by students in the Printing Engineering and Management Department.

The paper is distributed to students, faculty, and staff on a weekly basis and is available for purchase at the university bookstore.

Sign vanishes; new one in sight

The "Welcome to Cal Poly" sign at the main entrance to campus on California Polytechnic State University is no longer visible. The sign was removed by the maintenance department on Tuesday, September 22, 1965, due to damage sustained during recent storms.

The sign was replaced with a new one on Thursday, September 24, 1965, and is now visible again.

The new sign is a temporary one and is expected to be replaced with a permanent one in the near future. The college is currently working on a new design for the sign.
New instructors enlisted on college faculty staff

A boat of new, instructors have been hired for the coming year.

San Francisco wins 38-0

Grid season opens with defeat

**LEBOY HUGHES**

Long-Hughes, football coach for 11 years, will call Bob Brown of N.Y.C. in broadcasting the Mustang football games this fall. Hughes, nicknamed the "Silver Fox," had the Mustangs in the 14-year period as one of the most successful in the West.

A schedule that is almost a carbon copy of that of a year ago promises Coach Sheldon Harden and the Mustangs in 1966. Once again, opponents are slated for travel performances in a 14-game conference title and California Collegiate Athletic Association games.

Carroll Poly, San Francisco State, and San Jose State are the fourth consecutive year as their opponents in the conference, which should be a challenge. Hughes has turned the Mustangs into a quality team, and he is sure to have his team ready for the openers.

**Intramural meeting**

*The intramural meeting will be held at 7:15 p.m. in the Snapdragon.*
