Homecoming festivities begin tonight with bonfire

The first-class reunion to be held in recent years will take place this weekend when members of the college's Class of 1942 return for the fifty-ninth annual Homecoming festivities. Approximately 25 alumni from this class are expected to be on hand during the weekend. Several get-togethers have been planned for them so that they may enjoy the company of the Class of 1942 before it departs for San Francisco.

Coronation Ball set as year's social event

"Alumni of the year" scheduled for honors

SAC undecided on athletic grants

$900 football scholarship referred to committee

Homecoming festivities begin tonight with bonfire

The annual dinner for alumni is to be held Saturday, Oct. 22 from 5 p.m. to 8 p.m. According to Ellinor, the Merlo Gym will hardly be recognizable because of the elaborate decorations. He wouldn't offer any examples of the ornamental decorations, however, as he said, "We want everyone to come and see them." The Coronation Ceremony will begin at 8:30 p.m. and will include crowning of the new queen, presentation of her crown and installation of the special guests.

The college's senior class, led by Dave Grinnell, will be crowned on the steps of the Memorial Building following the annual Homecoming rally. The hiring of a local radio and television announcer was approved. The Chico News and the CFA will be available to cover the event.

Alumni of the year scheduled for honors

Donald R. Fister, agricultural development officer for the United States Agency for International Development (AID), has been named "Alumni of the year." He will contribute another $300 to the athletic fund and will be honored during homecoming festivities.

The committee, to be appointed by ASI President Frank Brown, will report back to SAC in two weeks. It is making the motion to set up such a committee, Ray Gravett of the Agricultural Council stated that he was in favor of any scholarship the school can give but that the student body was not ready to financially support it. "A. don't we need the $900 right at this moment," Gravett said.

Mike Elliott, A.S.I. president, added that such a committee would do for two weeks. It was brought out that the question had already been postponed and that the matter would be discussed again in the next meeting of the student senate.

Tom Jones of the Applied Science Council stressed the need for pulling the individual man on the street opinion and suggested that the committee might hold public hearings.

Teacher’s novel gains high praise

Robert Unger, instructor in the English Department, recently had his second novel published.

Titled "Glimpse of Canaan," it relates the trial and final triumph of a World War II veteran. Unger beautifully captures the process of writing in contemporary and gives it inspiration and meaning.

Jim Harris, "Canaan's" central character, is drafted in a small New England town, serves in the war, and returns to a large city. Here, he discovers that his life is without meaning or direction. It is only when he returns to his hometown that he finds his peace.

By far, the novel has been well received by reviewers, among them, the "New York Times." It is now in its second edition.

Harris, another novel, "Glimpse of Summer," was successful too. Hassan has had many published books and articles published.

As a writer of the English Department, Hassan has been teaching works of contemporany literature for the past four years. He lives in Arroyo Grande with his wife and three children. For several years he lived in Japan and became interested in Japanese art and culture, and his paintings reflect this influence.

Unger, a writer with the Los Angeles Times, has had his work admired as well. He also had his work published in the "New York Times." His novel "Canaan" received high praise from the English Department.

"Canaan" is a story about a World War II veteran returning to his hometown and discovering his purpose in life. The novel highlights the struggle of finding meaning in one's life and the importance of personal growth.

Rodeo team Tucson bound

A Jackpot Rodeo and a trip to Tucson, Arizona are the high-lighter of exciting activities planned by the Rodeo Club.

The Rodeo will be held Oct. 29 at the campus arena. The time will be announced on posters later.

Ron Willads, club president, said there will be a full schedule of events, including bareback riding, calf roping, bull riding, tombstone riding, roper, calf roping and team roping, plus a surpise event. Participants must be members of the Rodeo Club and have insurance.

The Tucson trip will be on Nov. 5 and 6. There will be 15 schools competing from all over Nebraska, Arizona and California. The members of the Cal Poly Rodeo team will go to this rodeo and learn skills of some dairy products against the standards set by professional judges.

Diane Call, who will be among those returning from this rodeo, said there will be a full schedule of events, including bareback riding, calf roping, bull riding, tombstone riding, roper, calf roping, and team roping, plus a surprise event. Participants must be members of the Rodeo Club and have insurance.

In addition to the top team awards of the All Products Bowl, the three high-ranking teams will receive a prize. The members of the winning team will be awarded the all Products Bowl, the three high-ranking teams will receive a prize.

In addition to the top team awards of the All Products Bowl, the three high-ranking teams will receive a prize. The members of the winning team will be awarded the all Products Bowl. The three high-ranking teams will receive a prize.

All-Around Cowboy award at the National Finals of the All Products Bowl. The three high-ranking teams will receive a prize. The members of the winning team will be awarded the all Products Bowl. The three high-ranking teams will receive a prize.

There are also many new prizes that look promising.

The girls' Rodeo Team will also be making the trip. They plan one alternate who will be competing in barrel racing and goat tying.

Karen McNulty, the team captain, and Barbara Bauer, winner of the Rodeo Club scholarship, will be in charge for the action, plus several other active participants.

Rifle and Pistol Club. The Rifle and Pistol Club will meet Wednesday, Oct. 28 at 7 p.m. in Library 12th.

The meeting will cover plans for the Turkey Shoot on Nov. 10, which will be open to both teams and individuals. The club is interested in sponsoring a girls' rifle team to shoot against the girls' teams of each school on San Jose State University, California at Santa Barbara, and Stanford University.

Any student, male or female, interested in competitive or recreational shooting, whether rifle, pistol, or shotgun should come to the next meeting.

ME Society The ME-Mechanical Engineering Society will host a speaker Oct. 28 from Southern California Gas Company on the subject of "Total Energy." The public is invited to hear the talk at 7:30 p.m. in Mr. E-21.

"Total Energy concerns the production of electrical energy on construction sites," according to Bob Williamson, SAE-MI representative to Engineering Council.

New campus minister The Reverend Paul L. Nussle will be installed as the Lutheran Campus Chaplain at 4 p.m. Sunday, October 25 at the Mount Carmel Lutheran Church.

The Rev. Carl W. Bergstrahmer, President of the Lutheran Church in America in the Pacific Southwest states, will be the installing officer and speaker. A reception, including a buffet, will follow at the church at 1751 Frederick Way. Faculty and students are cordially invited.

Mr. Nussle comes to this position having served parishes in Minnesota and Salinas, California. He presently is serving the Lutheran Church in America as chairman of its Commission on Youth Ministry. He serves the five states Pacific Southwest area as secretary and sits on the committee which examines new candidates for the Lutheran ministry.

Former student wins award for thesis

A former farm management student, and now a graduate alumnus at Cornell University in Ithaca, N.Y., has won an award for the excellence of his agricultural economics thesis and has earned his master of science degree.

Albert W. Bartholomew, who received his bachelor of science degree from Cal Poly in June, 1965, received the award and $1,000 cash prize from the American Farm Economics Association. "His thesis, entitled, "An Analysis of the Interrelationships Between the Livestock and Feed Industries," was among 24 entries considered in the annual contest.

Bartholomew, a native of Orland, California, completed his the-

State college budget

San Diego State College Board of Trustees approved a budget of more than $10 million for the fiscal year beginning July 1, 1965.

The budget includes $4.7 million for instruction, $3.3 million for student services, $1.2 million for administration, $1.2 million for student activities, and $1.1 million for research.

The budget also includes $3.5 million for maintenance and repairs, $2.5 million for athletics, $1.5 million for entertainment, and $1.5 million for auxiliary enterprises.

The budget was approved by the board of trustees at their regular meeting on May 14.

The trustees also adopted a policy for the allocation of state funds to the college, which will be implemented beginning with the fiscal year 1965-66.

The policy provides for the allocation of state funds on the basis of the college's past performance, as measured by its ability to attract and retain students, and its success in meeting the needs of the local community.

The policy also provides for the allocation of state funds on the basis of the college's future potential, as measured by its ability to attract and retain faculty, and its success in preparing students for careers in the fields of agriculture, education, and business.

The policy is designed to ensure that the college will receive the funds necessary to provide a high-quality education for its students, and to ensure that the college will continue to be a leader in the fields of agriculture, education, and business.

The policy will be implemented by the college's administration, and will be reviewed on an annual basis by the board of trustees.

The policy will be made available to the public on the college's website, and will be distributed to all students and faculty members.

The policy will be reviewed at least once every three years, and will be amended as necessary to reflect changes in the college's needs and priorities.

The policy will be reviewed by the board of trustees at their regular meeting on May 21, 1965.
Fifty years ago we only made "aeroplanes".  
(See what's happening now!)

Engineers & Scientists: 
Campus Interviews, Thursday and Friday, October 27 and 28

In 1916 The Boeing Company's career began when its first plane took off. Its top speed was 55 mph.

Now, half a century later, we can help you launch your career in the dynamic environment of jet airplanes, spacecraft, missiles, rockets, helicopters, or spacecraft. Pick your spot in applied research, design, manufacturing, service or facilities engineering, or computer technology. You can become part of a Boeing program—job or assignment—making the leading edge of aerospace technology. Or you might wish to put it on the ground floor of a pioneering new project.

You'll work in small groups where initiative and ability get maximum exposure. And if your devotion is the advanced degree and quality, Boeing will help you financially with its Graduate Fellowship. You'll gain on-the-job experience and colleges may faculty counseling.

It will be sheer hard work. But if you think you've got what it takes, you're helping to create something unique in America's aerospace industry.

You don't have to wait until next month. In our classrooms and workshops, there's no time limit on what you can learn.

Engineers & Scientists: Boeing invites you to come and see. It's a real opportunity to see what goes on at Boeing. You can see it in any field of aerospace technology. Our company is an equal opportunity employer.

Church directory

Editor:

The following letter regarding the Beta Omicron chapter of Alpha Phi Omega for the purpose of upgrading the church directory was submitted to the Interfaith Council on October 12: Alpha Phi Omega's services to the students of Cal Poly are immeasurable. Through the distribution of housing directories during off-campus housing hunts, a great deal of information. The Interfaith Council greatly appreciates their providing space for a listing of the various denominations and their respective places of worship. However, in reviewing this directory, it was discovered that their listing is incomplete, partially incorrect, and outdated. Being members of a service organization, we realize that any group of this type wants its work to be of the highest quality. We, therefore, know that they will be able to complete their directory.

About the proper dress on campus: I don't think cowboy hats and boots are any more "unsightly" than the pipe smoking, bearded, casual dressing, pipe-toting intellectuals that pass you on the 18-story on his way to school.

There's no need back home at LA, and this is not about a third-growth western, I think we will continue to see the hats, boots, and colorful look.

Lee Horne

Grads employed in naval laboratories

"Cal Poly ranks third in the country in supplying graduates to the Naval Laboratories.

The Naval Laboratories in San Francisco, are engaged in research on deep ocean engineering and in the past year has conducted a large number of deep sea investigations. The Engineering Director of the laboratory isDMIC and is an expert in marine engineering. The Port Huron facility is interested in research on deep ocean engineering and in the past year has conducted a large number of deep sea investigations. The Engineering Director of the laboratory isDMIC and is an expert in marine engineering.

Robert Arch, Frank Hurst and John L. Mack are employed at the US Naval Civil Engineering Laboratory in San Diego, and Mark R. Stoecker is an electrical engineer, and Ack is an electronic engineer.

The Port Huron facility is interested in research on deep ocean engineering and in the past year has conducted a large number of deep sea investigations. The Engineering Director of the laboratory isDMIC and is an expert in marine engineering.

Kirk G. Gay, an electronic engineer, Donald W. Harris, a mechanical engineer and William R. Norman, a mechanical engineer, are employed at the US Naval Ordnance Test Station at Chalino Lake, California. The company and San Diego State College are the top contributors of engineers.

NATIONAL CHAMPS... With only three members not returning from last year's NCAA Collegiate Championship Wrestling team, this year should be a winning one. From left to right (front row) Tom Miles, Mike Bus, Jesse Flores; (standing) Crowell, John Garcia, Mike Hermes and Quinn Morgan. Standing Coach Vaughan Hitchcock, Joe Faria, Joe Garrett, Tom Kline, Dean Hilger, Terry Wigglesworth, John Miller, Dennis Downing and Assistant Coach Sam Cereceres.

GRapplers prepare championship season

From the way things look, wrestling coach Vaughn Hitchcock has his eyes planted on another championship season. Of the top looks toward the CCAA title, while the other has sights on the coveted NCAA National Championships.

And, with the team Hitchcock has to work with, both goals become reality.

Only three men were lost from last year's championship team, which won the NCAA crown. The rest are all back. Of its returning inmates, six were CCAA all-stars last season.

Returning will be John Garcia, 123 lbs., Dennis Downing, 165 lbs., John Miller, 182 lbs., Dean Hilger, 197 lbs., Terry Wigglesworth, 206 lbs., and Tom Kline, 191 lbs. and 220 lbs.

It will mark the fourth year under the guidance of Hitchcock, who is the only coach in NCAA national history to have placed third.

Starting as a debutante as a NCAA national champion, will be going at 191 lbs. As a debutante, Hitchcock is dumbfounded in dual matches and tournament competition. Kline has been Downing has added a few more which should improve his overall performance.

In 1965, Kline was runner-up in the NCAA singles at 191 lbs. "Kline has the ability to go all the way," said Hitchcock.

Wigglesworth, with the support of NCAA competition, was extremely tough for the opposition to handle. A member of Wigglesworth's fourth-year wrestling at Cal Poly, and the record for Higher after transferring from junior college.

Now was the CCAA title as a freshman, and 197 lbs. This season the Hitchcock plans to use Kline at 191. For dual matches and not for tournament competition. Wigglesworth will play a big role in filling the holes left from graduation. They will help reinforce the squad.

Coming from the Southwest is Kent Wyrick, 191 lbs., Steve Johnson, 182 lbs., and Ken Fox, 165 lbs. From the northern section of the state Wigglesworth has picked up Darron Vanuza and transfer student, Robin Price, a native of Colorado, who placed 131 lbs.

On the court, while at Buena Vista, was Thomas Nace champion at 191 lbs. Johnson and Bus attended California Junior College. Both will be in the tough Metro Pacific Conference which usually dominates state competition.

"With the fine material we have to work with this year, I feel that the Mustang basketball team has an excellent chance of winning the CCAA championship," Bud Walton said. "We're not prepared to take a back seat to anybody. There are not the world's smartest basketball coaches here.

Winning a basketball championship is not the main objective of the program, Walton explained. "It is an ideal situation to live up to expectations and have the players solidify the type of offense that Walton will conceive.

Another objective in the first-week basketball program is to give the boys backcourt opportunities to play in front of the fans. Though it may not be the best situation to handle all situations, we have to make the most of the talent we have.

The Mustangs have two players on the team from San Mateo College, John Hinderman and Tom Truex. Hinderman is a 6-2 junior, raw-boned type of man.

Another good find was Lynn Young from Sacramento College, Young, who comes highly recommended by his coach, is a 6-4 high jumper. Barry Price, from San Mateo College, is a 6-4 forward. Shooting and rebounding through a fancy course's points.

Bill Geniseto, a Junior, and a type of player recruited from Palos Verdes. An older man on the club, having played two years for last year's varsity team at Homestead College, is Barry George, in his final year. Don Welton is a 6-2 guard from Palos Verdes.

Another important point of interest in the Mustangs this season is that the man with the ball knows where he is going to make his move.

The Cutting and Reining Club, which will conduct campus interviews October 25 for sales training and garden chemical sales training, will be at the Cutting and Reining Club, which will conduct campus interviews October 25 for sales training and garden chemical sales training.

Contact the Placement Office at the Campus Center for appointment. Otago's is an equal opportunity employer.

Full horse program set for Saturday

Anyone for a horse show? The Cutting and Reining Club will hold full horse shows tomorrow, 9-11 a.m., noon, 1-3 p.m.

Ten classes have been planned for the event, including showmanship in Reining, Western Pleasure, Western Equitation, Western Cutting, Western Pleasure, English Equitation, National Working Hunter, Rock and Cattle, and Homesteading.

Accompanying the Cutting and Reining Club chairman, the riding program is to be held at the Homestead College.

The judge is Ken Pugh, of the Academy of the Cutting and Reining Club. Anyone for a horse show?

Unless otherwise noted, competing entries will be selected from the entries at any of the above-mentioned events.

Since the show is intercollegiate, only entries that will compete will be eligible for the awarding.

The judge is Ken Pugh, of the Academy of the Cutting and Reining Club. Anyone for a horse show?

Avoiding to Dorothy Jester, horse show chairman, the riding program is to be held at the Homestead College.

Handball tourney begins Tuesday

San Fernando Valley High School's young men's handball team has been in position and ready to compete for the last two weeks. The team, which has been practicing diligently, is looking forward to the upcoming season.

The Bulldogs' pass defense has shown it is ready for the stern test. A consistent pass rush, said Coach Swart, said, "will be the key to our success."

On Tuesday night, the Bulldogs will face a tough opponent in the form of Sequoia High School. The game is expected to be exciting and competitive.

The Mustangs' pass defense has been a concern for the Bulldogs. "We need to improve our pass defense," said Coach Swart.

The Mustangs have shown it is ready for the season opener. "We are ready to take on the challenge," said Coach Swart.

The Bulldogs will be looking to prove themselves against Sequoia High School. "We are ready to take on the challenge," said Coach Swart.

What do you think of "Playboy"?

by Mike Williams

"I always thought that the 135,000 or so readers were supposed to be serious about women," wrote one reader, "but sometimes the jokes don't seem to go with the whole thing." The joke is that women are supposed to be something of a laughing matter, and that's why the many who write to "Playboy" do so. "We are happy to have the right to express our views on women," one reader wrote. "And we are not afraid to do so." The problems of women are not something that can be brushed under the carpet, and the jokes that are printed in "Playboy" are not something that can be ignored. The problems of women are not something that can be ignored, and the jokes that are printed in "Playboy" are not something that can be ignored. The problems of women are not something that can be ignored, and the jokes that are printed in "Playboy" are not something that can be ignored. The problems of women are not something that can be ignored, and the jokes that are printed in "Playboy" are not something that can be ignored.
