Fairness board given approval

A topic of much interest concerns the approval of the Fairness Board by the student body. This past week, the Fairness Board met for the first time and voted to accept the Committee's recommendation to approve the Fairness Board as the campus fair and equitable forum for such a purpose. The committee believed that the Fairness Board would be an excellent forum for discussing student grievances.

The Fairness board would have the power to set up a committee to investigate student grievances and would be responsible for hearing and decision on these matters. The board would be composed of one student representative from each of the six colleges: Engineering, Architecture, Agriculture, Business, Science, and Arts.

They also became members of the Fairness board at the time of their election. The committee believed that the Fairness board was a necessary and important part of the student government and would help to ensure fair and equitable treatment for all students.

Hearty support

SAC approves campus radio

Foreign students' enrollment ranks near tops in nation

Thirty-six foreign students are currently enrolled at Cal Poly, according to James P. Hanley, registrar. These students represent a wide range of nations, including Deutschland, Japan, and China.

The foreign students have been highly involved in campus activities, participating in sports, social events, and academic programs. They have also become integral members of the campus community, contributing to the diversity and enriched atmosphere of our institution.

Architects revamp old Ag Education Building

In a resolution approved unanimously by the student body, the Board of Directors of the Ag Education Building has decided to upgrade and improve the building.

The architects say they are committed to providing a modern and functional space for the students and faculty. They have outlined a plan to renovate the building, which includes new classrooms, labs, and study areas. The architects have also proposed updates to the building's energy efficiency and sustainability, making it a more environmentally friendly space.

Resolution commends 6-4 football team

In separate business at the regular Tuesday meeting, SAC passed two resolutions commending the 6-4 football team. The resolutions, both presented by Terri Smith, represented the views of the entire student body and were supported by a majority of the student body.

The resolutions commended the team for their hard work and dedication, as well as their contributions to the campus community. They highlighted the team's success on and off the field, and recognized their contributions to our school spirit and culture.

Combos here for formal

The College Union Board has announced that combos will be available for the formal. The combos will consist of a shirt, tie, and dress pants. The combos will be available for sale at the College Union Board office.

Pre-scheduling due, Thursday, Dec. 8

Pre-scheduling for all classes is coming to an end. Winter Quarter will be held at 11 a.m. on December 8. The pre-scheduling will be held in the Student Center.

Failed to attend the meeting is required to attend the next meeting. The location of the meeting will be announced in the student newsletter.

The next meeting will be held on December 16. The meeting will be held in the Student Center.

Campus police will be on hand to assist with the pre-scheduling process. The pre-scheduling will be held on December 8 from 9 a.m. to 4 p.m. in the Student Center.

The pre-scheduling process is an important part of the pre-planning process. It allows students to plan their class schedules and ensure that they will be able to attend all of their classes.

The student should complete the pre-scheduling process as soon as possible, as the deadline is approaching. The pre-scheduling will be held on December 8 from 9 a.m. to 4 p.m. in the Student Center.
Conservatively speaking, American servicemen in Vietnam can return alive, but it is possible that some will be killed or wounded. But the simple fact remains that those American servicemen are fighting a war that they believe is just as much a part of our own American heritage as it is to the Vietnamese.

Once in awhile we may see a letter to the Daily News from an American mother in Vietnam. But the simple fact remains that those American servicemen are fighting a war that we believe is just as much a part of our own American heritage as it is to the Vietnamese.

The peace-making doves will never claim victory unless the Vietnamese realize the importance of the war. And unless the Vietnamese come to realize the importance of the war, the war is never going to be won.

Students present play

"The World of Ray Bradbury." The play is about the life of Ray Bradbury, a famous science fiction writer. The play covers his life from childhood to adulthood, including his love for books and writing. The performance is held in the college's auditorium. The play is directed by a student, and the cast includes various students. The audience response is positive, with many students expressing their appreciation for the story and the acting. 

Teacher tells class, "write on posterity" 

"(A) New Jersey high school boy got an entire high school turned upside down to write on posterity in his teachers speech, as he put it, was quoted on posterity in the 76. When the story, the unopted, was not identified, "I have to find out what gives national product." The teacher asked if anyone had any printed paper, what gross national product was."

Dining Hall cook reveals veteran war guerilla

Marina Tabelon was a veteran war guerilla who fought for freedom during World War II. She was a young man in his 20s when he joined the Philippine resistance against the Japanese occupation. Tabelon was a cook for the Japanese Army, but he eventually switched sides to fight for his country. He fought for six months before being captured and sent to a Japanese prison. Tabelon never returned to the Philippines for a repeat. His brother-in-law had been sent to the prison, but a new soldier came on at the camp. The Japanese began to execute the soldiers, in North Luzon with Akiyama. The soldier was going to bayonet him, but was stopped by a Japanese solider who said, "No! You are wrong!"

HAPPY HOLIDAYS from

AAA Western Wear

and Boarding Stables

who sends a hearty WELCOME to all Cal Poly students, inviting y'all to come in and see our vast up-to-date selection of SHIRTS, HATS, PANTS, BOOTS for men and women. 

This is your western store keeping with new and better western fashions. 

Western wear you're proud to wear. All the gear for you and your horses at the parade, ranch, arena, and dance.

Make it a WESTERN CHRISTMAS
A lot of people believe that someday the computer will do all their thinking for them.

Well, a funny thing is going to happen. You’re going to have to think harder and longer than ever.

Computers can’t dream up things. They can’t create. They apply the rules and procedures they’re fed, just like a robot. But they can be taught to do things much faster than humans, especially in areas like data processing and number crunching.

Here’s the thing: Computers are incredibly fast, but they’re also extremely limited in what they can do. They can’t think creatively, they can’t understand context, and they can’t learn or adapt to new situations. And that’s where humans come in.

“Let’s unplug the computer, boys! Start thinking!”
Football insanity over...

Mustangs end winning season

by George Runes

The insanity is over. This is the week
before Christmas and that means one
thing to the football players: a chance to
relax. Football teams, especially
California Polytechnic, have been
travelling across the state and the
country the last several months. But now
it's time to take a break. The Mustangs
will have a week off before the start of
the basketball season.

L.A. Ram speaker

at awards dinner

Los Angeles State Basketball Hall of Fame will be held at the
legendary Sports Dinner at the Biltmore Hotel on Tuesday, Dec.
18. The dinner will be held at 6 p.m. Tickets are $2.76 per
person. The dinner will feature the presentation of the
annual Awards Banquet, which is the first of three awards
banquets to be held by Los Angeles State Basketball. The
next banquet will be held in February and the final banquet
will be held in April.

Staff Dining Hall. Dinner will be held in the

A. M. "Bert" Piferes, the man who founded the "westernmost" in 1946, retired re- sport after having been a mem- ber of the college faculty for over 50 years.

Piferes' retirement, unexpected for past several weeks, was announced by Dr. John W. An- drews, vice president and chief administrative officer for the col- lege.

Vice President Andrews said to understand an illness, which had been diagnosed some weeks ago, that the printing department is going to be in the hands of Dr. Andrews. (See story in the March 25th edition.)

Dr. Andrews said that he has been acting head of the department since early June, was responsible for the department's operations, and had been supervising the operation of the department for the past several weeks.

"It was not for our leadership, name, and national reputation, Cal Poly would have to print the entire program in print- ing engineering and manage- ment which it has today," Dr. Andrews told Fallows.

The Cal Poly printing department, under the direction of John B. Fallows, has established a new level of service to the printing department, and has been responsible for the retirement of the department.

Piferes joined the Cal Poly printing department in 1946 and was responsible for the retirement of the department.

"In a moment like this, it is important to understand that the printing department is going to be in the hands of Dr. Andrews," Dr. Andrews told Fallows.
