Interim dean for liberal arts sought

The university is seeking internal candidates for the position of interim dean, School of Liberal Arts, effective September 1. The appointment will be for a one-year period or until a permanent dean is appointed.

A Ph.D. or equivalent degree is required, in addition to teaching and significant administrative experience. The appointment will be at the Administrator IV level with a salary of $70,000-$75,000, commensurate with background and experience.

All rights associated with this appointment are governed by the Management Personnel Plan adopted by the board of trustees. Applications and nominations should be addressed to Dr. Malcolm W. Wilson, vice president for academic affairs, Admin. 305. The closing date for receipt of applications/nominations is Friday, May 6.

Revised procedures for the Mail Center

Beginning Monday, May 2, the Campus Mail Center will implement new procedures. The changes are necessary because the state has not augmented budgets to reflect increases in postage rates or increases in the volume of mail.

Some of the changes include:

- All outgoing mail must be identified with one of the following: a state FAS six-digit account number, a foundation account number, or an ASI account number;
- Personal mail received in the Mail Center will not be processed.

Labor leader Albert Shanker will speak

One of the nation's most powerful labor leaders will speak in San Luis Obispo on Thursday, April 28.

Albert Shanker, president of the American Federation of Teachers, will discuss "Trusting Teachers to be Professional" at 7 pm in the Vets Memorial Building.

The talk is part of the "Innovative Teacher Education" lecture series, sponsored by the School of Professional Studies and Education, the Teacher Education Institute, and Phi Delta Kappa, a professional fraternity in education.

In addition to serving as AFT president, Shanker is vice president of the AFL-CIO, where he ranks fourth in seniority on the Executive Council.

In recent years he has been urging teachers to take seriously the various reports sharply critical of American education and to play a strong role in education reform.

He has called for tougher courses, standards and discipline; for a return to clear teaching of a common core of democratic values; for testing not only students, but teacher candidates as well; and for vastly improved starting and career salaries to attract the best and brightest into teaching.

The final speaker in the "Innovative Teacher Education" series will be Dr. John Maguire, president of the Claremont University Center and Graduate School. He will explore "Instituting Change in the University" on Thursday, May 19.

Macintosh computers on sale at bookstore

El Corral Bookstore has announced details of a special sale of Apple Macintosh microcomputers.

The sale is in recognition of Apple's announcement of a $300,000 donation of Macintosh computers to the university.

Students, faculty, and staff will be able to save an additional 7 to 18 percent on Macintoshes purchased at El Corral. This discount is in addition to the education discount of 30 to 40 percent generally available at the store.

Orders can be placed through Wednesday, May 11. They must be prepaid, and computers will be available for pick up on Friday, May 20, or Saturday, May 21.

For further details, call ext. 5311.

Payday — April 29
Lazere will be next humanities speaker

Donald Lazere, a member of the English Department faculty, will be the April speaker in the Arts and Humanities Lecture Series.

He will discuss "The Media: A Force for Freedom or Social Control?" on Thursday, April 28, at 11 am in UU 220. Sponsored by the School of Liberal Arts, the theme for this year's series is "Freedom and the Constitution."

"The political right believes the media threaten freedom by undermining authority and manipulating the public in the leftist interests of media personnel, while the left believes that the media threaten freedom by fostering authoritarian conformity and manipulating the public in the conservative interests of corporate owners and advertisers," according to Lazere.

His talk will address and attempt to resolve those opposing views of the media.

Lazere earned an undergraduate degree in English from Northwestern University; a master's degree in French from Columbia University; and a Ph.D. in English from UC Berkeley.

He was recently appointed to an important post with the National Council of Teachers of English. He will serve as a member of the Committee on Public Doublespeak.

Original big band sound to be heard

Woody Herman's "Young Thundering Herd Band" will present a special dance concert on Saturday, April 23, as part of Poly Royal.

Now under the leadership of bandleader Frank Tiberi (a 19-year veteran of the Herd), the band will perform at 3 pm in Chumash Auditorium.

The original orchestra, which the late Woody Herman started in 1936, has continued its 50-year reign as one of America's most innovative and talented big bands.

Herman chose Tiberi as the orchestra's music director in 1987, when ill health forced him to take leave. Before joining Herman, Tiberi was honored with chairs in the bands of Bob Chester, Benny Goodman, and Urbie Green.

Tickets can be purchased at the UU Ticket Office and at Boo Boo Records in downtown San Luis Obispo.

Prices are $7 for students, $10 for the public, and $9 for seniors. Children under five will be admitted free.

The concert is sponsored by the ASI Fine Arts Committee.

Open forum planned

Faculty and staff are encouraged to attend the ASI Open Forum on the Children's Center on Monday, April 25, from 7-9 pm in Mustang Lounge. This is an important session for staff to convey interest and support in the new Children's Center. A major discussion issue will be whether or not children of staff and faculty will be eligible to attend the new center. Come to the meeting and express your opinion.

For further information, contact Polly Harrigan, ext. 3396, or Susan Sompii, ext. 2301.

Afternoon cultural gathering April 30

The second annual cultural and social gathering called a "tardeada" will be held Saturday, April 30, from noon to 6 pm. The Latino/Hispanic clubs and the Multi-Cultural Center will be sponsoring the event, which will be held at Grange Hall, 2880 Broad Street, San Luis Obispo.

The event is intended to unite the university's Latino community and to share the Latino culture and values with interested individuals. The celebration will include food, music, literature, dance, and an art exhibit.

For more information, call the Multi-Cultural Center, ext. 1405, or Student Academic Services, ext. 2301.

Bradbury here today

Ray Bradbury, famous science fiction author and lecturer, will be available to autograph his latest books today (April 21) at 3 pm in El Corral Bookstore. Faculty, staff, and students are invited to stop by and meet him. He will also be lecturing tonight at 8 pm in Chumash.
Faculty workshops to be offered in June

The CSU Office of Faculty and Staff Relations has announced that several faculty workshops will be held the week of June 13-17.

The workshops will offer subjects to assist full-time faculty in the pursuit of instructional and scholarly duties.

Workshops with an instructional emphasis will include cross-cultural approaches, intellectual development of students, teaching effectiveness, and a new tool for computer-aided instruction — Hypercard. Others will focus on faculty as writers, getting grant support, and managing time conflict. A special workshop will also be held to assist campuses in planning and implementing a professional development program.

Interested faculty should contact his/her department head for details and an application. Completed applications should be forwarded to Marilyn York in the Graduate Studies, Research, and Faculty Development Office.

Enrollment will be limited and will be on a first-call, first-registered basis.

Children's Center offers summer camp

The Poly Trekker program will again be offered by the Children's Center. This summer camp, for children six to nine years of age, will run for eight weeks — June 27 through the week of Aug. 15.

The program will be designed for children to have fun, as well as to build teamwork and cooperative skills, and to gain competence and knowledge on varied topics of interest.

Poly Trekkers, open to children of students, staff, and faculty, will offer different weekly themes such as sea life, kitchen chemistry, sports, music and dance, science, animals and pets, and ecology and plant life. Nutritious breakfast snacks, lunches and afternoon snacks will be provided.

The daily program, which runs from 9 am to 4 pm, will cost $65 per week. Extended child care will be available from 8-9 am and 4-5 pm for an additional $1 per hour.

For registration forms and further information, call Liz Regan, ext. 1267. Enrollment will be limited to 14 children per week and will be taken on a first-come, first-served basis.

Kennedy Library selected by NRC

The United States Nuclear Regulatory Commission has selected the Kennedy Library as a Document Control System Demonstration Project Site.

The Government Documents and Maps Dept. of the library is one of six sites across the country selected for the demonstration project.

The Document Control System provides the public with on-line computer access to the publicly available portion of the DCS database.

The NRC has provided the library with a computer terminal, telecommunication hook-up, and over 1 million records in microfiche for every docket dating from 1981.

Through the DCS, Cal Poly now has the capability to access not only the local power plant documents, but also those on 124 other nuclear power reactors in operation or under construction in the United States. fuel cycle facilities, waste disposal facilities, and all NRC licensed activities.

An on-line computer search is available, without charge to the general public. The Government Documents and Maps Department is located on the third floor of the library. For additional information, call ext. 1364.

Seminar on teaching with technology set

William H. Graves, professor of mathematics at the University of North Carolina at Chapel Hill, will discuss the use of personal computing in the undergraduate curriculum.

His May 13 talk, titled “Teaching with Technology,” will be broadcast live via satellite from 9:30-11 am.

Graves will demonstrate software in different areas of the curriculum, from history to mathematics, and discuss ways in which instructional technologies can strengthen teaching and learning.

He will also discuss what institutional policies, faculty development programs, and support services are most likely to integrate technology into the curriculum.

The seminar will be distributed to all classrooms equipped with TV monitors and in BA&E, Room 13. In addition, Audiovisual will record the program for viewing at a later time.

Rodeo Boosters Club will honor Andrews

The Rodeo Boosters Club has named Dale W. Andrews 1988 Rodeo Booster Honoree in recognition of his dedication and support of the university’s intercollegiate rodeo program.

Andrews, emeritus executive vice president of Cal Poly, will be honored on Thursday, April 21, at the Rodeo Booster Honor Dinner and Rodeo Club Awards Banquet at the Madonna Inn.

Andrews served the university in a number of capacities from 1950 to 1983, including agriculture teacher trainer, dean of the college, executive vice president, academic vice president, and acting president.

He was a driving force in the success of the rodeo program and helped establish the Cal Poly Rodeo Boosters as an off-campus support group.
Family issues topic of professor's book

The recent Baby M decision invalidating a surrogate mother contract has raised a number of issues concerning family law, according to a Cal Poly philosophy professor.

In his new book, "Family and State: The Philosophy of Family Law," Dr. Laurence D. Houlgate deals with such questions as: What is the moral basis of the family? What is the justification, if any, for state regulation of the family? and What is the justification for legal rules affecting the custody of children?

Houlgate is currently working on the third book of the series, which he has tentatively titled "Ethics and the Family." The final book will cover American family policy.

In 1983 he was awarded a National Endowment for the Humanities fellowship to study the state versus the family.

Fluor Daniel to honor student researchers

Fluor Daniel, Inc. will provide $5,000 to fund awards for the 2nd annual CSU Student Research Competition. The CSU Foundation, through gifts from the Chancellor’s Associates and the CSU Business Associates, provides funding for the student competition which attracts over 150 students from throughout the 19-campus system.

The Fluor Daniel awards will honor the nine first place winners of the competition, while the nine runners-up will be honored by the CSU Foundation. Added support for the Student Research Competition comes from Apple Computer, host of the reception honoring the jurors of the competition, and from Chevron, which is sponsoring the awards dinner. President Gail Fullerton of San Jose State, and Chancellor W. Ann Reynolds will make the award presentations at the dinner.

Participants in the Student Research Competition compete in one of nine discipline categories: Biological Science, Business, Chemistry, Computer Science/Math/Physics, Engineering, Geological Sciences, Health, Humanities, or Social Science/Education. Each student will make a 10 minute presentation before a panel of jurors and the audience. A unique feature of the competition is that it draws upon corporations, public agencies, and foundations for professional experts to serve as jurors.

The conference, to be held at San Jose State University, begins Friday afternoon, May 6, and concludes with the awards presentation on Saturday evening, May 7. (Two Cal Poly students won first place awards last year. Cal Poly was the only campus with more than one winner.)

Cal Poly student wins debate contest

A Cal Poly student has won the national Lincoln-Douglas Debate Championship.

Timothy Blanton, a senior speech communication major, won the recent tournament at San Joaquin Delta College in Stockton.

The Cross-Examination Debate Association Spring 1988 topic was "Resolved That: The American Judicial System Has Overemphasized Freedom of the Press."

In addition to Cal Poly, other schools taking part in the debate championship included UC Berkeley, the University of New Mexico, Columbia University of New York, Fresno State, and Cal State Hayward.

Students to oversee F.F.A. state contest

Seven Cal Poly students who are preparing for careers as vocational agriculture teachers have been named to the committee that will coordinate arrangements for the 60th annual FFA State Judging Contest on Saturday, May 7.

Larry P. Rathbun, associate dean of the School of Agriculture, and Dr. Joe Sabol, head of the Agricultural Education Dept., are co-advisors to the student committee.

For FFA members, the state finals competition culminates a year of preparation that began at the local and regional levels.

Ventura site selected for new CSU campus

The CSU board of trustees has received a report from the Ad Hoc Committee on Off Campus Centers that staff had been directed to begin negotiations for the purchase of up to 550-acres near Ventura to serve as the permanent site for the CSU Northridge University Center. The acreage is part of the Taylor Ranch, which is located between the Ventura and Ojai freeways.

The center, which currently offers more than 20 degree and credential programs and has an enrollment of approximately 1,000 students, has been renamed California State University, Northridge-Ventura Campus, since the center no longer will be jointly administered by CSUN and the University of California, Santa Barbara.

Once acquisition of the Taylor Ranch site is completed, approximately four years of planning, construction and development will be required before classes can be taught at the site.
Who, What, Where, When

Luann McDonald, Financial Aid, received the Richard Dodge Award by the California College Personnel Association for making innovative contributions and demonstrating a professional commitment to college student personnel work in California.

David J. Schaffner, Ag Management, attended a meeting in Chicago of the USDA Futures and Options Pilot Program where he was asked to provide the educational component to the California counties in the pilot program, Fresno and Tulare. The objective of the pilot program is to encourage agricultural producers to utilize market oriented price risk management methods.

Robert Goggin, Journalism, has completed a marketing research survey for the Santa Barbara County Fair.

Charles M. Burt, Ag Engineering, together with eight other international irrigation experts, participated in a brainstorming session in Washington, D.C., for World Bank and USAID on the direction of future irrigation projects.

Martha J. Steward, Architecture and Environmental Design, was named secretary for the Association of Architecture School Librarians at the AASL/ACSA annual meeting in Miami, Fla.

Wes Conner, Ornamental Horticulture, presented three lectures and a workshop at the third annual Forum of International Landscape Architecture at Cali, Colombia. Over 48 participants, mostly architects and landscape designers from northern South America gathered for the event.

Joanne Beaule Ruggles, Art and Design, had her artwork accepted into the 31st North Dakota Print and Drawing Annual at the University of North Dakota, Grand Forks.

W. Mike Martin, Architecture, has been elected president-elect of the California Council of Architectural Educators, a council representing professional schools and community colleges and high schools that offer architecture programs in California.

W. Mike Martin, Architecture, presented a paper on "Undergraduate College Degree Major as a Predictor of Learning Style" and moderated a session on "Future Issues of Architectural Education" at the Association of Collegiate Schools of Architecture annual meeting in Miami, Fla.

Sandra Lakeman, Architecture, gave a multimedia presentation, "Natural Light and the Italian Piazza," as part of the 1987-88 Van Evera Bailey Lecture Series at the Oregon School of Design in Portland.

Dave Snyder, Admissions, presented a paper, "The Hiring Process: A Checklist for Success," at the national seminar on Successful College Administration in Orlando, Fla.

Don Woollard, Architecture, presented a paper, "Traditional Dwellings of the South Pacific," at an international conference, Traditional Dwellings and Settlements in a Comparative Perspective, at UC Berkeley.
