Cape Kennedy UP—Constitutional investigators probed at the charred halls of the Apple I headquarters Friday. This was the site of a mass riot, which left 17 people dead and scores injured. The investigation was prompted by widespread allegations of fraud, incompetence, and corruption.

While the official report is yet to be released, preliminary findings indicate that the riot was sparked by a dispute over the allocation of funds for the newly established Cape Kennedy Development Authority. The Apple I, a cutting-edge technology firm, was the target of the riot due to its perceived monopoly in the market.

The investigators, comprised of constitutional scholars and representatives from the Department of Justice, conducted interviews with witnesses and reviewed documents related to the incident. Their findings suggest that the Apple I management was aware of the growing dissatisfaction among employees and had failed to address the concerns adequately.

The report also highlights the role of media in spreading misinformation and fueling the unrest. It recommends stricter regulations on the media to prevent the spread of false information.

The current investigation is expected to provide a more comprehensive understanding of the events at Cape Kennedy. In the meantime, the company is working to stabilize its operations and ensure the safety of its employees.
The Way I See It

Last week, the students of this college selected the officers that will guide the coming year.

It will be up to us to see that the desires of the students are carried out. The office of ASI president will be occupied by Rush Hill. Hill has an outstanding platform. The vice presidential chair will be occupied by Amos String. String will undoubtedly be looking after the interests of the foreign students, long neglected.

Tori Stetson holds the office of ASI secretary for the coming year. From her record, we believe she will do a good job.

At this time, we would like to extend to the outgoing ASI officers, a most sincere "congratulations" on a job well done.

Although there have been times when this paper and James, this college has made progress. The office of ASI president will be under the guidance of Mike Elliott, Frank Mello and Katie James. The vice presidential chair will be occupied by Amos String. Hill had an outstanding platform.

The ASI officers, a most sincere "congratulations! on a job well done.

This year, however, has seen changes. First, perhaps we should be in in the examination. In the case program might have to be demoralized. Secondly, the most critical issue is the administration. The administration has not been able to make a major impact on the ASI officers. This is why there have been times when this paper and James, this college has made progress.

The Mrs. Hurdie of our school, Hurdie R. Phillips, who suggested a "death college," needs to be taken out of the equation. This is why there have been times when this paper and James, this college has made progress.

Attention Seniors

College Ring Order Day

The Josten Representative will be on campus to take a SPECIAL ORDER...

DATES: Friday, April 28
Saturday, April 29

TIME: 9:00 a.m. to 4:30 p.m.
PLACE: El Corral College Store

SPECIAL—NEW GIRLS' RING

Last Chance to order for guaranteed delivery before graduation—Deposit $5.00

Legalized LSD

Editor:

In the belief that the maintenance of our world could be significantly improved by the legalizing of LSD, I urge the following:

1) The immediate legalization of LSD in the State of California. The drug is a valuable tool for research and development. This is why there have been times when this paper and James, this college has made progress.

2) Creation of state dispensary for the distribution of the drug. This will allow the government to control the drug and ensure its safe use. This is why there have been times when this paper and James, this college has made progress.

3) The immediate legalization of LSD in the State of California. The drug is a valuable tool for research and development. This is why there have been times when this paper and James, this college has made progress.

As the editor of the campus newspaper, I feel it is my duty to inform the students about the benefits of legalizing LSD. This is why there have been times when this paper and James, this college has made progress.

The Mrs. Hurdie of our school, Hurdie R. Phillips, who suggested a "death college," needs to be taken out of the equation. This is why there have been times when this paper and James, this college has made progress.

Alumni group looks for separate identity

By Stanley Association will be meeting on the campus in late May to consider the question, "Some students from low-income families have been "free" higher education per year than seven other states."

Tuition ban proposed

The Executive Committee of the Board of Regents has proposed a tuition ban for the current academic year. The proposal was adopted by a vote of 9 to 0 at the meeting of the Board of Regents on March 20. The proposal is designed to provide financial aid to students who would otherwise be unable to continue their education.

The proposal sets a maximum of $500 per year for tuition and fees, and a maximum of $200 per year for room and board. The proposal also provides for a maximum of $500 per year for other expenses, such as textbooks and transportation.

The proposal is subject to approval by the Board of Regents at its next meeting on April 17.

Conservatively Speaking

By Bob Kaezar

Is higher education in Califor- nia really affordable to the average student? If you ask the students, the answer is yes. If you ask the administrators, the answer is no. The administrators argue that the costs of higher education are too high and that the state is not providing enough funding to keep tuition affordable. The students argue that the costs are reasonable and that the state should provide more funding to support higher education.

There are, however, several issues that need to be considered before making a decision on how to fund higher education in California. One issue is the cost of tuition, which has been rising rapidly in recent years. Another issue is the cost of living, which has also been rising in recent years. A third issue is the cost of instruction, which has also been rising in recent years.

In the end, the decision on how to fund higher education in California will depend on a variety of factors, including the cost of living, the cost of instruction, and the cost of tuition. It will also depend on the priorities of the state and the nation.

Poly Royal 'Express' carries far-away mail

The Poly Royal 'Express' is a student-run newspaper that is published weekly. The newspaper covers a wide range of topics, including local news, campus events, and national and international news.

The Poly Royal 'Express' is funded by the Associated Students of Cal Poly, which is the student government at Cal Poly. The newspaper is edited by a team of students who are selected by the Associated Students of Cal Poly. The newspaper is distributed to students on campus and in the community.

The Poly Royal 'Express' is one of the oldest student-run newspapers in the United States. It was founded in 1924 and has been published continuously ever since.
School marks and sprinters dazzle in win

by George Baxa

Sports Writer

The Mustangs swept the field at Hancock yesterday after being swept off the track by the weather. Two top-100 men, veteran and frosh, were in action on the track.

Junior Cecil Turner and freshman Leo DeWinter, both sprinters, earned a number of individual and team records.

Turner smashed the school record for the 100-yard dash with a mark of 9.4 seconds. His previous best was 9.5 seconds. This effort was comparable to the nation's best mark this season.

DeWinter, trying not to be outdone by his varsity counterpart, set a new record and the nation's best mark this season.

His previous best was 9.3 seconds. DeWinter's clutch charge for the 100-yard dash tied a Cal Poly record and set the school record of 21.4 seconds with an effort of 22.4 seconds flat.

DeWinter was also timed in 9.1 seconds by negotiating the distance in 10.5 seconds, which is comparable to the nation's best mark this season.

The Mustangs' heroics were set off by two more sub-10.0 second men, Stenhouse and Stroyko, who led a field of five sub-10 second men in the 200-yard dash.

Turner, becoming a one-man show, outdistanced the field by winning the long jump with his best performance of the season.

His mark of 24 feet 1% inches tops his previous best of 23 feet 3 inches.

Another school mark was achieved by Stenhouse in the 110-yard hurdles with a time of 14.7 seconds. His previous best was 14.9 seconds.

The Mustangs' heroics by winning the long jump 21.4 seconds, and the nation's best mark this season.

DeWinter, setting a new Cal Poly record, cracked the frosh mark for the 220-yard dash Of 22.4 seconds. His previous best was 22.6 seconds.
