

Summer Mustang

California State Polytechnic College

VOL. XXIX, NO. 48

SAN LUIS OBISPO, CALIFORNIA

FRIDAY, JUNE 30, 1967

All time high for summer enrollment

An all time high was hit for summer enrollment when 1741 students filed past the doors of the Men's Gym into registration, Monday, June 19.

A total of 14 classes were added to the summer quarter curriculum, while 5 classes were canceled prior to registration.

"On the whole, we were pleased at the way registration turned out," says Jerald Holley, registrar. "It went well, and we were pleased to have the flexibility that we had to add classes that were needed. There still might be of insufficient enrollment.

In addition 389 students enrolled Monday, June 26, for the first of two 1967 summer sessions being held here this summer.

The first summer session, starting with registration Monday will terminate July 22. The second session will begin July 24 and terminate August 18th.

The two summer sessions, plus the regular summer quarter, brought the total enrollment on campus to approximately 2800 students, the largest summer enrollment in the history of California State Polytechnic College.

"Principle differences in the summer quarter and the summer sessions at Cal Poly are in the areas of curricula, financial support, and calendar," states the Cal Poly News Release. "The summer quarter, offering a full range of courses as possible over an 11 week period, is essentially an extension of the academic program offered by the college during the Fall, Winter, and Spring Quarters."

Student fees for summer quarter include the usual basic materials and service fee of thirty-dollars, plus an additional \$8.75 for incidental fees.

On the other hand, summer sessions offer a more limited number of courses and students

are assessed a tuition charge of \$13.25 per unit, plus incidental fees.

Many of the courses offered during summer session are intended for either junior, senior, or graduate levels. However, several are of general interest and have no prerequisite requirements.

11 Ag students get scholarships

Four young men who have been awarded \$500 scholarships head a list of 11 students who have been awarded scholarships for study in the School of Agriculture here this fall.

They are Robert A. Gibson of Bakersfield, Clinton C. Shfick of McFarland, Lawrence G. Rouse of Anaheim, and Robert S. Benson of Carpinteria.

Selection of the 11 students and the \$5,300 in scholarship awards they will receive were announced recently by Cal Poly's to Scholarship Committee. Basis for their selection was their need for financial assistance, their academic records, their citizenship and moral integrity, and their activities records.

Others included in the Cal Poly Scholarship Committee's latest announcement included three high school graduates who expect to begin their college study this fall and four Cal Poly students who plan to continue their work.

They are Rod J. Cardella of Firebaugh; Tom E. Hunton of Junction City, Ore.; Allen Judkins of Paso Robles; Gary Hubbs of Colton; David L. Wishmeyer of Salinas; Victor Perea of Santa Maria; and Michael B. Barkley of Chico.

Wounded grad comes home

Capt. Kenneth D. Tarbet, a 1958 journalism graduate, is waiting to be medically retired from the army. He is currently in Letterman Hospital in San Francisco recovering from wounds received in Vietnam.

Tarbet received numerous injuries and was evacuated to the

US on Thanksgiving Day. He has been in the hospital since then and should be retired by the end of July.

He has received the Purple Heart, the Bronze Star and the Army Commendation Medal.

\$6.3 Million grant for new science building

A proposed capital outlay budget was presented recently to California Polytechnic College. It calls for the expenditure of \$6.3 million in 1968-69 to meet expanding enrollments.

The proposed budget, allotted for building the Engineering South complex, will be utilized for construction on the present site of the Women's Gym. The new complex will contain a vari-

ety of laboratory facilities.

Chancellor Glenn S. Dumke presented the California State College budget, entailing \$108.4 million, to the trustees for consideration as they opened a two-day meeting at San Diego State College, Wednesday, June 21.

Dumke also forecast the expenditure of \$278 million in the college system for facilities and land over a five-year period starting in 1968-69.

The one-year budget anticipates that about 210,000 students will attend classes at the 18 opening state college campuses. Enrollment during the recently completed academic year was 172,000.

The major share of the one-year budget, \$37.7 million, would be spent for planning and construction of libraries, classroom buildings costing \$16.8 million comprise the second largest expenditure.

Degrees conferred on 1,471 graduates

Students from 48 counties of California, 38 of the United States, and 40 foreign nations were among the 1,471 candidates who had degrees conferred upon them during 81st Commencement ceremonies at California State Polytechnic College, here, on Saturday (June 17).

That information was released by the office of F. Jerald Holley, Cal Poly's registrar, who said the total number of graduates of the college this year was the largest in its history.

Of the 1,471 total graduates, Holley's report reflected 1,219 who received the Bachelor of Science Degree and 163 who received Master of Arts in Education Degrees.

Other degrees conferred during the traditional ceremony was the Bachelor of Architecture Degree with 39 candidates; the Bachelor of Education Degree, 3; the Bachelor of Vocational Education Degree, 1; and the two-year Technical Certificate, 46.

Among the total group of candidates are 12 who received the BS degree in two major study areas, 5 who got both a BS degree and a Technical Certificate, and 6 others who received the Technical Certificate in two major study areas.

Broken down among Cal Poly's four instructional Schools, 277

of the BS graduates were from the School of Agriculture; 301 from the School of Engineering, 374 from the School of Applied Arts, and 267 from the School of Applied Sciences.

Of the total number of candidates, some 960 actually took part in the Commencement ceremony, in Mustang Stadium on the college campus.

Guest speaker for the occasion was California Lieutenant Governor Robert H. Finch, who was introduced by Chancellor of the California State Colleges Glenn S. Dumke. Cal Poly President Robert E. Kennedy conferred the degrees.

Returning to the statistical

summary of the graduates, Registrar Holley's report reflects that 101 or 8.3 percent of the bachelor's degree candidates graduated with honors.

Among the total group, 191 were veterans of military service, 614 were married, and 316 were women. The oldest graduate was 59 years old and the youngest was 21.

Among the highlights of the 1967 Commencement was the commissioning of second lieutenants through the Army Reserve Officers Training Corps of its Military Science Department. Some 87 young men received commissions.

CATA conference

California Agriculture Teachers Association are now conducting their annual Summer Conference here. Dr. Robert E. Kennedy, president of California State Polytechnic College, and Allan Grant, president of the California Farm Bureau Federation, head a list of featured speakers.

The conference, traditionally held here, opened Monday, June 26 and will continue through Fri-

day, June 30. Approximately 450 educators and members of the association from throughout the state are expected to take part in the event.

Theme for the 1967 CATA Summer Conference, according to H. H. Burlingham, chairman of the Agricultural Education Department and chairman of the committee which plans and stages the annual event, is "Family or Plenty."

Workshop held for local English instructors here

Fifty English teachers from public elementary and secondary schools throughout the San Joaquin Valley and Central Coast areas have reached the end of a special two-week-long workshop here on campus.

The Leadership Workshop, being made possible through the joint cooperation of the Area IV Language Arts Steering Committee, the English and Speech Department, and the California Department of Education, opened early this week and will end Friday, June 30.

Richard Rutherford, an elementary school principal from Bakersfield, is director of the workshop and Wilfred Green, faculty member, is coordinator of the event for the college.

Purpose of the workshop, according to Rutherford, is to locate and train a corps of knowledgeable and experienced teachers who can interpret the state's proposed English, Language Arts Framework of Instruction.

Kiosk as gift

The class of '67 has graduated, leaving behind a little oasis in the middle of campus. Their class gift is the pictured kiosk and its immediate environment.

The kiosk was designed and constructed by the Anubis Temple of Seabrook (National Honorary Professional Architectural Fraternity). Aiding with the physical labor was the Architectural Department's Canyon Construction Company.

The kiosk is located between Engineering West and the Math Building. It will be used for displaying posters and announcements of campus activities. It also provides a pleasant place to sit and rest or a place to stop and meet people, as shown in the photos.

You are invited to stop by and enjoy the space.

1968 Poly Royal Board Selected

Jack Knobloch of San Luis Obispo has been elected general superintendent of the 1967-68 Poly Royal.

Other board members elected are as follows: Ed Wentzel, first assistant; Ron Hathaway, second assistant; Barbara Nist, secretary; Steve Benson, treasurer; Neil Bowen, director of agriculture; Gall Robbins, director of Applied Arts.

Diana Blake, director of applied Sciences; Bob Treat, director of English; Dick Johns, director of arrangements; Kim Schneider, director of special events; and Alan Holmes, director of publicity.

Grant to Ag students

Twelve students, who expect to study in the School of Agriculture here for the next academic year, have been named by the college to share \$3,550 in scholarship grants.

They are: Alan S. Dammann of Frazier Park; Robert J. Spiller of Northridge; Jack W. Knobloch, Fontana; Michael S. Graham,

Riverside; Walter R. Stormer Point Arena; John F. Ming, Valley; Thomas Courtwright, El Cerrito; Ronald H. Rothman, Garbena; Stephen D. Thomas, San Maria; Joseph C. Black, La Alamos; Harold R. Van Norman, San Jacinto; and Janet Blake, Santa Margarita.

Among those included in the announcement of this latest group of scholarship awards by the college's Scholarship Committee are three students who will continue their study in the Poultry Industry Department, three who expect to enroll in the Dairy Department, and six who plan to continue in the Ornamental Horticulture Department.

Their selection, announced earlier this week by the Scholarship Committee, was based on the recipients' individual academic records, their need for financial assistance, and their citizenship and activity records.

The \$3,550 in scholarships included in the committee's announcement brings to more than \$46,550 the amount of financial assistance granted to students who expect to either continue or begin their study here during the Fall Quarter.

Foreign Students Host Program Provides View to American Life

Editor's Note: The following is an introduction to a series of articles concerning foreign students on campus. Successive articles will serve to portray the personality, the customs, and the ideals of individual foreign students in a "foreign" environment.

"You got more out of it than you put in," say Mr. and Mrs. Arthur Morrow, long-time residents of San Luis Obispo who have been active in the Foreign Student Host Program at California State Polytechnic College.

The Foreign Student Office here, under the direction of Glenn W. Rich, foreign student advisor, is rebuilding a host program, whereby families in the community can take foreign students into their homes occasionally for a meal and a few hours of enlightening conversation.

The Morrow's have been taking foreign students into their home for short visits for several years now, and are quick to relate the satisfaction they have received from their relationships.

They became interested in the program in the mid-1950's when they had a son attending California Polytechnic. Since that time, they have had many pleasant experiences with their guests from throughout the world and have established life-long friendships.

In their role as a host family, the Morrow's have established contacts with students from Jordan, India, Lebanon, Ghana, Tanzania, and Ethiopia.

"The students we have befriended really needed our help," Morrow mentioned. "It doesn't cost us anything but a little time, and we get so much more from it than we put in."

The purpose of the host program, according to Rich, is to get the foreign students into the American home to see how the typical American family lives.

Rich relates that, ideally, a host family would meet a student as soon as he, or she, arrives, taking him from the bus to their home where he can stay for one night or a few days, if convenient, until he gets acquainted with the campus and is introduced to the American community.

"The host family should then keep in touch with the student informally from time to time so

that a real friendship, understanding, and exchange of culture develops," he said.

"This is one of the primary goals of such a program, and cannot be realized through casual, superficial affairs, or even group entertainment, no matter how friendly. It means much to a student to know he has a home away from home," Rich continued.

"A home away from home" is exactly what the Morrow's, who take pride in showing them the intricacies of the American home, provide their guests. Their boys are welcome at any time, they say.

"Our students often like to learn how the refrigerator, the garbage disposer, and other such commonplace items in the American home work," they related.

The Morrow's are quick to point out that their foreign student guests put on no airs, and at all times are very frank. They have a genuine desire for understanding, and enjoy an exchange of ideas, and yet are a little skeptical of the surroundings at first.

"These students don't want much of your time, and it is important that you don't just invite them once and drop them. It really isn't fair to them," Mrs. Morrow continues.

The Morrow's have established such a casual relationship with the students that some of them refer to the Morrow's as "mom and dad."

The Foreign Student Office at California Polytechnic needs two kinds of families, according to Rich. The first type must be willing to meet the student at the bus or other transportation, and make the initial contact with him.

A host family, working on such a short range basis, could meet several students and establish contacts with them. Once the student has been familiarized with the school and the community, another host family could establish a more permanent and lasting relationship with the student.

The second type of host family is this long-range host family, who welcomes the student into its home after he has made adjustments to the college and to the community.

The Morrow's, who reside at 281 Cerro Romauldo, in this city, are an example of this long-range host family.

"With this lasting relationship,

a real exchange of culture develops," Mr. Morrow points out. "We take great pleasure in doing what our boys want to do, even taking drives in the country or just talking."

They say the students enjoy small favors, such as a ride in the car. Many of them have no transportation, and are very appreciative of being taken on errands.

When the student is in the home, he is often skeptical of the surroundings, but given time, warms up to his new-found friends, and will gladly give information about his country and family. Most of the students the Morrow's have befriended enjoy bringing slides to show, which has become one of their favorite pastimes.

They enjoy being in the home—around families and children—and will freely talk about ordinary people in their own countries. They especially relish hearing about the American family.

When talking with their guests, the Morrow's, as any host family must, show tact in the questions they ask about the student's country, for fear of touching on a controversial issue of religion, politics, or some other national policy. But, once the contact is made, the students will talk about almost anything.

"We like to do little things for them, like fix them meals, or even let them fix the meals of their native countries. Of course, we have to be careful what we feed them, for fear of violating customs or eating habits. It is always wise to ask them what they can or cannot eat before preparing a meal for them," Mrs. Morrow adds.

Rich points out that these students speak fluent English, and have passed at least minimum language requirements.

The summer edition of the Printing Department invites any in a series of softball games to be and all groups to challenge them held Saturday mornings at 10 o'clock behind the mens gym.

Realizing that it may be impossible to organize a group of nine players, an agreeable adjustment will be made for teams of six, seven or eight players.

In an ever increasing effort to suppress discrimination and promote good sportsmanship, the Printing Department will welcome any team—male, female or both.

Any organization, group, or aggregate of players wishing to participate in such a contest should contact Bennett Derman or Ollie Soujanen in the Printing Department, or a note on the Mat Pica Pi bulletin board.

'67 baseball summary

Coach Bill Hicks noted that one good feature of the 1967 baseball campaign was that he had an opportunity to play a number of young ball players. We were outscored 222-87 and had a 5-27 won lost record.

The five victories were spread among as many pitchers. Lefty Dorn had the best earned run average among the regulars, 4.69.

His 34 strikeouts in 71 innings pitched, nipped sophomore lefty Ed Dutra of Santa Ynez who notched 33 in 47 innings of work. Junior right-hander Chase Gregory of La Canada yielded only nine walks in his 40 innings pitched. Foes batted only .230 against Dutra, lowest of the four regulars.

Hicks has been successful in

placing a number of his players on teams in summer leagues and he has been active in recruiting.

Right-handed pitcher Dean Treanor of San Luis Obispo and Mike Hay of Canoga Park, who will be converted into an infielder, are top flight prospects coming up from the freshman team.

Awards given at Sports banquet

Sprinter Cecil Turner received a pair of special awards at Saturday night's Mustang Spring Sports Awards banquet held at the Madonna Inn.

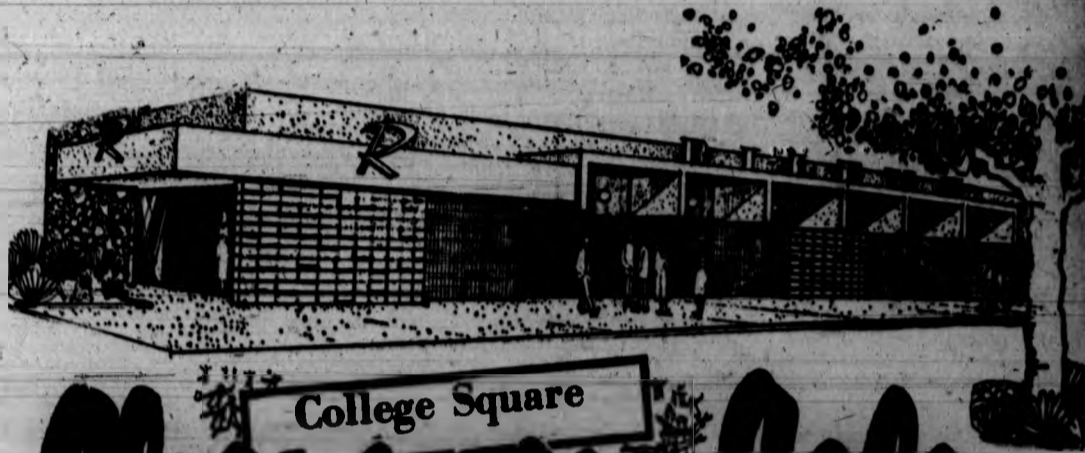

Former Olympic decathlon champion Rafer Johnson was the featured speaker at the event. The program was sponsored jointly by the Block P Society and the Rally Club. Fifty-one athletes received letter awards.

A dozen special awards were presented with Turner, holder of a batch of Poly school records, earning two of the honors. The 9.3 100-yard dashman from Washington D. C. was voted "Outstanding Track Man". He also was honored as the team's top point producer. In dual and triangular competition and the conference meet he accounted for 88 team points.

Baseball players receiving special recognition were Dick Mueller, Chuck Stoll and Jeff Carlowsky. In golf Tom See, Santa Maria Junior, was voted Poly's outstanding player. Tennis players receiving special awards were Jos McGahan, Jim Williams and Mike Meadows.

Sophomore sprinter and triple jumper Ruben Smith, Stockton soph, was honored as the track team's "Most Improved Field Events Man". Jeff James, San Jose soph, was selected as the "Most Improved Track Man". Ken Baker, Arcadia senior, and Rich Terrell, Richmond junior, were named co-captains.

Joe McGahan, Hanford freshman, received the "Most Valuable Player" award on the tennis team while Jim Williams, Bonita junior, was chosen "Most Improved Player" and Mike Meadows, Colton senior, was named "Most Inspirational Player".
