All time high for summer enrollment

An all time high was hit for summer enrollment when 1741 students filed past the domes of the Gym into registration, starting Monday, June 30 and terminating August 18th.

A total of 14 classes were added to the summer quarter enrollments, while 3 classes were cancelled for overcrowding.

Attendance figures showed a 5% increase in the number of students taking classes during the summer session as compared to the 1966 enrollment. The ses…..

Wounded grad comes home

Gary, Kenneth D. Turkel, a 1966 graduate of Cal Poly's College of Agriculture, returned home recently and was reunited with his family. Gary was injured in Vietnam and was evacuated to the hospital in California. He is expected to recover completely from his injuries.

11 Ag students get scholarships

Four young men who have been awarded $8,750 scholarships and a total of 11 students who have been awarded scholarships in the School of Agriculture have been named.

Workshop held for local English instructors here

Fifteen English teachers from the Los Angeles area attended a workshop held at Cal Poly recently. The workshop was designed to help teachers improve their teaching skills.

Degrees conferred on 1,471 graduates

Students from 48 counties of California, 34 of the United States, and foreign nations were among the 1,471 graduates who had degrees conferred upon them during the Commencement exercises.

The conference, traditionally continued through Friday, was sponsored by the Department of Education, opened by the Chairman of the Board of Education, and closed by the Governor.

Many of the course offerings in the School of Agriculture were designed to meet the needs of the students who plan to continue their education in the fall and four Cal Poly students who plan to enter college this fall.

California Agriculture Teachers Association are now conducting the annual Summer Conference for their members. The Conference is being held at the University of California, Berkeley, from July 10 to 14.

A proposed capital outlay study for new science building

A proposed capital outlay study for new science building at San Diego State College will be included in the state bond issue. The proposed study, aimed to build an Engineering building, will be valuable to the institution during the period of the Women's Gym. The new building will contain a new plant, gym, and laboratory.

$6.3 Million grant for new science building

The proposed budget, alloted to meet the needs of the state for capital outlay, is $6.3 million. This grant will be utilized for meeting the cost of building the Engineering complex, will be used to meet the cost of expanding enrollments.

The one-year budget study, which established the 18 month budget in accordance with the guidelines established by the State Board of Education, will involve a careful analysis of all aspects of the educational program. The study will be conducted by a team of educators who will work closely with the various departments of the college to determine the most effective way to utilize the funds available.

The proposed study will provide a framework for the development of a comprehensive plan for the expansion of the institution. The plan will focus on the needs of the students and the community, and will ensure that the institution is able to meet the challenges of the future.

The study will also address the issue of the Women's Gym, which is scheduled to be completed in 1969. The gym will serve as a valuable resource for the students and the community, providing a state-of-the-art facility for physical education and athletics.

The proposed study will be an important step in the development of a comprehensive plan for the expansion of the institution, ensuring the continued growth and success of the California State Polytechnic College.
1968 Poly Royal Board Selected

Jack Knobloch of San Luis Obispo has been elected president of the 1967-68 Poly Royal. Other board members elected are as follows: Bill Westfall, first assistant; Jim Rathway, second assistant; Barbara Nist, secretary; Steve Benson, treasurer; Neil Bowen, director of agriculture; Carl Robinson, director of Applied Arts.

Diana Blake, director of Applied Sciences; Bob Treat, director of English; Dick Johnstone, director of arrangements; Kim Schneidur, director of special events; and Alan Holmes, director of publicity.

The class of '07 has er's, leaving behind a little of the middle of campus. The gift is the pictured kiosk in the immediate environment.

The kiosk was designed and constructed by the Alpha Iota chapter of Sigma Chi (National Professional Architectural Fraternity). Aiding with the plan and labor was the Architectural Design of Canyon Consultants Company.

The kiosk is located just west of Engineering West and the Engineering Building. It will be used for playing music and announcements of campus activities. It also provides a pleasant place to sit and rest or a place to socialize and meet people, as shown in the photos.

You are invited to stop by and enjoy the sign.

Grant to Ag students

Twelve students, who expect to study in the School of Agriculture here for the next academic year, have been named by the college to share $3,550 in scholarship grants. They are: Alan S. Dunnam of Paso Robles; Robert J. Spillner of Northridge; Jack W. Knobloch, Fontana; Michael L. Graham, Riverside; Walter R. Birkner, Point Arena; John F. Ming, Yucaipa; Thomas Corbett, El Cerrito; Ronald H. Richman, Garden Grove; Stephen S. Thomas, Los Angeles; Joseph E. Black, San Lorenzo; Harold R. Herman, San Jacinto; and Janet Van Santa Margarita.

Among those included in the announcement of this group of scholarship award winners are three students who will continue their study in the Poultry Industry Department, three who expect to enroll in the Dairy Department, and six who plan to continue in the Ornamental Horticulture Department.

The $3,550 in scholarships included in the committee's announcement brings to nearly $40,550 the amount of financial assistance granted to students who expect to either continue or begin their study here during Fall Quarter.
Baseball Anyone

The Morrow's, who reside at 15 San Luis Obispo who have been involved with the Foreign Students Host Program at Cal Poly, have established long-lasting friendships. In turn one of their host families has established cordial contacts with students from Iran, China, Taiwan, and Ethiopia. They say that they have really needed our help. "It doesn't warms up to his new-found friends, and will readily give his information about his country and family. Most of the students the Morrow's have befriended enjoy bringing slides to show, which has become one of their favorite pastimes. They enjoy being in the home-around families and children—and will freely talk about ordinary people in their own countries. They especially relish hearing about the American family. When talking with their guests, the Morrow's, as any host family must, show tact in the questions they ask about the student's country—one or another of cultural, or ethnic, or religious, or social national policy. But when, the contact is, in fact, made, the students will talk about anything. "We like to do little things for them, fix their meals, or even let them fix the meals of their own country. Of course, we have to be careful what we feed them, for fear of violating some customs or eating habits. It is always best to ask them what they eat or cannot eat before preparing it. We have enjoyed taking drives in the country or going to parties together. But points out that these students speak fluent English, and have no problem with minimum language requirements."

Volvo Ambassador

The Foreign Student Office at California Polytechnic State University has been a part of many families, according to Rich. "They're just the same as any other family, as far as we are concerned, taking them from the line to their home where they can stay for one day or a few days, if convenient. The Morrow's gene was real at their home and introduced to the community.

The Morrow's should then be more a part of our home life from time to time so that a real friendship, understandings and exchanges of culture develop," he said best.

"This is one of the primary goals of such a program and cannot be realized through casual, social activities, or even group entertainment, no matter how much a student knows about a student to know him, he has a home away from home," Rich continued. "A home away from home is exactly what the Morrow's have created in showing them the intracacies of the American home, providing them with their own meals. Their boys are welcome at any time, they say."

"Our students often like to hear how the refrigerator, the garbage disposer, and other such commonplace items in the American home work," they related.

The Morrow's are quick to point out that their foreign students greet each other when they arrive at the Foreign Student Office at California Polytechnic State University has been a part of many families, according to Rich. Coach Bill Hicks noted that one good feature of the 1967 baseball campaign was that he had pitched on to a number of younger ball players. We were scored 222-87 and had a 4-57 win record.

The five victories were spread among as many pitchers. Lefty had the best earned run average among the regulars, 4.60.

For the Man

SWATTERS—V-neck lanacool pull-over with full fashion styling...All new heather tone colors, sizes S, M, L and XL.

Regular 14.00 Sale 9.96

SPORT SHIRTS—Perma-grease finish, all short sleeves, try styling in plaids and solid colors. Sizes S, M, L, XL.
