Accidental death rate in agriculture third highest tally across the nation

WASHINGTON — The Labor Department is meeting to check the nation's record of accidental deaths from injuries suffered in the field. The department's third annual report on the subject, which is expected to be released next month, documents the trend of the nation's farm safety efforts.

The report indicates that the accidental death rate in agriculture has decreased steadily over the past decade, with the rate in 1967 being the lowest in recent years. However, the report also notes that the rate is still significantly higher than in other industries, and that much work remains to be done to improve farm safety.

Agricultural workers are at risk of injury or death from a variety of causes, including machinery accidents, falls, and exposure to toxic substances. The department's report shows that falls and machinery accidents are the leading causes of farm-related injuries and deaths.

The report also highlights the importance of training and education in improving farm safety. It notes that many farmers and workers lack the knowledge and skills needed to safely operate farm equipment and machinery.

The department is working to address these issues through its Farm Safety and Health Program, which provides training and education resources to farmers and workers. The program includes workshops, seminars, and other training opportunities, as well as resources such as safety manuals and guidelines.

In addition, the department is collaborating with other federal agencies and organizations to develop and implement new safety standards and regulations. This includes working with the Occupational Safety and Health Administration to develop and enforce regulations that protect farm workers from workplace hazards.

Overall, the report shows that while progress has been made in improving farm safety, much remains to be done to protect workers from injury and death. The department continues to work with farmers, workers, and other stakeholders to develop and implement effective safety strategies and solutions.
Press vs. police

Robert Frazier, a national Los Angeles police officer, will speak at the Press Club meeting tomorrow at 7:30 p.m. in 10C, PC.

He will discuss police brutality. The facts are that, "we need both sides. We need the public of Los Angeles. We need the press. The public is being neg-igrent. The press is not doing its job."

Mr. Frazier worked for 25 years with the Los Angeles Police Department. Twenty of those years were spent in the detective and investigator rank and two years ago he was in the Los Angeles Police Academy for about four years.

"Cat Ballou" here

C.D. Films Corporation will offer a screening of "Cat Ballou," America's newest favorite fresh topping. This film will be shown on Saturday, Nov. 23. For reservations call 737-50.

Guatemala bound

J. Conner Gibson, acting dean of the School of Agriculture, will leave for Guatemala next week. Mr. Gibson will be in Guatemala for two weeks to discuss projects in Guatemala.

FACULTIES INCREASE

The magnitude of state-college recruiting tasks is illustrated by the fact that the number of full-time faculty members has nearly doubled in the last five years. The greater part of these faculty members is engaged in two-year programs.

Forum

Editor:

I am writing this letter in response to the recent editorial in the Wednesday, Sept. 30th edition of The Mustang. The editors in the Thursday, Oct. 27th issue misstated a fact and did not make any effort to provide an explanation or correction.

The editors stated, "With this issue, the "temporarily frozen" status of the fraternities is being reconsidered and the idea of reactivation is being considered." However, this is not accurate. The Inter Hall Council approved the reactivation of the fraternities on Oct. 17th, and this decision was made under the guidance of Chairman Gary Ferrel, who organized this effort.

The idea of beautifying the campus and involving students in extracurricular activities is important, and it is commendable that the Inter Hall Council is working on this. However, the editors' statement suggests a lack of attention to the concerns of the fraternities and their desire to exist.

I believe that the fraternities play a valuable role on campus, and their presence is important for the social and academic life of the student body. It is unfortunate that the editors did not consider this perspective in their editorial.

Sincerely,

Jason Watkins

Jungle turns green

Jungle residents take heart! There was a lot of discussion of the advantages of greenery growing up the hill this past weekend. The local community is aware of the benefits of greenery and has taken steps to promote it. The Jungle is a unique area, and its beauty is enhanced by the greenery that grows up the hill.

Editor's note:

The editors have received various comments about the greenery growing up the hill. We are encouraged by the enthusiasm for this initiative and will continue to monitor its progress.

Some say we specialize in power... power the possibilities... power for aircraft, missiles and space vehicles... power for marine and industrial applications...

Why Mary Weggert

Electoral rules have been adjusted to ensure a fair and transparent process.

There is much hope that this change will be a positive development, as it will allow for a more fair and just election. The new rules are designed to ensure that all candidates have an equal opportunity to win, and that the election process is free from corruption.

Sincerely,

Mary Weggert

Editor's note:

The editors are pleased to see the positive reactions to the new electoral rules. We hope that these changes will lead to a fairer and more democratic election process.

Some facts are not

Editor:

While attending Homecoming last weekend, I had the opportunity to observe the vibrant atmosphere and the enthusiasm of the students. It is evident that the Homecoming events are highly anticipated and eagerly awaited by the students.

I would like to address some concerns regarding the Homecoming events. While the events are exciting and enjoyable, there are certain aspects that need improvement. For example, the security arrangements at the events are often inadequate, leading to concerns about safety.

I believe that the Homecoming events should be a time for celebration and enjoyment, and it is important that the students feel safe and secure during these events.

Sincerely,

John Smith

Editor's note:

We have received various comments about the Homecoming events. The editors are committed to addressing these concerns and improving the overall experience for the students.

Wrestling team to face rough home schedule

Wrestling fans will be in for a treat now some of the best collegiate wrestlers in the country will be on hand. The Mustangs will face a tough schedule of meets.

Coach Vaughn Hinson will send his men to the Rose City Classic where there will be a great intra-squad battle. The event will be held on Nov. 18 at 7:30 p.m. The Mustangs will be in a homecoming atmosphere since the current team is the same team that won the national title last year. Coach Hinson will be looking for some individual wins this season. The Mustangs will be trying to better the 1977-78 team.

The Mustangs will also be in action on Nov. 22 and 23 at the 1978 NCAA championships in Los Angeles. Coach Hinson is looking for some individual wins here as well.

Hinson is hoping that addi­
tional help from the freshmen Bob Armstrong, 146; Der Pyt, 197; and Russ Bert, 177. This will be the last season John Chaffin, Dave Arnold, 166; and Tim Ostrom, 185; will hold the home stand. Spec­
tially, the Mustangs will be on the road this season, but the home crowd is expected to be strong.

The Mustangs will have a tough season ahead of them, but the team is ready to face the challenge.

CAHPER to host basketball event

With the football season almost over, the basketball season is looking over the hill. The Mustangs are planning to have a few basketball games this season.

The basketball season will be kicked off with the annual CAHPER sponsored (California Association for Health, Physical Education and Recreation) basketball tournament. The tournament will be held on Dec. 15 and 26. The Mustangs will have three games on these dates.

Powerful Mustang bootmen seek sixth win Saturday

Friday will see the Mustangs play against Humber College in a match that will determine the winner of the league championship event this year.

Boydston in action. The Mustangs are looking to make Loyola University in six straight games this season.

The Mustangs are looking for a powerful offense and a strong defense this season.

The Mustangs have a tough schedule ahead of them, but the team is ready to face the challenge.

Potentially, the Mustangs will face some tough competition, but the team is ready to face the challenge.

Returnees, transfers bid for Mustang hoop berths
