Prolonged illness claims former college leader

McPhee dies in hospital

By Dr. Julian A. McPhee, presid­
et of this college from 1959 to 1969, died this morning in a San Luis Obispo hospital. The 71-year-old executive as­sumed the college presidency in 1966 and died this morning in a San Luis Obispo hospital.

The former president had been a resident of San Luis Obispo Hospital for several years before his death.

McPhee's reign not always serious

Old timers on campus remem­ber a man of wooden buildings. Under his administration, the school was a tiny cluster of wooden buildings. Under his administration, the school was a tiny cluster of wooden buildings. Under his administration, the school was a tiny cluster of wooden buildings.

VIET CONG PIN DOWN INFANTRY COMPANIES

BY EUGENE V. RINER

BAILOON (UPI)-North Vietnam forces attacking under cover of a blinding rainstorm spawned by Typhoon Frieda opened a tremendous artillery barrage on two pinned down American infantry companies near Dak To in the central highlands. It was the 8th day of battle in this Dak To section near the borders of Cambodia and Laos and 280 miles north of Saigon. Loses were heavy on both sides—83 Americans killed, 206 wounded and two missing. But a U.S. Army spokesman said the Reds had lost 406 dead. The Americans had pulled back earlier today to let B-52 bombers blast the jungled hill and the nearby mountains where the Americans have so far halted a major Communist offensive aimed at driving U.S. troops from the highlands. U.S. authorities said today's fighting killed four Americans, wounded 23 others and that two were missing in action. But U.S. soldiers on Hill 724 found another 156 Communist bodies today, victims of concentrated artillery and B-52 strikes.

One Communist unit broke off its fight against the first American company, UPI correspondents Robert Kaplan and Richard Oliver reported from Dak To. But the other still was laying down a heavy barrage of heavy automatic weapons fire all night.

The rain made the going even tougher for the Americans. Typhoon Frieda, rapidly diminishing in intensity, hit South Vietnam's central coast about dawn and was spending itself tonight over the Dak To battle scene—a factor which cut down the use of American airpower. U.S. Marines fought a 26-hour battle in the Da Nang area Wednesday night and Thursday. They killed eight Communists but the Leathernecks lost four dead and 84 wounded.

LIKED AGRICULTURE... Former president McPhee was a friend of agriculture and he enjoyed talking with those persons associated with agriculture. A common sight on campus was his visit to the "farm" and his talks with students.
**Colts seek final victory against Hancock eleven**

The freshman football team will attempt to end the season on a winning note Saturday when it opens out its campaign at Santa Barbara against the Hancock J.C. Freshmen, who are likely to be victorious against their opponents, have enough strength to hold off the older team and bring a victory on the grounds of San Luis Obispo Saturday afternoon.

**Coach Bob Edmanner's team has had its ups and downs this season. The Colts opened the season with a loss to the powerhouse Taft College Cougars on Oct. 7. However, they won the short end of this one by the tune of 8-6.**

Success was just around the corner and it came the Press State JVs. In this cut, the Colts performed more splendidly and sent00 into the air the visiting team.

**Game time is set for 5:30 on the Santa Maria High School field.**

**Prepare to 'walk-on' as enrollment grows**

"When I was your age I had to walk ten miles to school," was the old saying. Well, in 1970 Cal Poly students will have to walk ten miles to school after they get to campus. The "walking campus" will not be as bad as we think. Doug Good, associate dean of student services, feels that actually "walking on" will actually be more convenient for the 15,000 students of 1970.

Gerard explained that the rise in enrollment for the future will stress traffic congestion and parking problems. By parking near on the campus and walking on campus the congestion will be relieved.

"This year there will be some students who will need more buildings. According to Dr. Howard, this can be gradually filled in the present voids between the buildings. Walking from one building to another will require a maximum of ten minutes."

"Walking will be pleasant be- cause in most cases you will be con- verted into landscaped malls. Architecturally speaking Ger- ard said that there will be some continuity by use of the "walking campus."" The student will not be added to the voids of this addendum to the walk on campus.

Students of 1970, after a time will realize that the "walking campus" has been worth-while. However, the Mustangs drop- ped by 1,000 he found. He adds that this sort of education available in some states where the idea of college is a public education and where universal in higher socio-economic background. In this state, students, they are better off financially, said Dr. Howard.

"For the upper social class women are Gil- lium and emerged the winner for this year. The Geor- gia team had a 20-point choice against Hancock eleven.

"The freshman football team is just around the corner, according to Dr. Edmanner the freshness of our age," Dr. Gentner pointed to a 1.5 million last year. The UA Of-ficial read and a few streets it added to vehicle traffic congestion.

LBJ launches coast-to-coast tour

By Frank Suddbaum in San Francisco, The President, speaking in a voice that was often praised in the Washington press, dedicated the new Vietnam War memorial in San Francisco today. "These Americans do not live in the air bases of Rhineland or the ships of Far East," he said. "These Americans live in the heart and blood of every man, woman and child in the United States."

The President, addressing the crowd of 50,000 that had gathered in the Presidio, said that the memorial was "a symbol of the American spirit that has inspired our Generations to do our duty in peace and war."

"These Americans are no less," the President said, "than the generations who fought the Civil War. They are our grandfathers, and our fathers, and our sons, and our children." The crowd responded with "Amen. Amen. Amen."

Planes lost in Vietnam

Air Force raids succeed

HANOI (UPI) — U.S. air force planes made 12 runs over the Hanoi bridges today, demolishing them, and the Air Force said it would return to the scene at the first opportunity. The planes were returning in response to the Hanoi bridge demolition by the Viet Cong. The Air Force said the raids would continue through tomorrow.

"The meaning of Julian McPhie's work is a shock to all who, over the years, have lived and worked with him," Dean of Applied Arts Carl Cushing said at his memorial service in San Francisco today. "He was a man of great intellect, but his greatest achievement was his ability to bring together the people of this country and to make us understand our common needs."
