Conservatively Speaking

By Mary Wingard

I recently read the famous speech of President Franklin D. Roosevelt, which was delivered to the nation on January 28, 1939. He addressed the nation and spoke of the dangers of Fascism and Nazism, and of the importance of democracy. He said, "The only thing we have to fear is fear itself."

I am a strong supporter of President Roosevelt's views and believe that his words still hold true today. We must stand strong and be true to our principles.

Finally, I want to say that I am proud to be an American and to live in a country that values freedom and democracy. I will continue to support our leaders and work to ensure that our country remains strong and free."
