Cancer and acid link studied by Congress

WASHINGTON (UP) — A doctor told Congress this week that acid in the stomach "significantly increases the chance of cancer.

The witness, Dr. Earl B. Jacobsen of George Washington University, said that a heating that the balance of cancer is formed from the stomach and intestine is in excess amounts will increase the chance of cancer.

"Acid in the stomach is an important factor in the development of the stomach and intestine," the doctor said. The discovery was made in a study of the stomach and intestine of people who died of cancer.

Jacobsen said there was reason to believe that acid in the stomach is a factor in the development of cancer.

"Acid in the stomach is an important factor in the development of the stomach and intestine," the doctor said. The discovery was made in a study of the stomach and intestine of people who died of cancer.

**Letters to Editor**

**Disposal service**

Editor: Concerned Guardian readers have learned of our campus' new disposal service and the resultant reaction of some students and faculty that, disturbs me. Therefore, I am writing to you to express my concern.

The disposal service is intended to provide a convenient means for students and faculty to dispose of trash. However, the service has been poorly implemented. Trash is often left on the ground or in improper receptacles, leading to a filthy campus environment.

I believe the disposal service should be reevaluated and improved. It is important for the university to maintain a clean and pleasant campus atmosphere.

**Who's who?**

Dear Editor:

I am writing to express my concern about the campus' disposal service. The service has been poorly implemented, and the campus is often left dirty and untidy. I believe the service should be reevaluated and improved to maintain a clean and pleasant campus environment.

From the Horse's Mouth

Of laws and wars, fra-la

...and a fairly conversant collection of gifts,icky items and other unusual memorabilia.

Ninety-one years worth.
The final CCAA Wrestling Championships were held in the Monte Vista Gym on March 12. The Mustangs were the host for the event. Champions in the event included Mike Gallego, 167 pounds, and Ron Marques, 177 pounds. Mike Gallego defeated Fresno's Ron Kerby 13-9 in the finals. Ron Marques defeated Fresno's Ron Geyer 9-5 in the finals.

The Mustangs' Tom Kline and Mike Gallego will be seeking their third straight league titles. Fresno State's Frank Kerby and Ron Marques will be seeking their second straight league titles. Fresno State will be seeking its fourth straight conference crown. Each individual champions for CCAA Poly years the Mustangs' point total will be the final CCAA Wrestling. The Mustangs are the only team capable of matching Poly's dominance in CCAA wrestling. The Mustangs have had their by Poly's dominance in CCAA wrestling. The Mustangs have had their

Ball club faces 2 rough teams

"These two are both real tough ball clubs, but hopefully we are more prepared this time," said Manager C. L. Nason. "We have had two opportunities to play on the road this year."

A starter has not been picked for the San Diego State game. The San Diego State game will be played at Hart Park in Orange County. The Mustangs will be facing their third straight league titles.
