Funds for inauguration still $2500 short of goal

Planning for the inauguration of President Donald W. Kennedy is moving along. In addition to the usual activities, the student body has also been making an effort to raise funds to cover the deficit. The funds will be used for supplies, printing, and other necessities for the inauguration.

Winning an acceptable record of the student's work is a necessary, but not sufficient condition for admission. It is easy to see the value of the above statement in the case of students who are not admitted. The student's work should be admitted to the university, but not to the college.

Transfer student transfers are those who are admitted to the university, but not to the college.

The truth in this statement is obvious. We all play at daily

“I wanted to work for a small
cpany. It may sound crazy, but that’s
why I went with IBM”

“When I was in school, I dreaded the thought of
working for some huge company where I’d
be just another number,” says IBM’s Jim Hamilton.
(Jim, who has a B.S. in Electrical Engineering,
is a Systems Engineer Manager in Marketing.)

“At the same time, I knew there were definite ad-
antages in working for a large firm. So as I interviwed
each company, I checked into the degree of individuality
I could expect there.

“One of the main reasons I picked IBM was their decentral-
ization. They’ve got over 300 locations throughout the country.
Which to me means a big company with a small-company
atmosphere.

IBM’s small team concept

“Actually, there’s plenty of decentralization even within each
location. For instance, in science and engineering, they use a
small team concept. I mean, no matter how large the project,
you work individually or as part of a small team—about four
or five people.

With small teams, I was pretty much my own boss even
two or three years ago. As you can see, it’s up to you to find the
to the customer’s problem,
and then use it’s carried out the optimum wav.
You work with the customer, every step of the way.”

There’s a lot more to the IBM story than Jim has
mentioned. For more information; visit your campus
