Architects design stadium

by Al Waterfield

The College president's committee on plans will have a joint football stadium with five schools interested in the site of first field.

Paul Young, School of Architecture, has completed a feasibility study for the new stadium facility, and is in the process of presenting his report to the committee. Included in this proposal is a plan for a sports center for the school.

The stadium itself will be the site of a joint sports facility and will accommodate a minimum of 50,000 people. The cost of the stadium will be approximately $50,000,000. The stadium will be built in two phases, the first phase being completed in 1966.

The stadium will be a multi-purpose facility, capable of hosting a variety of events, including football games, basketball games, track meets, and outdoor concerts.

ROTC goes to the field

The Military Science department is currently in the process of planning various events for the coming school year.

A number of events will be held in conjunction with the Army ROTC program. These includes a Motor Corps camp on Saturday, 8/15. In addition, a joint field trip will be held on the same day.

The program will be held in the field of the Student Union. The students will be involved in a variety of activities, including field exercises and training sessions.

Humanity versus machine

The sad news hit the headlines recently. As if we didn’t know it was coming, a robot namedshelf was seen in the line of public transportation, causing a stir in the city.

The robot, named Shelfy, was seen carrying passengers on the 57 bus, shocking many commuters. This incident has raised concerns about the future of public transportation and the role of technology in society.

The robot, which is equipped with artificial intelligence, is capable of carrying up to 15 passengers at a time. It is also capable of navigating through traffic and following a predetermined route.

Questions have been raised about the safety of such technology, as well as the potential impact on employment and the economy. Some fear that robots will replace human workers in the transportation industry.

The incident has sparked a debate about the future of public transportation and the role of technology in society. It remains to be seen how the city will address these concerns and the implications for the transportation industry.

Citing communication and more student voice in decisions, ASI candidates are calling for a change in the Constitution.

In the coming election, students will have the opportunity to vote for new ASI executive officers and ASI senators who will be responsible for making decisions that affect their daily lives.

The candidates are promising to increase communication between students and the administration, as well as to prioritize student voices in decision-making processes.

The candidates are also calling for the incorporation of more student voices in the creation of major policies, such as the budget.

The goal of the candidates is to create a more democratic and inclusive environment at the school, where students have a say in the decisions that affect their lives.

The results of the election will be announced on or before the first day of classes.

State probes air crash

"The real question is not whether we can change the system, but whether we can change our system," said the state attorney general.

Several members of the state legislature have called for a probe into the recent air crash, which claimed the lives of several students.

The probe, led by the state attorney general, will examine the causes of the crash and determine if any regulations were violated.

The investigation will also look into the safety record of the airline involved and the training of its pilots.

Paint slewing

"Fine arts finest ever"

The school is proud to announce the Fine Arts finest ever, a new program that is sure to impress the public.

This is a new program that is sure to impress the public, with a variety of opportunities for students to explore their creativity.

The program includes a range of courses, from painting and sculpture to film and theater.

The school is committed to providing a rich and diverse range of opportunities for students to develop their skills and express their creativity.

The Fine Arts finest ever is a testament to the school’s commitment to excellence in the arts.

The program is open to all students, and we encourage you to explore your creative potential in this exciting new program.

The program is available to all students, and we encourage you to explore your creative potential in this exciting new program.
Faculty receives security

by Ann Bronwyn

Some call it the great                       or, to put it in an "old age security plan" means a more tangible benefit to the         but in any case, there is no need for a formal program. The         faculty member is either granted a                                 or given a terminal notice

The procedure for dismissal is         the department's own. The action taken over and over again with the emphasis         in the California State College's Education Code to dismiss         performance, the faculty member approves the plan saying, "After

Cast your ballot

Editor: Provided on the line�行是 Poly students are the words that come to mind, is the time for you to cast your ballot. It is the time when you have the opportunity to have your voices heard. While it may be difficult to believe, there are only a few weeks left until the election. In those few weeks, it is crucial that you make your voices heard. The reason for this is simple: your vote matters. Your vote can make a difference in the outcome of the election.

The election is about more than just choosing between two candidates. It is about choosing between two visions of the future. One vision is based on the principles of democracy and the other is based on the principles of corporate greed. The choice is clear: support the candidate who will work for a future that is fair and just for all.

We know that you are busy with the demands of your daily life, but please remember that your vote is the key to making a difference. Your vote is the key to shaping the future. So please, take the time to cast your ballot.

Frat funded election

Editor: It seems strange to think about the last time I voted for a frat. I can remember the day vividly. It was a typical election day, with clouds overhead and the smell of campaign literature hanging in the air. I stood in line with my fellow students, all of us eager to make our voices heard.

But as I looked around, I saw something that was different. There were frats everywhere. They were everywhere. I couldn't believe it. The frats had somehow managed to turn this election into their own personal mini-election. They had even managed to convince some students to vote for them.

I couldn't believe it. I had always thought that frats were about partying and drinking and exclusive fraternities. I had never thought that they could be involved in politics. But here they were, trying to buy votes.

The election was over soon enough, but I couldn't shake off the feeling of disappointment. I had voted for a frat, but I had voted for the wrong frat.

Poly Royal 'great' celebration

Editor: Poly Royal has been celebrating their 'great' celebration for the past few days. They have been putting on shows and parties, and the campus has been buzzing with excitement.

But as the celebration has gone on, I have started to wonder. Is this really what we need to be celebrating? Is it really worth spending all of our time and energy on something so superficial?

I think we need to take a step back and ask ourselves what is truly important. Is it really worth spending all of our time and energy on something so superficial? I think we need to take a step back and ask ourselves what is truly important.

Letter school

Editor: The letter school has been in full swing for the past few weeks. Students have been working hard to prepare for finals, and the atmosphere on campus has been electric.

But as the letter school has gone on, I have started to wonder. Is this really what we need to be doing? Is it really worth spending all of our time and energy on something so trivial?

I think we need to take a step back and ask ourselves what is truly important. Is it really worth spending all of our time and energy on something so trivial? I think we need to take a step back and ask ourselves what is truly important.
Fresno retains championship; golfers finish fifth in tourney

---

Fresno State, defending CGAA golf titleholder, retained its championship at the San Luis Obispo Country Club. Three years removed from it, the title eluded the title claims of the titleholders, but it was claimed by Fresno State.

The fourth annual competition, which was the last tournament before the annual championship, was decided by rounds of play. Fresno State won with a score of 66, followed by San Diego State at 67, and Cal State Los Angeles at 68.

The tournament was held on the San Luis Obispo Country Club, with play starting at 7:30 AM. Fresno State's lead last year was only three strokes, but this year's title was decided by a score of 20 strokes.

---

**Racquetmen tie for fifth**

While the Fresno State golf team was in the process of losing its conference crown, the racquetball teams were also competing for the championship. Fresno State finished tied for fifth place, with San Diego State winning the title with a score of 88.
