The photo exhibit draws protest

by Kim Long

A photo exhibit titled "Blood on the Inside" was on display at the Institute of Public Relations. The exhibit was curated by the African American Photographers Association and featured works by African American photographers. The exhibit was open to the public for a week and drew considerable attention.

The exhibit included a wide range of photographs, from landscapes to portraits, that captured the experiences and perspectives of African Americans. The photos were a powerful reminder of the struggles faced by African Americans throughout history.

The exhibit drew both support and criticism. Some visitors were moved by the photos, while others were critical of the exhibit's message and the way it was presented.

The exhibit was met with protests from some community members, who felt that the photos were too graphic and disturbing. The protests included picketing outside the institute and petitions calling for the exhibit to be removed.

Despite the controversy, the exhibit has been widely acclaimed by African American photographers, who believe that it is an important contribution to the field of photography.

Publicity has many sides

New greenhouse unit slated for Fall Quarter

A group of students is planning to build a new greenhouse unit on campus for the Fall Quarter. The group has been working on the project for several months and has already secured funding from the Associated Student Body (ASB).

The greenhouse will be located in a unused area of the campus and will be used for growing vegetables and flowers. The group plans to use the produce from the greenhouse for the campus dining hall.

The project is expected to be completed by Fall Quarter, and the greenhouse will be open for use by students and faculty.

Blood drive

A blood drive was held on campus on Monday, March 1st, from 10 a.m. to 4 p.m. The drive was organized by the American Red Cross and was open to all students, faculty, and staff.

The blood drive was a success, with over 100 units of blood collected. The blood will be used to help save the lives of patients in need.

Yearbook takes cover prize

The R.P. Smith HS yearbook was chosen as the best yearbook in the country for its prize-winning cover design. The cover design featured a striking image of the school's mascot, the Mustang.

The yearbook also included a number of other award-winning features, including a comprehensive sports section and a detailed history of the school's activities and achievements.

The R.P. Smith HS yearbook is available for purchase in the school store and online.
Blind receive normal education

It is the purpose of this paper to examine the education of the blind within our society. This examination will include an analysis of the current educational system for the blind, as well as an evaluation of the effectiveness of that system. The paper will conclude with a discussion of the potential for change in the current educational system for the blind.

The current educational system for the blind is based on the philosophy that the blind are entitled to a full and equal education. This philosophy is reflected in the current curriculum, which includes a wide range of subjects. The curriculum is designed to provide the blind with the skills and knowledge they need to succeed in society. However, the current curriculum is not always effective. Many blind students struggle to keep up with their sighted peers.

There is a need for change in the current educational system for the blind. The system should be designed to meet the unique needs of the blind, rather than attempting to force them into a system that was designed for the sighted. The system should be based on the principle that the blind are entitled to a full and equal education, and that they should be given the opportunity to succeed in society.

In conclusion, the current educational system for the blind is not effective. There is a need for change in the system, and it is the responsibility of the society to provide the blind with the education they need to succeed in society.
Corry Ansen, the event brought back memories of the 1960s era which killed 17 members of the college's football team. For a pictorial review of the Spring Quarter news stories, see below. (Photo by Dan Need)

OVER THE HURDLES TO THE CCAA TRACK CROWN ... go two members of the college's track team. Couch Dick Pearl and his chairman were their first CCAA track championship. This quarter on the strong performances of Cecil Turner, Lou Dowintor, and Ruben Smith. It is Purcell's second season as head coach of the program. It is due for occupancy in early (1969). Dorms may provide housing for athletes

Chase, Harvard and University schools may be unable to provide housing during the 1969-70 school year for students who enroll in the College in Virginia. According to Dean Joseph Colsey, the need for this program is expected to grow at a rate of nearly 200 percent per year. This does not include the 30 percent increase in the number of students who are expected to return to school and receive, residential degrees from this school.

Dr. Frank better

Dr. Frank, former university president, returned to school and received, his Masters degree from Harvard Rusiluee School. He has spent the past four years in the Los Angeles office of the College. He served as the branch's assistant general manager of the Chase's Los Angeles office before returning to school and receiving his Masters degree. He now serves as the research director of the American Institute of Architects and the American Institute of Architects.

College alum named head of architectural company

Charles Lockman, P.A.I.A., chairman and chief executive officer of Lockman & Associates, a Los Angeles architectural firm, was named the new president of the College. The College, under the direction of the American Institute of Architects, has been in existence for the past 15 years. It was established in 1955, the year of the College's first national championship, by the American Institute of Architects. Lockman, the former president of the Los Angeles chapter of the American Institute of Architects, was named as a fellow of the Institute in 1957. He served as the branch's assistant general manager of the Los Angeles office before Lockman and Associates was named as an affiliate of the American Institute of Architects. He was named as a fellow of the Institute in 1957.

WHAT A STEAL? Defensive corner Vince Crooks has made a name for himself on the "Green" defensive unit. The transfer from American River Junior College has shown great corner strength in Saturday's action. His quarterback Don Milan throws with good balance.
