Will initiative become student right?

Student Rights is the theme of the upcoming Associated Student Council election and all 5,600 students will have the chance to vote in record numbers. On Nov. 20-21, students will be asked to vote on three proposed ASI bylaw changes. These three bylaw changes, if passed, would add another article to the Student Rights chapter of the ASI bylaws.

On Monday, Nov. 15, the Associated Student Council (ASC) held a meeting to discuss the bylaw changes. The ASC approved the bylaw changes and they will be presented to the students in the form of a ballot. The ASC also decided to have a recall election on the bylaw changes.

The bylaw changes would add a new article to the Student Rights chapter of the ASI bylaws. The new article would give students the right to initiate legislation and would also allow students to recall any elected officer.

The ASC hopes that the bylaw changes will give students a greater voice in the decision-making process at Orange Coast College. The ASC believes that the bylaw changes will help to ensure that student rights are protected.

The bylaw changes will be presented to the students in the form of a ballot. The ballot will be distributed to all students on Nov. 20-21 and students will have the opportunity to vote in the election. The ASC encourages all students to vote in the election and to learn more about the bylaw changes.

For more information about the bylaw changes, please visit the ASC website at www.ascoc.cc.osc.edu.

Great success for first play

The company's theater season opens with the Saturday evening performance of "Quiet Moment" by K. M. W. Stapp. A moving play depicting the tragedy of a girl who cannot talk, the author's inspiration was a 12-year-old girl who has cerebral palsy. The late Miss Stapp noted that the boy was a "very happy, contented little boy, who would think and play and do things, but only laugh, and be happy, and be contented, and be glad."

The production is well directed by the author and was produced by the College Union Drama Committee in the theater. The play will be repeated on Monday, Thursday, and Saturday evening, and under the expert guidance of the author. The play will run until Monday, November 20.

As criticism I could only point to the fact that the story needed more attention in some parts. The play could have been improved by more detailed action and more use of dialogue. A few parts were a bit confusing, but overall the play was a success. I would recommend it to anyone interested in theater or drama.
More flap on SNAP, YNA vs. CCR, faculty stirs writers

Prejudice here?

Editors:

I am writing this letter not to specifically pick a fight on the subject of prejudice but to give the student population a more comprehensive understanding of what it is to live in a world which dictates one's treatment based on one's color.

Robert P. Markhutsky, president of California State University, Fullerton, is quoted about the situation in his speech, "Is there a chance for an American?"

"Dr. Markhutsky noted that when a black teenager was given a position which was a non-support function, it was only after his superior, who was white, had complained about working with him."

This is just one example of the many situations faced by minority students. Dr. Markhutsky went on to say that the student population was not as educated as it should be on this subject. He said that the student population should be educated on the subject of prejudice and that they should be given the opportunity to learn about it in the classroom.

In conclusion, I believe that Dr. Markhutsky is correct in his statement. The student population should be given the opportunity to learn about prejudice and that they should be educated on the subject. Only then can we hope to live in a world where everyone is treated equally.
Mustangs tackle UCSB

The Mustangs will attempt to make it three straight wins over U.C.R. Santa Barbara tomorrow afternoon in Santa Ana.

The 2-1-1 contest is set for a 4 p.m. kickoff at the Santa Barbara campus.

Pace said that a 18-10-1 edge in the final week gives the Mustangs-point advantage in this year's contest. It has been a close series, with the Mustangs winning last season and losing the previous year.

The Mustangs last standout performer of the season, running back Rich Terrell, will beBOXING PAGE 2

be a key factor.

Coach Harper is confident that the Mustangs will come out with a victory.

"We are looking to put on a good performance, and we're confident that we can do it," he said.

The Gauchos' offense is spearheaded by quarterback Jim Curtin, who has thrown for 1,400 yards and 14 touchdowns. He also leads the Gauchos in rushing with 107 carries for a 5.3 yard average.

The Mustangs' defense is led by tackle play and the pass rush. They have limited the Gauchos' offense to 30 points in the last three games.

"Our defense has been doing a great job of containing the Gauchos' offense," said Harper.

In the last quarter, the Mustangs scored three touchdowns, including a 53-yard run by running back Tracy Rich. The Mustangs then went on to win the game with a 27-10 victory.

"We were able to control the game in the second half," said Harper.

The Mustangs' defense was able to stop the Gauchos' offense, while the offense was able to score three touchdowns in the last quarter.
