Publishers' Board requests additional paper funds

by Darrell Bandy Staff Writer

The Publishers' Board has asked the Student Publishers' Board, which operates from All funds which come to the Mustang Daily from advertising and subscriptions, to increase its size by 100 pages. The request is made to increase the size of the Mustang Daily to six pages, which will enable the Daily to carry news that is currently not published.

Increasing the size of the Daily to six pages will not only provide additional space for news, but will also increase the Daily's advertising potential. The Publishers' Board believes that this increase will help to support the Daily's operations and provide a more comprehensive news source for the campus.

The Student Publishers' Board has been tasked with the responsibility of deciding whether to approve the request made by the Publishers' Board. The decision will be made after careful consideration of the potential benefits and drawbacks of increasing the size of the Daily.

If the request is approved, the Mustang Daily will have six pages to distribute, which will provide a significant increase in the Daily's coverage of campus news. This will be a significant improvement, as the Daily currently only has five pages and is unable to cover all the news that is important to the campus.

Dr. Mounds will speak to High Noon luncheon

by Darrell Bandy Staff Writer

Dr. Mounds will review the traditional favorites The Rabbit Hole, a black and white photography, and Le Mouton, a work of fiction. The meeting features a talk about the history of black and white photography, as well as the artistry of Le Mouton. The meeting is open to all, and is a great opportunity to learn about these important works of art.

Marine farms present a challenge to mankind

by Darrell Bandy Staff Writer

Marine farms are becoming increasingly important as a source of food for humans. However, they also present a significant challenge to mankind, in terms of sustainability and environmental impact.

The use of marine farms for food production requires careful consideration to ensure that they do not harm the environment or compete with other food sources. It is crucial to balance the benefits of marine farming with the potential risks, in order to ensure that this valuable resource is used sustainably.

Assist to utilize IBM cards for faculty evaluation

As a part of the Mustang Daily's annual evaluation process, IBM cards will be utilized for faculty evaluation. This will provide a more efficient and comprehensive way of gathering feedback from faculty on the Daily's performance.

Musical concert drowns out rain

The Women's Blue Club and the Cal Poly College Band have worked together to present a musical concert that will take place in the rain. The event has been well-received by attendees, as the music was able to provide a welcome distraction from the rain.

Nominated photographer to show travel slides

by Darrell Bandy Staff Writer

A photographer has been nominated to show travel slides at a upcoming event. This will be an opportunity for attendees to see some beautiful images from around the world, and to learn about the photographer's techniques and experiences.

Library display draws wide attention

The Art Department has created a display of art pieces that have been nominated for an art contest. The display has received a great deal of attention, as it features some very interesting and creative works of art. The display is open to the public, and is a great opportunity to appreciate the artistic talent of the campus.

Food art, ceramic sculptures, real people, are just a few of the categories that have been nominated. The display is open to the public, and is a great opportunity to see some very interesting and creative works of art.
Newspaper’s policies

In the past, Mustang Daily has been the editorial voice of one person—namely, that of the editor-in-chief. Histori­cally, this has been influential on the Pol­lak Community. The new format is not a newfangled experiment but is an evolution of the tradition of this publication. To that end, the resulta can have serious consequences. As the editorial chief, he can exercise the newspaper’s position with the other business. He will be different. The editor-in-chief should not be a member of a select minority. In reality, every student, every member of the news organization as an entity, should be the vanguard on this campus. With the change of leadership, Mustang Daily will make editorial comment through the collective opinions of the three persons named above. This editorial board hopefully will not be dominated by one personality, nor all viewpoints be heard. As a result, the image of Mustang Daily can be improved as a responsive opinion molder on this campus. In this way, this newspaper can strive to make the numerous complaints leveled against it fain the past.

With this editorial board, Mustang Daily’s basic concept of news content and gathering will be changed. As often as possible, it will strive to present responsible news content. To that end, it will attempt to make the newspaper contain all of the life on this campus. Mustang Daily will not pretend to be a crusading journal. However, the numerous complaints leveled against it in the past.

The three-person board will strive to make editorial comment through its collective opinions. The image of Mustang Daily can be improved as a responsive opinion molder on this campus.

Shakespeare Press

only one of its kind

A brochure announcing the first regular guided tours of the Shakespeare Press is now being circulated on campus, and students or groups interested in learning the history of the press are invited to visit the exhibit.

Regular tours are Tuesdays and Thursdays, 2-4 p.m. To schedule, call 929-5121. Tours begin Sept. 5 and will end June 14. Tours begin Sept. 5 and end June 14.

Copies of the new brochure describing the tours may be obtained by the Personnel Department of the Printing Technology and Manage­ment Department, Mustang Daily, 903 Cypress Hall, 903 Cypress Hall.

The meeting was momentarily disrupted by the Pol­lak president’s announcement of an important event. The meeting was cut short because of the rush to attend the event.

Grove gets remodeling

The complexity of a campus newspaper’s job is not something that can be erased by regulations or re­vised. This newspaper is committed to its job, and the changes in the structure of the newspaper will be an improvement to the newspaper.

William McGinn, editor in chief of the Mustang Daily, is planning to remodel the Poly Dome in an effort to improve the atmosphere in the dome. The new structure will be built in the dome, and all of the work toward improvements in the dome.

Last year about $100,000 was spent on improvements, including the use of the old lighting system and painting of the dome. The remodeling of the dome will be a major task, and will require coordination with the dome’s structure, and other necessary matters.

When California Street is modified, the dome will be opened to the public. The dome’s structure will be maintained, and the dome will be left in good condition.

Book analysis of art; terms it a ‘closed form’

The state of that is in some­what of a new kind. This sphere was discovered by Dr. Robert Ackerman in the vte Institute of America. The Institute of America is the name of the art work and the art work is the name of the Institute of America. It is the Institute of America. The Institute of America is the name of the art work and the art work is the name of the Institute of America. It is the Institute of America.

If one does not have the money to get it yourself, you can get it yourself.

Physics specialist addresses students

"The Revolution in Optics" will be given by Dr. Frederick Cummings, professor of physics and astronomy, Thursday, Feb. 18 at 8:00 p.m. in Room O-40 of the Science Building. The talk will be open to students of all disciplines.

Dr. Cummings will discuss the development of instruments using lasers, including holography. The lecture will be held in the Science Building and in the Science Building Auditorium. The lecture will be open to students of all disciplines.

The talk will be open to students of all disciplines.
Toughest week ever for westlers not over

Although the Mustang tennis team failed to break off the top two teams in the nation this season, the Mustangs have defeated the University of Washington on the road. It was the first time since 1953 that Pandiani led the Mustangs in the regular season.

The Mustang tennis team got its first taste of league competition this week against Portland State, the Mustangs big rival in the small Northwest Conference. With a 3-3 tie after six singles matches, the Mustangs came out ahead, 6-2. The team then went on to rack up 21 points, scoring in the first and third doubles, 7-5, 4-6, 6-2, over Hrucc Luidlaw and Dan Larson.

The last match of the dual meet went to the Mustangs on a 12-point lead in the 145's as Steve Johnson defeated Huy Wallace, 10-3, and Jay Arnoson decisioned Terry Hall, 3-3, to put the Mustangs out ahead, 6-2.

With the decisive win over the Matadors, the Mustangs have defeated them on the road. The only tie of the eight match series was in the 136's, when Ron Heekelman, 6-3, 6-2, and Larry McQuy, 6-2, 6-4 in the first and third doubles, 7-5, 4-6, 6-2, over Hrucc Luidlaw and Dan Larson.

It was the first time since 1953 that Pandiani led the Mustangs in the regular season.
