Homecoming '69, a la success!

by JOHN REYNOLDS

Staff Writer

Homecoming is over.

It started with the Harper's Reem-Highfoot concert Wednesday (Oct. 29). According to Emily Perry's article in Friday's Mustang Daily, the concert was a miss-match. However, the successies with these present.

Then there's the bonfire. Someone set fire to the pile early Friday morning. The bonfire people are to be admired for their great and swift recovery. The bonfire went as scheduled Friday night. It wasn't a big one, but considering, it was a successes.

Gary Vlahaur introduced Herby Herbellin, the Ugly Man contest winner. Joe Harper, football coach, lit the fire. After the fire blared away for awhile, Linda Heckler was announced as Homecoming Queen.

The Dining Hall was the scene of the Sweatshirt Stomp, after the bonfire. Statesboro provided the sound. They played a variety of music from Creedance to Iron Butterfly. The group is currently working with writer Jeff Orr in hope of cutting an album by early 1970, according to manager Dale Kreedman.

Parade float winners were: Sweepstakes — Agricultural Engineering and Home Economics students teamed up to make the "Cage the 49ers." Second place went to Ornamental Horticulture for their "Exterminate the 49ers." The float depicted a huge Monty spraying a 49er, to keep him away from a greenhouse of fresh chrysanthemums.

The third place winner was Industrial Technology for the "Industry Turns Us On" float.

Fourth place went to the Society for Advancement of Management, "Anything Under the Sun."

And then Poly played the Cal State Long Beach 49ers. Oh boy! The winning floats and Queen Linda Heckler were presented at halftime. The undefeated 1953 Mustang team was honored, as 64 of the original 44 participated.

The Mustang Marching Band put on a half-time show. Among the numbers were an old time square dance, plus songs like: "Little Green Apples," "Gentle On My Mind," and "By The Time I Get To Phoenix."

The Coronation Ball wrapped up the festivities. Queen Linda Heckler and her court were presented, as the Collegians provided the sound. 
Letters to the editor

Student raps Fresno 'juveniles'

Editors note: This letter is a reply of one sent to the Daily Collegian at Fresno State College.

Editor: Frustrating over the past week's events, came to the conclusion that it might be nice for me, a somewhat concerned and dedicated student here at Cal Poly, to write you a short note in regards to your head cheerleader and his childish, juvenile attempts to incite poor action amongst our students. In his letter to our editor, he assumes that we here at Cal Poly are dragging dear Fresno State down. We are definitely concerned and apologetic "if" we have affected your school spirit, pride or image. In conclusion, we felt that Saturday's game was a tribute to Cal Poly's "good sportsmanship" and dedication to win. We hope to see Fresno State back in the game again next year and until then we shall keep "Our Bell" and hope that you will make an attempt to reclaim it next year.

Jeff Jeffery

A proud American

Editor: As much as I would like to subscribe for your fine paper Mustang Daily, I am enclosing $5 for a year's subscription to the Fresno beekeeper's best seller. I am sure it will be a great deal better off than those state institutions which advocate violence. I would, on behalf of my fellow students, like to thank Fresno State for the excellent upkeep of the bell and for that beautiful primer coat of red and blue. Being aggressive that we are, we have finished the job with a brilliant coat of green and gold. In conclusion, we felt that Saturday's game was a tribute to Cal Poly's "good sportsmanship" and dedication to win. We hope to see Fresno State back in the game again next year and until then we shall keep "Our Bell" and hope that you will make an attempt to reclaim it next year.

Jeff Jeffery

Get ready, get set

On your mark! Get set! Bang! They were the First Annual Homecoming Trans-Am Tricycle Race. It was underway.

The contest was set on a slalom type course, with several tight and narrow turns. The rules established by the College Programs, Recreation, and Tournament Committees were as follows: (1) Bike must be pedaled at all times, no pushing or running. (2) Start will be a Lemans type. (3) Excessive braking, pushing and hand-holding will result in disqualification at point of impact. (4) After the cheers, roar and water balloons, the winners turned out to be, in first place, Bob Bjurman, representing San Luis Obispo. Second place was taken by Alpha Phi Omega, and third by the Canterbury Club. Third went to Alpha Phi Omega timed at 44.2 seconds. Fourth place was the Farm Management, timed at 45.6 seconds. In the special class of Best Tricycle, the winner was Team Wambat.

"Engineering Education" topic of Tau Sigma talk

A speech on "Engineering Education" will be given by Dr. Rossel Rice tomorrow. Dr. Rice is the chief higher education specialist for the Coordinating Council of Higher Education. Tau Sigma is sponsoring the speaker who will appear at the Student Dining Hall at 7:30 pm.

"Student raps Fresno 'juveniles'

Editor: I am enclosing $5 for a year's subscription for your fine paper Mustang Daily. Presently I am serving in Vietnam as a draftsman for the engineering headquarters of the United States Army. This job gives me an opportunity to go into the field and see projects being constructed. If people in the United States could only see what we are doing I am sure some minds would be changed.

We are building a country. The United States is building roads, buildings and power stations. We are providing simple medical care for people who have never had it. We are giving work to people who live in utter poverty and filth. So we are doing something here besides fighting.

All of us here want to catch a freedom bird back to the world. But we stay and do our part. I only wish more people would back us over here. To know that Americans are against us being here as we are misinformed and fired upon is only a sensation that people here can talk about. From what I have seen here in Vietnam I am proud to be here and to be an American.

I look forward to receiving your paper.

Yours sincerely,
Gary Bentman
Class '67

Student memorial

Editor:

Please correct me if I am wrong, but didn't I notice the flag flying at half mast the other day? I was told that this was done in memorium for the Iranian student who was killed while driving at an excess of 90 mph. I was also informed that, due to his gross infraction of the law, he was responsible for critically injuring two other persons.

Why, if it was proper to lower the flag for a foreign student, wasn't the American flag lowered for the American student who was recently killed on Coasta grade?

All interested students and faculty members are invited to attend the speech on the theme of the day next Wednesday. Admission is free.
CROWN AND GLORY... befall Linda Heckler as she was named Homecoming Queen of 1969. Linda, a sophomore physical education major from San Diego, is also a song girl. Pictured with the queen are princesses Yoko Ohnuki, Pat Avila, Katie Harper and Carole Vedder.

Photo by Ray Morawski

Cass to speak at Cuesta

Student discontent on today's college campuses will be discussed by James Cass during his lecture tomorrow evening, Nov. 8 at 8 p.m.

Cass is the education editor for Saturday Review and recognized as one of the most influential voices on today's educational scene.

Tickets for the lecture, which will be given at the Cuesta College Community Auditorium, are $1. They will be available at the door or may be obtained by calling Cuesta College Community Services at 524-2043.

Participation urged

Tuesday is Veteran's Day, an academic holiday. Tuesday is also the day that San Luis Obispo County is presenting an all-day series of workshops to "discuss and make contributions to the orderly development of the environment of this beautiful area," according to the workshop program.

The series of workshops are being presented by the County Development Association in cooperation with the County Planning Department and our college.

The program, which will be held in the Little Theater, begins at 9 a.m. and features many campus personalities who are experts in their chosen fields.

Agriculture's Future in San Luis County will be chaired by A. C. D. Gibson, dean of agriculture. Ken Schwartz, architecture professor and mayor of San Luis, will head the discussion on Tourism and Related Business. The panel on Air Pollution will be chaired by Dr. Harold Cotn of Environmental Engineering.

Gene Brendlin, foundation manager and chairman of the Regional Water Quality Control Board will be a member of the Water and Land Pollution panel. George Cueto, director of Research and Development on campus, is one of the conference coordinators. Dr. Robert Kennedy will give the welcome.

You, as a citizen of San Luis Obispo County, are invited to attend this all-day workshop conference to improve the County General Plan. Your ideas and suggestions are needed to assist in reinforcing those existing features of the plan which are desirable and in adding new policies which County citizens will support.

This conference is a good chance for students, faculty and staff to participate in the development of the county they live in, even if only on a part-time basis while attending college.

Mustang Daily would like to offer the county congratulations for handling the question of county development in this manner. We think that it is appropriate for all county residents to be offered the opportunity to take part in the discussions and decisions about changes which concern them.

Miniskirts upset men, machines

by DAVE KERN
Staff Writer

Did you notice a slight imbalance of sound during the Harper's Bizarre concert? Did you realize that this imbalance may have been caused by those girls who attended the concert in miniskirts?

According to Dr. Vern G. Knudsen, a physicist and onetime chancellor of UCLA, girls who wear miniskirts reflect sound waves about twice as much as a girl who wears a longer skirt.

Dr. Knudsen told an Associated Press interviewer that he was seeking a solution to sound-absorption problems posed by audiences wearing light clothing when he came across the miniskirt effect through a sound chamber experiment.

Dr. Knudsen said he assembled 16 miniskirted girls in a reverberation chamber and fired a .22-caliber pistol, recording the effect electronically. Then the miniskirted girls gave a reading of 2.5 Sabin units.

An earlier test with 10 persons in conventional garb showed a much lower sound absorption. Dr. Knudsen said that the added reflectivity of girls' legs may be offset by the sound-absorbing qualities of boys' long hair and beards.

Campus AIA backs anti-war position

by CLAUDIA GALLOWAY
Staff Writer

The elected leader of some 1400 student architects on this campus has backed the anti-Vietnam conflict policy of the American Institute of Architects—"the only body representing most of the nation's building designers." Ken Morrison, AIA student chapter chairman, announced last week that the student chapter will support the policy stated by the AIA last June. The motion was adopted on plans placed on campus, including the bulletin board of the School of Architecture in Engineering West.

These posters state: "It has become necessary for a majority of us to reexamine our political and economic terms that our nation no longer afford or pretend to maintain in the world today." "We call upon our leaders, at all levels of government, to recognize that an efficient and humane environment is basic to the maintenance of a harmonious and prosperous society and that the skills to produce it are well within our grasp. At the same time, we wish to remind our representatives that neither hope, timor, nor technology will solve problems that presently make urban life a dirty, difficult and dangerous experience. Only a wholehearted commitment of will and money will enable us to accept the risks needed to erase the shame of urban America."

Morrison said he feels most of the architecture students are in support of the policy and hopes people will come to realize "architects are not just people who draw up house plans and delineate drawings, but are genuinely concerned with the problems going on in the world today."

Volunteer to talk on VISTA work

VISTA volunteer Bob Dresser will speak to students Thursday at 11 a.m. in "The Architecture Path." Dresser has been a VISTA volunteer in Texas for two years and has worked as a VISTA coordinator for one year.

"How to Help People Help Themselves" will be the topic of Dresser's speech. He wants to keep the gathering informal and encourage lots of discussion and questions from students.

Dresser will discuss some of his unexpected problems and experiences while in Texas. He says he believes in teaching the people how to go through the proper channels of getting what they need. For instance, if a street needs paving, instead of just complaining he directs the people to the City Council to get it done.

Dresser helped an attorney with Watts riot cases for two months and participated in a ball bond program at Stanford Law School. He is a graduate of Stanford Law School and is now working in San Jose.

Help and not control success of local frats

Although social fraternities are not recognized on this campus, the existence is very much a reality. Men from the eight houses in the Inter-Fraternity Council are members of a majority of the fraternities, clubs and activities on campus, according to Loren Nethercot, IFC president.

The purpose of fraternities at the college has largely been due to a desire to work with and enjoy various activities off the campus. "At one time when the Greek system is operating on some college and university campuses where fraternities dominate the social life, it is the quality of brotherhood that the members of IFC, each fraternity has its own philosophy of brotherhood," Nethercot said. "Through programs of community service, athletics, academics, entertainment and fraternity events, we have developed stronger unity." Both Nethercot and the IFC itself is an extension of the goals and ideals of the members and services to promote social, academic service and athletic inter-relationships. The IFC football season is in full swing with basketball and baseball to follow later in the year.

In the area of community service, IFC conducts the annual Greek Week. 

"Greek Week is an annual celebration during the Spring Quarter. It features bathtubs races, a car rally, a tone dance, olympic and crew races. The IFC also grants an annual $200 athletic scholarship to the school." Two recipients of the award, Jim Edmundson and Mark Schild, are current players for the Mustang football team.

In "Fraternity Life, founded on tradition and dedication, can eliminate and enhance the collegiate years," Nethercot said. The IFC of San Luis Obispo invites anyone interested to become a part of the greek system. For further information contact Ken Nethercot, Box 747, San Luis Obispo; Cal State Polytechnic University.

McRobbie, IT Dept. head works with national group

Dr. J. "Mac" McRobbie, head of the Industrial Technology Department, is the new vice president of the National Association of Industrial Technology.

He was elected by more than 200 representatives of industry, universities and colleges during the association's annual convention held on Oct. 16-18, at Texas A and M University.

Dr. McRobbie said this week that industrial technology programs such as that operated by his department prepare graduates for industrial management positions between the applied aspects of engineering and business administration.

200 representatives of Industry,
International Council sponsors week of events

International Week, a potpourri of events and activities staged by the foreign students at this college, was kicked off last Friday at the People to People Coffee Hour.

International Week, sponsored by the International Council, has scheduled various programs of world interest that range from a talent show to a karate demonstration. Most of the activities are planned by the foreign students.

Rehearsed as the first event of the week will be a panel discussion among prominent faculty and staff members. The topic for the discussion, to be held Tuesday, Nov. 4, in Science B-5, is "Idealistic and realistic American foreign policy."

The International Fashion Show, exhibiting various garments from around the world, will be presented in the Staff Dining Hall on Wednesday, Nov. 5 at 8:00 p.m. Both the Fashion and the panel discussion will be free.

On Thursday, Nov. 6, an International Menu will be served in the Dining Hall for students who have met their needs. A group of Korean students will offer a demonstration of karate and full singing at 8 p.m., Saturday, Nov. 8 in the Men's Gym. Admission to the exhibition will be $60 cents for students and $1.00 for the general public.

Highlights of the week will be the International Talent Show scheduled for Friday and Saturday, Nov. 7-8, in the Little Theater. Curtain time will be at 8:00 p.m. both nights.

Entertainment from around the world will be the theme at the International Menu. World music, ceremonial dances and music from the world will be featured in national songs, ceremonial dances and music.

Physics talk set

Two separate physics talks are scheduled for Thursday, Nov. 6. Dr. Rollin Morrison of the University of California at Santa Barbara, will speak on current high-energy strange particles and developments in the field of high-energy strange particles and developments in the field of studying the apparatus used in recent experiments. The talk will be held at 11:00 a.m. College Hour, in Science E-87 and is sponsored by the Society of Physics Students.

"Symmetry in Nature" will be discussed by Dr. David Dorfman from the University of California at Santa Cruz at 7:30 p.m. In Science E-26. He is the guest speaker of the Sigma Pi Sigma.

Dr. Thomas P. Lantos, Director of International Programs, urges all students interested in studying abroad to attend a general information meeting tomorrow, Nov. 6 at 11 a.m. in Science E-46. Students who wish to participate in the programs next fall must arrange for a personal interview with a representative from the Office of International Programs. Interviews will be by appointment, from 7 p.m. to 6:00 p.m. in rooms MSD 126 and G-101. Sign-up sheets are available, from 8 a.m. to 5 p.m. in Hall 106.

Students who have upper division or graduate standing next fall are eligible to apply. They must also have earned at least 30 semester units of a 4.0 grade average.

International study programs offered

Have you considered spending next year as a student at a foreign university? Such an opportunity is offered to all state college students through the Cal State International Programs.

For those state college students who applied last year and were accepted as participants in the 1969-70 programs, studying abroad has indeed become a reality. Since the students' departure, the sounds of Tel Aviv, the sunsets in Florence, the traffic in Tokyo, have become a part of their daily lives.

Have you considered spending next year as a student at a foreign university? Such an opportunity is offered to all state college students through the Cal State International Programs.

For those state college students who applied last year and were accepted as participants in the 1969-70 programs, studying abroad has indeed become a reality. Since the students' departure, the sounds of Tel Aviv, the sunsets in Florence, the traffic in Tokyo, have become a part of their daily lives.

Free park concert

This Thursday, Nov. 6, at 7 p.m., a free Park Be-in will be held in Santa Rosa Park. The electric music of the Ark will be heard, so break that Thursday night drag, come take in the sounds, urge the sponsors.

For information, see Wanda's Doll Haven.

Business manager explains policy for student money

"The funds available to cash checks" reads the modest sign on the wall of Cal Poly's student store and on the first floor of the Administration building.

"They never have any money," responds Nelson, business manager of the Administration building. A certain sum of money is available each day. When it is gone, the school must buy money to pay for it. It costs Cal Poly six to seven dollars to handle a check of this sort, because the school must buy it back from the bank, locate the student, settle up an account receivable, give the student back the check. For most students, it is their first bank account and they don't know how to handle their finances, "so they just keep writing checks without making sure they have enough money in their account," he concludes.

Regents through the Comptroller of the Currency. "There's a lot of red tape involved," he adds. Mr. Nelson asks that students learn how to handle their finances, save better and avoid a lot of expense by charging their accounts and not having the bank balance to pay for it. It costs Cal Poly six to seven dollars to handle a check of this sort. Because the school must buy it back from the bank, locate the student, settle up an account receivable, give the student back the check. For most students, it is their first bank account and they don't know how to handle their finances. "so they just keep writing checks without making sure they have enough money in their account," he concludes.

Well-known farmer to speak tonight

Burls Gange, a well-known farmer and civic leader, will be the speaker at the Paul Anderson's Night sponsored by the Agriculture Council tonight at 8 p.m. in the Little Theater.

Gange was born in Iowa but has lived in Tulare County since 1915. Gange has been active in Chambers of Commerce at the local, county and national levels and is a past Governor of California-Farm-Hamlet District of Kiwanis International.

He has been in the farming, processing and marketing of dairies and dairies for more than 40 years and in the banking business for 15 years. A much sought after speaker, Gange has passed his enthusiasm and spirit to others in all 50 states since 1950.

SAC to discuss elections

Among the main agenda topics for this week's Student Affairs Council meeting will be discussion of Paul Banka's bill to open elections of SAC members to the entire student body.

A final decision by SAC is expected on policies concerning the Athletics Assistance Trust Fund. SAC plans to discuss issues concerning graduation fees. Many seniors wish to pay $50 of the $10 graduation fee if they graduate in December or March.

Senior pictures

Senior picture appointments must be made by Friday in Graphics Arts, room 22R. Pictures are scheduled to be taken all day Tuesday, Wednesday and Thursday of next week in Graphics Arts, room 300. There is no sitting fee for the pictures.

**Poly 'out-does' it, 22-20**

by GEORGE RAMOS
Sports Editor

On paper, Poly won its same last Saturday. They out-rushed Cal State Long Beach, 218 to 102, despite the presence of 49er fullback Leon Burns who gained 177 yards. They out-passed the 49ers, 4 to 2.

However, they also out-fumbled the visitors in the lost ball statistic, 2 to 0. And they were also out-intercepted, 4 to 2.

In the end, Poly did itself out of a possible bid to the Camellia Bowl, bowing to Long Beach, 22-20.

If that isn't sufficient, the Mustangs are going out-of-state this Saturday to meet Montana, rated No. 5 in the nation.

**Santa Barbara cancels game with Poly from**

Just when things were getting good for the frosh footballers, U.C. Santa Barbara has canceled its game for this Friday. The teams had planned to meet at the Mustangs' home field this week.

The game had been rescheduled due to bad weather. However, officials now say that Santa Barbara is no longer able to make the trip.

Poly is now preparing to face Montana, champion of the Big Sky Conference and top prospect for the post-season bowl game.
