Contraceptive conniption yields health center win

Birth control treatment and counseling will continue at the state college health centers. This was disclosed by the president's office, Friday, following a two day meeting with the chancellor's office and the state college presidents' association.

The Chancellors office, after hearing discussion and objections from the presidents of the state colleges, withheld a proposed executive order that would have prohibited birth control services. The president's office, Dr. Mounts said, has been zoned for apartments or office buildings according to the master plan; when Mobil asked for reassessment to build its station, the request was granted. The only voices of objection came from city Mayor Kenneth Schaller and Councilman Myron Graham.

A referendum is being circulated in San Luis Obispo which, if it gathers enough signatures, will halt construction of a Mobil Oil Company service station at the corner of Foothill Blvd. and Santa Rosa Street and place the issue on a public ballot in April. The action was begun after the city council approved construction of the station over the vociferous objections of citizens attending the council session.

The Committee to Save Our Master Plan is sponsoring the referendum which has the support of other local groups and many private citizens as well.

The fueling station issue has brought together several problems which the city faces time to time—the spot rezoning of and/or establishment of the master plan, the proliferation of service stations in a city that already has 81 stations, and the damage to the city's creeks by adjacent service stations.

The land at the disputed corner had been zoned for apartments or office buildings according to the master plan; when Mobil asked for reassessment to build its station, the request was granted. The only voices of objection came from city Mayor Kenneth Schaller and Councilman Myron Graham.

A referendum was the only recourse at this point, according to Clyde Hostetter, co-chairman of the Committee to Save Our Master Plan. He and Arthur Worsham, the other co-chairman, are also members of this city council.

According to Hostetter, public support of the referendum was instant. The 83 persons circulating the petitions have until January 20 to net at least 1,900 signatures, or 10 percent of the registered voters in the city if the referendum is to be effective.

Late last week, Hostetter announced that more than 1,300 signatures had been obtained and that he was confident that the total would rise to 2,900 over the weekend.

Hostetter also stated that a check with election officials earlier in the week revealed that only 10,196 persons are registered voters of the city and that 16,000 votes was earlier estimated. Says Hostetter, if all the signatures that currently appear on the petition are validated by the city clerk, the referendum drive is already won.

LETTERS TO THE EDITOR

No pills peddled here

Editor:

Recently, letters, articles, and editorials have appeared in the Mustang Daily concerning Chancellor Dunke's order concerning the Health Center and The Pill. These articles have led to the erroneous assumption by some that The Pill is being dispensed at the Health Center. Such is not the case. All that is available is counseling and, if medically indicated, prescribing of the medication. Student or State funds are not used to purchase contraceptives. Any contraceptive obtained for birth control purposes is at the sole expense of the patient.

I would take offense if my money were used to buy someone else's contraceptive, but since this is not occurring, and since counseling is available to any student for a multitude of reasons, I cannot take exception to the aid now supplied by the Health Center, nor can I see why anyone else would object.

I believe the Mustang Daily can ease the situation by making clear that at no time are Birth Control drugs dispensed by the Health Center. Also, it is important to note that the Health Center is run by student, not state funds.

Philip B. Werheke

Pill choice

Editor:

Why do men try to legislate over women's unique situation? Why is it that certain men who cannot intimately feel or understand as women do try to control the body function of the female? The decision to use contraceptives designed specifically for a female can be the female's choice (with doctor's aid).

Even more absurd is the thought of an institution of higher learning trying to restrict a desperately needed control in the population problem! I urge serious thinking behind this and chancellor and president's decision.

New dorms, diner in '72

A new set of residence halls is being planned at the University of California at Los Angeles. The college is expected to open the new dormitories in the near future, announced the low bidder to be awarded the contract. The college executive dean of the college, according to Douglas Gerard, said the new dormitories are being fashioned after the Yoaemlte style. The high bidder for the awarding of the contract, the Flaher Company of Los Angeles, offered a bid of $3.1 million. The state colleges leadsrs have set aside $4 million for the construction of the new dormitories.

According to Gerard, the high bidder was Friegidaire Coin Laundry, 279 Parker St., (next to Williams Bros.)

Ignorant society gets Fuller treatment here

Synergy never had it so good until last Thursday night when Buckminster Fuller got a hold of it.

Synergy, the behavior of whole systems unpredicted by the behavior of their parts was an example used by Fuller in his lecture held in the Men's Gym to show how society is "very, very ignorant." Using such men as Kepler and Newton as "the single, most powerful examples of synergy," the internationally-known architect-author-philosopher-mathematician-engineer spent a substantial portion of the session dwelling on the importance of synergy to man.

Fuller, who designed the geodesic dome, lectured in a stream-of-consciousness manner touching on such topics as the relevancy of education, man's vocabulary, and experience.

Fuller began his talk by revealing his thoughts when he was 18 years old. "When I was 18 in '17, I had proven that I was a low, average man. If I have been able to do anything in my life, it's a manifestation of what any average man ought to be able to do."

He began to make a list of all the things that he could remember had happened to people. This time he began to rearrange the list according to relative severity, beginning with the most horrenous events and working down to the cataclysmic, "then to the very bad, the bad, followed by the not as bad."

The year 1917 marked the beginning of a short period of time when he experimented with keeping his mouth shut. By doing this, when he did speak, only words that he felt were saying exactly what he wanted to say, come from his mouth.

He said that when he went into his first job after studying at Harvard, he was among illiterate workers "who knew 100 words—85 of them being obscenities or blasphemies. My boss thought I was a sex pervert."

Fuller spent a great portion of his time helping mankind. "I see that man is a process and not a thing. Anything that I can do to save him time and to help keep him alive...I don't feel I'm trespassing on him."

You'll Increase Your Reading Speed On-The-Spot!

Come to Your Free Speed Reading Lesson.

Thursday and Friday,
January 14 and 19 at 5:00, 6:30 and 8:00 p.m.
Saturday, January 16 at 10:30 a.m. and 1:00 p.m.
Sun. January 17 at 3:00, 5:00 and 8:00 p.m.

VETERANS MEMORIAL BUILDING
801 South Grand Avenue
San Luis Obispo, California

\[ \text{We want you to decide for yourself the value of becoming a speed reader through the use of the Evelyn Wood Reading Dynamics Techniques. Therefore, we are offering a special free one-hour lesson to give you a glimpse of what it is like to be a dynamic reader. You'll learn the rate of your present reading. You'll discover various study methods and procedures. And you'll actually participate in the techniques that will improve your reading. You'll find that there's no particular magic in becoming a speed reader...the real ingredient is mastering the proper techniques! Students, business men and housewives, over 400,000 of them have mastered the Evelyn Wood Reading Dynamics Techniques and the late Lucius Beebe, nationally-known radio commentator, has enthusiastically announced its value to invite Evelyn Wood to the White House to train staff.} \]
Frosh cagers don't mess around—
increase winning streak to seven

Visions of an undefeated season
lie before the school’s freshman
basketball players, who claim a
60-54 victory over the University of California
Collegiate Athletic Association play.

Nisa Stoner’s quintet hustled to an
85-71 decision over Cal Poly in Pomona Saturday night, 31 minutes
after an “almost” against powerful University of California-
Riverside resulted in a 61-59 setback.

In that thrilling contest, trailing 48-30 in the second half,
the Mustangs fought back to a 61-
7 tie on Dennis d’Autremont’s
lay in with 2:14 remaining to
play. With 14 seconds left Billy
Jackson’s clutch free throw put
the team in the lead 61-67, and
they still had two fouls to give
before running—into bonus situation.

They did not give the foul as the
Highlanders came downcourt,
and with 18 seconds left guard
Mike Washington banked in a
12-footer. He was fouled on the play,
and with 26 seconds left guard
Jackson’s clutch free throw put
Riverside led 60-56. Lew Jackson
scored 12 points and grabbed
11 rebounds, d’Autremont added
11 points, and Lennie Lewdas contributed nine
points in relief. Against UCR
d’Autremont was high with 16
points in relief. Against UCR
Ernie Wheeler’s
points, respectively
guards Horace Williams and
Elliot and Horace Williams 10

The name of the game was
the Mustangs in that half.

The closest the Highlander
frosh came in the second half was
at 66-65 with 4:45 left to play. A
free throw by Bill Williams and a
pair of bucket by Parker ended
the threat.

As you contemplate one of the most important decisions
of your life, you will want to remember this: It is not just
a job you are seeking—it should be the beginning of
a career. And if it is to be successful, both you and your
employer must understand and want each other.

To help you with your decision, we invite you to con-
sider the opportunities at Pratt & Whitney Aircraft. Cur-
rently, our engineers and scientists are exploring the
ever-broadening avenues of energy conversion for every
environment...all opening up new avenues of explo-
ratiion in every field of aerospace, marine and industrial
power application. The technical staff working on these
programs, backed by Management’s determination to
provide the best and most advanced facilities and sci-
centic apparatus, has already given the Company a firm
foothold in the current land, sea, air and space pro-
grams so vital to our country’s future.

As a graduate of one of the nation’s great universities, you
have a wonderful opportunity to help us develop the
most important year of your life.

Mustangs split opening games

by Paul Biss

Mustangs split opening games

by Paul Biss

Both teams shot well the
second half, with the Mustangs
maintaining a four to 1-point
lead until the final minute when
the Broncos pulled to within two
points. Two long bases
against the pressing Broncos
gave Billy Jackson and Lew
Jackson driving lay-ups and the
Motorcycling the victory.

Billy Jackson had 18 points and
18 rebounds in the game. Lew
Jackson added 21 points, Jen-
nings scored 12 points and
grabbed 11 rebounds, d’Autremont added 11 points, and
Lennie Lewdas contributed nine
points in relief. Against UCR
d’Autremont was high with 16
points in relief. Against UCR
