Student in race

After some seven months of investigation, Keith Gursee, a fifth-year Architecture student, has decided to put his hat in the ring for a San Luis Obispo City Council seat in June.

What finally made him decide to join the race, Gursee said, was the planned construction of another gas station, which Gursee said was more than abundant in San Luis Obispo. He wants to curb all gas station construction unless they can prove a need.

Gursee, who works as an aide for the county planning department, said that, if elected, he would be the first student that has served on the City Council.

Regional planning major Keith Gurnee went to say that gas station construction unless they can prove a need.

He plans to present the findings of a land use study of San Luis Creek.

Potential tours should have at least a 1.3 GPA and should be able to communicate effectively with parents and teachers. Gursee said, who will be tutoring in areas outside of San Luis Obispo.

Chicano tutors

MECHA, a Chicano student organization on campus, is planning a tutorial service for elementary school children, according to tutorial service director Minas Ramos.

One of the facets of the MECHA constitution, Miss Ramos says, is to "help the Chicano student academically." She said that the best way to accomplish this objective, is to start where education begins—the grammar schools.

A list of students that need tutorial service has been submitted by Nipomo School in the Lucia Mar District. The students are in first and second grade and under.

Everett Chandler, dean of students, said that funds have been appropriated, and some donated by some individuals, to provide traveling expenses for students who will be tutoring.

Meetings are being held the third Thursday of every month at 7 p.m. in the Union Drama Committee, sponsored by the Cal Poly Play Festival.

For further information, contact Minas Ramos (466-4064) or Benito Rodriguez (446-0771). Meetings are being held every Wednesday at 7 p.m. in the Union Drama Committee.

Play spoofs US

by Bruce Judson

Three one act plays, for technical skill, and comedy characterised the latest production in the College Theater, America Hurrah!

Normal leading roles were not established in the free flow of the script. However, Whitney Robbins took the show with all the grace and temperament of an old Broadway ham actress.

Her spoons on the American housewife and television, especially when she portrayed a dumb but smiling ethnic, brought many laughs from the audience.

Bread, apple cider and rock music are the ingredients for a party and theater-in-the-round.

Stand-up—sit-down routines dominated the first act. There were four interviewees, and four applicants—Whitney, a union painter, a lady's maid, and a peasant scrub woman. Each represented a different class within the American social scene.

Chaos, screams for help, and further definitions of contemporary problems and politicians highlighted the second act. The sequence was framed by two scenes, each showing slides that matched the dialogue, and the spirit in American life.

Miss Robbins and her troop spoofed the American housewives and television. Kirk Strebler and two cohorts spoofed petty office rivalries, sex, politics, and a middle-aged ulcer.

This feeling was in sharp contrast to the final act. Three characters become involved in a fictitious murder. Whitney Robbins is a motel owner. She is murdered in a style that Charles Laughton would appreciate, complete with tossing masks, threaded scenery, and a feeling of violent destruction, none of it unnecessary and pointless.

Perhaps the play was meant to be three responses to the environment of chaos and contemporary life. If so the first two acts showed how to work within, or at least exist within the system.

The third act seemed like its participants had lost all touch with reality. Their fellow man. The cries for help in the first two acts served as a prophetic warning, and the final act the failure to notice or respond favorably to that warning, hence the violence.

In all respects the play was modern, right down to the popular musical number for theater-in-the-round, and the use of video tape and television by the technical crew.

Clam center is calling ...

For three days early next month, an estimated 100,000 people are expected to surge into the seaside hamlet of Pismo Beach, population 3,941, to dig for clams and to participate in the festivities of the 29th Annual Clam Festival Feb. 9-7.

The weekend event will officially begin with the coronation ceremonies for the 1971 Clam Festival Queen and her court Friday evening at the Veteran's Memorial Building. However, during the day there will be numerous beach activities including a clam diving contest and various exhibits. On Saturday morning at 10 p.m. the parade begins. There will be numerous floats, bands, drill and marching units, the honor guard from Vandenberg Air Force Base, the Festival Queen and her Court, equestrian units, hundreds of pretty girls plus a wide variety of other attractions. Following the parade at noon, the remainder of the day will be taken up with an art exhibit, dances, a barbecue sponsored by the Lions Club, numerous other events and booths.

Aside from an exciting summer job, you might even get credit for your work abroad. Countries like Thailand, Ecuador, Australia and Mexico are all offering this opportunity to learn how the rest of the world lives.

The time to start planning is now. The Festival Office has all the information, to help you get on your way for a vacation with a different twist to it.

Editor: I am writing this letter in response to the letter to the editor entitled, "SAC Value Judgement," in the Jan. 20 issue of Mustang Daily. In this letter Mr. Castellanos questions SAC's and the Student Judiciary's rulings that M.E.Ch.A. could not donate its 20 percent facility use fees to elect student body officers and elected student representatives from each of the instructional schools. It was in their interpretation of the code that M.E.Ch.A. would directly benefit from a donation to SAC. Mr. Castellanos draws a parallel with athletics. I would like to point out that in a similar case last year SAC would not allow C.A.P.H.E.R. to use the Athletic Assistance Fund for the very same reasons. This decision was upheld by the Student Judiciary. I would appreciate the opportunity to talk to any interested student concerning this issue.

Contestant 'misplaced'

Editor: It does not seem very logical to me to have a home economics class called "M.E. Engineering." There are about 20 girls presently enrolled in the School of Engineering and the Engineering Week better than any other major engineering Council and engineering clubs the ASME, AIAA and IEEE should look around closer to home first before going across campus to get their candidates. I would also appropriately like to suggest that such an event should only be open to engineering major girls.

ON THE ECOLOGY FRONT

A California dairy comes up with a second use for its non-biodegradable plastic milk bottles. The plastic bottles are gathered and used to produce plastic agricultural drainage tiles. Housewives in the area served by the dairy are returning about eight percent of the bottles via home pickup and collection points in stores and restaurants.

In Michigan, a dairy-ice cream parlor is using an ecological theme for its 1970 menu. The menu lists ways the average citizen can combat pollution. It also features ice cream creations labeled: "Ecologist Delight," "Fresh Air Float" and "Survival Soda." The menu is printed on biodegradable paper, naturally.

**Party will honor Boar**

The Veteran's Memorial Hall will be the scene of the Annual Chinese New Year's Dinner Party and Show, sponsored by the Chinese Student's Association.

The date is Feb. 13 at 7 p.m. Donation is $3.30 per person. Guest speakers include Mayor Kenneth Schwartz, (SLO), College President Robert E. Kennedy and Mr. and Mrs. Young Lei-Won.

This is the Year of the Boar or 4660 of the Lunar calendar. The Boar is one of the 12 animals honored on the Chinese New Year's Dinner Party will honor Boar College President Robert E. Kennedy and Mr. and Mrs. Young Lei-Won.

The English Department is offering an elementary course in playwriting this quarter which has "many good reactions from the students" according to Mrs. Anderson, instructor of the three-unit course. The objectives are to give the students practice in writing sketches using various techniques of the playwright while working towards writing a one act play for a final. Mrs. Anderson says that "it fills a student need which has been here for a long time." This is the first time that a class has been here for a long time." This is the first time that a class has been here for a long time. The course utilizes an informal work-shop approach. The students write their sketches, read them dramatically, and criticize the strong and weak points of the sketch. The person who wrote the sketch remains anonymous so that the class will not be influenced by the author.

People born in 1923, 1935, 1947, 1959 were born in the Years of the Boar.

Characteristics of the Boar are the people born under this sign make lasting friendships, have a great thirst for knowledge, are chivalrous and gallant.

The eight course Chinese dinner will be served first, followed by a live show featuring the Kasian Lion's Lion Dance, Oriental fashion show, kung-fu seta, short comedy scenes, songs of China and an instrumental section. Tickets may be ordered by calling JOSEPH Pai at 546-3808.

Eventually, the English and Speech Departments might cooperate in presenting an evening of one act plays which were written, directed, acted and costumed by the students.

**China Peak is goal of skiers**

The Ski Club will meet tonight at 7:30 in the Engineering Auditorium, and tonight is the only chance to sign-up for the China Peak trip, Feb. 5-7. The agenda also includes three ski movies and other club activities including the up-coming Mammoth trip, Feb. 19-21. There are approximately 35 vacant spots on the China Peak trip, and sign-ups will be on a first-come, first-serve basis. The cost is about $16 for lodging. Transportation will be arranged by each individual.

**More information will be available at the meeting tonight.** The three movies to be shown are: Ski Day France and Ski Squaw Style, by Warren Miller, and Secret Race by Head Skis. Club movies are being taken each trip, and will be shown at some future meeting. The trip to Mammoth on Feb. 6-21 looks like the highlight of the season according to Barry Crandell, club president. The club will be chartering two buses, and everyone going on the trip must ride the bus. Sign-ups for the trip will start next week. This past weekend the club went to Bear Valley where 40 skiers enjoyed good skiing. The Club advisor, Mr. Riedisipper, said: "The skiing was great on Sunday, and the club lessons went great." He went on to say: "the bus trip was really worth the money spent, and the sleep on the bus was fantastic." Be at the meeting tonight to sign-up for the China Peak trip and be sure not to miss another weekend of skiing with the Ski Club.

**Splish splash**

The indoor swimming pool at Crandall Gym is open to students and faculty Mondays through Thursdays from 8 p.m. to 6 p.m. Wednesdays from 7:30 to 8:30 p.m. and Sundays from 2 to 4 p.m. The pool is family times with the families of all personnel invited. The afternoon was a success and CAHPER in meeting its true potential and goals. This school has the largest membership in the state in both student and faculty memberships. Long Beach State is the closest competitor with 89 less members, according to Sec. Nancy Potterbaugh.

**Comming: February 8, 1971**

Mustangs to avenge Fresno

The Mustang basketball team takes a break in the California Collegiate Athletic Association tonight in an 8 p.m. game against Cal State Dominguez Hills in the Men's Gym. Tomorrow night the Mustangs host Fresno State College, also at 8 p.m. The team will be out to avenge a loss last week to the Bulldogs.

Andrews leads riflers

The Mustang varsity rifle team captured the Central California Intercollegiate Smallbore Rifle League team championship last Saturday. Victor Valley College ran a close second to the host team trailing by only 40 points. Tim Andrews, a potential All-American, paced the team with a score of 568 out of a possible 600. To make All-American one must be in the top 20 in the nation. Andrews' score placed him only a few points behind the number 10 spot. Completing the team were Richard Roll, 510; Merlin Welch, 492; and Samuel Thoman, 473.

The Mustang Green team grabbed the third spot with a score of 178. Members of the team included; Tim Andrews, a potential All-American, Richard Roll, and Samuel Thoman.

Larry Morgan controls his opponent to gain a decisive win against the University of Oregon last weekend. Morgan's victory was one of nine as the Mustangs stripped the Ducks 29-3.
